PREFACE BY THE KEEPER OF COINS.

THE present volume of the Catalogue of the Indian Coins in the British Museum describes the coins of the Andhra Dynasty, the Western Kṣatrapas, the Traikūṭakas, and the 'Bodhi' Dynasty.

It gives me great pleasure to state that, as the last pages are passing through the press, I have received information that, through the good offices of Mr. J. H. Marshall, the Director General of Archaeology in India, all the specimens of Andhra coinage here described as belonging to the collection of the late General Godfrey Pearce have been presented to the British Museum by the Government of India.

The volume is furnished with a map, drawn up by the author and executed by Messrs. Stanford and Co., to illustrate the political divisions of Western India as they appear in the inscriptions of the Āndhras and Western Kṣatrapas about the middle of the second century A.D.

The size of the coins is given in inches and tenths, and their weight in grains Troy. Tables for converting grains into grammes, as well as into the measures of Mionnet's scale, will be found at the end of the Catalogue (pp. 214-16).

The work has been written by Prof. E. J. Rapson, of Cambridge University, formerly an assistant in the Department of Coins and Medals.

H. A. GRUEBER.

BRITISH MUSEUM.

11th November 1908

AUTHOR'S PREFACE.

THE text of the following Catalogue was complete in manuscript, and the first forty-eight pages were actually in print, when its publication was for a time interrupted by my appointment to the Professorship of Sanskrit at Cambridge in April, 1906. Since that date the task of writing the Introduction and of seeing the whole volume through the press has been carried on under conditions which have necessitated some delay—a delay which, however, I trust, has not been wholly disadvantageous to the work, since it has enabled me to take note of certain remarkable discoveries which have recently been made in India, and to put on record in the Introduction some 'second thoughts' which have been suggested by a further study of the monuments and literature of the period.¹

My indebtedness for much kind help received can only be acknowledged very inadequately here. The ever-ready assistance of Mr. Grueber, and of my late colleagues, the members of the Department of Coins and Medals, has removed many of the difficulties which I must otherwise have experienced in working at a distance from the British Museum. The Rev. H. R. Scott and Mr. S. M. Edwardes, I.C.S., most kindly, at my request, procured from the Bombay Government the interesting selection from the Jogalthembi hoard, which I have thus been enabled

¹ The reader is requested to notice the additions and corrections enumerated in the 'Errata,' p. 212.

to publish (pp. 65-70) ; while my friend, the late General Godfrey Pearse, Colonel J. Biddulph, and Dr. O. Codrington were good enough to permit me to include in the Catalogue a description of specimens in their private collections. My thanks are also due to Dr. L. D. Barnett, Colonel Biddulph, and Mr. Vincent Smith for valuable assistance in reading the proofs of portions of the Catalogue and Introduction.

I cannot close these few words of thanks without some grateful acknowledgement of the debt which I, as a student of Indian numismatics, owe to the work of the great Indian scholar, whose memory is preserved in the Museum by the shield which records his munificent bequest—Pandit Bhagvānlāl Indrājī. A glance through the pages of this volume will suffice to show that to a very large extent I have built on the foundations which he had well and truly laid.

EDWARD J. RAPSON.

ST. JOHN'S COLLEGE, CAMBRIDGE.

21st October, 1908.

INTRODUCTION.

SCOPE AND PLAN OF THE CATALOGUE.

1. The present volume of the Catalogue of Indian Coins
Contents of the in the British Museum includes the following
volume. series :—

I. (a) The Andhra Dynasty (pp. 1-56).

(b) Feudatories of the Andhras (pp. 57-60).

II. The Western Kṣatrapas, including

(a) The Kṣaharāta Family (pp. 63-70).

(b) The Family of Caṣṭana (pp. 71-168).

(c) The Family of Rudrasimha II. (pp. 169-194).

III. The Traikūṭaka Dynasty (pp. 197-203).

IV. The "Bodhi" Dynasty (pp. 207-211).

2. The first of these series is at present very incomplete.
Coins of the Andhra Dynasty. Coins and inscriptions enable us to draw but a
broken outline of the history of the Andhra
Dynasty; and many lacunae must be allowed to remain in its
chronology until further evidence is forthcoming. As a great
portion of the ancient dominions of the Andhras still remains
unexplored from the archaeological point of view, it is reasonable
to expect that future discoveries will greatly add to the existing
stock of historical materials.

3. The second series, on the other hand, is remarkably complete. The coins of the Western Kṣatrapas admit of a full and accurate chronological arrangement which is as yet without parallel in the numismatics of Ancient India.

4. In the third series, the coins of the Traikūṭaka Dynasty, we have only the record of three kings, whose period is determined by the evidence of an inscription dated in the reign of one of them. These three kings borrowed their coin-types directly from the Western Kṣatrapas, and no doubt, after their downfall, succeeded to a portion of their dominions. It is possible that they may belong to a dynasty of Ābhīras, which appears at an earlier period to have succeeded the Andhras in Western India, and for a time to have held the Western Kṣatrapas in subjection.

5. Of the fourth series, the coins of the so-called "Bodhi" Dynasty, little can be said at present. Their reverse-type is that of the Western Kṣatrapas, and they record the names of three kings; but it is impossible to determine satisfactorily either the period or the locality of these reigns. The name "Bodhi" Dynasty is purely tentative. It is used here merely as a convenient designation, since "Bodhi" either forms part of the name, or is used alone as the name, in all the coin-legends of this series which have yet been deciphered.

6. These four groups of coins are included in the same volume of the Catalogue of Indian Coins in the British Museum because of the historical connection which is either certainly known, or may reasonably be supposed, to have existed between the dynasties which they represent. Such an historical connection is most clearly shown in the case of the Andhras and Western Kṣatrapas by the

stone-inscriptions, which are found in certain districts of Western India, and which prove that the possession of these districts was at one period in dispute between the two powers. For the period covered by these inscriptions it is possible to arrange the coins of both dynasties with a fair degree of chronological precision. The relations between the Traikūṭaka Dynasty (including the earlier and possibly distinct Ābhīra Dynasty which ruled in the same region), on the one hand, and the Andhras and Western Kṣatrapas on the other, are indicated by inscriptions and coins; while the existence of some connection of an uncertain character between the "Bodhi" Dynasty and the Western Kṣatrapas can only be inferred from the coin-types.

7. Indian coin-types are essentially local in character. At no period with which we are acquainted, whether in the history of Ancient or of Mediaeval India, has the same kind of coinage been current throughout any of the great empires. Each province of such an empire has, as a rule, retained its own peculiar coinage, and this with so much conservatism in regard to the types and the fabric of the coins, that the main characteristics of these have often remained unchanged, not only by changes of dynasty, but even by the transference of power from one race to another.¹ Homogeneous coinages are to be found only in the case of kingdoms of more restricted area, as, for example, in that of Kashmir.

¹ For example, the characteristic forms and types of the early Indian native coinage of the district of Taxila are retained in the coinage of the Greek princes Pantaleon and Agathocles (R. IC, § 56); in the district of Mathura, the Scythian Rañjubula retains the types established by his Greek predecessors, the Stratos (*ibid.* § 33); in Surāṣṭra (Kathiawar and Gujarat) a coinage of the type established by the Western Kṣatrapas is continued by their Gupta conquerors (*ibid.* § 91); the Hūṇa invaders of India in the 5th cent. A.D. struck a variety of coinages corresponding with the local issues which they found existing (*ibid.* §§ 105-6).

In all the more extended dominions—those of the Graeco-Indian and Indo-Scythic princes, of the Guptas, and of the Hūṇas, for instance—a number of distinct varieties were in circulation in different districts at the same time. The assignment of such varieties to their respective districts is the most important problem which remains to be solved in Indian numismatics, and it can only be solved by the aid of such evidence as is afforded by the *provenance* of the coins.¹

8. The great *desideratum* of Indian numismatics at the present time is a complete collection and analysis of all the recorded discoveries of Indian coins, such as has been proposed by the Royal Asiatic

¹ The great abundance of types occurring in such reigns as those of the Greek Menander and the Scythian Azes is no doubt due to the fact that these princes ruled over a wide dominion, including many districts, each of which possessed its own characteristic type of coinage. A careful record of the *provenance* of coins discovered would probably make it possible to determine the different districts thus represented, and to trace the limits of the various Greek and Scythic kingdoms in Northern India. The neglect of a consideration of the local character of Indian coinages has led to some curious results. It has, for instance, been held hitherto that the coins of the Kuṣana kings Kanīṣka and Huviṣka "show a remarkable eclecticism, for on their reverses are represented Greek and Scythic divinities, deities of the Avesta and of the Vedas, and Buddha" (R. IC, § 73); and the Kuṣana monarchs have been credited with the profession of all or any of the different forms of faith indicated! The natural explanation of this diversity is that these various classes of coins were ~~current~~ in the different provinces of a large empire. The Yavanas, Śakas and Pahlavas, of Indian literature and inscriptions in the two centuries before and after Christ, were undoubtedly peoples of, respectively, Greek, Scythic and Persian descent (*v. inf.* § 44); and it is reasonable to suppose that their religions continued to prevail in the districts which they occupied for some time after these districts were conquered by the Kuṣanas. In the same manner, inscriptions abundantly prove that among the Hindus themselves Brahmanism, Buddhism, and Jainism continued throughout this period to flourish side by side. The coins, no doubt, reflect the particular form of religion which prevailed in the district in which they were struck.

Society ;¹ and, until this want can be adequately supplied, it is important to recognise the principle, and to put on record such evidence of the kind as is available. In this Catalogue, therefore, an attempt has been made to give the *provenance* of each specimen, whenever it is known, together with a reference to previous publications. As will be seen, the evidence thus collected is especially important in the case of the Andhra Dynasty, the sway of which at one time or another extended over a very large portion of the Indian peninsula.

9. Since the evidence of palaeography is also of great importance in determining the date of Indian coins, a tracing of the coin-legend of each variety has been given. These tracings can make no claim to the scientific accuracy which can only be obtained by purely mechanical means; but it is hoped that they may not only be found practically useful as aids in the decipherment of the coin-legends, but that they may also serve to illustrate broadly the main changes through which the forms of the Brāhmī alphabet passed during this period. In the case of the dated coins of the Western Kṣatrapas, such changes may often be traced with great chronological accuracy (*v. inf.* 'Coin-legends').

10. In the description of coin-legends on individual specimens, the ordinary Nagari alphabet has been used to represent the original Brāhmī or Kharoṣṭhī, because of its similar syllabic character and the similar method which it employs in the marking or the omission of vowel-signs. A full transliteration of each variety of coin-legend, with the restoration of all the vowel-signs, is given in *Italics* beneath the tracing at the head of each section.

¹ As a volume in the "Indian Texts Series."

11. Restorations within square brackets are supplied only in cases where the remaining traces leave no doubt as to their correctness. When the traces are not sufficiently clear to justify such restorations, a short dash is used to represent a missing syllable and a longer dash to represent an uncertain number of missing syllables. The mark , (an inverted *virāma*) denotes that, in the *akṣara* to which it is appended, the superscript vowel-sign is not visible although it was probably intended.

12. As many of the coin-legends are fragmentary, it is often useful, as a means of identification, to know at what point in the circle the inscription on any particular variety normally begins. This point is approximately denoted by the figures of the clock-face. When the coin-legends of any variety consistently begin at the same point, this clock-figure is given once for all before the tracing of the inscription at the heading of each section; when there is no such consistency observable, it is placed before the inscription of each specimen.

13. In the transliteration of coin-legends and of all ancient names, whether of persons or of places, the system of the *Grundriss der Indo-Arischen Philologie* (Bühler and Kielhorn) has been followed; and, in the headings, for the sake of uniformity, all Prakrit proper names have been reduced to their Sanskrit form. Modern place-names are given as they usually appear in maps and in the Gazetteer without diacritical marks. Thus, for example, the ancient Sanskrit proper name is written *Candra*, while the modern place-name appears as *Chanda*.

14. An attempt has been made to secure some uniformity in the use of the terms 'obverse' and 'reverse,' and to make this distinction depend, as was no doubt originally intended by these terms, on the different modes of striking the types rather than on some accidental feature such as their relative importance. When one side of a coin tends to be convex, that is to say, when the type has been impressed from the lower die which was fixed in the anvil, it is called 'obverse'; when, on the other hand, it tends to be incuse, that is to say, when it bears the impression of the upper die which was fixed on to the punch, it is called 'reverse.' In the case of most of the coins described in this catalogue this principle may readily be applied; but a question as to the correct use of the terms arises in regard to certain coinages of the Andhra Dynasty, chiefly, no doubt, because some of these were cast and not struck. In these cases it is to be feared that the use of 'obverse' and 'reverse' will not always be found to be quite consistent.

Use of the terms
'obverse' and
'reverse.'

OUTLINES OF THE HISTORY OF THE ANDHRA DYNASTY, FROM INSCRIPTIONS AND OTHER SOURCES.¹

15. The earliest mention of the Andhras seems to occur in a passage of the Aitareya Brāhmaṇa,² in which they are enumerated among the tribes of Southern

Earliest
information.

¹ This dynasty was called also Andhrabhṛtya or Śātavāhana, the latter term being properly the name of the clan to which the ruling family belonged.

² vii. 18. 2, quoted by Roth, *Zur Litt. u. Gesch. des Weda*, p. 133; v. also Bhand. EHD, p. 6. The passage occurs in the later portion of the Brāhmaṇa, the date of which may perhaps be as late as c. 500 B.C., cf. Macdonell, *Hist. Skt. Lit.* p. 205.

India living on the fringe of Aryan civilization. Their home then, as in later times, was no doubt the Telugu country on the eastern side of India, between the rivers Kistna and Godavari.

16. At a later date, when the kingdom of Magadha under the Maurya dynasty had grown into a great empire which included the whole of India except the extreme south, they are mentioned in the edicts of Aśoka (B.C. 269-232)¹ in a manner which seems to imply that, while acknowledging the suzerainty of Magadha, they retained some degree of independence.² Unlike their northern neighbours, the Kalingas, they were evidently never definitely conquered by Aśoka;³ but, like them in another respect, they found in the decline of the Maurya empire—a decline which must have begun soon after the death of Aśoka—an opportunity of asserting their complete independence and of greatly extending their dominions. The next definite chronological information which we possess as to the history of the Kalingas and the Andhras shows that, at a date some seventy-five years after the death of Aśoka, both kingdoms had been independent for some con-

¹ The chronology adopted here is that of Mr. Vincent Smith, *Asoka*, p. 61.

² *S. Asoka*, p. 132. The list of peoples to whom the 'Law of Piety' had been preached by the king's missionaries (Edict XIII) seems to be arranged on a definite principle. First are recorded the names of kings and peoples as to whose independence there is no question; secondly are mentioned 'the king's dominions'; and lastly come a number of peoples, divided like the independent powers into a northern and southern group, who may be supposed, from other considerations also, to have been semi-independent. In the last group occur the Andhras.

³ The conquest of Kalinga took place in the 9th year of the king's reign (B.C. 261). The Kalinga (Jaugada and Dhauhi) edict, on "the duties of officials to the border tribes," which probably belongs to the 14th year (B.C. 256), inculcates a policy of conciliation. *S. op. cit.* p. 134.

siderable time, and were both, apparently, then being governed by the third member of the dynasty, which was, presumably, established in each case when the yoke of Magadha was thrown off.

17. This information is afforded by the inscr. of Khāravela, king of Kalinga, in the Hathi-gumpha ('Elephant Cave'), in the Udayagiri Hills near Cuttack in Orissa.¹ This inscr. is dated in the 165th year (current) of the era of the Maurya kings, and the 13th of Khāravela's reign. If the Maurya era dates, as is most probable, from the coronation of Candragupta (c. 321 B.C.), the date of the inscr. must be c. 157 B.C., and Khāravela's accession c. 170 B.C.² As both the father (Vṛddharāja) and the grandfather (Kṣemarāja) of Khāravela (*alias* Bhikṣurāja) are mentioned in the inscr., he would seem to have been the third member of the dynasty. The two preceding reigns must, therefore, be included in the period c. 232–170 B.C. This is a point of importance, in view of the fact that the Śātakarṇi, with whom Khāravela was associated in the 2nd year of his reign (c. 168 B.C.), was probably also the third member of the Andhra Dynasty (*v. inf.* § 23). It seems to show that the two dynasties arose about the same time.

18. The relations between the two powers are not quite clear from the inscr., as there is some doubt about the interpretation of the passage in which Śātakarṇi is mentioned;³ but it is certain that Śāta-

Śātakarṇi 'the protector of the West.'

¹ Bhagvānlāl Indrājī, *Trans. Inter. Or. Congress* (Leiden, 1883), iii, p. 135.

² Bühler, *Monatschr. f. d. Orient*, 1884, pp. 231 ff., first pointed out that the Maurya era must begin with the coronation of Candragupta. Bh. supposed it to start from Aśoka's conquest of Kalinga. According to his view of the chronology, the date of Khāravela's accession would be c. 103 B.C., *op. cit.* p. 150.

³ He sent an army to Khāravela, but whether as an ally or as a tributary is not certain.

karṇi is called 'the protector of the West,' a designation justified by the westward extension of Andhra power which had already taken place, as is proved by the Nasik inscr. of 'King Kṛṣṇa of the Śātavāhana race' (*v. inf.* § 22).

19. The date c. 168 B.C., as that of a year falling within the reign of this Śātakarṇi, is the only fixed chronological point¹ in the early history of the Andhra Dynasty. The evidence of other inscriptions combined with that of the lists of Andhra kings given in the Purāṇas indicates the existence of two preceding sovereigns and the order of succession, but supplies no positive dates.

20. In the cave at Nanaghat, 'a pass in the Western Ghāts, or Sahyādri mountains, E.N.E. from Bombay, on the road from the coast to the ancient town of Junnār, and half-way between Pūna and Nāsik,'² there is a long sacrificial inscr. of a widowed queen acting as regent during the minority of her son, and a series of names and titles inscribed above some ruined relievos which are supposed to have represented the royal personages mentioned in the large inscription. The results which Bühler obtained from a combined study of these monuments may be summarised as follows:—The Queen Nāyanikā (Nāganikā) was the daughter of the Mahārāṭhi [Tra]nakayiro, the wife of King Śātakarṇi son of King Simuka Śātavāhana, and the mother of two princes Śakti-śrī and Veda-śrī.³

¹ Always supposing that the date assigned to Candragupta's coronation (321 B.C.) is correct.

² S. ZDMG, 1902, p. 653.

³ ASWI, v, p. 66.

21. After a detailed examination of the alphabet of these inscrr. Böhler came to the conclusion that, “according to the epigraphical evidence, these documents may be placed a little but not much later than Aśoka’s and Daśaratha’s edicts. But what, in my opinion, most clearly proves that they belong to one of the first Andhras is that their graphic peculiarities fully agree with those of the Nāsik inscription (No. 1) of Kaṇha or Kṛṣṇa’s reign.”¹

22. The Nasik inscr. referred to bears the name of King Kaṇha (Kṛṣṇa) ‘of the Śātavāhana race’; and it was assigned by Böhler, on epigraphical grounds, to “the times of the last Mauryas or the earliest Śuṅgas, in the beginning of the second century B.C.”²

23. There can be little doubt then that, when allowance is made for the textual corruption of the first name,³ the names and the order of succession of the first three Andhra kings are correctly given by the Purāṇas, viz. (1) Simuka, (2) Kṛṣṇa, (3) Śrī-Śātakarṇi. It is probable, too, that, as stated both in the Bhāgavata and in the Viṣṇu Purāṇa, Kṛṣṇa was the brother of Simuka—a fact which, in accordance with Indian custom, would fully explain the absence of his name from the Nanaghat inscrr.⁴

¹ *Op. cit.* p. 71.

² ASWI, iv, p. 98. The most recent edition of the inscr. is that of M. Senart, EI, viii, p. 93, Pl. vi. 22.

³ *E.g.* as Śipraka, Sindhuka, Śisuka, &c.

⁴ The lists given in such records are genealogical rather than dynastic. Members of the ruling family not in direct descent are often omitted; *v.* R. NChr, 1891, p. 49. The two Purāṇas referred to (Bhāg. xii. i. 21; Viṣṇu iv. 24. 12) apparently call Śātakarṇi the son of Kṛṣṇa. It does not seem possible to reconcile this statement with the inscrr.; *v.* § 58.

24. As the great Nanaghat inscr. is incomplete, and as the names over two of the relievos which once existed are missing,¹ there are certain difficulties in the identification of the personages mentioned or represented which cannot be satisfactorily explained. But the additional information which these sources supply, and which seems to be beyond doubt, is as follows:—(1) The Queen Nāganikā was regent during the minority of her son Veda-śrī;² (2) she had another son Śakti-śrī or °śrīmat (the Sati-sirimat of the inscr. and the Kumāro Haku-siri³ of the relievos.)

25. Of the heir-apparent, Veda-śrī, nothing further is known; but it is quite possible that Śakti-śrī may have come to the throne subsequently, and that he may be identified with the Mahā-Haku-siri, 'the great Śakti-śrī' who is mentioned in an undated inscr. at Nasik.⁴ It is possible also, as Bühler has suggested, that he may have been the historical original of the Śakti-kumāra of Jain legend.⁵

26. The father of Queen Nāganikā bears in the Nanaghat inscr. the title 'Mahārāṭhi.' The inscr. is damaged in this place, and much of the preceding portion is lost; but the two syllables *-laya* which remain afford some ground for the suggestion that the full title may have been the same as one which occurs on certain large lead coins found in the Chitaldrug Dist. of N. Mysore, viz.

Mahārāṭhi
[Tr]anakayiro :
Sadakana Kaḷa-
lāya-Mahārāṭhi.

¹ Bh. BG. xvi, p. 611 (after the statue of Kumāro Bhāya-), "the two next statues (5 and 6) and their inscriptions have disappeared."

² Probably not represented in the relievos still existing; *v. inf.* 'Notes,' § 57, no. 1.

³ In the Dravidian Prakrit of the Andhras *ha* = Skt. *śa*. Thus *Haku* = Śakti, *Hūla* = Śāla (Śāta); probably also *Hiru* = Śrī, *Hūtakani* = Śātakarni; *v. R. JRAS*, 1905, p. 800.

⁴ Senart, *EI*, viii, p. 91, Pl. III. 19.

⁵ *ASWI*. v. p. 62, note 1.

Sadakana Kalālāya-Mahārāṭhi (v. inf. § 57, no. 1). The Mahārāṭhi of the inscr. appears to be the Mahārāṭhi [Tr]anakayiro of the relievos;¹ and in the inscr. he has the further appellation *Aṅgiya-kula-vadhana* (=Skt. *Aṅgika-kula-vardhana*), 'the cherisher of the race of Aṅga.'² The explanation of the latter part of the name or title [Tr]anakayiro is doubtful; but the former part may perhaps represent a Prakrit word *trāṇaka*=Skt. *trātā* 'saviour, σωτήρ,' which seems to occur again in the form *Agiya-taṇaka* (perhaps =Skt. *Aṅgika-trātā*, 'the saviour of the Aṅgas') in the Nasik inscr. of Śakti-śrī, where it appears as the title of the Royal Minister Bhaḍākarika, the husband of the lady who makes the donation recorded in the inscr.³

27. Another similar title which occurs in Andhra inscrr. is that of Mahābhoja. Both Mahārāṭhis and Mahābhojas⁴ were evidently high officers of state, probably viceroys, in the Andhra empire. The importance of their position is clear from the fact

Feudatories of the
Andhra Dynasty:
Mahārāṭhis and
Mahābhojas.

¹ ASWI, v, p. 66. For other readings and explanations of the name, v. Bh. BG, xvi, p. 611; Bhand. EHD, p. 12.

² Aṅga was the ancient name of the kingdom of Behar. It 'comprised the modern districts of Bhagalpur and Monghyr, excluding the extreme north and south portions.' (Pargiter, *Mārkaṇḍeya Purāṇa*, p. 325.) 'The Angas, Vangas, and Kalingas are constantly linked together as people closely allied by race and position' (*id.* p. 326). The Kalingas and Andhras are similarly associated, and in later times the country of the Andhras was reckoned as one of the Three Kalingas (E. CSI, p. 11). It is, therefore, quite possible that the race to which the Mahārāṭhi belonged came from Eastern India: cf. also *inf.* § 28, note 2. All the peoples mentioned in this note are placed by Varāhamihira in the S.E. region; v. Fleet, *Topographical List of the Br̥hatsaṃhitā*, IA. 1893, pp. 169 ff.

³ V. 'Notes,' § 57, no. 3. The termination *-ṇaka* is, however, common in names at this period, and may have no special significance here; cf. '*Agimi-trāṇaka*' the name of a Mahārāṭhi in an inscr. at Karle, Senart, EI, vii, p. 49, Pl. iv, 2, '*Mahādevaṇaka*' (*id.* p. 52), and '*Mitadevaṇaka*' (*id.* p. 56).

⁴ The derivation of these terms is not certain. For the different explanations of 'Mahārāṭhi,' v. R. JRAS, 1903, p. 299. *Rāṭhikas* and *Bhojakas* are

that they are often intimately connected by family ties with the ruling sovereign. As one of the Mahārāṭhis strikes his own coins, he would seem to have enjoyed some degree of independence; but that these functionaries were as a rule subordinate is shown by their inserr., which are dated in years of the reigning Andhra monarch. For the present, until their position is better known, they may be conveniently classed, as in the Catalogue, under the heading "Feudatories of the Andhra Dynasty" (p. 57).

28. As feudatories also are provisionally classed two kings whose coins have been found at Karwar (probably in the province of which Vaijayantī, the modern Banavasi, was the capital) (pp. 59, 60).¹ These kings bear the titles 'Cuṭukaḍānanda' (probably = 'The Joy of the City of the Cuṭus'), and Muḍānanda (probably = 'The Joy of the Muṇḍas'). These titles resemble in character that of the Mahārāṭhi—*Amigika-kula-varḍhana* (v. sup. § 26). They are evidently dynastic. They may be either designations attached to particular localities, or titles derived from the home or the race of the rulers. Of a tribe bearing the name Cuṭu we have no further knowledge, but the Muṇḍas are frequently mentioned in Sanskrit literature.² They seem to have been one of the races of

mentioned together in the Hathigumpha inscr. in the compound *sava-raṭhika-bhojake* (line 6), which Bh. (*Trans. Inter. Or. Cong.*, Leiden, 1883, iii, p. 175) translates 'among minor and greater chiefs.' The terms may have had originally a local or tribal significance. Among the border tribes mentioned in Aśoka's edicts, the Raṭhikas occur in association with the Pitenikas (Edict v, S. *Asoka*, p. 120), and the Bhojas in association with the Pitinikas, Andhras, and Pulindas (Edict xiv, *id.* p. 132). The name 'Mahārāṣṭra' seems undoubtedly to be associated with the Raṭhikas (Rāṣṭrikas).

¹ For the correction of the names, v. 'Errata.'

² Mahā-Bhārata, Bhiṣma-parvan, lvi, 2410; Vāyu Purāṇa, xlv, 123. In the Viṣṇu P. iv, 24, 14, thirteen Muṇḍas appear among the various successors of the Andhras; v. § 58.

Eastern India, and to be represented at the present day by a large Dravidian tribe in Chuta Nagpur.¹ Such epigraphic and numismatic evidence as there is indicates that these two kings belong to an early period in the history of the Andhra Dynasty—to the same period as that of the Nanaghat inscr. and the coins of Sadakana Kaḷalāya-Mahārāṭhi, though probably to a somewhat later date in this period. This evidence is, however, slight and unsatisfactory; and the uncertainty of attribution is increased by the fact that titles which are equivalent to ‘Cuṭukaḍānanda’ are borne by an Andhra king, Hārītiputra, who can scarcely have reigned before the beginning of the 3rd century A.D. (*v. inf.* § 55). It would seem natural to identify this king with the striker of the coins, and the evidence against this identification cannot be regarded as conclusive; but it is, perhaps, more probable that the kings bearing these titles on the coins were members of two families of feudatories in the early period of the dynasty, and that, at a later period, in the decline of the empire, one of these families gained the sovereign power in the western and southern provinces, while the eastern provinces remained in the possession of the Śātavāhana family (*v. inf.* §§ 52, 54).

29. There is an inscr. on one of the Bhilsa Topes (Sanchi, No. 1) which seems undoubtedly to refer to an early member of this dynasty who cannot be further identified. The inscr. as it stands in Cunningham’s eye-copy is evidently incorrect; but there is no available reproduction of a photograph or impression by which the reading can be controlled. If we may suppose, as seems likely, that the

Bhilsa inscr. of
Vāsiṣṭhīputra Śrī-
Śātakarṇi.

¹ Pargiter, *Mārkaṇḍeya Purāṇa*, p. 329, quoting Risley, *Castes and Tribes of Bengal*, ii, 101. If *Aṅgiya-kula-vadhana* and *Mudānamda* are correctly explained as referring to the Āṅgas and Muṇḍas of Eastern India, it must be supposed that the Andhras were associated with other Dravidian peoples in the conquest of the West.

order of the words in the original has been confused in the eye-copy, we have here the record of a donation made in the reign of a Vāsiṣṭhīputra Śrī-Śātakarṇi.¹ If, on the other hand, Cunningham's arrangement of the inscr. be accepted as correct,² the name of the king is simply Śrī-Śātakarṇi, and the metronymic Vāsiṣṭhīputra must be joined to the name of the donor, Ānanda. But, whatever the correct form of the name of this king may be, he must, in accordance with the epigraphical evidence as interpreted by Bühler, be placed early in the dynasty. Bühler, indeed, proposed to identify him with the Śrī-Śātakarṇi of the Nanaghat and Hathigumpha inscrs., on the ground that the alphabet of the Bhilsa inscr. showed similar characteristics.³ If this identification could be established, we should have good reason—although not conclusive reason—for believing that Bhilsa (Vidiśā), the capital of the province of East Malwa (Ākara), was in the possession of the Andhras at a date (c. 168 B.C.) when it is generally supposed to have belonged to the Śunga dynasty.⁴ On the whole, it appears more probable that Bühler was mistaken in assigning so early a date to this inscr., and that this king, [Vāsiṣṭhīputra] Śrī-Śātakarṇi is to be identified with one of several Śātakarṇis who appear later in the Purāṇic lists.⁵

30. Between the earlier and the later inscrs. of the Andhra dynasty there comes a long interval, during which also there are no coins which can be dated with precision. It is possible that this period may have been uneventful historically and marked by no great political changes such as would have found their record

Earlier and later
groups of inscrs.

¹ V. 'Notes,' § 57, no. 4.

² As by Bühler in his later publication, EI, ii, p. 88. He, however, gives no reproduction of the original.

³ *Loc. cit.* ⁴ S. EHI, pp. 177, 193.

⁵ V. *inf.* 'Dynastic Lists,' § 58.

in monuments or necessitated an abundant coinage to supply the needs of great military expeditions; but it is perhaps more probable that both inserr. and coins remain to be discovered in a country the greater part of which still awaits systematic archaeological investigation.

31. For this dark period we have only the lists which the Purāṇas give of the names of kings and the duration of their reigns. In the long process of transmission by means of manuscripts of perishable materials which necessitated frequent renewal, the text of the Purāṇas has become much corrupted. In their present form they show great discrepancy among themselves, both in regard to proper names, which have often been changed beyond recognition, and in regard to their chronological statements. Nevertheless, there can be no doubt that, corrupt as they now are, the Purāṇas were originally accurate historical documents; and, whenever they can be controlled by the evidence of inscriptions, as in the case of the three earliest and some of the later members of the Andhra dynasty, they appear to give a fair representation of the facts, if due allowance is made for the accumulated errors of generations of scribes, and if it is remembered that the historical views of their compilers were necessarily local and restricted. As they stand at present, they cannot profitably be used as independent documents, because the state of their text renders all their statements, when not capable of being controlled from some other source, liable to suspicion, and because they often fail to discriminate between important and insignificant powers or between contemporary and successive dynasties.

**Lists of Andhra
kings in the
Purāṇas.**

32. Mr. Vincent Smith has shown that, so far as concerns the Andhra dynasty, the statements contained in the Matsya Purāṇa are remarkably in accordance with the facts as known from other sources, both as

regards the names of the kings and the duration of their reigns.¹ The Matsya gives the total period of the dynasty as 460 years and enumerates 29 kings. The Viṣṇu, Vāyu, and Bhāgavata agree in giving these numbers as 456 and 30 respectively.² This agreement is in the circumstances remarkable, and raises the presumption that on these points the statements of the Purāṇas are substantially correct; and, although inscrr. and coins afford no exact dates for the beginning and end of the Andhra empire, yet their evidence, which seems to show that this empire began soon after the death of Aśoka (232 B.C.) and continued until some period in the 3rd century A.D., is quite in accordance with these statements. There is, therefore, no reason to doubt that the long period, for which the testimony of inscrr. and coins scarcely exists, was actually occupied by the reigns recorded in the Purāṇas (*v. inf.* § 58).

33. The later inscrr. of the Andhras are dated in regnal years and not in the years of any era. The determination of their chronology during this period depends chiefly on the inscrr. of their contemporaries and rivals, the Western Kṣatrapas, who use the Śaka era beginning in the year 78 A.D. The last recorded date of Nahapāna is Śaka 46 = 124 A.D., but there is no evidence to show how long he continued to reign after this date. The next fixed point in the chronology of the Western Kṣatrapas is the year Śaka 72 = A.D. 150, in the reign of the Mahākṣatrapa Rudradāman; and when it is considered that this interval of 26 years is occupied by the reigns of Caṣṭana, both as Kṣatrapa and as Mahākṣatrapa, of his son Jayadāman as Kṣatrapa, and

¹ ZDMG, 1902, p. 654.

² *Viṣṇu Purāṇa*, trans. Wilson (*ed.* Fitzedward Hall), iv, p. 199, note 4.

possibly also of his grandson Rudradāman as Kṣatrapa,¹ it would seem improbable that Nahapāna's reign could have extended much beyond the last recorded year 46 = 124 A.D. Gautamīputra's conquest of Nahapāna seems undoubtiedly (*v. inf.* § 57, nos. 7, 9) to have taken place in the 18th year of his reign. We therefore have the equation:—

Gautamīputra's year 18 = 124 A.D., or 124 A.D. + x .

On this synchronism, on the recorded regnal dates in the inscr. of other Andhra sovereigns, and on the known date 72 = 150 A.D. of Rudradāman as Mks., rests at present the whole foundation of the later Andhra chronology.

34. The position to be assigned to two, apparently, earlier kings in this later period depends upon the identification, which seems to be probable, but which cannot be absolutely proved, of the great Gautamīputra Śātakarṇi, the conqueror of Nahapāna, with the Gautamīputra : Viḷivāyakura of the coins found at Kolhapur in the Southern Mahratta country. The evidence of re-struck coins shows that this king was preceded in this district by (1) Vāsiṣṭhīputra : Viḷivāyakura, and (2) Māṭharīputra : Sivalakura (pp. 7, 14).

35. Of Vāsiṣṭhīputra : Viḷivāyakura nothing further is known. No inscr. can be attributed to him with certainty,² and any attempt to identify his name with any of those occurring in the Purāṇic lists must rest solely on his position as predecessor of Māṭharīputra (§ 36) and Gautamīputra

¹ In this early period it is doubtful to what extent Mahākṣatrapa and Kṣatrapa may have been reigning contemporaneously, as was regularly the case during the later period for which certain dates are available.

² The Bhilsa inscr. (§ 29) may possibly belong to his reign.

(§ 37).¹ No certain trace of his existence has therefore been found, except in this one district of the Andhra dominions.

36. The Māṭharīputra : Sivalakura of the Kolhapur coins may
Māṭharīputra : perhaps be the Māḍhariputa Svāmi-Sakasena of
Sivalakura. two Kanheri inscr., as was first suggested by Pandit Bhagvānlāl,² and the Sakasada or Sakasena of certain coins from Andhra-deśa, as was suggested by Prof. Bhandarkar.³ One of the inscr. is dated in the 8th year of the king's reign. If, then, the above-mentioned identifications may be accepted, the combined evidence of coins and inscr. would show that this king reigned for at least eight years, and ruled over Andhra-deśa, the southern part of Mahārāṣṭra (Kolhapur), and Aparānta (Kanheri in the Konkan).⁴

37. If, in the same way, the identification of the Gautamīputra :
Gautamīputra : Viḷivāyakura with the great Gautamīputra Śāta-
Viḷivāyakura. karṇi may be assumed, the re-struck coins would prove that he was the successor of Māṭharīputra. The chronology of his reign and the extent of his dominions, so far as it is possible to ascertain these facts from the evidence of coins and inscr., may be stated as follows.

38. An inscr. at Nasik dated on the 1st day of the 2nd fortnight of the rainy season in the 18th year of the reign of Gautamīputra

¹ S. ZDMG, 1902, p. 662, proposes to identify him with Cakora-Svātikarṇa or Rājada-Svātikarṇa, to whom the Purāṇas assign a reign of six months. It is quite as probable that he should be identified with either of the two immediate predecessors of Cakora^o; v. § 58.

² JBBRAS, xii, p. 408; xiii, pp. 306-7.

³ EHD, p. 35.

⁴ S. ZDMG, 1902, p. 662, identifies him with Śiva-Svāti, to whom the Vāyu and Matsya Purāṇas assign a reign of 28 years; v. § 58. This identification receives some additional support from the title *Sivalakura*, if, as is not improbable, *Sivala* may be explained as a Prakrit equivalent of the Skt. *Śivadatta*: cf. *Somila* = *Somadatta*.

Śrī-Śātakarṇi, 'lord of Benākatakā in Govardhana,' contains an edict issued from 'the victorious camp of the army at Vaijayantī (Banavasi)' to Viṣṇupālita, the minister in charge of Govardhana (the Nasik Dist.). The edict is to the effect that a certain field in the village of North Kakhadi, 'at the present time' or 'up to the present time' in the possession of Rṣabhadatta (Nahapāna's son-in-law), shall be secured to the monks of the Triraśmi Mountain. The effect of this edict is probably to ratify under the new dynasty a benefaction previously made by Rṣabhadatta (§ 57, *cf.* no 31 with no. 7). The edict is executed in accordance with the verbal instructions of the king by the minister Śivagupta (§ 57, no. 7).

39. This inscr. must be taken in connection with another at Karle, which contains a similar edict. It is dated on the 1st day of the 4th fortnight of the rainy season of the year 1[8]. The name of the king is missing, but internal evidence shows that it is almost certainly an edict of Gautamīputra Śrī-Śātakarṇi. It is addressed to the minister in charge of Māmāla (no doubt the district in which Karle was situated). His name, which is almost obliterated, seems to have ended in -gupta. The edict confirms the monks living in the cave at Valūraka in the possession of certain privileges connected with the village of Karajaka, in the northern division of the *āhāra* of Māmāla. This village (Karajika) had been previously granted by Rṣabhadatta to the same monks (Karle inscr., Senart, EI, vii, p. 57). This decree seems likewise to be issued 'in the victorious camp,' and the edict was prepared by Śiva-skanda-gupta, who must surely be the minister Śivagupta of the Nasik edict. The restoration of the unit figure of the date of the year 1[8] is in itself probable, and the probability is increased by the internal evidence supplied by the inscr.

Nasik inscr. dated
in the 18th year
of Gautamīputra
Śrī-Śātakarṇi.

in year 1[8].
[Gautamīputra
Śrī-Śātakarṇi.]

itself, which seems to show that, like the Nasik edict, it was ratified 'in the victorious camp' and executed by the same minister. It is impossible to resist the conclusion that this edict also was issued by Gautamīputra Śrī-Śātakarṇi in his 18th year, two fortnights after the Nasik edict, when his army had returned after its victorious campaign against Nahapāna, and was encamped at Banavasi for the rainy season (§ 57, no. 9).

40. If, then, as we have seen, the evidence of Nahapāna's
 Accession of
 Gautamīputra
 Śrī-Śātakarṇi,
 A.D. 106 + x .
 inserr. enables us to fix the date of Gautamī-
 putra's 18th year as A.D. 124 + x , his accession
 must be dated A.D. 106 + x , the x representing
 here a small quantity or even nought.

41. The latest inscriptional date for the reign of Gautamī-
 Inscr. dated in
 24th year of his
 reign.
 putra is the year 24 = A.D. 130 + x in a postscript
 to the Nasik edict above referred to (§ 38). This
 date is interesting, as it affords a means by which
 the evidence of the Purāṇas can be tested and is found wanting,
 for with great unanimity they seem to agree in assigning a reign
 of 21 years only to this king.¹

42. The extent of Gautamīputra's western dominions may
 Place-names in
 inscr. of
 Bala-śrī.
 be gathered from his titles, which are set forth
 with great pomp in the Nasik inscr. of his
 mother, Gautamī Bala-śrī, dated in the 19th year
 of the reign of her grandson Puṣumāvi.² By a comparison of
 this list with the records of Rṣabhadatta's benefactions it is
 possible to form some idea of the amount of territory which
 passed from the Kṣaharātas to the Andhras on the downfall
 of Nahapāna; and, on the other hand, by comparing it with the
 list of territories enumerated in Rudradāman's Gīrnar inscr., we

¹ *V. inf.* 'Dynastic List,' § 58.

² *V.* 'Notes,' § 57, no. 13.

can see to what extent these losses were subsequently retrieved by the Western Kṣatrapas. In Queen Bala-śrī's inscr. Gautamī-putra is styled king of the following countries:—

Asika.—The identification of this locality is uncertain. Varāhamihira mentions a people of this name, but gives no precise locality (*v. Fleet, Topographical List*, IA, 1893, p. 174). M. Senart (EI, viii, p. 62) identifies them with the Rṣikas, who are placed by Varāhamihira in the S. division (*v. Fleet, op. cit.* p. 188).

Asaka.—This form has usually been supposed to represent the Skt. Aśmaka (Bhand. EHD, p. 17), the name of a people in the N.W. division (*v. Fleet, op. cit.* p. 174). M. Senart (*l.c.*) suggests either Aśvaka or Aśaka. The identification of this place must for the present remain uncertain.

Mu'aka.—Likewise doubtful, but possibly = *Mūlika*, the name of a people in the N.W. (*v. Fleet, op. cit.* p. 186).

Suratha = Skt. *Surāstra*, generally speaking the modern Kathiawar; but the name seems to be used both in a more restricted and in a more extended sense—sometimes as indicating the southern portion of Kathiawar, and sometimes as denoting 'the peninsula of Kathiawar and the country around the G. of Cambay—that is, not quite all the modern territory called Gujarat' (Pargiter, *Mārkaṇḍeya Purāṇa*, p. 340).¹

Kukura.—Probably a portion of Eastern Rajputana (Bh. BG. I, i, p. 36, note 7). Prof. Bhandarkar (*Trans. Inter. Or. Cong.* 1874, p. 312) identifies it with the kingdom of *Kiu-che-lo*, to which Hiouen Thsang (Yuan Chwang) proceeded from Valabhi, or, as another account states, from Suratha, the country last mentioned in the present list (*cf. Watters, On Yuan Chwang's Travels in India*, ii, p. 249).

¹ The term is used in its more extended sense throughout this Catalogue, as denoting one of the two main portions of the kingdom of the Western Kṣatrapas, the 'Satraps of Surāstra and Mālava.'

Aparānta, 'The Western Border.'—There can be no doubt that this is the Northern Konkan, the northern portion of the strip of country lying between the Western Ghats and the sea. The name, or rather the corresponding adjective (*Aparāntikā*), occurs in an inscr. at Kanheri, which is situated in this district (ASWI, v, p. 84, No. 24). *Aparānta* is also mentioned in the *Raghuvaṃśa* (iv, 53) in a manner which leaves no doubt as to its locality; and Mallinātha, in commenting on the passage, quotes the lexicographer Yādava, who describes it as the western country in which Śūrpāraka was included¹ (cf. Bhand., *Trans. Inter. Or. Cong.* 1874, p. 313).

Anūpa.—A district on the Upper Narbada, with capital Māhiṣmatī (Bhand. *l.c.* refers to *Raghuvaṃśa*, vi, 37–43). The term, which denotes 'a well-watered country,' is variously applied; but, in regard to this particular region, the references in Sanskrit literature show that 'Surāṣṭra, Anūpa, and Ānarta² were contiguous countries, and that Anūpa lay beyond and south of Ānarta' (Pargiter, *Mārkaṇḍeya P.*, p. 344).

Vidabha = Skt. *Vidarbha*.—'One of the most ancient and renowned kingdoms in the Dekhan.³ It comprised the valley of the Payoṣṇi, the modern Purna, and the middle portion of the Tapti, and corresponded to the western part of the modern Berar and the valley-country west of that' (Pargiter, *op. cit.* p. 335). 'The people were called Bhojas, or perhaps only the royal family was so called (*id.* p. 336).'⁴

¹ 'Aparāntūḥ pāścātyūs, te ca Śūrpārikūdayaḥ.' Bh. also (IA, 1878, p. 259) quotes the commentary on Vātsyāyana, *Kāma-sūtra* (adhikaraṇa 3): 'Aparāntikā iti pāścimasamudratīre Aparāntadeśas tatrabhavāḥ.'

² Surāṣṭra and Ānarta together formed one province under Rudradāman's minister, the Pahlava Suviśākha (v. *inf.* § 57, no. 38).

³ The kingdom of Damayanti's father, Bhima, in 'The Story of Nala.'

⁴ The Mahābhojas of the inscr. may have derived their title from this district (v. *sup.* § 27).

Ākara.—East Mālwa, the kingdom of which Vidiśā (Bhilsa) was the capital (Bh. IA, vii (1878), p. 259; BG. I, i, p. 36, and xvi, p. 631).¹

Avanti.—West Mālwa, the kingdom of which Ujjain was the capital (Bh. II, cc.).

Gautamīputra is further styled 'lord' of the following mountains:—

Vijha = Skt. *Vindhya*.—The term is used both 'in its general and wider meaning as denoting the whole mountain-chain from Gujarat eastwards' (Pargiter, *Mārkaṇḍeya P.*, p. 340), and in a narrower sense as denoting 'not the whole of the modern Vindhya range, but only the portion of it east of Bhopal, and also the water-shed hills which extend from it into Behar' (*id.* p. 286). It must be used in its more restricted sense here, as the other portion of the range is mentioned separately (*v. inf.* 'Parivāta').

Achavata = Skt. *Ṛkṣavat* or *Ṛkṣa*.—'The Sātpura Hills, and the hills extending through the middle of Berar and the south of Chutia Nagpur nearly into West Bengal' (Pargiter, *l.c.*).

*Parivāta*² = Skt. *Pāripātra* or *Pāriyātra*.—'The western portion of the modern Vindhya range, west of Bhopal' (*id.*).

Sahya.—The Sahyādris, or 'the northern portion of the Western Ghats' (*id.* p. 285).

Kaṇhagiri = Skt. *Kṛṣṇagiri*, 'the Black Mountain.'—Probably the *Kaṇha-sela* = Skt. *Kṛṣṇa-saila*, which is mentioned in the

¹ Bh. IA, *l.c.* quotes the commentary on Vātsyāyana, *Kāma-sūtra* (adhikaraṇa 3) to show that the Skt. term *Mālava* was properly used to denote East Malwa, and that West Malwa was generally called 'the country of Ujjain.'

² M. Senart (EI, viii, pp. 60, 62) reads *Paricāta*. There is frequently some difficulty in distinguishing between *va* and *ca* in inserr.; but, in the present instance, a comparison of the doubtful letter with the preceding *va* in *[A]chavata* and the following *ca* in *Maca* would seem to justify the old reading *va*.

Kanheri inscr. (ASWI, v, p. 79, no. 15, line 8; p. 84, no. 24, line 3), and from which, no doubt, Kanheri takes its name.

Maca.—No satisfactory identification of this mountain has yet been proposed.

Siriṭana.—Prof. Bhandarkar (*Trans. Inter. Or. Cong.* 1874, p. 308) has suggested that this form may = Skt. *Srīstana*,¹ which he would identify with *Śrī-śaila* or *Srī-parvata*, the name of a mountain on the river Kistna in the Karnul Dist. (*cf.* Pargiter, *op. cit.* p. 290). This identification must still be regarded as doubtful.

Malaya.—The southern portion of the Western Ghats (Pargiter, *op. cit.* p. 285).

Mahida = Skt. *Mahendra*.—This has usually been supposed to be the great range between the Mahanadi and Godavari in Eastern India—the Eastern Ghats. But this range is situated in the ancient kingdom of Kalinga, and there is no evidence forthcoming from inscr., coins, or literature, to indicate that the dominion of the Andhras ever extended to this region. There is, however, another range of the same name in Southern India, and the fact that this Mahendra is sometimes mentioned in association with the Malaya range indicates that they were in the same locality.² In reference to this southern Mahendra, Mr. Pargiter, after examining the context of the passages in which it is mentioned in the *Rāmāyaṇa*, concludes that ‘the only way in which we can satisfy the conditions is to identify Mahendra with the most southernly spur of the Travancore Hills; and that makes it not only near the Malaya range, but actually part of it, if that

¹ The assimilation of *st* to *t(t)* is exceedingly rare (*cf.* Gray, *Indo-Iranian Phonology*, p. 220, § 861). The form which would be expected in this case is *-thana* (*id.* § 863).

² *Mārkaṇḍeya P.*, lviii. 21 (Pargiter, *op. cit.* p. 362).

range extended then to Cape Comorin'¹ (*The Geography of Rāma's Exile*, JRAS, 1894, p. 262).

Seṭagiri.—This form has been explained as either = Skt. *Śreṣṭhagiri*, 'the Best Mountain' (Bhand. EHD, p. 17), or = Skt. *Śvetagiri*, 'the White Mountain' (Büh. ASWI, iv, p. 108), but neither explanation is phonetically quite satisfactory. The identification of this mountain is, in any case, uncertain. It cannot possibly be the Śvetagiri in the Himalayas.

Cakora, 'the Partridge Mountain.'—It is mentioned in association with *Srī-parvata* (*v. sup.* 'Siriṭana') in the *Mārkaṇḍeya Purāṇa*,² and may have been in the same locality; but its exact position cannot be determined. One of the Andhra kings mentioned in the *Purāṇas*—*Cakora-Śātakarṇi*—apparently derived his title from this mountain.³

43. The place-names in this list, so far as they can be identified, represent an extent of territory which includes the present province of Gujarat, portions of Malwa, Central India, and Berar, the Northern Konkan, and the portion of the Bombay Presidency lying immediately north of Nasik. The names themselves are those of kingdoms which had submitted to Gautamiputra.⁴ All or nearly all of these kingdoms were previously included in the dominion of Nahapāna (§ 57, nos. 31, 36), and were subsequently reclaimed

¹ Another range mentioned in association with Mahendra and Malaya is *Durdura* (*Dardura* or *Dardara*) which is supposed to be the Nilgiriś (Pargiter, *ll. cc.*).

² lvii. 15. 'Śrī-parvataś Cakoraś ca śataśo 'nye ca parvatāḥ.'

³ V. 'Dynastic Lists,' § 58.

⁴ It may be noticed that these kingdoms are grouped together in a certain order, and that, so far as they can be identified, they are all in Western India. Of the first three names, which cannot be identified with certainty, two are apparently found in Varāhamihira's N.W. division. It is impossible that this list can have been intended, as has usually been assumed, to represent the extent of the Andhra dominions.

for the Western Kṣatrapas by Rudradāman (§ 57, no. 38). The Nasik and Poona Districts, which seem not to be mentioned in the inscr. of Queen Bala-śrī, were, in like manner, conquered or reconquered from Nāhapāna by Gautamīputra; but, unlike the territories to the north and west, they remained in the possession of the Andhras and were not subdued by Rudradāman.¹ But while the place-names in the inscr. thus merely record the conquests of Gautamīputra and in no way represent the extent of his empire, the names of the mountains mentioned more adequately vindicate his claim to be called 'the Lord of the Deccan' (*Dakṣiṇāpathapati*) the hereditary title of the Śātavāhana Dynasty.² There is much uncertainty as to the identification of some of these mountains; but, when all doubtful cases are left out of consideration, it remains clear that Gautamīputra claimed to be lord of the great ranges which enclose the Deccan on the north and west—the Vindhya and the Western Ghats. There can be little doubt that, during his reign, the Andhra power was at its height; but of this wide empire, including so many subject kingdoms, only an imperfect numismatic record has been preserved. This record is, however, especially interesting as directly showing in the re-struck coins the transference of the rule over Western India from Nāhapāna to Gautamīputra (p. 68). The last known date of Gautamīputra is in the 24th year of his reign=A.D. 130+x.

44. Amidst all the bombastic titles which Gautamīputra bears in his mother's inscription, there are some which undoubtedly preserve the memory of historical facts. It was he 'who crushed down the pride and conceit of the

¹ This seems clear from the inscr. of Rudradāman and from those of Puṣumāvi and Śrī-Yajña.

² 'Notes,' § 57, nos. 1, 13.

Kṣatriyas; who destroyed the Śakas, Yavanas and Pahlavas, . . . who rooted out the Khakharāta family; who restored the glory of the Śātavāhana race.¹ The Kṣatriyas are the native Indian princes, the Rajputs of Rajputana, Gujarat and Central India; and the Śakas, Yavanas, and Pahlavas are respectively Scythian, Greek and Persian invaders from the north, who established kingdoms in various districts of Northern and Western India.² 'Khakharāta' is no doubt a dialectical form of 'Kṣaharāta,'³ the name of the family to which Bhūmaka and Nahapāna belonged (pp. 63 ff.); and the restoration of the glory of the Śātavāhana race refers to the reconquest of the Andhra dominions in Western India which had been seized by the Kṣaharātas.

45. Gautamīputra Śrī-Śātakarṇi (last recorded year, 24 = A.D. 130 + x) was succeeded by his son, Vāsiṣṭhīputra Śrī-Puṣumāvi, who is known to have reigned for at least 24 years.⁴ It is evident,⁵

Vāsiṣṭhīputra
Śrī-Puṣumāvi,
acc. A.D. 131 + x .

¹ 'Khatiya-dapa-māna-madanasa Saka-Yavana-Palhava-nisūdanasa—Khakharātavamsa-niravasesa-karasa Śātavāhana-kula-yasa-patiṣṭhāpana-karasa' (lines 5 and 6).

² These three peoples are mentioned together in the Rāmāyaṇa, Ādi-kāṇḍa, lv. 18–20, and lvi. 2, 3, and in Manu, x. 43, 44. They occur frequently in the epics and Purāṇas, and in inserr. The earliest reference to the Śakas in India is perhaps to be found in a *Vārttika* of Kātyāyana (probably 2nd cent. B.C.) on Pāṇini, vi. i. 94; cf. Bühler, SBE, *Manu*, p. cxiv, note 3. The Yavanas (Yonas) are mentioned in Aśoka's edicts, c. 250 B.C. In early Indian literature and inserr. the term 'Yavana' undoubtedly denotes a person of Greek descent; cf. Weber, IA, iv (1875), p. 244, though at a later period its use is extended to denote other foreigners. 'Palhava' is a corruption of 'Parthava,' the indigenous name of the Parthians; cf. Bühler, *op. cit.* p. cxv.

³ In the Prakrit of the Nasik inserr. *kha* = Skt. *kṣa*; cf. *Khatiya* = Skt. *Kṣatriya*.

⁴ Karle inscr. dated yr. 24, § 57, no. 16.

⁵ Rudradāman's conquest took place c. 150 A.D., and before the 19th yr. of Puṣumāvi. The inscr. of Bala-śrī seems to be a record of glory which has only recently passed away. The x , in the date A.D. 131 + x for Puṣumāvi's accession, is therefore probably a small quantity.

then, that he must be identified with the 'Śātakarṇi, Lord of the Deccan,' whom Rudradāman (inscr. dated Śaka 72 = A.D. 150) 'twice in fair fight completely defeated, but did not destroy on account of the nearness of their connection.'¹ This being so, a consideration of Queen Bala-śrī's inscription affords a further means of limiting the period within which Puḷumāvi's accession must fall, although it supplies no exact date. It is significant that, in this inscr., the territorial titles which Gautamīputra won by his conquests are not inherited by his son, who is simply styled 'Lord of the Deccan' (*Dakṣiṇā-pathēśvara*); and it may reasonably be inferred from this that, at the date of the inscr., in the 19th year of Puḷumāvi, the territories in question had ceased to belong to the Andhras in consequence of the defeats inflicted by Rudradāman. The accession of Puḷumāvi, therefore, probably took place less than nineteen years before A.D. 150, an uncertain date which may be conveniently represented as A.D. 131 + x .

46. The near relationship of Puḷumāvi and Rudradāman, to which reference is made in the Girnar inscr. of the
Relationship to Rudradāman. latter, is no doubt explained by the Kanheri inscr. of the Queen of Vāsiṣṭhiputra Śrī Śātakarṇi, who is called the daughter of the Mahākṣatrapa Ru[dra] (§ 57, no. 17). These two personages are almost certainly to be identified with Puḷumāvi and Rudradāman, who were therefore connected as son-in-law and father-in-law.

47. The Kanheri inscr. of Puḷumāvi's Queen is the only one of
Extent of dominions. his reign which has yet been found in Aparānta, a province which is included among Rudradāman's dominions in the Girnar inscr. (§ 57, no. 38), but which certainly

¹ Cf. Kielhorn, EI, viii, p. 47; v. *inf.* § 57, no. 38.

returned again subsequently into the possession of the Andhras.¹ This inscr., therefore, probably belongs to the early period of Puḷumāvi's reign, before the conquest of Rudradāman. Further evidence of the extent of Puḷumāvi's dominions is supplied by inscrr. and coins :—by inscrr., in Andhra-deśa, at Amaravati in the Kistna Dist. (undated); and in Northern Mahārāṣṭra, at Nasik (years 2, 6, 19 and 22), and at Karle (years 7, 24) (§ 57, nos. 10–16); and by coins, in Andhra-deśa, in the district of Fabric A (p. 20), and perhaps also in that of Fabric B (p. 24); on the Coromandel Coast (p. 22); and in the Chanda Dist. of Central India (p. 21).

48. Puḷumāvi is probably referred to by Ptolemy in a passage The [Σιρο]πτολεμαῖος (vii. i. 82), '*Baíθava, βασίλειον [Σιρο]πτολεμαίου,*' *μαῖος of Ptolemy.* which is supposed to mean 'Paithan, the capital of Siri-(Śrī-)Puḷumāvi.' Paithan on the Godavari in the Nizam's Dominions, the ancient Pratiṣṭhāna, is in Jain legend the capital of King Śālivāhana (Śātavāhana) and his son Śakti-kumāra (§ 57, nos. 1, 3); and it is quite likely that it still continued to be one of the chief centres of the Andhra government in the time of Puḷumāvi. As Ptolemy is known to have been working at Alexandria in 139 A.D., and to have been living after the death of Antoninus Pius (161 A.D.), he was certainly contemporary with Puḷumāvi, and the information which he gives concerning him is probably correct. Another statement of Ptolemy, which would seem to indicate that Puḷumāvi and Caṣṭana, the grandfather of Rudradāman, were contemporaries, may well be correct also.² There is more difficulty in explaining a notice which occurs in the section of Ptolemy immediately following the one in which Puḷumāvi seems to

¹ Kanheri inscrr. of Śrī-Yajña (§ 57, nos. 22, 23) and of Hārītiputra Viṣṇukaḍa-Cutu (*id.* no. 24).

² *l. inf.* 'History and Coins of the Western Kṣatrapas : Caṣṭana.'

be mentioned—vii. i. 83, ‘*Ἱππόκουρα, βασίλειον Βαλεοκούρου.*’ This has been interpreted ‘Hippokura, the capital of Viḷivāyakura,’ the name or title which occurs in conjunction with the metronymics Vāsiṣṭhīputra (p. 5) and Gautamīputra (p. 13) on coins found at Kolhapur. No satisfactory explanation has yet been suggested for this designation, which is evidently in some variety of Prakrit, but it is quite possible that it may have been a purely local title borne by the Andhra sovereigns only in the province in which the Kolhapur District was included. In this case, Ptolemy’s [Σιρο]-πτολεμαῖος (Śrī-Puḷumāvi) and Βαλεοκούρος (Viḷivāyakura) might well be one and the same person.¹ Two of Puḷumāvi’s predecessors seem to have borne the title ‘Viḷivāyakura’ in the district of Kolhapur only; and it is quite possible that he may have followed a traditional custom in this respect: but it must be admitted that there is no evidence of the fact.

49. Closely connected with Puḷumāvi both by the types of their coins and by the use of the same metronymic, Śiva-Śrī-Śāta-karṇi and Śrī-Candra-Śāti. ‘Vāsiṣṭhīputra,’ are Śiva-Śrī-Śātakarṇi and Śrī-Candra-Śāti. These may perhaps have been brothers of Puḷumāvi, and they are probably to be identified respectively with the Śiva-śrī and Skandha-svāti to each of whom the Matsya Purāṇa (*inf.* § 58) assigns a reign of seven years. No inscr. can with certainty² be attributed to either of these kings, and the coins only bear witness that they ruled in Andhra-deśa — Śiva-Śrī in the district of Fabric A (p. 29), Candra-Śāti in the districts of both Fabrics A and B (pp. 30-33).

¹ A foreigner might be excused for not knowing that, in our own country, the Prince of Wales, the Earl of Chester, and the Duke of Cornwall were the same person.

² King Śrī-Śivamaka-Śāta of the Amaravati inscr. (§ 57. no. 19) may perhaps be the same as King Śiva-Śrī-Śātakarṇi.

50. The identification of a Vāsiṣṭhīputra Catarapana (or Catarapana. phana) Śātakarṇi, of whom an inscr. dated in the 13th year has been found at Nanaghat, is uncertain (§ 57, no. 18). According to Pandit Bhagvānlāl Indrājī, the characters of the inscr. are those of the period of Gautamīputra Śrī-Yajña-Śātakarṇi.¹ The pandit supposed this king to be the successor of Puṣumāvi, and he found, in his reading of the rev. inscr. of the coin which he discovered in the stūpa at Sopara, proof that he was the father of Gautamīputra Śrī-Yajña-Śātakarṇi. The reading in question cannot, however, be supported;² and no evidence remains by means of which this king can be identified with certainty. The pandit was, no doubt, correct in his estimate of the period to which the inscriptional characters belong; but it is impossible to determine whether this king Vāsiṣṭhīputra Catarapana Śātakarṇi is a member of the dynasty otherwise unknown, or whether he should be identified with one of the three kings who about this time bear the same metronymic on their coins. In this latter case, if the length of the reigns is correctly given by the Matsya Purāṇa, he can only be identified with Puṣumāvi; and 'Catarapana' or '°phana' must be regarded as a local title, somewhat of the same character, perhaps, as 'Viṣivāyakura.'

51. There are more abundant historical memorials of the reign of Gautamīputra Śrī-Yajña-Śātakarṇi, but there is no evidence of his date, except the untrustworthy statements of the Purāṇas. According to the Matsya Purāṇa, his accession should be dated 14 years after the close of Puṣumāvi's reign (*i.e.* A.D. $155 + x + 14 = \text{A.D. } 169 + x$). His inscriptions, which prove that he reigned for at least 27 years, are found at the following places:—in Andhra-deśa, at Chinna (Cina) in the Kistna Dist. (year 27); in Mahārāṣṭra,

¹ JBERAS, xv, p. 314.² R. JRAS, 1905 p. 738.

at Nasik (year 7) ; in Aparānta, at Kanheri (undated, and year 16) (§ 57, nos. 20-23). His coins are found—in Andhra-deśa, in the districts of both Fabric A (p. 34) and Fabric B (p. 38) ; in the Chanda Dist. of Central India (p. 42) ; in Aparānta, at Sopara (Śmāṣṭra Fabric, p. 45).

52. After the reign of Śrī-Yajña, who seems from the testimony of inserr. and coins to have ruled over the whole of the Andhra dominions both in the eastern and western regions of the Deccan, there appears to have been a division of the empire. Hitherto, that is to say, probably up to about the end of the 2nd cent. A.D., the Śātavāhana Dynasty had held the supreme power uninterruptedly from the beginning. The founder of the line bears the name 'Śātavāhana' inscribed over his statue in the Nanaghat cave (*Rāyā Simuka Śātavāhano*), and the title 'Śātavāhana-kula' 'of the race of Śātavāhana' is borne both by his immediate successor Kṛṣṇa (§ 57, no. 2) and by his distant descendant Gautamīputra Śrī-Śātakarṇi (§ 44). This line is evidently represented by the lists in the Purāṇas which are professedly genealogical in character. They record the names of three kings after the reign of Śrī-Yajña ; and, as one of these names (Śrī-Candra) may have to be restored in the legend of certain coins of late date found in Andhra-deśa (p. 49, note 1), there is some ground for supposing that the later members of the Śātavāhana Dynasty continued to rule over the eastern provinces. The western provinces were now in the possession of another family of Śātakarṇis (§ 54).

53. The latest inscribed coins of the Andhras bear the names of Śrī-Rudra-Śātakarṇi (Andhra-deśa, the district of Fabric B, and possibly also the district of Fabric A, and probably the Chanda Dist. of the Central Provinces, c. pp. 46, 47), Śrī-Kṛṣṇa-Śātakarṇi (Chanda

Dist., p. 48), and possibly a second Śrī-Candra (Andhra-deśa, the district of Fabric B, p. 49). No coins of these kings have been found in Western India. The last mentioned may be the Candra-śrī who occupies the last place but one in the dynastic lists in the Purāṇas (§ 58); but it is impossible to identify the other two with any names in these lists.

54. Inserr. in the Western and Southern districts of the
 Cuṭu Dynasty in empire in Aparānta (Kanheri, § 57, no. 24), in
 West and South. Kanara (Banavasi, *id.* no. 25), and in the north
 of Mysore (Malavalli in the Shimoga Dist., *id.* no. 26) testify
 to the existence of another family of Śātakarṇis, 'of the Cuṭu
 race (*Cuṭukula*),' of which three generations including two reigns
 are known to have existed before the conquest of the Banavasi
 Dist. by the Kadambas. The connection between the two
 families of Śātakarṇis, the Śātavāhana and the Cuṭu, is quite
 uncertain; but, as the latter is intimately connected with the
 Mahārāṭhis and Mahābhōjas (§ 27), it seems probable that it
 was originally feudatory, and that it gained independence when
 the power of the empire began to decline after the reign of
 Śrī-Yajña.

55. The two members of this family who are known to have
 Viṣṇukāḍa-Cuṭu-
 kulānanda and
 Śiva-[skanda]-
 varman. reigned are Hāritiputra Viṣṇukāḍa-Cuṭukulānanda
 Śātakarṇi, and his grandson Hāritiputra Śiva-
 [skanda]-varman. To neither of these is it
 possible to assign any coins with certainty. The large lead
 coins from Karwar bearing the title '*Cuṭukāḍānanda*' are doubt-
 fully attributed to an earlier feudatory member of the family
 (§ 28), while the reading *Hāriti*, as a portion of the legend on
 the lead coins found in the Anantapur and Cuddapah Districts
 of Southern India (p. 25, note 1), is not at present sufficiently
 certain to justify the attribution of the coins to one of these kings.

56. The end of the Andhra dominion in India is most clearly to be traced in the province of which Banavasi was the capital. The two inscrr. on the same pillar at Malavalli, in the Shimoga Dist. of Mysore, show the transference of this province from the Cuṭu dynasty to the Kadambas soon after, probably immediately after, the reign of Śiva-[skanda]-varman (§ 57, nos. 26, 28). No precise date can be assigned to this transference, but it probably took place at some time in the first half of the 3rd cent. A.D. In Mahārāṣṭra the inscr. of the Ābhira king Īśvarasena at Nasik (§ 57, no. 43) shows that the Andhras were succeeded by a dynasty of Ābhīras. If, as seems not improbable, this dynasty of Ābhira kings is to be identified with the Traikūṭaka dynasty, which is known at a later date from inscrr. and coins, the establishment of the Traikūṭaka era in A.D. 249 may reasonably be supposed to mark the date at which the Ābhīras succeeded the Andhras in the government of this province.¹ In Andhra-deśa, the Jaggayyapetta inscr. of Śrī-Vīra-Puruṣadatta (§ 57, no. 30) seems to show that the Śātavāhana dynasty was succeeded by a dynasty of Rajputs of northern descent, perhaps in the 3rd cent. A.D., before the accession of the Pallavas to the throne of Veṅgi.² So much information as to the decline of Andhra power in various provinces of the empire may be gained from the testimony of the inscrr.; and it would seem that some reflection of the true history of this period is still preserved by the Purāṇas, distorted as their statements now are by textual corruption. They all give lists of the successors of the Andhras, with the numbers of the reigns in each dynasty. At present these names are often manifestly corrupt, the numbers are confused, the lists are discrepant, and all these dynasties are

¹ Flett, JRAS, 1905, p. 568.

² Bühler, IA, xi (1882), p. 257.

represented as successive and, presumably, as reigning over the whole of the empire which once belonged to the Andhras. It is probable that originally these passages contained lists of minor powers —Ābhīras, &c.—which arose in different districts on the ruins of a great empire.

NOTES ON THE INSCRIPTIONS.

57. The following list contains notes on the chief inserr. which supply materials for the history of the dynasties to which the coins described in this volume belong. References to the latest editions of the inserr. are given in each case, and notes have been added wherever a different interpretation has been followed. The inserr. are arranged under reigns, in the first place, according to locality, and, in the second place, chronologically :-

INSCRIPTIONS OF THE ANDHRA DYNASTY.

1. Nanaghat: Sacrificial inser. of Queen Nāganikā, and inserr. above relievo figures (*v. sup.* §§ 20, 21).

(Bühler, ASWI, v, p. 60, Pl. LI. 1 ; *cf.* also Bh. JBBRAS, xiii (1877), p. 311 ; BG, xiv, p. 287, and xvi, p. 611.)

Bühler's version is not followed in regard to the following particulars :—

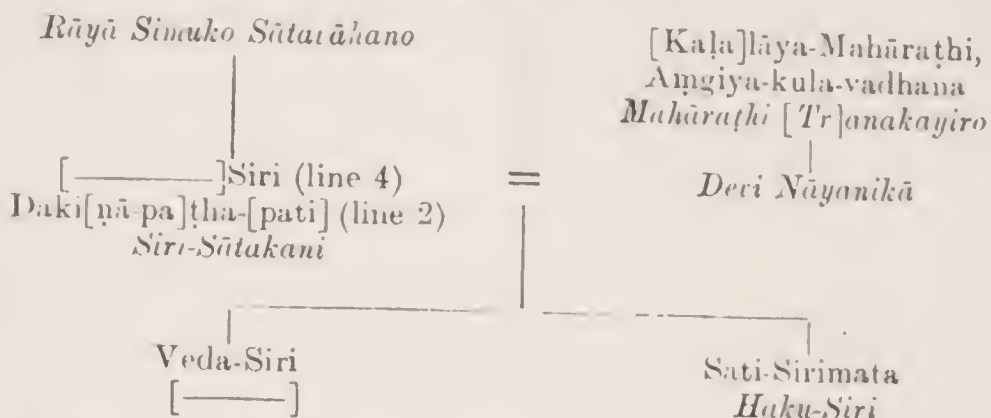

Line 1. *Namo* in each instance refers to the preceding genitive. The inser. proper begins with *Kumārasa*, and in the hiatus Prince Vedi-Śrī was probably described as the son of King [Śrī-Śātakarṇi] the Lord of the Deccan.

Line 3. Restore [*Kaḷa*]lāya on the evidence of the coin (p. 57, *cf.* R. JRAS, 1903, p. 298).

The inser. over the statue of Veda-Siri is supposed to be lost.

The inser. is a record of sacrifices performed, and of donations made to the sacrificing Brāhmins. It is set up by Queen Nāganikā, the wife of King Śrī-Śātakarṇi, acting apparently as regent during the minority of her son, Veda-(Vedi-)Śrī. On the assumption that the relievo figures in the cave are representations of the royal personages mentioned in the

inser., the following table exhibits the relationship of the principal characters mentioned. Names occurring in the inser. are printed in Roman type, and those inscribed over the relievos in *Italics*. Names of doubtful identification are omitted.

2. Nasik : King Kṛṣṇa of the Śātavāhana race. Undated (§ 22).

(Senart, EI, viii, p. 93, Pl. vi. 22 ; Bühler, ASWI, iv, p. 98, Pl. LI. 1 ; cf. Bh. BG, xvi, p. 593.)

Records the making of a cave 'when King Kṛṣṇa of the Śātavāhana race was king' (*Sātavāhanakule Kaṇhe rājini*).

3. Nasik : Possibly containing the name of King Śakti-Śrī (§ 25).

(Senart, EI, viii, p. 91, Pl. III. 19 ; cf. also Bh. BG, xvi, p. 589 ; Bühler, ASWI, iv, p. 99, Pl. LI. 4.)

An abrasion of the stone makes the relation of the donor to *Mahāhakusiri* doubtful. M. Senart suggests that the reading may have been 'Mahāhakusiri[nati]ya Bhaṭapālikāya' 'By Bhaṭapālikā, [grand-daughter] of Mahāhakusiri,' and observes that 'if this Mahāhakusiri is really the same as the Kumāra Hakasiri at Nānāghāt, two generations would not be too much to explain the difference in the forms of the letters which exists between our epigraph and the Nānāghāt inscription.' Bh., however (BG, xvi, p. 608), assigns the inser. to an early period, and supposes that the change in the characters of its alphabet is due not only to time but to the development of the 'Malwa and Upper India' style. The donor is described as the daughter of the royal minister Acahalaya and the wife of the royal minister Agiyatanaka.

4. Bhilsa, Sanchi Tope. No. 1 : Vāsiṣṭhīputra Śrī-Śātakarṇi (§ 29).

(Cunningham, *Bhilsa Topes*, pp. 214, 264, Pl. XIX. 190 ; Bühler, EI, ii, p. 88.)

The lines in Cunningham's eye-copy, which is the only copy of this inscr. available for study, are arranged as follows:—(1) *Rāño Siri-Sātakarṇisa*, (2) *āresanisa Vāsīṭhiputasa*, (3) *Ānaṃḍasa dānam* = 'A donation of Vāsīṭhiputa Ānaṃḍa, *āresani* or foreman of the artisans of King Siri-Sātakarṇi' (Bühler). But, as 'Vāsīṭhiputa' is so commonly found as a metronymic of the Śātakarṇis, it would seem not improbable that the order of the first two lines has been confused in the process of copying, and that they should be read—' *Rāño Vāsīṭhiputasa Siri-Sātakarṇisa*, &c.'

5. Kanheri: Māṭharīputra Svāmi-Śakasena, year 8, 5th fortnight of the hot season, day 10 (§ 36).

(Bühler, ASWI, v, p. 79, Pl. LI. 14; cf. also Bh. JBBRAS, xii, p. 407; West, *id.* vi, Pl. no. 19.)

Bühler read the name as Sakasena or Sika?. Bh. proposed to amend this as Siri?. The evidence of West's eye-copy is in favour of the reading *Sakasena*.

6. Kanheri: the same king, and probably dated on the same day as the last (*id.*).

(Bühler, ASWI, v, p. 82; cf. also West, JBBRAS, vi, Pl. no. 20.)

The name is incomplete. Bühler considered that the traces indicated the reading *Sakase-*. The first two *akṣaras* are probable also from West's eye-copy.

7. Nasik: Gautamīputra Śrī-Śātakarṇi, year 18, 2nd fortnight of the rainy season, day 1 (§ 38).

(Senart, EI, viii, p. 71, Pl. II. 4; Bühler, ASWI, iv, p. 104, Pl. LIII. 13).

Gautamīputra Śrī-Śātakarṇi, the lord of Benākāṭaka in Govardhana (the *āhāra* or district of Nasik) sends from the camp of victory of the army at Vaijayantī (or 'of Vai', *i.e.* Banavasi) an order to Viṣṇupālita, the minister in Govardhana. The order has reference to the transfer of a field in the village of West Kakhaḍi previously in the possession of Rṣabhadatta, Nahapāna's son-in-law, to the monks living in the Tiriraśmi Mountain. The word *ajakūlakiyaṃ* in the phrase '*ya khetam ajakūlakiyaṃ Uṣabhadātena bhūtam*' has been differently translated by Bhagvānlāl and Bühler, and by M. Senart. The former suppose it to be a form derived from *ajakāla* = Skt. *adyakāta*, 'to-day,' and explain the phrase as meaning 'the field which has been possessed by Rṣabhadatta up to the present

time': the latter regards it as the name of the field. But, whichever rendering may be accepted, the significance of this inser. is not materially affected. There can be little doubt in any case that it indicates the recent transfer of the government in the Nasik Dist. from the Kṣaharātas to the Andhras. The edict is issued from the camp of the victorious army, now, probably, in quarters for the rainy season at Banavasi, and its object is to extend to the monks of the Triraśmi Mountain the patronage which had been previously bestowed on them by Rṣabhadatta, who had constructed a cave for them. (Cave, no. 10; v. Nasik inser. of Rṣabhadatta, Senart, EI, viii, pp. 78, 79, and inser. no. 31 *inf.*) The edict is issued through the minister Śivagupta—apparently Gautamiṣtra's minister at Banavasi—who is probably to be identified with the Śiva-skanda-gupta mentioned in another edict issued by Gautamiṣtra at Karle (inser. no. 9 *inf.*).

8. Nasik : Gautamiṣtra Śrī Śātakarṇi, a continuation of the last inser. with two dates—year 24, 2nd fortnight of the hot season, day 10, and year 24, 4th fortnight of the rainy season, day 5 (§ 41).

(Senart, EI, viii, p. 73, Pl. II. 5; Bühler, ASWI, iv, p. 105, Pl. LIII. 14.)

This is an order of the king to be communicated to Śyāmaka, the minister in Govardhana, 'in the name of the King Gautamiṣtra and of the king's queen-mother whose son is living.' The name of this queen, Bala-Śrī, is known from her inscription dated in the 19th year of her grandson Puṣumāvi (*inf.* no. 13). The fact that she is associated with the king in this order may, perhaps, be significant. There is some reason to suppose that the reign of her son did not extend much beyond its 24th year, the date of this inser. (*cf.* § 45); and it is quite possible that some cause, such as failure of health in his later years, may have led to the association of Queen Bala-Śrī in the government. This may also explain the commanding position which she occupies during the reign of Puṣumāvi. The present order makes a grant of another field to the monks of the Triraśmi Mountain, in place of the field in the village of Kakhaḍi—no doubt the Western Kakhaḍi of the last inser.—which had gone out of cultivation and been deserted. The earlier date, which is mentioned last in the inser., is the actual date of the donation, the later is the date on which the grant was executed by Sujyvin.

9. Karle: [Gautamīputra Śrī-Śātakarṇi], year 1[8], 4th fortnight of the rainy season, day 1 (§ 39).

(Senart, EI, vii, p. 64, Pl. II. 19; Bühler, ASWI, iv, p. 112, Pl. LIV. 20.)

This inser. has hitherto been attributed doubtfully either to Gautamīputra Śrī-Śātakarṇi or to his son Puṣumāvi. The name is missing from the beginning of the inser.; but internal evidence leaves no reasonable doubt that it must have been that of Gautamīputra. The inser. places on record an edict sent to the minister in charge of Māmāḍa (line 1) or Māmāla (line 2), no doubt the name of the *āhāra* in which Karle was situated. The name of this minister is uncertain, but it undoubtedly ended in *-gupta*.¹ The edict grants to the monks living in the caves of Valūraka, the village of Karajaka in the Māmāla District. It is executed by Śiva-skanda-gupta, on the 1st day of the 4th fortnight of the rainy season in the year 1[x]. The unit figure is quite doubtful. Like that of the similar edict at Nasik, it was originally read by Bühler as 4. The correction to 8 is no doubt justified in the case of the Nasik edict, and the following considerations show that it should be made here also. The village of Karajaka mentioned here must surely be the village of Karajika which was granted to the same monks by Ṛṣabhadatta. (Karle inser., *inf.* no. 36). We have here, therefore, as in the Nasik edict, the record of the renewal of privileges previously granted by Ṛṣabhadatta. In spite of some difficulty in the reading and interpretation of the passage in the present inser., it seems certain that both the Nasik and the Karle edicts were issued from the victorious camp; and it is almost certain too that both were executed by the same minister, who is called 'Śiva-gupta' at Nasik, and 'Śiva-skanda-gupta' here (inser. no. 7 *sup.*). This testimony surely indicates that the present edict was also issued by Gautamīputra Śrī-Śātakarṇi as a result of his victory over Nahapāna, and that its date must be similarly in the year 18. If so, the date of the execution of this inser. is precisely two fortnights later than that of the last.

¹ In M. Senart's plate the reading *-guta* in line 1 seems certain; *cf.* the same syllables in line 6. The two preceding syllables—read as *pa r*.—suggest that we may have here the name which has been so variously read on the Bhutari seal of Kumāra-gupta II, as *Pura-gupta*, &c. (v. Smith and Hoernle, JASB, 1889, p. 90).

10. Amaravati : Vāsiṣṭhīputra Svāmi-Śrī-Puḷumāvi, year lost.
(Burgess, ASSI, i, p. 100, Pl. Lvi. 1.)

Records a gift to the Amaravati Tope (line 2, *mahācitya* = 'the great *caitya*').

11. Nasik : Vāsiṣṭhīputra Svāmi-Śrī-Puḷumāvi, year 2, 4th fortnight of Winter, day 6 (or 8).

(Senart, EI, viii, p. 94, Pl. vi. 25 ; Bühler, ASWI, iv, p. 107, Pl. LIV. 15.)

The name is here spelled Puḷumāi.

12. Nasik : Vāsiṣṭhīputra Śrī-Puḷumāvi, year 6, 5th fortnight of Summer, day x.

(Senart, EI, viii, p. 59, Pl. III. 1 ; Bühler, ASWI, iv, p. 107, Pl. LIV. 16 ; cf. Bh. BG, xvi, p. 544.)

The name is here spelled Puḷumayi. The day was read as 'the first' by Bühler (*op. cit.*).

13. Nasik : Vāsiṣṭhīputra Śrī-Puḷumāvi, year 19, 2nd fortnight of Summer, day 13 (§§ 42-44).

(Senart, EI, viii, p. 60, Pl. I. 2 ; Bühler, ASWI, iv, p. 108, Pl. LII. 18 ; cf. also Bhand., *Trans. Int. Or. Cong.* 1874, p. 307, and EHD, p. 17 ; Bh. BG, xvi, p. 553.)

This is an inscr. of Queen Gautamī Bala-Śrī, the mother of Gautamīputra Śrī-Śātakarṇi, and the grandmother of Puḷumāvi, the 'Lord of the Deccan,' whose name is here spelled 'Puḷumāyi.' The inscr. records the donation of a cave by Queen Bala-Śrī to the Buddhist monks of the 'Bhadāvanīya' school dwelling on Mount Triraśmi, and of the gift by Puḷumāvi of the village of 'Pisājipadaka' for its support. The great historical importance of the inscr. consists in the information which it gives as to the extent of Gautamīputra's dominion and the events of his reign. The relationship of the different persons mentioned is as follows :—

$$\begin{array}{c}
 x = \text{Gautamī Bala-Śrī} \\
 | \\
 \text{Gautamīputra Śrī-Śātakarṇi} = [\text{Vāsiṣṭhī}] \\
 | \\
 \text{Vāsiṣṭhīputra Śrī Puḷumāvi}
 \end{array}$$

14. Nasik: Vāsiṣṭhīputra Śrī-Puḷumāvi, year 22, xth fortnight of Summer, day 7.

(Senart, EI, viii, p. 65, Pl. II. 3; Bühler, ASWI, iv, p. 110, Pl. LII. 19; Bhand., *Trans. Int. Or. Cong.* 1874, p. 314.)

This is a continuation of the last. Puḷumāvi, the 'Lord of Navanara (Navanagara)' (*Navanara-svāmī*), sends an order to Śiva-skanda-datta (Sivakhadila), the minister in Govardhana, that the village of 'Sudasana' (=Skt. *Sudarśana*), given to the monks on the date mentioned in the last inscr., shall be exchanged for the village of 'Sāmalipada.' 'Sudasana' must, therefore, be another name for the village of 'Pisājipadaka.'

15. Karle: Vāsiṣṭhīputra Svāmi-Śrī-Puḷumāvi, year 7, 5th fortnight of Summer, day 1.

(Senart, EI, vii, p. 61, Pl. II. 14; Bühler, ASWI, iv, p. 107, Pl. LIV. 17.)

The restoration of the name of Puḷumāvi in this inscr. is certain, but the spelling must remain doubtful. The inscr. records the donation to the monks of Valūraka of a village by the Mahārāṭhi Vāsiṣṭhīputra Somadeva, son of the Mahārāṭhi Kauśikīputra Mitradeva of the Okhalakiyas.

16. Karle: Vāsiṣṭhīputra Śrī-Puḷumāvi, dated year 24, 3rd fortnight of Winter, day 2, with mention of year 21 (§ 45).

(Senart, EI, vii, p. 71, Pl. III. 20; Bühler, ASWI, iv, p. 113, Pl. LIV. 21.)

The reading of the date mentioned as 'in the 21st year' (not 'in the 31st year,' as read by Bühler) is quite certain.

17. Kanheri: Probably of the Queen of Vāsiṣṭhīputra Śrī-Puḷumāvi, undated (§§ 46, 47).

(Bühler, ASWI, v, p. 78, Pl. LI. 11; cf. IA, xii (1883), p. 273.)

This inscr. is fragmentary, and its exact purport is uncertain. The queen's name is missing, but she is described as 'the Queen of Vāsiṣṭhīputra Śrī-Śātakarṇi, descended from the family of Kārddamaka Kings. She was almost certainly also described as '[the daughter] of the Mahākṣatrapa Rudra.' There can be little doubt that the Vāsiṣṭhīputra here mentioned is Puḷumāvi, and that the Mahākṣatrapa Rudra is Rudradāman. The donation recorded was made by the minister Sateraka.

18. Nanaghat : Vāsīṣṭhīputra Catarapana (phana) Śātakarṇi, year 13, 5th fortnight of Winter, day 10 (§ 50).

(Bh. JBBRAS, xv, p. 313.)

A private dedication.

19. Amaravati : King Śrī-Śivamaka-Śāta (*Śrī-Śivamaka-Sada*), undated (§ 49).

(Burgess, ASSI, i, p. 61, Pl. LVI. 2.)

The inscr. is fragmentary and its purport uncertain. This king may possibly be the Śiva-Śrī-Śātakarṇi of the coins which are found in this region. The epigraphy shows that he must belong to a late period.

20. Chinna (Cina) : Śrī-Yajña Śātakarṇi Gautamīputra, year 27, 4th fortnight of Winter, day 5 (§ 51).

(Bühler, EI, i, p. 96.)

A private dedication. Chinna is a village in the Kistna Dist.

21. Nasik : Gautamīputra Svāmi-Śrī-Yajña Śātakarṇi, year 7, 3rd fortnight of Winter, day 1.

(Senart, EI, viii, p. 94, Pl. i. 24 ; Bühler, ASWI, iv, p. 114, Pl. LV. 22.)

Records the completion and donation to the monks of a cave by the Mahāsenāpatnī Vāsu, wife of the Mahāsenāpati Bhavagopa, of the Kauśika family.

22. Kanheri : Gautamīputra Svāmi-Śrī-Yajña Śātakarṇi, year 16, 1st(?) fortnight, day 5.

(Bühler, ASWI, v, p. 79, Pl. LI. 14 ; cf. West, JBBRAS, vi, Pl. no. 44.)

Granting to the monks living on the Kṛṣṇa-Śaila (= Kaṇhagiri, Kanheri) endowments consisting of a sum of money put out at interest and revenue derived from a field in the village of Maṅgalasthāna, the modern Magathan (JBBRAS, vi, p. 13).

23. Kanheri : Gautamīputra [Svāmi-Śrī-Yajña] Śātakarṇi, year lost, 5th fortnight of Summer, day x.

(Bühler, ASWI, v, p. 75, Pl. LI. 4 ; cf. West, JBBRAS, vi, Pl. no. 4.)

A private dedication. The proper name of the king has been lost, but the Gautamīputra in question must almost certainly be Śrī-Yajña.

21. Kanheri : [Hāritīputra Viṣṇukaḍa-Cuṭu Śātakarṇi], date lost (§ 54).
(Bühler, ASWI, v, p. 86.)

In the absence of the king's name from this inser., it has hitherto been assigned conjecturally to the reign of Puḷumāvi. But internal evidence proves that this attribution is incorrect. The donor mentioned in the inser. is Nāgamulanikā. She is the wife of a Mahārāṭhi, the daughter of a Mahābhōjī and of the Great King, and the mother of *Khaṃda-nāga-Sātaka* (Skanda-nāga-Śātaka). There can be no doubt that she is to be identified with the donor mentioned in the following inser. from Banavasi, and that she was, therefore, the daughter of King Hāritīputra Viṣṇukaḍa-Cuṭu Śātakarṇi, whose name must have stood originally in the present inser.

25. Banavasi : Hāritīputra Viṣṇukaḍa-Cuṭukulānanda Śātakarṇi, year 12, 7th fortnight of Winter, day 1 (§ 54).

(Bühler, IA, 1885, p. 331 ; Burgess and Bhagvānlāl, *Cave-Temples*, ASWI, Misc. Rep., no. 10, p. 100.)

This inser., which stands in the court of the great temple of Banavasi in Kanara, is important in several ways. The king's title, *Viṇhukaḍa-Cuṭukulānanda*, shows that 'Cuṭu,' like 'Śātavāhana,' is the name of a clan (*kula*). The word was read by Bühler as *Duṭu* ; but an examination of the copy and the tracing of the inser. which accompany his article shows that the first syllable is undoubtedly to be read as *Cu-*. The form of *d* used in this inser. is quite different (*cf.* the *di-* in the word *divas*[*e*] in the same line), and the confusion has arisen from the obliteration of the right-hand portion of the letter *c* in *cu-*. The reading *Cuṭu-* is further established by the Malavalli inser. (*inf.* no. 26) and by the coins (§ 28). *Viṇhukaḍa* = Skt. *Viṣṇu* is probably a place-name. The proper name of the donor seems not to be mentioned in this inser. ; but she is called the daughter of the Great King, and is associated in the donation with Prince *Siva khaṃda-nāga-siri* (Śiva-skanda-nāga-śrī). She is further apparently styled 'Mahābhōjī' ; or it is possible that the words '*Mahābhūvia mahā-rāja*[*bāli*]*kūya*' may be intended to mean 'of the daughter of the Mahābhōjī and of the Great King.' If this latter interpretation could be accepted, the epithets, except for the omission here of the title '*Mahārāṭhinī*,' 'wife of the Mahārāṭhi,' would be the same as in the last inser. (no. 24) ; and, as there can be little doubt that the Prince Śiva-skanda-nāga-śrī of this

inscr. is to be identified with the Skanda-nāga-Śātaka of the last, the donor mentioned in the two inserr. must be one and the same person, viz. the daughter of the reigning king Hāritīputra Viṣṇukaḍa-Cuṭukulānanda Śātakarṇi. The inscr. of the Kādamba king at Malavalli (*inf.* no. 28) shows that her son (there called Śiva-[skanda]-varman) subsequently came to the throne, and that he was probably the last reigning member of the Cuṭu dynasty.

26. Malavalli, in the Shimoga Dist. of Mysore: Hāritīputra Viṣṇukaḍacuṭu Śātakarṇi, year 1, 2nd fortnight of Summer, day 1 (§ 54).

(Rice, EC, vii, Intro. p. 4, Text with Pl., p. 251, Trans. p. 142 ;

cf. Bühler, IA, xxv (1896), p. 28 ; Fleet, JRAS, 1905, p. 304.)

This inscr. records the grant of a village, and is important in two respects. It gives to the king the title ‘*Vaijayantī-pura-rājā*,’ ‘King of the city of Banavasi’ ; and it is followed on the same pillar by an inscr., which ‘to judge from the characters cannot be much later’ (Bühler, *op. cit.*), and which shows that the kingdom of Banavasi had passed from the Cuṭu family into the hands of the Kadambas (*inf.* no. 28).

INSCRIPTIONS CONTAINING REFERENCES TO THE ANDHRA DYNASTY.

27. Hathigumpha : Khāravela, King of Kalinga, 165th year (current) of the era of the Maurya kings, and the 13th of reign (§ 17 and *reff.*).

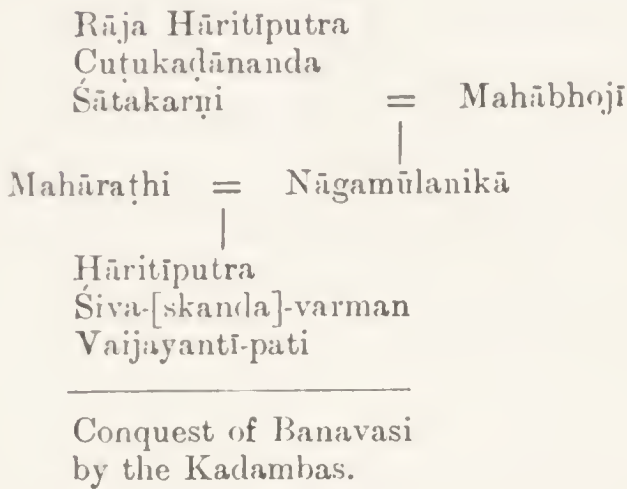

28. Malavalli, in the Shimoga Dist. of Mysore : a Kādamba king unnamed, no date (§ 56).

(Rice, EC, vii, Intro. p. 6, Text with Pl., p. 252, Trans. p. 142 ;

cf. Bühler, IA, xxv (1896), p. 28 ; Fleet, JRAS, 1905, p. 305.)

For this inscr. *v. sup.*, no. 26. A “King of the Kadambas—rightful Supreme King of Banavasi” (*Vaijayantī-pura-dhamma-mahārājādhirāja—Kadambānām rājā*) makes a fresh grant of a village which had been previously given “by the Lord of Banavasi—Hāritīputra Śiva-[skanda]-varman” (*Śiva-[khada]-varmaṇā—Haritī-puttena Vaijayantī patinā*). The characters of this inscr. scarcely differ from those of no. 26, and it is impossible that the two inserr. can have been separated by any long interval. Śiva-[skanda]-varman is almost certainly to be identified with the Śiva-skanda-nāga-śrī of no. 25, and the Skanda-nāga-Śātaka of no. 24.

It is probable that he was the last member of the Cuṭu dynasty to reign at Banavasi before the Kadamba conquest. The information which the inscr. yield as to the history of this family of the Śātakarṇis may be tabulated thus :—

29. Talagunda, in Shikarpur taluq of Mysore, Kādamba king, Kākustha-varman : not dated.

(Rice, EC, vii, Text p. 200, Trans. p. 113; cf. EC, iv, Intro. pp. 1, ff.; Bühler, *Academy*, 21 Sept., 1895.)

This inscr., which is probably of the 5th cent. A.D., records the foundation of a tank by a Kādamba king, Kākustha-varman. It consists of a poem which was composed by order of his son, Śānti-varman, and is a most valuable document for the history of the Kadambas. It preserves the memory of the former Andhra dominion in this region in the mention of the Śaiva temple 'where Śātakarṇi and other great kings had worshipped.'

INSCRIPTION OF A DYNASTY OF IKṢVĀVUS.

30. Jaggayyapetta Stūpa in the Kistna Dist.: MāṭharIputra Ikṣvākūṇām Śrī-Vira-Puruṣadatta, year 20, 8th fortnight of the rainy season, day 10 (§ 56).

(Burgess, ASSI, i, p. 110, Pl. LXII. 1 and 2, and Pl. LXIII. 1; Bühler, LA, xi (1882), p. 256.)

The letters of this inscr., which is copied thrice, are of the Andhra type, but later in date. This king must belong to some Rajput dynasty

which succeeded the Andhras in the Kistna Dist., before the Pallavas gained possession of this region.

INSCRIPTIONS OF THE KṢAHARĀTA DYNASTY.

31. Nasik : Rṣabhadatta (Uṣavadāta), son-in-law of Nahāpāna, undated.

(Senart, EI, viii, p. 78, Pl. iv, 10 : Bühler, ASWI, iv, p. 99, Pl. LI, 5 ; cf. also Bh. BG, I. i. p. 25, and xvi, p. 615 ; Bhandl., *Trans. Inter. Or. Cong.* 1874, p. 328 ; Hoernlé, IA, xii (1883), p. 27, and Bhandl., *ibid.*, p. 139.)

The immediate object of the main portion of this inscr. is to record the construction of the cave in which it stands 'in the Tiriraśmi Hills in Govardhana ;' but the opportunity is taken to record also other benefactions made 'by Rṣabhadatta (Uṣavadāta), son of Dmuka, and son-in-law of the Kṣaharāta king, the Kṣatrapa Nahapāna.' This portion is in Sanskrit. The names of places and rivers therein mentioned in connection with the benefactions cannot all be identified with certainty ; but the following are beyond doubt :—*Prabhāsa* = Somnath Pattan in S. Kathiawar ; *Bharukaccha* = Broach ; *Govardhana*, used both to indicate a town of this name and the district in which it was situated (the Nasik Dist.) ; *Śopāraga* = Supara near Bassein in the Thana Collectorate ; *Pārūdā* = the Paradi or Par river in the Surat Zilla ; *Damaṇa* = the Damanaganga river near Daman ; *Tāpī* = the Tapti ; *Dāhamukā* = the creek S. of Dahanu in the Thana Collectorate.

The chief inscr., which is in Sanskrit, is followed by two postscripts engraved in smaller characters, and composed in a Prakrit dialect which approaches very nearly to Sanskrit. The first of these postscripts departs from the impersonal construction hitherto used in this inscr., and uses in the first person the actual words of Rṣabhadatta :—'And by the order of the lord I went to relieve the chief of the Uttamabhadras, who was besieged for the rainy season by the Mālayas ; and the Mālayas fled as it were at the sound (of my approach), and were made prisoners by the Uttamabhadras. Thence I went to the Puṣkara lakes and was consecrated, and made a donation of three thousand cows and a village.' The Uttamabhadras were no doubt a tribe of Kṣatriyas. The Mālayas have been supposed to

be either 'the inhabitants of the Malaya hills in Southern India' (Bühler) or 'the Mālavas' (Bh.). The latter identification is the more probable.¹ The 'Puṣkara lakes (*Pokṣarāni*)' are no doubt the sacred bathing-places at Pushkar (Pokhar) near Ajmer. It cannot be determined whether Rṣabhadatta's 'consecration (*abhiṣeka*)' had any special significance, or whether it formed part of the ordinary pilgrim's ceremonial.

The second postscript begins impersonally :—'A field also was given by him, bought for 4000 *kārṣāpaṇas*, &c. ;' but ends in the first person with the exact words of the donor :—'From it food will be procured for all monks, without distinction, dwelling in my cave.'

It is probable that the places mentioned in this inscr. fall generally within the territory which was immediately under the control of Rṣabhadatta, the son-in-law and general of Nahapāna. But, as has been pointed out by Bh. (BG, xvi, p. 615) the gifts recorded at Prabhāsa and at the Puṣkara lakes, two well-known places of pilgrimage, may well have been made by him as a pilgrim. Apart from these two places, which were probably both within Nahapāna's dominions, though not under the direct control of Rṣabhadatta, the inscrs. of Rṣabhadatta at Nasik and Karle seem to show that he ruled as Nahapāna's viceroy over S. Gujarat and the Northern Konkan from Broach to Sopara, and over the Nasik and Poona Districts of the Mahratta country. The family history of Rṣabhadatta seems to be as follows (*cf.* nos. 34, 37) :—

Dinika		Nahapāna
Rṣabhadatta	=	Dakṣamitrā
(Uṣavadāta)		
		Mitradevanaka

32. Nasik : Rṣabhadatta, year lost, 15th day of the bright half of the month Caitra.

(Senart, EI, viii, p. 85, Pl. vi, 14a ; Bühler, ASWI, iv, p. 101, Pl. LIII, 7.)

The immediate object of this fragmentary inscr. is uncertain. Some of the names of places at which benefactions are recorded are the same as in

¹ For the interchange of *y* and *r*, *cf.* the alternative forms *Puḷumāyi* and *aluma*.

other inscriptions of R̥ṣabhadatta (*cf.* nos. 31, 36), but others are peculiar to this inser. Among the latter appears 'Ujjain (*Ujēni*),' the capital of West Malwa (*Avanti*), which, no doubt, formed part of Nahapāna's dominions. It is almost certain that R̥ṣabhadatta is called a Śaka in line 2 of this inser. The year of the date is lost in line 8, but the month and day remain.

33. Nasik: R̥ṣabhadatta, year 42, month Vaiśākha; with postscript mentioning years 41 and 45.

(Senart, EI, viii, p. 82, Pl. v. 12; Bühler, ASWI, iv, p. 102, Pl. LI. 9; *cf.* also Bhand., *Trans. Inter. Or. Cong.* 1874, p. 331; Bh. BG, xvi, p. 575.)

Records the gift of a cave and certain endowments to support the monks living in it during the rainy season. A postscript refers to a previous donation made originally in the year 41 on the 15th day of the bright half of the month Kārtika, and apparently increased by further endowments on the 15th day (fortnight *x* of month *x*) in the year 45. Among these endowments, one investment of 2000 *kārṣāpaṇas* with a guild of weavers at Govardhana bears interest at the rate of 1 per cent. per *ensem* (*radhī paḍika-śata*), and the amount thus forthcoming annually, viz. 240 *kārṣāpaṇas*, provides the 20 monks living in the cave during the rainy season with 12 *kārṣāpaṇas* each for clothing. Another investment with another guild of weavers at Govardhana is of 1000 *kārṣāpaṇas* at $\frac{3}{4}$ per cent. per *ensem* (*radhī pāyūna-paḍika-śata*), and the annual interest from this source, viz. 90 *kārṣāpaṇas*, provides the monks with *kusaṇa-mūla*. The meaning of this term is doubtful. M. Senart translates, 'money for outside life'; but it would seem probable that reference is here made to the custom of '*kaṭhina*,' i.e. the privilege of wearing extra robes, which was granted to the monks during the rainy season (*cf.* Dickson, *The Pātimokkha*, JRAS, 1875, p. 126). The inser. ends with the mention of a large sum of 70,000 *kārṣāpaṇas* = 2000 *suvarṇas*, which had been given to gods and Brāhmins.

34. Nasik: Dakṣamitrā, daughter of Nahapāna and wife of R̥ṣabhadatta. Two identical inser.

(Senart, EI, viii, p. 81, Pl. vii. 11, and p. 85, Pl. viii. 13, Bühler, ASWI, iv, p. 103, Pl. LI. 10a and 10b.)

Records the gift of a monk's cell.

35. Junnar : Ayama, minister of Nahapāna, year 46.

(Bühler, ASWI, iv, p. 103, Pl. LII. 11 ; Burgess and Bhagvānlāl, *Cave-Temple Inscriptions*, p. 51, no. 25.)

Records gifts made by Ayama of the Vatsagotra, minister of the [Rāja] Mahākṣatrapa Svāmi-Nahapāna. The titles of Nahapāna are remarkable in two ways. The family designation 'Kṣaharāta' is omitted ; and this is the only occurrence of the title of 'Mahākṣatrapa' as applied to Nahapāna (p. 65, note 1). In inscr. no. 33 (year 42, with later date, year 45, in postscript) he is styled 'Kṣatrapa.' All that can be inferred with certainty is that he became Mahākṣatrapa between the years 42 and 46.

36. Karle : Ṛṣabhadatta, undated.

(Senart, EI, vii, p. 57, Pl. II. 13 ; Bühler, ASWI, iv, p. 101, Pl. LI. 6.)

Some of the benefactions of Ṛṣabhadatta recorded in this inscr. are mentioned in the Nasik inscr. (*v. sup.* no. 31). The earlier portions of these inscrr. are in fact nothing more than Prakrit and Sanskrit versions respectively of the same record. The immediate object of the inscr. is to record the grant of the village of Karajika for the support of the ascetics living in the caves of Valūraka—a grant which was subsequently renewed by Gautamīputra Śī-Śātakarṇi (*v. sup.* no. 9).

37. Karle : Mitradevaṇaka, son of Ṛṣabhadatta, undated.

(Senart, EI, vii, p. 56, Pl. I. 11 ; Bühler, ASWI, iv, p. 91, Pl. XLVIII. 11.)

Records the gift of a pillar. That the Ṛṣabhadatta here mentioned was the son-in-law of Nahapāna seems probable. M. Senart has pointed out that the name of the son, 'Mitradevaṇaka,' recalling that of Ṛṣabhadatta's wife, 'Dakṣamitrā,' seems to supply a link which may perhaps connect them.

INSCRIPTIONS OF THE WESTERN KṢATRAPAS.

38. Junagadh : Rudradāman, 1st day of the dark half of the month Māgashīrṣa.

(Kielhorn, EI, viii, p. 36, with Plate ; *cf.* also Eggeling, ASWI, ii, p. 128, Pl. xiv ; Bh. (ed. Bühler), IA, vii (1878), p. 257 ; Bühler, *Die Indischen Inschriften und das Alter der Indischen Kunstpoesie*, pp. 45, 86.)

This inser., in the Girnar mountain to the east of Junagadh in Kathiawar, is engraved on a rock, which bears records also of the Maurya and Gupta dynasties. Its immediate object is to record the reparation in the reign of the Mks. Rudradāman of the dam of the Sudarsana lake, which had burst during a violent storm. The history of the lake is thus given. It was “ordered to be made by the Vaiśya Puṣyagupta, the provincial governor of the Maurya king Candragupta” ; and “adorned with conduits for Aśoka the Maurya by the Yavana king Tuṣāspha while governing.” But the chief importance of the inser. consists in the information which it affords as to the history of Rudradāman, and the events of his reign. He was the lord of :—

Purvāparākarāvanti = Ākara (East Malwa) and Avanti (West Malwa) (*v. sup.* § 42).

Anūpa ; *Ānarta* ; *Surāṣṭra* (*id.*).

Śvabhra. The most probable explanation seems to be that this is “the country on the banks of the *Sābarmatī*, in Sanskrit *Śvabhramatī*, in northern Gujarat (Bh. IA, vii (1878), p. 259).

Maru = Marwar, or perhaps some portion of Marwar.

Kaccha = the country still so called (Cutch).

Sindhu-Sauvīra, “probably comprises Sindh and a portion of the Multan districts” (Bh. *loc. cit.*).

Kukura ; *Aparānta* (*v. sup.* § 42).

Niṣāda. It is difficult to assign any particular locality to the Niṣādas. They were an aboriginal race, a forest people, and were scattered all over Northern and Central India. Quotations from the Mahābhārata show that, at the period referred to, they occupied the high lands of Malwa and Central India, and still formed a kingdom (*v.* Pargiter, *Mārkaṇḍeya Purāṇa*, pp. 360, 361).

“And other territories gained by his own valour.” He conquered the Yaudheyas (*cf.* R. IC. § 60), and twice defeated Śatakarni, the lord of

Dakṣiṇāpatha. He himself acquired the name of Mahākṣatrapa. He caused the work of repairing the broken dam to be carried out "by the minister Suviśākha, the son of Kulaipa, a Pahlava, who . . . had been appointed by the king in this government to rule the whole of Ānarta and Surāṣṭra."

39. Gunda: Rudrasimha I, year 103, 5th day of the bright half of Vaiśākha.

(Bühler, IA. x (1881), p. 157; *Bhāvnagar Inserr.*, Pl. xvii; cf. Bh. JRAS, 1890, p. 650.)

This inser. was found near Gunda in the Halar Dist. of Kathiawar. The year, which is expressed in both numerals and in words, was correctly read by Bh. (*loc. cit.* and *inf.*, p. 86, note 1), as may be seen by a reference to the reproduction of the inser. in *Bhāvnagar Inserr.*, Pl. xvii. In the genealogy the direct descent of Rudrasimha I from Caṣṭana is given, and no reference is made to his brother Dāmaghsada (Dāmajadaśrī) I, who reigned before him both as Kṣatrapa and as Mahākṣatrapa (pp. 80, 82), or to his nephew Jivadāman, who apparently reigned as Mahākṣatrapa, for the first time (p. 83), before the date of this inser., which belongs to the first reign of Rudrasimha I as Kṣatrapa (p. 86). The inser. records a donation made at the village of Rasopadra by the Āblīra General (*Senāpati*) Rudrabhīti, son of General Bāhaka.

40. Junagadh: [Rudrasimha I], year lost, 5th day of the bright half of Caitra.

(Bühler, ASWI, ii, p. 140, Pl. xx. 1; cf. Bh. JRAS, 1890, p. 651.)

This fragmentary inser. from a cave near Junagadh contains enough of the usual genealogy to show that it belongs to the reign of some Kṣatrapa or Mahākṣatrapa who was the grandson of Jayadāman and the great-grandson of Caṣṭana. This was probably Rudrasimha I, but it may possibly have been Dāmaghsada (Dāmajadaśrī) I, his brother and successor (p. 80). The purport of the inser. cannot be ascertained; but it is probably Jain in character, and it contains the ancient name of Junagadh (*Girīnagara*), which is still preserved in that of the adjacent hill 'Girnar.'

41. Mulwasar: Rudrasena I, year 122, 5th day of the dark half of Vaiśākha.

(Bh. BG, I, i, p. 43; *Bhāvnagar Inscr.*, p. 23, Pl. xix; cf. Bh. JRAS, 1890, p. 652; R. JRAS, 1899, pp. 380, 381.)

This inser. was found on the bank of a tank at Mulwasar (Mulavāsara), a village in the Gaikwar's territory of Okhamandal. Its purport is uncertain. The date is undoubtedly as is given above. The usual genealogy is missing. Rudrasena is styled 'Rāja Mahākṣatrapa Svāmi.'

42. Jasdhan: Rudrasena I, year 127 (or 126), 5th day of the dark half of Bhādrapada.

(Hoernlé, IA, xii (1883), p. 32; Bhau Dāji, JBBRAS, viii, p. 234, and ASWI, ii, p. 15; *Bhāvnagar Inscr.*, Pl. xviii; cf. also Bh. BG, I, i, p. 43; JRAS, 1890, p. 652.)

This inser. is on a pillar on the bank of the lake at Jasdhan in the north of Kathiawar. It probably commemorates the construction of a tank during the reign of Rudrasena. The genealogical table is the longest known of the Western Kṣatrapas, and is in direct descent as follows:—(1) Rāja Mahākṣatrapa Bhādrāmukha Svāmi Caṣṭana; (2) Rā² Kṣa² Svā² Jayadaman; (3) Rā² Mks² Bha[dramukha] Svā² Rudradaman; (4) Rā² Mks² Bha² Svā² Rudrasimha; (5) Rā² Mks² Svā² Rudrasena. It may be noticed that the title '*Bhādrāmukha*,' 'Gracious,' is applied to all Rudrasena's royal ancestors except Jayadāman, and that the names of Dāmāghsada (Dāmajadaśrī) I and Jivadāman, who were not in the direct line, are omitted. There is some doubt about the unit figure of the date, which Bh. preferred to read as 6.

INSCRIPTION OF THE ĀBHĪRA DYNASTY.

43. Nasik: Īśvarasena, year 9, 13th day of the 4th fortnight of Summer.

(Senart, EI, viii, p. 88, Pl. vii, 15; Bühler, ASWI, iv, p. 103, Pl. LIII. 12.)

Records the investment of two sums of money—1000 *kārṣāpaṇas* and 500 *kārṣāpaṇas*—in trade-guilds at Govardhana for the purpose of providing medicines for the sick among the monks dwelling in the monastery on Mount Triraśmi. The king Īśvarasena, who is called an

Ābhīra, and son of the Ābhīra Śivadatta, seems to bear the metronymic 'Māḍharīputra.' The benefactress is 'the lay devotee Viṣṇudattā, the Śakānī, mother of the Gaṇapaka Viśvavarman, wife of the Gaṇapaka Rebhila, daughter of Agnivarman, the Śaka.' The inser. is in Sanskrit, with traces of Prakrit (e.g. the gen. sg. *Viśva-varmaṣya*).

INSCRIPTIONS OF THE TRAIKŪṬAKA DYNASTY.

44. Pardi: Dahrasena, year 207 of the Traikūṭaka era, 13th day of the bright half of Vaiśākha.

(Bh. JBBRAS, xvi, p. 346; cf. Bh. *Trans. Inter. Or. Cong.*, Vienna, 1886, Aryan Section, p. 221; Fleet, BG, I. ii. pp. 294-5; *id.*, JRAS, 1905, p. 566; R, *id.*, p. 801.)

A copper-plate grant in Sanskrit found at Pardi, 50 miles south of Surat. "From his camp of victory at Āmrakā, Dahrasena, the illustrious great king of the Traikūṭakas, who has performed the Aśvamedha sacrifice, commands his dependents living in the Antarmaṇḍali *viṣaya*." He makes a grant of the village of Kanīyastalākāsārikā in this *viṣaya* to the Brāhman Nannasvāmin, an inhabitant of Kāpura. The command is issued "to my *dūtaka*, Buddhagupta."

45. Kanheri: year 245 of the Traikūṭaka era.

(Burgess and Bh., *Cave-Temples*, ASWI, Misc. Rep., no. 10, p. 57; cf. reff. to Bh. and Fleet quoted under no. 44 *sup.*)

This copper-plate inser., which is in Sanskrit, commemorates the erection of a *cāitya* in the great monastery of Kṛṣṇagiri (Kanheri). It is dated "in the year 245 of the increasing rule of the Traikūṭakas."

DYNASTIC LISTS.

58. Under the guise of an enumeration of kings who are to reign on the earth in future periods,¹ five of the Purāṇas—Matsya,

¹ The prophetic style is adopted because the narrator is supposed to be a sage belonging to a very distant past: v. Wilson. *Vāsan Purāṇa*, iv. p. 162.

Vāyu Brahmāṇḍa, Viṣṇu and Bhagavata give a number of dynastic lists, among which that of the kings of the Andhra race (*Andhrarajātigīth*) is included. So far as this dynasty is concerned, the only complete list is to be found in certain MSS. of the Matsya. All the other lists are, so far as they are known at present, more or less fragmentary. The Matsya Purāṇa has therefore been taken as the basis for the accompanying synoptic table, which has been constructed with the view of showing to what extent the statements of the different Purāṇas are in agreement with one another, and in what respects the lists given by the other Purāṇas are deficient. The list from the Brahmāṇḍa is borrowed from Wilford,² as neither printed editions nor MSS. of the work are easily accessible; but, in the case of the other four Purāṇas, the passages as printed in the texts have been collated with MSS. in the India Office Library and elsewhere. The four Purāṇas, which have been thus independently examined for the purpose of this Introduction, agree in stating that the first of the Andhra kings rose to power by slaying Sūsarma, the last of the Kāṇvas. In three of them (M., Vā., and Vi.) he bears a name which is evidently some perverted form of the 'Sinnuka' who is known from the inscr. over his statue at Nanaghat (*v. sup.* § 57, no. 1); in the fourth (Bh.) he is simply described as 'a strong Śūdra' (*vyśalo bali*).³ All four Purāṇas record the number of reigns in the dynasty and the total period of its duration—29 kings⁴ and 460 years (M.), 30 kings and 456 years (Vā., Vi., and

¹ Some MSS of the Matsya are as incomplete as the rest.

² The list is given by Fitzedward Hall in a note to Wilson, *V.P.*, iv, pp. 201-2.

³ The commentator regards 'Bali' as a proper name, as also does the Cambridge MS. of the Viṣṇu, Add. 2452.

⁴ It has always been assumed that '29' is the number underlying the corrupted reading of the MSS., which seems always to be '19' (*Ekadśatī*). Cf. Fitzedward Hall's note to Wilson, *V.P.*, iv, p. 199.

Bh.). As the list compiled from the MSS. of the Matsya actually contains the names of thirty kings¹ it is probable that this discrepancy is due to some corruption of the text. If the years of all the reigns in this list are added together, the total amounts to 448 years and 6 months. This result is quite consistent with the statement that the dynasty lasted altogether for 456 or 460 years, since, except in the case of the short reign of 6 months (No. 21 in the list), the length of individual reigns is given in completed years and all fractions are disregarded.

¹ One was omitted from the list given by Wilson from the Radcliffe copy of the Matsya, *v. note, op. cit.* p. 201.

PURĀNIC LISTS OF ANDHRA KINGS

lxvi

INTRODUCTION

No.	MATSYA	Years of Reign	VĀYU	Years of Reign	BRAHMAṂDA	Years of Reign	VIṢṆU	BHĀGAVATA
1	Śiśuka	23	Sindbuka	23	Chismaka	23	Śipraka	<i>Vṛṣalo bali</i>
2	Kṛṣṇa	18	Kṛṣṇa	18	Kṛṣṇa	18	Kṛṣṇa	Kṛṣṇa
3	Śrī-Mallakārṇi	10	Śrī-Śātakārṇi	[—]	Śrī-Śātakārṇi	18	Śrī-Śātakārṇi	Śrī-Śātakārṇa

30	Pulomā	7	Pulovāpi	7	Puloman	7	Pulomāvi	Sulomadhī

¹ In Wilford's list these three names come between Cakora (no. 21) and Yantramati (?) (no. 23).

The various readings of these names to be found in MSS. are innumerable. Here in each case only that form has been given which seems to be best established or most in accordance with analogous forms found in the other Purāṇas.

No. 2. Kṛṣṇa is called the younger brother of Simuka in M. (British Museum, MS. Cat. no. 310; India Office, MS. Cat. no. 407), and the brother in Vā., Vi., and Bh. In Vā. those MSS. which give the name 'Kṛṣṇa' assign to him a reign of 10 years. In the others 'aṣṭau' takes the place of 'Kṛṣṇa,' making the length of reign 18 years as in the other Purāṇas.

No. 3. Śrī-Mallakārṇi is definitely called the son of the last in M., as is Śrī-Śātakārṇi in Vā., Vi. (Cambridge Univ. Lib., MS. Add. 2452), and Bh. In Vā. Śrī-Śātakārṇi (no. 3) is evidently supposed to be identical with Śātakārṇi (no. 6), and the passage giving the length of his reign has dropped out.

No. 5. Skandhastambhi occurs in I.O. MS., no. 407; v. Wilson, *V.P.* iv, p. 200, note.

No. 9. Meghasvāti, Matsya, Ed. Calcutta, 1876, and I.O. MS., no. 407; Saṅgha, B.M. MS. no. 310.

No. 16. The variations of this name are very numerous, v. Wilson, *loc. cit.*

No. 21. Sometimes called Rājada, v. Wilson, *op. cit.*, p. 201.

No. 24. The reading of the MSS. of M., *Pulomā vai*, is no doubt to be emended *Pulomāvi*.

No. 30. In M. and Vā. (I.O. MS. 2102-3) is described as 'anyas teṣām,' 'another of them.' There had been two others of the name previously, viz. nos. 15 and 24.

All four Purāṇas give lists of dynasties which succeeded the Āndhras. There is so much agreement still existing between them that they would seem to have been originally the same in substance. The duration of these different dynasties is also stated, but the numbers are so discrepant and so evidently corrupt in many cases that, until the MSS. are critically examined, they cannot be used to advantage.

The dynasties are as follows :—

7 other Andhras (M. and Vā.), called Andhrabhṛtyas (Vi. Cambridge MS. Add. 2452). Not mentioned in Bh. It seems probable that the term 'Andhrabhṛtyas,' 'servants of the Andhras,' was originally applied to this family only. They were probably the Cuṭus, who rose to power in the western and southern districts after the reign of Śrī-Yajña (*v. sup.* §§ 52, 54).

10 Ābhīras (M., Vā., and Vi. Camb. MS.), 7 in Bh. A dynasty of Ābhīras undoubtedly succeeded the Andhras in the Nasik Dist. (*v. sup.* § 56).

7 Gardabhillas (M., Vā., and Vi. Camb. MS.), 10 in Bh. The Gardabhillas were rulers of Ujjain (*v. Oldenberg, IA, x (1881), p. 222*).

18 Śakas (M. and Vā.), 16 (Vi.), 16 Kaṅkas in Bh. These may have been the Western Kṣatrapas.

8 Yavanas (M., Vā., Vi., and Bh.) These must, no doubt, belong to some dynasty of Greek descent, but it is impossible to determine which dynasty this could have been. The inscr. in which Yavanas are mentioned show that, like other foreigners, they too assumed Indian names after a few generations.

14 Tuṣāras (M., Vā., and Vi.), called Tuṣkaras in Bh. (I.O. MSS. 976, 318, 3206, &c.). Is it possible that the correct reading should be '*Turuṣka*,' the name given in the Rājatarāṅgiṇī to the kings who are commonly called 'Kuṣanas' (*cf. Stein, Chronicle of the Kings of Kaśmir, i, p. 31*).

13 Muruṇḍas or Ġuruṇḍas (M., Vā., and Bh.). The Muruṇḍas appear with the Śakas among the tributary peoples in the Allahabad inscr. of Samudragupta (Fleet, CII, iii, p. 14). The Vi. has 'Muṇḍas' (*v. sup.* § 28).

21 Hūṇas (M.), 18 Maunas (Vā.), 11 Maunas (Vi., and Bh.). It is possible that the Matsya has here preserved the record of the

Hūṇa invaders of India in the 5th cent. A.D.; but it is not improbable that both of these forms are corrupt.

The Purāṇas represent these dynasties as successive; but it is far more probable that they were, to a great extent at least, contemporary dynasties, which rose into power in different provinces when the Andhra empire began to decline (v. Wilson, *Viṣṇu Purāṇa*, iv, p. 207).

COINS OF THE ANDHRA DYNASTY.

59. Distinct varieties of coinage which may be attributed to **Local Varieties.** the Andhras or to their feudatories are found in the following districts of their empire:—

Andhra-deśa, the Kistna and Godavari Districts (§ 60):—

- (a) The District of Fabric A (§ 61);
- (b) The District of Fabric B (§ 62);
- (c) Uncertain (§ 63);

Central Provinces: Chanda District (§ 65);

Southern India: Anantapur and Cuddapah Districts (§ 66);

Coromandel Coast, between Madras and Cuddalore (§ 67);

N. Mysore: Chitaldrug District (§ 68);

N. Kanara: Karwar (§ 69);

S. Mahārāṣṭra: Kolhapur (§ 70);

N. Mahārāṣṭra: Nasik District (§ 71);

Aparānta, the N. Konkan (Surāṣṭra Fabric) (§ 72);

Malwa (§ 73);

Western India, Districts Uncertain (§ 74):—

- (a) The District of Group A, perhaps E. Malwa (§ 75);
- (b) The District of Group B (§ 76).

60. Andhra-deśa, or 'the country of the Andhras,' is a Sanskrit name for the Telugu country lying between the rivers Kistna and Godavari. This was the home of the Andhras in the earliest historical times. From this region, after the downfall of the Maurya empire, their dominion was extended to the North, South and West, until at one period it embraced the greater portion of the Indian peninsula; and to this region were again confined such vestiges as remained of Andhra power after its greatness had passed away.

The coins which are found in this district fall into two classes, clearly distinguished from each other both by their types and by their fabric; and there are, besides, some small varieties which seem not to belong to either of these classes.

It will be seen from the accompanying table (*inf.* pp. lxxviii, lxxix) that the two chief varieties of fabric, called A and B respectively, are both represented in the coinages of several kings—Pulumāvi (probably; *v.* types 6 and 7); Candra-Śāti (nos. 12 and 13); Śrī-Yajña (nos. 14–17); and Śrī-Rudra (probably; *v.* nos. 18, 19). The fabrics are, therefore, contemporary, and the distinction between them cannot be chronological. A consideration of the weights of the coins would seem to prove likewise that the distinction cannot be denominational. It can, therefore, only have been local; and we must suppose that the two classes represent the currencies of different districts in Andhra-deśa. As coins of the two classes are frequently found together,¹ it is probable that the districts to which they belonged were not far removed from one another, but it is impossible to determine their situation more precisely.

¹ For example at Gudivada, *v.* ASSI, vi.

61. The normal coins of Fabric A are of a more uniform thickness than those of Fabric B, their obv. type¹ is in lower relief, the characters of their inscr. are more carefully formed, and their size is generally less. They bear the types "*Caitya* : Ujjain symbol;" and these types vary only in details or in the symbols which accompany them.

Five kings, apparently,² strike coins of this fabric:—

- (1) Vāsiṣṭhīputra Śrī-Puṣumāvi ;
- (2) Vāsiṣṭhīputra Śiva-Śrī-Śātakarṇi ;
- (3) Vāsiṣṭhīputra Śrī-Candra-Śāti ;
- (4) Gautamīputra Śrī-Yajña-Śātakarṇi ;
- (5) [Śrī-Rudra]-Śātakarṇi.

The name of the third of these was read on the coins as °*Vada-Sata* by General Sir A. Cunningham (CAI, p. 110), and as °*Vada-Sataka*[ṇi] by Mr. Vincent Smith (ZDMG, 1903, p. 623). The first *akṣara* is, however, undoubtedly *ca-* whenever it can be seen distinctly, *e.g.* on nos. 117 and G.P. 1 (pp. 30, 31 ; Pl. vi), in both of which cases it may be compared with the *v[ā]-* of *Vāsiṣṭhi*°. There can be no doubt that *Cada*, i.e. *Caṇḍa* = Skt. *Candra*, is the correct reading of the first part of the name.

When we examine the types struck by these five kings, we find that the first three are connected by their obv. type, a three-arched *caitya* of the same form without a crescent about it (*cf.* (1) Pl. v. 88—G.P. 1 ; (2) *ibid.* 115–16 ; (3) Pl. vi. 117—G.P. 1). The fourth king has a *caitya* of the same kind on some coins (Var. *a* ; p. 35, Pl. vi. 135—G.P. 5), and a *caitya* of six arches surmounted

¹ It is generally impossible in this class to distinguish between obv. and rev. on the principle enunciated above, p. xv, § 14. The side bearing the 'Ujjain symbol' is termed rev., as in the case of the other varieties.

² The identification of no. 5, Śrī-Rudra, is not certain ; v. p. 47, note 1.

by a crescent on others (Var. *b* ; p. 36, Pl. vi. 139-40). As these two varieties are of the same fabric, it is probable that the change of type was made during this king's reign, and that Var. *b* is, therefore, later than Var. *a*. The fifth king follows the fourth in retaining the crescent above the *caitya*, but reverts to the earlier form of the *caitya* of three arches (v. Pl. vii. G.P. 5).

Such numismatic evidence as is afforded by the coins of Fabric A, therefore, seems to connect together nos. 1, 2, 3, and 4, and nos. 4 and 5 ; but it leaves doubtful the order of succession of nos. 1-3. On this point, however, the Purāṇas supply some useful information. The Viṣṇu-Purāṇa and the Matsya-Purāṇa agree in placing no. 2 after no. 1 ; and, as their testimony is not contradicted by the evidence of the coins, it may be accepted as probably true. After no. 2 (Śiva-Śrī), however, the Purāṇas with great unanimity place a Śiva-Skanda (or -Skandha) Śātakarṇi, a name which does not appear in any of these forms on the coins. If we could suppose them to be all due to some ancient corruption in the Purāṇas of the name Candra-Śāti (no. 3), the order of succession of nos. 1-4 might be regarded as certain.¹

The name of Śrī-Rudra-Śātakarṇi, which occurs on coins of Fabric B (p. 46, Pl. vii. G.P. 2) and on coins attributed to the Chanda Dist. (*ibid.* Pl. vii. 179), is possibly to be restored also on certain coins of Fabric A (p. 47, Pl. vii. G.P. 5). The name of this prince (no. 5) does not occur in this form in any of the Purāṇas ; but the numismatic evidence of both Fabrics A and B shows that he was later than no. 4, Śrī-Yajña-Śātakarṇi.

Certain coins of Śrī-Yajña are distinguished in the Catalogue as belonging to Fabric A 1. These differ from the other coins of this fabric (A 2) in size, and by the fact that in the obv.

¹ *I. sup.* § 58, 'Dynastic Lists.'

type certain symbols are associated with the *caitya*. In this latter respect they may be compared with the coins of Var. c of Fabric A 2 (p. 37, Pl. vi. 146).

62. Unlike the coin-legends of Fabric A, which, except in the case of [Śrī-Rudra]-Śātakarṇi, admit of no doubt as to the correctness of their readings, those of Fabric B are too often of a fragmentary and uncertain character. The names which can be read with certainty are as follows:—

- District of Fabric B.**
- (1) Śrī-Candra-Śāti. (Type 13; cf. Type 12 of Fabric A.)
 - (2) Gautamīputra Śrī-Yajña-Śātakarṇi. (Types 15-17; cf. Type 14 of Fabric A.)
 - (3) Śrī-Rudra-[Śātakarṇi]. (Type 18; cf. Type 19 of Fabric A.)

The obv. types of these are:—(1) 'Horse'; (2) both 'Horse' and 'Elephant'; (3) 'Elephant.' The 'Elephant' type, which first appears during the reign of No. 2, Śrī-Yajña, is continued by his successors, No. 3, Śrī-Rudra, and, possibly, a second Śrī-Candra (v. Type 20). We have already seen that a change of obv. type was also made in the coins of Fabric A during the same reign (v. *sup.* p. lxxiii).

The other types of this Fabric are either uninscribed or have coin-legends so fragmentary that their decipherment must for the present remain uncertain.

Type 1 seems to have borne a name ending in *-vīra*; but it is impossible to identify this king with any known member of the Andhra Dynasty.¹ The scanty fragments of the coin-legend afford no satisfactory evidence as to the period to which the coin belongs; but its early date seems to be indicated by the fact that it is struck on one side only and that it bears the

¹ Mr. Vincent Smith, ZDMG, 1903, p. 625, conjectures that these coins may have been struck by Śrī-Yajña.

‘Lion’ type. It is not possible to identify the striker of this coin with the Śrī-Vīra-Puruṣadatta who is known from his inscr. on the Stūpa of Jaggayyapetta.¹

The coin-legend of Types 2 and 3 is very incomplete. On coin no. 33 in the Catalogue (p. 10; Pl. III.) there are traces of the beginning of the inscr. *Raño*; on G.P. 2 (*ibid.*) there are five *akṣaras* which read °*sakasa*[*dā*][?]*sa*; and on no. 38 (p. 11; Pl. III.) also five *akṣaras*—°*sakase*[*-*][?]*sa*. If we could suppose these five *akṣaras* to represent the genitive of the proper name—this is by no means certain—we might venture to restore it in its Skt. form either as Śaka-Śāta (*cf.* Śrī-Śāta, nos. 1, 2, p. 1; Pl. I.) or as Śakasena. For the former no identification with a similar name occurring on other coins or in inscrs. can be suggested; but the latter might well be identified with the Māḍhariputa Svāmi-Sakasena of the Kanheri inscr.,² and, possibly also, with the Māḍhariputa : Sivalakura of the Kolhapur coins (p. 7; Pl. II. 22—Pl. III. 31).

The coin-legend, or coin-legends, of Type 7, the two varieties of which differ only in so far as they seem to have either different inscrs. or the same inscr. differently arranged, might well contain the title and name of Puḷumāvi; but the traces which remain are so fragmentary that no satisfactory restoration is possible. On the coins of Var. *a* (p. 24; Pl. v. G.P. 2) it is only possible to restore the beginning and the end of the inscr. as *Siri*[—]*-sāmisa*; and the only reasons for supposing that the lacuna may have contained the name of Puḷumāvi are, firstly, the evidence supplied by the coin-legend of Var. *b*, and, secondly, the fact that Puḷumāvi bears a title ending in *-svāmī*, viz. ‘*Navanara-svāmī*,’ in one of his inscrs. at Nasik.³ The coin of Var. *b* (p. 24;

¹ *V. sup.* § 57, no. 30.

² § 57, nos. 5, 6.

³ § 57, no. 14.

Pl. v. G.P. 3) affords some more positive evidence, slight as it is; for after the traces of two *akṣaras* which may well have been the beginning of the inscr.—*Siri*—comes *-pu-* and an *akṣara* which might quite possibly be restored as *lu*.

The coins of Fabric B thus assigned to Puḷumāvi, like those of [—]vīra, and those of the king whose name may be restored doubtfully as Śaka-Śāta or Śakasena, have for obv. type 'a Lion.' The type of the next king who strikes coins of Fabric B, viz. Candra-Śāti, is 'a Horse' (Type 13). It would seem, then, that the 'Lion' type is earlier than the 'Horse' type; and that the uninscribed coins having the former types (Types 4 and 5) should be assigned to a period before the reign of Candra-Śāti. A link between the two classes seems to be supplied by a coin (Type 8) which combines the two types. In the same manner the uninscribed coins of the 'Horse' type (Types 9 and 10) may be assigned to a period after the accession of Puḷumāvi.

Among the uncertain coin-legends of Fabric B is one which may with some probability be restored as *Siri-Cadusa* (Type 20). The coins bearing this legend are very late in style, and have the 'Elephant' type, which appears first in the latter part of the reign of Śrī-Yajña (*v. sup.* p. lxxiv). They can scarcely, therefore, be attributed to the Candra-Śāti whose coins of the same fabric are of the 'Horse' type. If the restoration of the coin-legend is correct, these coins must be assigned to a second Candra, who may perhaps be identified with the Candra-Śrī who comes next but one after Yajña-Śrī-Śātakarṇi in the Purāṇas.¹

Other coins of the 'Elephant' type, which are either uninscribed or bear traces of an inscr. for which no restoration is possible (Type 21), belong either to the reign of this Candra II. or to a later period.

¹ § 58, 'Dynastic Lists.'

63. There remain three varieties of coinage from this district

Uncertain. which do not show the distinguishing characteristics of either Fabric A or Fabric B, and for which it is difficult to find any classification.

Type 22, with inscr. [—*gha*]sada, would seem to belong to an early period in the history of the dynasty, since the form of the *akṣara -da* is that which is found in the Nanaghat inscr. and in the Nasik inscr. of Kṛṣṇa Rāja.¹ So far as the evidence from epigraphy is concerned, this coin might well be assigned to the first or second century B.C. The names Meghasvāti and Saṅgha are given by different MSS. to the king who occupies the ninth place in the Matsya-Purāṇa (*v. sup.* p. lxviii)²; and it is possible that the full coin-legend may have contained one of these forms. The type is described in the Catalogue as a 'Horse'; but the correctness of this description may well be doubted. In any case it bears little resemblance to the familiar 'Horse' type of Fabric B, and therefore supplies no evidence for the date of the coin.

There seems to be no evidence to determine the date of the uninscribed coins Type 23, "*Nandipada* : Nāga-symbol," and Type 24, "*Caitya* : Nāga-symbol." It is possible that the Nāga-symbol may supply a connecting link between these and Type 5 of Fabric B.

64. In the accompanying tables the coins found in Andhra-deśa are arranged according to their types:—

¹ § 57, nos. 1 and 2.

² § 58, 'Dynastic Lists.' The observation made on p. 28, note 2, should be corrected in accordance with the lists given on p. lxvi.

65. The coins from the Chanda District of the Central Provinces are distinguished from other classes of Chanda District. Andhra coins both by type and metal. Almost all the known specimens come from one find, which was described by Dr. Hoernlé in the *Proceedings of the Asiatic Society of Bengal* for 1893, p. 117. The only exceptions in the Catalogue are nos. 173-5 and 177, the precise *provenance* of which is not recorded, and no. 179, which came from Dipaldinni in the Kistna Dist. (p. 46). All these coins are of the same types, 'Elephant' r.: Ujjain symbol,' and of similar metal—an alloy to which the name of potin is given in the Catalogue.²

In contrast with the uniformity of the obv. type 'an Elephant' in this series, which, so far as it is known at present, begins with Puṣumāvi, it may be observed that, in the coins of Fabric B from Andhra-deśa, the Elephant only appears as a type in the latter part of the reign of Śrī-Yajña (p. 41; cf. p. lxxiv.).

The kings represented in this series are:—

- (1) Puṣumāvi (p. 21; Pl. v. 90-94);
- (2) Śrī-Yajña³ (pp. 42-44; Pl. vii. 165-177);
- (3) Śrī-Rudra (p. 46; Pl. vii. 179);
- (4) Śrī-Kṛṣṇa II. (p. 48; Pl. vii. 180);
- (5) Uncertain, represented by uninscribed coins of the same type (p. 48; Pl. vii. 182).

Nos. 1-3 appear in other series: No. 4, Śrī-Kṛṣṇa II.⁴ is

¹ The rider seems sometimes to be represented and sometimes not.

² Following M. Babelon, *Traité des monnaies grecques et romaines*, i. p. 371; cf. R. JRAS, 1903, p. 304, note 2.

³ The coins with abbreviated legends, 'Śrī-Śātakarṇi' (p. 43) or 'Śātakarṇi' (p. 44), were probably struck by Śrī-Yajña.

⁴ The other known Kṛṣṇa was the second king in the Śātavāhana dynasty (§ 23).

unknown from any other source whether numismatic or inscrip-
tional, and no evident equivalent for his name is to be found
in the Purāṇas.

66. The lead coins from these districts have characteristics
which entitle them to be regarded as a distinct
class. Like the coins of Fabric B from Andhra-
deśa, they have 'a Horse' for their obv. type;
but they are of rougher workmanship, and they
have a different rev. type—'l. *Caitya*; r. Tree.' This reverse, it
may be noticed, connects them with the class which is tentatively
assigned in the Catalogue to "Feudatories of the Andhra
Dynasty" (pp. 57 ff.). Indeed, it is not improbable that they
may belong to the same class.

Southern India :
Anantapur and
Cuddapah Dis-
tricts.

No satisfactory restoration of the coin-legend can be suggested;
but it seems to begin with *ha-*, possibly with *ha[riti]* (no. 105,
p. 25; Pl. v.). This may be the first part of the metronymic
Hāritiputra, which is borne by the two Śātakarṇis of the Cuṭu
Dynasty whose inserr. are found in Aparānta (Kānheri), in
Kānara (Banavasi), and in the north of Mysore (Malavalli)
(c. §§ 54, 55). The reading, which is uncertain in itself, is made
more probable by the fact that the Hāritiputra of the Banavasi
and Malavalli inserr. bears titles which are equivalent to the
'Cuṭukadānanda' of one class of the 'Feudatory' coins (p. 59;
Pl. viii. G.P. 2—G.P. 3).

67. The lead coins having as types 'Ship: Ujjain symbol' are
Coromandel Coast. found chiefly along the Coromandel Coast between
Madras and Cuddalore (p. 23, note 1). That they belong to the
Andhra Dynasty seems certain from the Ujjain symbol which
forms their rev. type, and from such traces as remain of the coin-
legend. On the solitary specimen on which these traces admit
of any probable restoration the inser. appears to be intended for

Siri-Pu[humā]visa (no. 95, p. 22; Pl. v.). This restoration is not altogether satisfactory (*ibid.* note 2); but there is no doubt about the first syllable of the name *Pu-*, and, as the next syllable may well be *-/u-*, it is almost certain that the coin was struck by Puḷumāvi.

The coast-region in which these coins are found was, in the third century B.C., inhabited by the Colas¹; but, before the middle of the second century A.D., it seems to have passed into the power of the Pallavas,² who were thus contemporary with the later Andhras. These coins with the 'Ship' type seem to indicate a temporary extension of the Andhra dominion into Pallava territory during the reign of Puḷumāvi. Their influence is to be traced in some of the coins attributed doubtfully to the Pallavas or to the Kurumbar who belonged to the same regions.³ The maritime traffic, to which the type 'a Ship,' whether on Andhra, Pallava or Kurumbar coins, bears witness, is also attested by the large numbers of Roman coins which are found on the Coromandel Coast.⁴

68. From the Chitaldrug District, in the north of Mysore, come the large lead coins with types 'Humped bull: l. Tree, r. *Caitya*,' and inscr. *Sadakana Kaḷalāya-Mahārathisa*. The complete interpretation of the coin-legend is doubtful; but it is clear at least that the coin was struck by a Mahārathi (*v. sup.* § 27), the viceroy of a province, and not by one of the Andhra sovereigns. *Sadakana* may be intended either for '*Śātakarṇi*,' or for a genitive plural *Śāta-kānām* from *Sātaka*⁵ = *Śāta* (cf. *Śrī-Śāta*, p. 1). The meaning of

¹ S. EHL, p. 341.

² *Op. cit.* p. 347.

³ R. IC, § 128.

⁴ Sewell, JRAS, 1904, p. 636.

⁵ This form actually occurs in the Kanheri inscr., § 57, no. 24—*Khaṇḍa-nāga-Sātaka*.

Kaḷalāya is likewise uncertain.¹ As has already been observed (*sup.* § 26), the word might well be restored in the Nanaghat inscr. as part of the title of the Mahārāṭhi who is mentioned there; and it is quite possible that the Mahārāṭhi of the coin may be the Mahārāṭhi of the inscr., in which case the date of the coin would be c. 150 B.C., the period of Śrī-Śāta, the third member of the dynasty. On the other hand, since the coin apparently bears a title and not a personal name, it may well have been issued by some later member of the same family. It is closely connected by its *rev.* type and by its fabric with the large lead coins of Cuṭukaḍānanda and Muḍānanda (*v. inf.* § 69, and Pl. VIII.), and would seem to belong to the same period as these, though it may be slightly earlier in date (*v. R.* JRAS, 1903, p. 301).²

69. The large lead coins from the district of Karwar in N.

Karwar.

Kanara were formerly attributed to a dynasty of 'Nanda kings of Karwar.'³ The last part of the titles of the two kings who are represented in this coinage was formerly read as *-nanda*, a designation which seemed to be appropriate, since it is well known in Indian history as the traditional name of the dynasty which preceded the Mauryas in the kingdom of Magadha.⁴ The word is, however, not *-nanda* but *-ānanda*, 'the Joy,' a well-known princely designation.

The coin-legends are given in the Catalogue as follows:—

(1) *Raño Dhuṭukaḷānaṃdasa* (p. 59; Pl. VIII. G.P. 2-G.P. 3);
and

(2) *Raño Muḷānaṃdasa* (p. 60; Pl. VIII. 236, G.P. 4).

¹ *Kaḷa* may be = *kaḍa*, cf. the title *Cuṭukaḍānanda* (§§ 28, 55).

² In the article referred to all these coins were assigned to a later period (1st or 2nd cent. A.D.). This view is possibly correct (*v.* § 28), and if so they may be supposed to have been struck by feudatories of the Andhras (*Andhra-bhṛtyāḥ*) who rose into power in the western and southern districts after the reign of Śrī-Yajña (cf. § 54, and the list of successors of the Andhras given at the end of § 58).
R. IC, § 89.

⁴ S. EHI, p. 33.

These readings need correction in two respects. In both cases -*ḷā*- should be corrected to -*ḷạ̄*-. The difference between these two *akṣaras* is slight, and the sounds which they represent often interchange in Indian dialects;¹ but the distinguishing mark of -*ḷạ̄*-, a short stroke making a small angle at the base, cannot be seen on the coins. The evidence of inserr., moreover, makes the correction of -*ḷā*- to -*ḷạ̄*- certain in the first case, and it should probably be made also in the second.

The reading *Dhu*- in the first coin-legend must also be corrected to *Cu*-. It would be impossible to determine the true reading of this syllable from the clumsily-formed character which appears on the coins; but the evidence of the inserr. shows conclusively that it is intended for *Cu*-.

The coin-legends should, therefore, be corrected thus:—

- (1) *Raño Cuṭukaḍānaṃdasa*; and
- (2) *Raño Muḍānaṃdasa*.

It seems certain then from the Banavasi inser. (*v. sup.* § 57, no. 25) that Cuṭu is the name of a clan—the *Cuṭukula*. The word '*kaḍa*,' which probably means 'city,' frequently occurs in place-names.² '*Viṇhu-kaḍa*,' 'the City of Viṣṇu,' is in the inser. no doubt the equivalent of '*Cuṭu-kaḍa*,' 'the City of the Cuṭus,' on the coins. The full title on the coins, '*Cuṭu-kaḍānaṃda*,' would therefore signify 'The Joy of the City of the Cuṭus.'³

The question whether the King Cuṭukaḍānanda of the coins is to be identified with the Hāritiputra Viṇhukāḍa-Cuṭukulānanda of the inserr. is probably to be answered in the negative. From the

¹ Bühler, *Indische Palaeographie*, Taf. III.; Pischel, *Gramm. d. Prākṛit-Sprachen*, § 226.

² It is probably the same word as *kaṭuka*, 'a camp.'

³ The variants are:—(1) *Cuṭukaḍānaṃda*, on the coins; (2) *Viṇhukāḍa-Cuṭukulānanda*, Banavasi inser. (*v. sup.* § 57, no. 25); (3) *Viṇhukāḍa-Cuṭu*, Malavalli inser. (*ibid.* no. 26).

epigraphical point of view the coins seem to be older than the inscr., but it must always be borne in mind that the evidence of epigraphy as applied to coins is at present very uncertain. The period assigned to these coins in the Catalogue (p. 59) is that of Sadakana Kaṣalāya-Mahārāṭhi (p. 57), who is supposed to be contemporary with Śrī-Śāta (p. 1; Nanaghat Inscr., c. 150 B.C.). If this view be correct, the coins would be two or three centuries earlier than the inscr., but it cannot be said that this attribution or that of the coins of Sadakana Kaṣalāya-Mahārāṭhi (v. § 68) is altogether satisfactory. But as 'Cuṭukaḍānanda' is evidently a dynastic title, perhaps like 'Viḷivāyakura' and 'Sivalakura' (v. § 70), it may have continued in use for a long period. There is, therefore, no inherent difficulty in the supposition that the inscr. and the coins may belong to different princes of the same family.

The Malavalli inscr. (v. § 57, no. 26) yields the important information that the equivalent of this title (*Viṇhukaḍḍa-Cuṭu*) was borne by one who was also styled "King of the city of Banavasi (Vaijayantī)." Banavasi was, no doubt, the capital of a province of the Andhra Empire. It was from the victorious camp of the army at Banavasi (or the army of Banavasi) that Gautamīputra Śātakarṇi issued his orders to the governor of Govardhana (Nasik) after his victory over Nahapāna.¹ According to the Malavalli inscr. (v. § 57, nos. 26 and 28) both Hāritīputra Viṣṇukaḍa-Cuṭu-Śātakarṇi and his grandson Hāritīputra Śiva-[Skanda]-varman ruled over Banavasi,² which seems to have passed, soon after, if not immediately after, the reign of the latter, from the Cuṭu dynasty into the power of the Kadambas.

¹ Nasik inscr., v. *sup.* § 57, no. 7.

² The former is called 'Vaijayantī-pura-rāja,' the latter 'Vaijayantī-pati.' This may perhaps indicate that the Andhra power in this region was diminished before it ceased altogether.

Of the prince who styles himself 'Rāja Muḍānanda' on his coins nothing is known from other sources. It is probable that the first part of the title, which appears as *Muḍa-*, is intended for *Muṇḍa-*, and that the title means 'the Joy of the Muṇḍas' (*v. sup.* § 28). The coins are closely associated in every way—fabric, types and character of legend—with those of Rāja Cutukadānanda, and they are found in the same locality. The two princes no doubt belong to the same dynasty, and they cannot have been separated by any great interval of time. The rev. type 'Tree within railing' seems to connect the coins of both with those of Sadakana Kaṣalāya-Mahārāṭhi, who, if general considerations of epigraphy may be trusted, was probably somewhat earlier in date. As this connection is the less close in the case of Rāja Muḍānanda, it is probable that he was the farther removed in point of time and that he reigned after Rāja Cutukadānanda.¹

70. The Andhra coins found in the Kolhapur District, the **Kolhapur.** Southern Mahratta Country, are either of lead or of some alloy of copper, called in the Catalogue "potin,"² which has not yet been properly analysed. They are distinguished from other Andhra coins by their types and by certain titles which appear in the coin-legends.

The common features of all the *obv.* types are 'a *Caitya* and a Tree,' and the types differ chiefly in regard to the arrangement of these objects. On the lead coins the *Caitya* and Tree appear side by side; on the potin coins the *Caitya* comes in front of the Tree and allows its top branches only to be seen.³ The minor differences which distinguish the various types of both lead and potin coins are described in the Catalogue.

¹ R. JRAS, 1903, p. 301.

² R. JRAS, 1903, p. 304, note 2, quoting Babelon, *Traité des monnaies grecques et romaines*, i, p. 371.

³ Bh. JBRAS, xii, p. 305.

The main *rev.* type, 'Bow and Arrow,' is the same throughout on the coins of both metals.

The *inscr.* on coins of this class are :—

(1) *Raño Vāsīthīputasa Viḷivāyakurasa.*

(2) *Raño Māḷhariputasa Sivalakurasa.*¹

(3) *Raño Gotamiputasa Viḷivāyakurasa.*

The evidence of re-struck coins seems to prove conclusively that these three kings reigned in the order in which they are placed here, since No. 2 restrikes coins of No. 1 (pp. 7, 8; Pl. II. 25, 26, and pp. 8, 9; Pl. II. 29—III. O.C.), and No. 3 coins both of No. 1 (p. 14; Pl. IV. G.P. 1) and of No. 2 (p. 14; Pl. IV. 52).

No satisfactory explanation has yet been given of the forms *Viḷivāyakura* and *Sivalakura*. They are probably local titles in the dialect of the district of Kolhapur; and it is possible that the latter part of each, viz. *-kura*, may be a Prakrit equivalent of the Sanskrit *-kula*, 'tribe' (*cf.* *Cuṭukulānanda*, *sup.* § 69). In this case, the titles would be 'Bahuvrīhi' compounds, like *Mihirakula*, &c., denoting the princes of the 'Viḷivāya' or the 'Sivala' tribe. The meaning of 'Viḷivāya' is quite doubtful, but 'Sivala' may well be the equivalent of the Skt. 'Śivadatta' (*cf.* § 36, note 4), and it occurs as the name or title of a queen in one of the Bharhut *inscr.* (*Sivalā Devī*; *v. C. Bharhut Stūpa*, p. 131).

The question remains whether these peculiar titles are to be regarded as designations of members of the imperial Andhra Dynasty or of viceroys governing the district of Kolhapur.² Although the question cannot be decided with certainty, the former view is perhaps the more probable, since there is some evidence to show that the Andhra monarchs were known by

¹ This title has sometimes been wrongly read as *Sevala*° or *Sivāla*°.

² The latter view is held by Prof. Bhandarkar, *EHD*, p. 20.

different titles in the different divisions of their empire.¹ The peculiar titles 'Viḷivāyakura' and 'Sivalakura' have been found nowhere else; and it is not unlikely that they were used by the Andhra sovereigns only in that province of their empire in which Kolhapur was included. If this view be accepted, we must conclude that the Kolhapur coins furnish us with no proper names, but merely with the metronymics and the peculiar local titles of the Andhra kings,² and that, therefore, the only common feature which we can expect to find in them and in other coinages of the same kings lies in the use of metronymics. Having available only this imperfect and unsatisfactory evidence, we must regard the following identifications as purely tentative:—

No. 2, Māḍhariputa : Sivalakura may perhaps be the Māḍhariputa Svāmi-Sakasena (Kanheri inserr. v. § 57, nos. 5, 6) and the Sakasena or Sakasada of the coins from Andhra-deśa (v. p. 10).

No. 3, Gotamiputa : Viḷivāyakura may be the great Gautamiputra of the Nasik and Karle inserr., who restruck with his own types coins of Nahapāna in the Nasik Dist. (pp. 68-70; Pl. ix, 253-258), and to whom certain coins of Western India are conjecturally attributed (pp. 17-19; Pl. iv, 59-87).

The identification of No. 1, Vāsiṭhiputa : Viḷivāyakura, must remain doubtful. The evidence of the re-struck coins shows that he cannot possibly be identified with the best known Vāsiṭhiputra, viz. Puḷumāvi, who was the son of Gautamiputra; but this metronymic was common in the dynasty, and there is no difficulty in supposing that it was borne by the predecessor of Māḍhariputa in the Kolhapur Dist.

71. The immense hoard of some 13,250 silver coins, which was
Nasik District. discovered in 1906 near the village of Jogalthembi

¹ Cf. *sup.* §§ 49, 50.

² Mr. Vincent Smith holds the opposite view, that these are really the personal names, EHI. p. 186.

in the Nasik Dist., the Northern Mahratta Country, consisted solely of coins of Nahapāna and of coins of Nahapāna restruck by his conqueror Gautamīputra Śātakarṇi.¹ The latter class, which comprises more than two-thirds of the total number of coins found, has, struck over the ordinary types of Nahāpana, the Andhra types, *obr.* “*Caitya* with inscr.”: *rev.* “Ujjain symbol,” which appear together on lead coins (Andhra-deśa, Fabric A) of Puḷu-māvi (p. 20; Pl. v. 88—G.P. 1), Śiva-Śrī (p. 29; Pl. v. 115, 116), Candra-Śāti (p. 30; Pl. vi. 117—G.P. 1), and Śrī-Yajña (p. 34; Pl. vi. 132–146), but which had not previously been found associated on coins of Gautamīputra Śātakarṇi. So far as is known at present, these types were not used for any independent silver coinage, but were simply employed for the purpose of re-issuing the existing currency. This re-struck coinage would naturally be issued soon after the defeat of Nahapāna, whose last known date is the year 46 = A.D. 124, and it circulated no doubt in the Nasik Dist., which had been recently won, or rather reclaimed, for the Andhras by Gautamīputra Śrī-Śātakarṇi.²

72. The silver coinage struck by Gautamīputra Śrī-Yajña-Śātakarṇi in Western India is closely imitated, as regards types, size, and weight, from the ordinary silver coinage of the Western Kṣatrapas. The head of the king appears on the *obr.*—the only known coin-portrait of an Andhra monarch—while the *rev.* type combines the Ujjain symbol with the *Caitya*, having between them the rayed sun, which is constantly associated with the *Caitya* in the *rev.* type of the Western Kṣatrapas.

Of this coinage only three specimens are at present known;

¹ A full account of this hoard is given by the Rev. H. R. Scott in JBBRAS, 1907.

² For the history of the Nasik dist. (Govardhana) during this period, *v. inf.* § 95.

and the *provenance* of one of these (p. 45, Pl. vii, El.) would seem to supply indisputable evidence of the district to which it belonged, since it was actually discovered by Pandit Bhagvānlāl Indrājī in the *stūpa* at Sopara, and was no doubt deposited there together with the relics when the *stūpa* was erected. It is, evidently a specimen of the coinage then current in the province of Aparānta, of which Sopara (Śūrpāraka) was the ancient capital.¹

The other coin in the Bhagvānlāl Collection was obtained by the Pandit from Amreli in Kathiawar (Pl. vii. 178); and Colonel Biddulph acquired his specimen in Baroda (Pl. vii. J. B.). It would be hazardous to conclude from the *provenance* of these two specimens that the Andhra power was extended northwards of Aparānta into the domains of the Western Kṣatrapas during the reign of Śrī-Yajña.² The fact that Aparānta itself was held by Rudradāman (Junagadh inscr., v. § 57, no. 38) is quite sufficient to explain why Śrī-Yajña subsequently issued in this province a currency modelled on that of the Western Kṣatrapas.³

The *obv.* inscr. on these coins is that which is used by Śrī-Yajña also in the eastern portion of his empire (Andhra-deśa: Kistna and Godavari Dists., pp. 34, 38), and is in very similar Brāhmī characters. The *rev.* inscr., which seems to be substantially the same but in a different dialect, is written in a variety of the Brāhmī alphabet which has not been found elsewhere, but which approaches most nearly to that of the Bhaṭṭiprolu inscr.,⁴ and may, perhaps, represent merely a later stage of development. Buhler has pointed out that this Bhaṭṭiprolu alphabet, to which he gives the name Drāviḍi, *i.e.* the Dravidian form of Brāhmī,

¹ For the history of Aparānta during this period, v. *inf.* § 95.

² As Bh. JBBRAS, xv, p. 314.

³ Bh. observes that the Sopara coin most resembles those of Rudradāman in style and workmanship; *l.c.*

⁴ Buhler, EI, ii, 323.

seems to have been used side by side with the ordinary form of Brāhmī in the Kistna Dist., and that the explanation of some of its peculiar forms probably depends on a fuller knowledge of the dialects of this region than we possess at present.¹ It seems reasonable to suppose, then, that the two varieties of alphabet used in the Kistna Dist. were associated with the use of two different dialects—(1) the ordinary Prakrit of the inscriptions of this period, the ‘Lepaprakrit’ of Prof. Pischel,² which was widely understood throughout India, and (2) a local Prakrit, perhaps containing Dravidian elements, peculiar to the Kistna Dist. Traces of this latter dialect are probably to be seen in certain Andhra names, such as *Haku*=Śakti; *Hāla*=Śāta, &c.; and its occurrence, like that of the alphabet associated with it, on coins of Śrī-Yajña struck in Western India must, no doubt, be regarded as a reminiscence of the old home of the race in the Telugu country, and may be compared to the use of Kharoṣṭhī on the coins of Bhūmaka, Nahapāna, and Caṣṭana (pp. 63, 65, 72). The *rev.* legend, which is in this local dialect and alphabet, was formerly read and interpreted in such a way as to make Śrī-Yajña the son of Caturapana (= Catarapana, *v.* § 50).³ But there can be no doubt that this reading and interpretation were incorrect. The rest of the *rev.* legend agrees word for word with the *obv.* legend; but all that can be said about the doubtful word, which was read ‘*Caturapanasa*,’ is that it was one of five or six syllables, the last two only of which are legible with certainty, and that it was probably equivalent to the first word of the *obv.* legend—*Raño*.⁴

³ Bh. JBBRAS, xv, p. 306.

⁴ R. JRAS, 1905, p. 800.

73. The oldest known coins of the Andhra Dynasty seem undoubtedly to be those with the legend *Raño Siri-Sātasa* (p. 1; Pl. I. 1, 2). These were first published by Mr. Vincent Smith, who was inclined, on epigraphical grounds, to assign them "to the period about 100 B.C." At the same time, however, he recognized that by certain accessories to their types—the symbolical representation of a river with fish, and the 'Ujjain' symbol—they were apparently connected with "the early cast and punch-marked coins of Erau, Besnagar, and Ujjain in Mālavā," that is to say, with coins of both East and West Malwa; and, as he held that there was "reason to believe that the kingdom of Mālavā was absorbed by the Andhra monarchy about B.C. 70," he offered the alternative suggestion that these Andhra coins of Malwa fabric might have been struck by a king "Śātasvāti or Śātakarṇi," no. 10 in his list taken from the Matsya Purāṇa, whose accession, according to the lengths of reigns given by the Purāṇas, would seem to be dated about 68 B.C.¹

Although no record of the *provenance* of these coins has been preserved, their attribution to the region of Malwa would seem to be extremely probable from a consideration of their types; and as they are round in form, we may perhaps advance one step farther and attribute them to West Malwa rather than to East Malwa, in accordance with an observation made by General Sir A. Cunningham. In speaking of these two districts he says: "That they were usually independent states is shown by a most marked difference in their money, the coins of Ujjain" (*i.e.* of Avanti, West Malwa) "being invariably round pieces, while those of Besnagar and Eran" (*i.e.* of Ākara, East Malwa) "are nearly all square."²

¹ ZDMG, 1902, p. 659; 1903, pp. 607, 615. There seems to be some confusion as to the name of this king who is usually called Svāti or Svāmi in MSS.; *v. sup.* p. lxvi. and Fitzedward Hall's note to Wilson, *V.P.* iv. p. 200.

² CAI, p. 95.

This attribution may perhaps remove a chronological difficulty which Mr. Vincent Smith seems to have felt, and which may have induced him to make his alternative proposal of a date so late as 68 B.C. for these coins.¹ The Andhra conquest of Malwa, whether from the Śuṅgas, c. B.C. 70, as Mr. Smith formerly supposed, or from the Kāṇvas, c. B.C. 27, as he suggests in his more recent work, may have reference solely to the kingdom of East Malwa, at the capital of which, Vidiśā (Bhilsa), the Śuṅga king Agnimitra ruled, according to Kālidāsa's drama "Mālavikāgnimitra." There is no evidence to show that either the Śuṅgas or the Kāṇvas ever ruled over West Malwa. It is at least possible, though there is no evidence of the fact except these coins, that West Malwa may have been conquered by the Andhras at a much earlier period.

The very striking similarity between the characters of the coin-legend *Raño Siri-Sātasa* and the inscr. *Devī-Nāyanikāya Raño ca Siri-Sātakanino* over the relieve figures of the king and queen (no. 4) in the Nanaghat cave (v. Bh. JBBRAS, xiii (1877), p. 311, Pl. 2.2) can scarcely be explained except by supposing that they belong to the same period and refer to the same king. This king would seem to be the husband of the queen who promulgates the great sacrificial inscr. at Nanaghat (v. § 57, no. 1), and may, perhaps, be further identified with the Śātakarṇi who is mentioned in the Hathigumpha inscr. of Khāravela, the king of Kalinga (v. § 17).

The date of the coins with legend *Raño Siri-Sātasa* would therefore seem to be about 150 B.C. They occur in both lead and potin, and of each of these varieties, which are connected by the common type 'Elephant r.' and the symbolical representation of

¹ He suggests a still later date in EHI. p. 183. on the theory that the Kāṇva dynasty came to an end in B.C. 27.

a river with fish, a solitary specimen only is at present known to exist.

The attribution of a lead coin (p. 2; Pl. I. 3) which is closely connected by type with the potin coin of Śrī-Śāta must remain doubtful. It is inscribed with Brāhmi characters which are apparently of the same period, but which are too fragmentary to allow of any satisfactory reading. All that can be said is that the name of the king seems to have begun with *Aja-* or *Aji-*. No form occurring in the Purāṇic lists suggests any very probable identification, though it is possible that the curious name Apītaka, or Apilavā, which appears early in these lists (no. 8, Matsya and Vāyu, v. Lists in § 58) may be a corruption of the name of this king.

74. There are certain classes of coins which presumably belong to Western India, since most of the specimens in the British Museum were collected by Pandit Bhagvānlāl Indrājī, but which cannot at present be assigned very definitely to any particular districts. Their legends, fragmentary as they are, show that they were issued by the Andhra Dynasty. Their types also are such as occur on coins of other provinces of the Andhra Empire. They fall naturally into two groups.

Group A.

(1) Potin: Square. Type, 'l. Tree, r. Ujjain symbol: Elephant l.' (p. 3; Pl. I. 5, 6).

(2) Copper: Square. Type, 'Elephant r.: l. Ujjain symbol, r. Tree' (p. 3; Pl. I. 7).

(3) Copper: Square. Type, 'Lion l.: l. Tree, r. Ujjain symbol' (p. 4; Pl. I. 8).

(4) Potin: Square. Type, 'Lion r.: l. Ujjain symbol, r. Tree' (p. 4; Pl. I. 9, 11).

The inscr. on all the four classes of this group seems to have been *Raño Satakamṇisa*, or perhaps *Raño Siri-Satakamṇisa*.

Group B.

(5) Potin: Round. Type, 'Elephant r.: Tree' (pp. 17-19; Pl. iv. 59-75).

(6) Copper: Square. Type, probably the same as in no. (5) (p. 19; Pl. iv. 87).

The traces of the inscrr. suggest the restoration *Raño Siri-Satakamṇisa*, and occasionally (as on no. 77, p. 18) there are traces which indicate that *Gotamiputasa* may have formed part of the coin-legend.

75. In size and shape the coins of Group A bear a general resemblance to those of Eran, and this resemblance extends also to certain characteristic features in the types. For example, the double line border including fishes and *svastika*-symbols (Class (1)), or fishes only (Class (3)), is strikingly similar to the device which General Sir A. Cunningham supposed to represent the river Bina on the coins of Eran.¹

Further information supplied by General Cunningham may perhaps afford a clue to the locality to which these coins belong. Referring to the coins of Eran, he says, "Similar coins are found in the old ruined capital of Besnagar, situated in the fork between the Betwa and Bes rivers, immediately above their junction, and only a few miles to the west of Bhilsa. It was certainly the capital of East Malwa, as Ujain was the capital of West Malwa."²

The ancient name of East Malwa, the province of which Bhilsa (Vidiśā) was the capital, was Ākara. It was included in

¹ CAI, p. 101, Pl. xi.

² *Op. cit.* p. 99.

the Andhra dominions in the reign of Gautamīputra Śātakarṇi, who is called 'king of Ākara and Avanti' (*i.e.* East and West Malwa) (*v. sup.* § 42). After his reign both of these provinces passed into the domain of the Western Kṣatrapas, and are claimed by Rudradāman in his Gīrnar inscr. (*v.* § 57, no. 38).

Another, and probably an earlier, trace of the Andhra dominion in East Malwa is to be seen in an inscr. of a Vāsiṣṭhīputra Śātakarṇi on one of the Bhilsa Topes (*v.* § 29).

It seems probable, then, that the coins of Group A should be attributed to the district of East Malwa, and that they belong to the flourishing period of Andhra power. The Śātakarṇi of the coin-legends may be either Gautamīputra or some earlier king.

76. The attribution of the coins of this group to the Andhra Dynasty, and to Gautamīputra in particular, rests chiefly on the evidence of the scanty and uncertain traces which remain of the coin-legends. It is further supported by the types 'Elephant r.: Tree,' which, as has been already observed, are common in the coinages of the Andhras.

District of
Group B
uncertain.

The *rev.* type, 'a Tree with large leaves,' appears to be copied by Nahapāna in his copper coinage, a single specimen only of which is at present known (*p.* 67; *Pl.* ix. 252). While retaining this type for the *rev.*, he substitutes his own characteristic type, 'l. Thunderbolt, r. Arrow,' for the 'Elephant' on the *obr.*

The copper coin of Nahapāna came from Ajmer, but it would be hazardous to conclude from the *provenance* of a single specimen that the class from which it is apparently imitated belonged to the same locality.

For the present we can only suppose that the coins of Group B were struck by Gautamīputra in some district which was afterwards conquered by the Kṣaharītas.

HISTORY AND COINS OF THE WESTERN KṢATRAPAS.

77. The Indian expedition of Seleucus against Candragupta in 305 B.C. ended in a treaty by which the Indian conquests of Alexander the Great were abandoned, and 'the satrapies of the Paropanisadai, Ariā, and Arachosia, the capitals of which were respectively the cities now known as Kābul, Herāt, and Kandahār,' together with 'the satrapy of Gedrosia, or at least the eastern portion of it,' were ceded to Candragupta.¹ The Maurya empire therefore included that portion of Afghanistan which lies south of the Hindu Kush, and either the whole or some portion of British Baluchistan. The edicts of Candragupta's grandson, Aśoka (B.C. 269–232), seem to show that, while he regarded his empire on the north as conterminous with that of "the Greek king Antiochus" (*i.e.* the Seleucid king, Antiochus II, Theos, B.C. 261–246),² he still recognised the existence on the northern fringe of the empire, as on the southern (*v. sup.* § 16), of certain peoples whose position of independence or semi-independence did not justify their inclusion under the general heading of "the king's dominions," but entitled them to separate mention. Such were the Yonas, Kāmbojas, and Gāndhāras,³ three nations who, in the Sanskrit epics and in the Purāṇas, are also often mentioned together and in association with other tribes living to the north of India.⁴

¹ S. EHI, pp. 112, and 132 ff.

² Edicts II and XIII; S. *Aśoka*, pp. 115, 131. The edicts were published in the 14th year of Aśoka's reign = 256 B.C.; *op. cit.*, p. 64.

³ Edict V, *op. cit.*, p. 120. In Edict XIII, *id.*, p. 132, the unexplained 'Nābhaka of the Nābhitis' seems to take the place of the Gāndhāras in this list.

⁴ 'Yona' is a Prakrit form of 'Yavana.' The Indian Yonas or Yavanas were at this period Asiatic Greeks—*Ἰᾶνες*—or people of Greek descent (*v. sup.* § 44, note 2). There is no reason for supposing that the term was yet used, as it was undoubtedly used at a later period, to denote foreigners of other nationalities. It is inconceivable that Aśoka should have used the term in two different

78. During the reign of Aśoka, but at dates some years subsequent to the promulgation of his edicts, occurred the two provincial revolts in the Seleucid empire which led to the establishment of the Graeco-Bactrian and Parthian Kingdoms, each within a few years of 250 B.C. The growth of these two powers—Bactria immediately to the north of the Hindu Kush, and Parthia to the west of Bactria—synchronised with the decline of the Maurya empire, which must have set in shortly after the death of Aśoka (*v. sup.* §§ 16, 17). The conditions were therefore favourable at the same time both to the invasion of India by her stronger neighbours on the north, and to the progress in India of native states which had hitherto been subordinate to the Mauryas. The coins amply show that such were the characteristic features in the history of Northern India during the period after the downfall of the Maurya empire which had marked the supremacy of the kingdom of Magadha.

79. Of the foreign invaders of India during this period, the earliest who have left a record of themselves in their coins were undoubtedly Bactrian Greeks.¹ These are followed by a race whose kings bear Scythic names, together with the Parthian title '*Βασιλεὺς*

senses in the same edict (no. XIII, *op. cit.*, pp. 131-2)—in one sense of the Greek king (*Yona-rāja*) Antiochus, and in another sense of the *Yonas*, who were one of the border peoples of his empire. The inserr. show that the Yavanas, like other foreign invaders of India, such as the Śakas, Pahlavas, Kusanas, and Hūnas, became Hinduised in time and assumed Hindu names. Aśoka's governor over Surāstra was a Yavana, who appears to have had a Persian (Pahlava) name—Tusūspaha (*v. sup.* § 57, no. 38). The *Yonas* who were settled in the north of India in Aśoka's time—half a century earlier than the invasions of the Bactrian Greeks—may perhaps have dated from the time of Alexander the Great. For references in Skt. literature to Yavanas, Kāmbōjas, and Gāndharās, *v. Pargiter, Mārkaṇḍeya Purāṇa*, pp. 311, 314, 318.

¹ R. IC. §§ 12, 18.

Βασιλέων';¹ and, at a somewhat later date, and closely associated with the last mentioned, appear kings whose names and titles are certainly Parthian.² There seems to be no reason whatever for doubting that these three races are respectively the Yavanas, Śakas, and Pahlavas³ of the early Indian inscriptions, and of the Sanskrit literature which undoubtedly in a great measure belongs, whether in form or in substance, to this period—the Mahābhārata and Rāmāyaṇa, the *Vārttikas* of Kātyāyana, the Mahābhāṣya of Patañjali, the Mānava-Dharma-śāstra, and the Purāṇas.⁴

¹ The dynasty of Maues, *id.*, §§ 13, 29. The difficulty of distinguishing between the Scythic (Śaka) and Parthian (Pahlava) dynasties in India during this period is well known. The proper names afford the only means of making a distinction between them, and a consideration of these supplies no certain guide, since names derived from both sources are applied to members of the same family. The reason for this confusion is admirably explained by Mr. Thomas. He says (JRAS, 1906, p. 215), "It would seem probable that the tribes from eastern Iran who invaded India included diverse elements mingled indistinguishably together, so that it is not possible to assert that one dynasty is definitely Parthian while another is Śaka. A regular invasion by the Parthian empire seems to be not recorded and *a priori* highly improbable. We must think rather of inroads by adventurers of various origin, among whom from time to time one or another, as Maues, was able to assert a temporary supremacy."

² R. IC, §§ 30, 31.

³ It is at present impossible to distinguish between the Greeks who were settled in India in the time of Aśoka and the later Greek invaders from Baetria. The term *Yavana* was probably applied to both classes without distinction. For the association in literature of Yavanas, Śakas, and Pahlavas, *v.*, in addition to the references given in § 44, note 2, *supra*, also Pargiter, *Mārkaṇḍeya Purāṇa*, pp. 350, 371, where reference is made to passages from the Mahābhārata and Rāmāyaṇa, in which all three appear together with the Kāmbojas and other peoples of Northern India.

⁴ The Mahābhārata and Rāmāyaṇa in their present form represent collections of material belonging to very various ages, but their oldest portions certainly date from an early period—probably as early as 400 or 500 B.C. Both Kātyāyana and Patañjali probably belong to the 2nd cent. B.C., perhaps c. 180 B.C. and c. 120 B.C. respectively. The Mānava-Dharma-śāstra ('The Laws of Manu') in its present form dates from probably about 200 A.D. The oldest Purāṇas may date from c. 350 A.D., but, like the Mahābhārata and Rāmāyaṇa, they contain more ancient matter.

80. In addition to the title '*Βασιλεὺς Βασιλέων*,' that of
 The titles '*kṣatrapa*' is also in India indicative of Parthian
 '*kṣatrapa*' and or Scythic dominion. The word is itself a
 '*mahākṣatrapa*.' Sanskritised form¹ of the Old Persian '*khshathra-*
pāvan,' 'protector of the land.' It appears first in Indian coin-
 legends and inscrs. of the 2nd century B.C., but has never been
 found in Sanskrit or Prakrit literature. Like the corresponding
 Greek term '*σατράπης*,' it is essentially a borrowed word, used
 only to denote the holder of an office which was of foreign origin.
 In India, as in Persia, the '*kṣatrapa*' was originally, no doubt, a
 viceroy of the 'King of Kings';² but together with this title
 there appears in India one of higher rank, viz. that of '*mahā-*
kṣatrapa,' or 'great satrap.' The mahākṣatrapa no doubt occupied
 a position of greater power and independence than the kṣatrapa,
 but he still seems to have acknowledged the suzerainty of a
 'King of Kings.'³ To what extent his power was limited by
 this suzerainty cannot be exactly determined. After the various
 satrapal houses had become established in the rule of their
 respective provinces, it is customary to find a mahākṣatrapa and
 a kṣatrapa reigning together at the same time—the latter occupy-
 ing the position of heir-apparent, and regularly in due course
 succeeding to the higher dignity. The long series of dated coins
 of the Western Kṣatrapas enables us to trace the reigns both of
 mahākṣatrapas and kṣatrapas with great precision, but their

¹ Prakrit forms are *khatapa* (i.e. *khattapa*), *chatrapa*, and *chatrava*.

² Cf. the Taxila plate of Pātika, son of the satrap Liaka Kusūlaka, dated in the 78th year of some undetermined era during the reign of the Great King Moga, who is almost certainly to be identified with the Maues or Moa of the coins; v. Bühler, EI, v, p. 54.

³ A clear instance of a mahākṣatrapa acknowledging such suzerainty is afforded by the Mks. Kharapallāna who appears in an inscr. dated in the 3rd year of the Kusana king Kaniska; v. *ibid.* § 81. Mathur.

relation to some suzerain power can only be inferred. With regard to the higher dignity, the position occupied by the mahākṣatrapa, it is known—(1) that it might be won by personal achievement (Inscr. of Rudradāman; *v. sup.* § 57, no. 38); (2) that it might be in debate between two members of the ruling family (as, for example, between Jivadāman and his uncle Rudrasimha I; *v. pp.* 83 ff.); (3) that it might be seized by a foreign invader¹ (as by Īśvaradatta, who was probably an Ābhira; *v. p.* 124); (4) that it was in abeyance during a long period, for the first part of which the record of the kṣatrapas is continuous, but ceases altogether in the later years;² (5) that on its resumption after this interval it is for the last 40 or more years of the dynasty unaccompanied by the subordinate dignity of kṣatrapa (*i.e.* from Mkṣ. Svāmi-Rudradāman II, Śaka 270-*x*, to Svāmi-Rudrasimha III, Śaka 310 or 310 + *x*; *v. pp.* 178, 192).

81. Various satrapal families are to be traced in different districts by their inscrr. and coins; and there are found also a number of isolated names of kṣatrapas and mahākṣatrapas, the locality of whose rule cannot at present be determined with certainty. The following seem to be the most clearly ascertained centres of satrapal government:—

Kapiśa.—A kṣatrapa of Kapiśa, who is apparently unknown from any other source, is mentioned in the inscr. on the Manikyala cylinder (Dowson, JRAS, 1863, p. 244, Pl. iv. 4; PE, i, Pl. vi.). The restoration of the reading of the first word as *Kaviśiye* 'of

¹ It cannot be determined with certainty whether the office of kṣatrapa continued to be held by a member of the dynasty during the two years in which Īśvaradatta usurps the title of mahākṣatrapa (*v. p.* 117, note 2, and p. 126).

² There is no mahākṣatrapa between Bhartṛdāman (last date, yr. 217; *v. p.* 155) and Svāmi-Rudradāman II (date 270-*x*; *v. p.* 178, note 1). During this interval the dates of kṣatrapas are fairly continuous until the year 251, after which they cease altogether for the remainder of the dynasty.

Kapiśa,' instead of *Kariśiye*, may be made with confidence. Certain re-struck coins, with inscr. *Kaviśiye nagara-devatā*, 'the tutelary deity of the city of Kapiśa,' seem to prove that Eucratides succeeded Apollodotus in the government of Kapiśa, the capital of the kingdom of Kapiśa-Gāndhāra (R. JRAS, 1905, p. 784). The present inscr. shows that after the Śaka conquest the district was governed by satraps.

Taxila.—This dynasty is known from the copper-plate inscr. of Pātika, son of the kṣatrapa Liaka Kusūlaka (Buhler, EI, v, p. 54). The fact that the inscr. is dated in the reign of the Great King Moga (year 78 of some unspecified era) denotes that the satraps of Taxila acknowledged his suzerainty. Pātika subsequently appears in one of the inserr. on the Mathurā lion-capital as a mahākṣatrapa. He strikes silver coins, with inscr. **ΛΙΑΚΟ ΚΟΖΟΥΛΟ**, which are directly imitated from one of the issues of Eucratides with types 'King's head r.: *pilei* and palms of the Dioscuri' (C. NChr. 1889, p. 308, Pl. XIII. 9). These coins must therefore have circulated either in the district of Taxila, or in some other district which passed from the Greek dynasty to which Eucratides belonged into the power of these satraps.

Mathurā.—The Northern Kṣatrapas. This family is known from coins (C. CAI, p. 85, Pl. VIII.; Bh. JRAS, 1894, p. 541), and from the inserr. on the lion-capital (Thomas, EI, ix, p. 139). These inserr. afford a genealogical table of the members of the reigning family, and record the names also of the chief representatives of other satrapal families in Northern India. As Mr. Thomas points out (*l.c.*), this fact strengthens the arguments in favour of the old interpretation of the word *Sakastana* (inscr. P.) as = Skt. *Śakasthāna*, 'the Śaka realm.'¹ The mahākṣatrapa

¹ This interpretation was doubted by Dr. Fleet, JRAS, 1904, p. 703; 1905, p. 643.

Rājūla of the lion-capital is no doubt the Rañjubula who, both as kṣatrapa and mahākṣatrapa, strikes silver coins directly imitated from those of the Greek prince, Strato I Soter, reigning conjointly with his grandson, Strato II Philopator (R. IC, § 33, corrected by R. in *Corolla Numismatica*, p. 245). These coins bear witness to the transference of the Mathurā district from Greek to Śaka rule. An inscr. discovered at Sarnath, dated in the 3rd year of Kaniṣka, shows that at a later date a mahākṣatrapa Kharapallāna and a kṣatrapa Vanaṣpara, who probably belong to this family, were paying allegiance to the Kuṣanas (*v. inf.* § 86).

82. The satrapal families with whose coins the present volume deals are conveniently known as the 'Western Kṣatrapas,' or 'Kṣatrapas of Surāṣṭra and Mālwa,' as distinguished from the 'Northern Kṣatrapas,' or 'Kṣatrapas of Mathurā.'¹ The term is used so as to include at least two distinct families—the Kṣaharātas and the family of Caṣṭana. It is possible that the proper name of the latter may have been 'Kārdḍamaka.'² The names of the family of Caṣṭana become Hinduised immediately—his son is called Jayadāman—and, as they remain throughout the same in character, always (with the single exception of the name 'Dāmajada') ending in *-dāman*, *-siṃha*, or *-sena*, it is not improbable that the same family may have continued to reign until the end of the dynasty. There is, however, evidently a break in the direct line after Viśvasena (p. 162), who is succeeded by a kṣatrapa, Rudrasimha II, whose father seems not to have reigned either as mahākṣatrapa or kṣatrapa (p. 169). There are, further, two occasions when it is

¹ They were formerly called the 'Sāh' dynasty—a wrong reading of the *-siṃha* or *-sena* which forms the second part of so many of the names.

² The daughter of Rudradāman boasts that she is descended from the family of Kārdḍamaka Kings (*v. sup.* § 57, no. 17); but, obviously, she may have been indebted to her mother for this distinction.

not possible to trace the line with certainty after the time of Rudrasimha II—before the Mks. Svāmi-Rudradāman II (p. 178), and before the Mks. Svāmi-Satyasimha (p. 191).

83. The northern origin of the Western Kṣatrapas is most clearly proved by the use in their earlier coin-legends of the Kharoṣṭhī alphabet. The Indian home of this alphabet lay in eastern Afghanistan and in the north of the Panjab; and, although its use was extended from this centre as far as Bhawalpur in the S.W., Mathurā in the S., and Kangra in the S.E. (Bühler, *Ind. Pal.*, § 7), in which regions it often appears side by side with the Brāhmī alphabet, it is not usually found so far south as the dominions of the Western Kṣatrapas—Kathiawar, Gujarat, and Malwa. In these districts Brāhmī was the regular alphabet from the time of Aśoka onwards. As used on the coins of the Western Kṣatrapas, Kharoṣṭhī is evidently a foreign alphabet. At first it seems to claim in the coin-legends an equally important place with Brāhmī, but it falls into gradual disuse (R. JRAS, 1899, p. 372), and after the reign of Caṣṭana it is abandoned altogether.

84. That the Western Kṣatrapas were of foreign, *i.e.* non-Śakas or Pahlavas Indian, nationality is certain; and it is quite possible that the two families may have belonged to different races. It is possible, for example, that the Kṣahanūtas may have been Pahlavas and the family of Caṣṭana Śakas. It seems to be as certain that the name 'Nahapāna' is Persian¹ as that the name of Ghsamotika, the father of Caṣṭana, is Scythic (Thomas, JRAS, 1906, p. 211). But, as has been observed above (§ 79), the names afford no certain test; and one

¹ His son-in-law, Usavadāta (Rasabhadatta), was probably a Śaka with a Hinduised name (*v. sup.* § 57, no. 32).

of the most characteristic features in the names of Caṣṭana's descendants --*dāman*, which appears either as the first or second part of many of these names—may well be a Sanskritised form of a Persian word (*cf.* 'Spalaga-dama,' Thomas, *op. cit.*, p. 209). But whatever their nationality may have been, it seems extremely probable that in later times they are actually called 'Śakas';¹ and it may be suggested that the name, which was generally accepted at a later date for the era used by them, may have been derived not from the fact that it was originally founded by a Śaka king, as is generally assumed, but from the fact that it became best known in Northern India as the era which was used for so long a period by these Śaka kings (*Śaka-nṛpa-kāla*).²

85. That the dates of the Western Kṣatrapas are actually recorded in years of the Śaka era, beginning in 78 A.D., there can be no possible doubt (*v. R. IC*, § 83; *JRAS*, 1899, p. 365). The question of the origin of this era has, therefore, an important bearing on the history of this dynasty. The titles 'kṣatrapa' and 'mahākṣatrapa' certainly show that the Western Kṣatrapas were originally feudatories; and the era used by them is presumably, as is regularly the case in similar instances, the era of the dynasty to which they paid allegiance. Until recent years Fergusson's theory³ that the Śaka

¹ In the Allahabad inser. of Samudragupta (*Flect.* CII, iii, p. 8) the Śakas, who are mentioned together with the *Daivaputra-Shāhi-Shāhānushāhis* (= Kusanas), may reasonably be supposed to be Western Kṣatrapas. The slaying of the Śaka king by Candragupta, mentioned in the *Harṣa-carita* (trans. Cowell and Thomas, p. 194), seems to refer to an episode in the Gupta conquest of their kingdom. It has been suggested above that the Śakas who appear among the successors of the Andhras in the *Purāṇas* may possibly be Western Kṣatrapas (*v. sup.* § 58).

² This, the usual expression in the earliest inser. in which the name of the era occurs, may, of course, mean either 'the era of the Śaka kings,' or 'the era of the Śaka king.'

³ Oldenberg, *IA*, 1881, p. 213.

era was founded by Kanīṣka was more generally accepted than any other; but a host of rival theories have since been proposed, and it cannot be said that at the present time there is any general consensus on this subject among scholars.¹ One of the main objections brought against Fergusson's theory was that Kanīṣka was not a Śaka but a Kuṣana; but this objection is not insuperable, if the suggestion just made may be entertained, *viz.* that the *name* of the era, which is not found in inserr. until after the power of the Western Kṣatrapas had been well established,² may have been derived from the kings who used it rather than from the king who established it.

86. It cannot be said that any one of the theories proposed is entirely satisfactory, but certain epigraphical discoveries recently made at Sarnath³ undoubtedly lend some support to Fergusson's view, according to which the Kuṣana kings must be supposed to have been the suzerains of the Western Kṣatrapas. The inserr. in question show that a mahākṣatrapa and a kṣatrapa, who probably belong to the satrapal dynasty established at Mathurā (*v. sup.* § 81), were feudatories of Kanīṣka in the third year of his reign. The Kuṣanas certainly imitated their Parthian and Śaka predecessors in many respects. They use the same or similar titles—*Βασιλεὺς Βασιλέων* and its equivalent *Shaonano Shao*, and *Kujula*, *Kuyula*, or **ΚΟΖΟΥΛΟ**, **ΚΟΖΟΛΑ** = *Kusulaa* or **ΚΟΖΟΥΛΟ**, the forms of the same title used by satraps of Taxila (*v. sup.* § 81); and the Sarnath inserr.

¹ A summary of these different theories is given by Mr. Vincent Smith, JRAS, 1903, p. 1.

² The inserr. in which the name occurs begin in the year 169 in Southern India (Kielhorn, EI, vii, Appendix, p. 171), and in the year 400 in Northern India (*id.* EI, v, Appendix, p. 49).

³ Vogel, EI, viii, p. 173.

show that they adopted also the established system of government by means of satraps. Their empire in the time of Kaniṣka seems to have "extended all over North-Western India, probably as far south as the Vindhya;"¹ and it is reasonable to suppose that the Western Kṣatrapas were originally their viceroys in the south-western provinces of this vast dominion. The era established by Kaniṣka was admittedly used by his successors for at least 98 years,² and it probably continued in use for a longer period; and, in spite of everything which has been urged against Fergusson's view during recent years, there seem to be no insuperable chronological difficulties involved in the identification of this era of Kaniṣka with the Śaka era.

87. The earliest known member of the Kṣaharāta³ family, whose name appears on coins only, is Bhūmaka (p. 63; Pl. ix. 237-242). These coins are of copper, and, according to Pandit Bhagvānlāl Indrājī, they are found 'in the coasting regions of Gujarāt and Kathiāwād, and also sometimes in Mālwa.' Their types are 'Arrow, Discus, and Thunderbolt: Lion-capital and *Dharmacakra*.' The *obv.* type, which is continued by Nahapāna as the *rev.* type of both his silver and his copper coinages, may perhaps have been the distinctive badge of the Kṣaharātas. It may be compared with the *rev.* type, 'Discus, Bow and Arrow,' of certain copper coins struck conjointly by Spalirises and Azes⁴ (Gardner, B.M. Cat.,

¹ S. EHI, p. 226.

² S. JRAS, 1903, pp. 8-13.

³ This Sanskritised form of what is probably a Persian name appears in the Brāhmi coin-legends, and in the Nasik inscr. of Rṣabhadatta and Dakṣamitrā. The Kharoṣṭhī coin-legends have, apparently, *Chaharada* and *Chaharata*; the Karle inscr. of Rṣabhadatta has *Khaharāta*; and the Nasik inscr. of Queen Bala-śrī *Khakharāta*.

⁴ In coins of this class the name of a Parthian (Pahlava) king of the family of Vonones appears on the *obv.* and that of a Śaka king of the family of Maues on the *rev.*; v. R. IC. § 31.

Gk. and Scythic Kings, Pl. xxii. 4; C. NChr., 1890, Pl. vii 13). The 'Lion-capital' of the *rev.* represents a feature in Indian art which, as Mr. Thomas has observed (JRAS, 1906, p. 216), was borrowed from Persia, while the '*Dharmacakra*,' 'The Wheel of the Law,' is a symbol of the Buddhist faith which was professed by the satrapal families of Taxila and Mathurā.¹ The coin-legends are on the *obv.* Kharoṣṭhī and on the *rev.* usually Brāhmī.² Bhūmaka is called 'Kṣatrapa' without the addition of 'Rāja,' which is associated with it in the inscr., and which takes its place on the coins, of Nahapāna. Considerations of the type and fabric of the coins, and of the nature of the coin-legends, leave no room for doubting that Bhūmaka preceded Nahapāna, but there is no evidence to show the relationship between them.

88. Nahapāna strikes coins of both silver and copper (pp. 65-67; Pl. ix. 243-252). The silver coins are apparently imitated, as regards size, weight, and fabric, from the hemi-drachms of the Graeco-Indian kings,³ and in these respects they set a standard which was followed by the Western Kṣatrapas for some two hundred and seventy years, and afterwards by their successors the Guptas and the Traikūṭakas. From the same source too, and probably also partly from the Roman *denarii* which were brought in the way of commerce to the western ports of India,⁴ they derived their *obv.* type, 'Head of

¹ Taxila copper-plate inscr., and inscr. on Mathurā lion-capital (*v. sup.* § 81).

² In one instance there may have been an inscr. in Greek instead of Brāhmī characters (p. 64; Pl. ix. 239).

³ According to the anonymous author of the *Periplus maris Aegaei*, § 47 (McCrindle, *IA*, viii (1879), p. 143), "old drachmai bearing the Greek inscr. of Apollodotus and Menander are current in Barugaza (Broach)"; *cf.* R. JRAS, 1899, p. 362. McCrindle dates the *Periplus* between 80 and 89 A.D.

⁴ In the *Periplus*, § 49 (McCrindle, *op. cit.* p. 143), among the imports of Barugaza is mentioned 'Δηράριον χρυσού καὶ ἀργυρίου'—'gold and silver specie'—yielding a profit when exchanged for native money.

king,' which became a permanent feature in these coinages, and the Graeco-Roman characters of their *obv.* inscr., which, after being used for a short period to transliterate the Brāhmī and Kharoṣṭhī coin-legends of the *rev.*, degenerated into a sort of ornament, traces of which remained even on the silver coins of the Guptas¹ (*v. inf.* 'Coin-legends'). The *rev.* type of the silver coins is, as has been already observed (§ 87), substantially the *obverse* type of Bhūmaka's copper coins. In all the coin-legends, Greek, Brāhmī, and Kharoṣṭhī, Nahapāna bears the title 'Rāja,' together with his family designation 'Kṣaharāta,' but in none of them is he styled 'Kṣatrapa' or 'Mahākṣatrapa.' He is known, however, from the testimony of inscr. to have been kṣatrapa in the year 42 (Nasik inscr., *sup.* § 57, no. 33) and mahākṣatrapa in the year 46 (Junnar inscr., *ibid.* no. 35). Nahapāna's silver coins were of extreme rarity until the discovery of the Jogalthembi hoard in the Nasik Dist. brought thousands of specimens to light (*v. sup.* § 71). His copper coinage is still represented by a solitary specimen which came from Ajmer (p. 67; Pl. ix. 252). On this specimen the *rev.* type of the silver coins, somewhat differently arranged, appears in association with a type, 'Tree, with large leaves, within railing.' This seems to connect it with a coinage which is attributed somewhat doubtfully to the Andhra king Gautamiputra (Western India, Districts uncertain: Group B, *v. sup.* § 76, and pp. 17-19; Pl. iv. 59-75), and from which it is supposed to have been imitated. Of the Brāhmī coin-legend only the name 'Nahapāna' can be deciphered, and it is uncertain whether or not this was accompanied by an inscr. in Kharoṣṭhī characters.

¹ S. JRAS, 1889, Pl. iv, nos. 2 and 7. He, however (*ibid.* p. 121), supposes these corrupt Greek letters to be the remains of the Kuṣana title *Shaonano*.

89. Pandit Bhagvānlāl Indrāji supposed that the portraits of Nahapāna on the silver coins indicated a very long reign;¹ but now that a vast number of specimens are available for comparison, it is clear that no such conclusion can be safely drawn from these representations of the king's head. The Rev. H. R. Scott has pointed out that they exhibit an extraordinary diversity, not only in apparent age but also in features.² They cannot possibly have been portraits, in the true sense of the word, of any single individual; and it is evident therefore that, however this diversity may be explained, any indication of difference of age which they may afford cannot be trusted to determine the length of Nahapāna's reign. The only trustworthy evidence on this point comes from the dates in the inserr., which extend from the year 41 to the year 46 = A.D. 119-124 (§ 57, nos. 33, 35). How long Nahapāna may have continued to reign after year 46 it is impossible to say, but it could only have been for a short period (*c. sup.* § 33). If his last recorded date be supposed to be also that of his defeat by Gautamīputra, who re-struck his coins (*c. sup.* § 71), the possible error can only be a slight one.

90. The extent of Nahapāna's dominions may be partially, but only partially, determined from the inserr. recording the benefactions of his son-in-law and general Ṛṣabhadatta (Uṣavadāta). The localities at which these benefactions were made may be supposed to lie within the province of which Ṛṣabhadatta had especial charge under Nahapāna. They may be said generally to indicate that Ṛṣabhadatta's political influence was restricted to S. Gujarat, the Northern Konkan from Broach to Sopara, and the Nasik and Poona Districts (§ 57,

no. 31). But Nahapāna's territory must have extended much farther north. The place-names in the inscr. of Queen Bala-śrī (*sup.* § 42) seem undoubtedly to indicate the provinces which her son Gautamīputra had wrested from the Kṣaharātas, and these include Surāṣṭra (Kathiawar), Kukura (probably some portion of Rajputana), Ākara (East Malwa), and Avanti (West Malwa). Even after these provinces had been conquered by the Andhras, the districts still farther north may have remained, since Puṣkara in Ajmer, the place of pilgrimage to which Rṣabhadatta resorted for 'consecration' (*abhiṣeka*) after his victory over the Mālayas, may be supposed to have lain within the dominions of his 'lord' (*bhaṭṭāraka*).

91. Caṣṭana, son of Ghsamotika,¹ was the founder of a royal house which reigned without any interruption in the regular succession until the time of the Kṣ. Reign of Caṣṭana. Viśvasena (latest date yr. 226 = A.D. 304; *v.* p. 162). As each prince in his coin-legends records the name of his father, it is possible to trace the line with precision; and, as will be seen from the 'Genealogical Table' (*v. inf.*), each successor of Caṣṭana up to this date was the son of a prince who had ruled before him either as mahākṣatrapa or kṣatrapa. The family of the Kṣ. Rudrasimha II, which succeeds in the following year, 227 = A.D. 305, was almost certainly closely connected; but it derives from a personage, Svāmi-Jivadāman, who like Ghsamotika, the father of Caṣṭana,² bears no princely title (p. 170). But, although it cannot be doubted that Caṣṭana founded a new dynasty, diverse views have been held as to the relation which this dynasty bore

¹ The derivation of the name *Caṣṭana* is uncertain. The termination *-stana* is Persian. *Ghsamotika* is Scythic; *v.* Thomas, JRAS, 1906, p. 211.

² All the genealogies in the inscr. start from the Mk. Caṣṭana; *v. sup.* § 57, nos. 39, 40, 42.

to that of the Kṣaharūtas.¹ That they belonged to different families is certain; but their use of the Kharoṣṭhi alphabet and the character of their names and titles clearly show that they were of northern origin and the viceroys of a northern power while the fabric and epigraphy of their coins—the striking similarity seen in the letters of their Greek, Brāhmī, and Kharoṣṭhi coin-legends—indicate that they cannot have been widely separated either chronologically or locally. Moreover, a comparison of the place-names mentioned in the inscr. of Rṣabhadatta (§ 57, nos. 31, 32), Queen Bala-śrī (§ 42), and Rudradāman (§ 57, no. 38), makes it certain that the two dynasties ruled over many of the same provinces. There seems, then, no reason to doubt that the boast of Bala-śrī that her son Gautamīputra had ‘rooted out the Khakharāta (Kṣaharāta) family’ (§ 44) was literally true, and that Caṣṭana was appointed by the suzerain power to rule over such provinces of the satrapal dominion as remained after the Andhra conquest, and if possible to regain its lost possessions. What progress Caṣṭana may have made in this latter task is not known, but its fulfilment—and that not quite a complete fulfilment²—seems to have been reserved for his grandson Rudradāman (known date, yr. 72 = A.D. 150). All that is known as to the duration of Caṣṭana’s reign, both as kṣatrapa and mahākṣatrapa, is that it must be included, together with the reign of his son Jayadāman as kṣatrapa,³ in the period limited by the years 46 and 72 = A.D.

¹ Bh. originally held that Nahapāna and Caṣṭana were to some extent contemporary; v. JRAS. 1890, p. 644. But he seems to have abandoned that view before writing his last account of this dynasty in BG, I, i. Oldenberg, IA, x (1891), p. 226; Burgess, ASWI, iv, p. 37, note 4; and S. EHI, p. 188, regard Caṣṭana as the satrap of the Andhra conquerors of Nahapāna.

² The Nasik and Poona Districts remained in the possession of the Andhras; v. *sup.* § 43.

³ Possibly, to some extent at least, concurrent with the reign of his father as mahākṣatrapa; v. *inf.* § 93.

124 and 150. His capital, according to Ptolemy, was Ujjain, in West Malwa¹—VII. i. 63: 'Οζηνὴ βασιλείου Τιαστανού. This seems to be quite in accordance with another statement of Ptolemy, which probably means that Paithan was the capital of the Andhra king Vāsiṣṭhīputra Śrī-Puḷumāvi (*v. sup.* § 48). As the date of Puḷumāvi's accession may be expressed as A.D. 131 + *x*, it is highly probable that he was contemporary with Caṣṭana.

92. Caṣṭana struck coins in silver both as kṣatrapa and as mahākṣatrapa; and a square copper coin, the
 His coins. legends on which can only be partially deciphered, may also be doubtfully assigned to him. His silver coins, like those of Nahapāna, have legends in Greek characters on the *obv.*, and in Brāhmī and Kharoṣṭhī characters on the *rev.* Of those on which he appears as kṣatrapa two varieties, distinguished by their *rev.* types, are known:—

In Var. *a* (p. 72; Pl. x. El.) the *rev.* type is 'l., Crescent; r., Star.' This variety is at present only represented by a *cliché* in lead taken from a specimen which can no longer be traced.² It has been pointed out by Pandit Bhagvānlāl Indrāji (BG, *l.c.*) that the star and crescent, the symbols of the sun and moon, occur on Parthian coins;³ and their Parthian origin in the present instance is extremely probable. In this variety they together form the whole *rev.* type, and they remain in the type through-

¹ It may be observed that there is the record of certain benefactions of Ṛṣabhadatta at Ujjain, which must, therefore, presumably have been included in Nahapāna's dominions; *v. sup.* § 57, no. 32.

² This variety is mentioned by Bh. JRAS, 1890, p. 644, and BG, I, i, p. 31, *cf.* R. JRAS, 1899, p. 371, Pl. 3.

³ They appear as adjuncts to the king's head on the *obv.* of silver coins of Mithradates III (B.C. 57-54), Orodes I (B.C. 57-37), Phraates IV (B.C. 37-2), Gotarzes (A.D. 40-51); and they constitute the *rev.* type of copper coins of Orodes I and later kings; *v.* Wroth, B.M. Cat., *Parthia*, p. lxxii, &c.

out the silver coinage of the Western Kṣatrapas; but they soon assume a subordinate position, and eventually become mere adjuncts to the *caitya* which was added to the type later in the reign of Caṣṭana. Bh. supposed (BG, *l.c.*) that in this Var. *a* there was on the *obv.* a fragment of Kharoṣṭhī legend *raño jimo*,¹ together with the traces of Greek characters. This observation is not confirmed by the *cliché* of the coin, and it would seem in itself not to be probable. On the analogy of the other silver coins of Caṣṭana and of those of Nahapāna, the Kharoṣṭhī inscr. might be expected to occur together with a Brāhmī inscr. on the *rev.*, and there is no reason to suppose that such a Kharoṣṭhī inscr. did not actually appear in this variety. There is ample space on the coin for the usual Kh. 'Caṭhanasa,'² and it is quite possible that certain traces which remain may be those of Kharoṣṭhī characters. The traces behind the head on the *obv.* seem rather to favour the view that there may have been in this position a date, expressed perhaps in Kh. letters and numerals.³

Var. *b* (p. 72; Pl. x. 259) differs by the addition to the *rev.* type of a *caitya*, which is placed between the crescent and the star. The type thus completed remained the constant *rev.* type of the silver coins of the Western Kṣatrapas until the end of the dynasty, and was subsequently borrowed from them by the Traikūṭakas (Pl. xviii.). At first the *caitya* takes its place as a constituent portion of the type on an equality with the crescent and star, but it soon becomes the predominant feature in the type, while the crescent and star are relegated to the position of mere symbols. The *caitya* is a common type of the Andhras,

¹ He no doubt supposed this to be the beginning of an inscr. = *Rājño Ghsamo*[*tikaputra*°].

² Cf. pp. 74-5; Pl. x. 261—J.B.

³ A sign exactly like the Kharoṣṭhī numeral 4 is distinct.

and is found in the coinages issued by them in districts which at one time or another were included in the dominions of the Western Kṣatrapas. It was the *obv.* type used by Gautamiputra when, after his conquest of the Nasik District, he re-struck the coins of Nahapāna (p. 68; Pl. ix.), and it appears on the coins of Surāṣṭra fabric which were struck in Aparānta by Śrī-Yajña (§ 72; p. 45; Pl. vii. El.—J.B.). Whatever its origin or significance may have been, its use by Caṣṭana is probably due to association with the Andhras, and it may well signify some extension of his power at their expense, some re-conquest of territories previously taken by them from his predecessor Nahapāna.¹ The specimen of Var. *b* described in the Catalogue was doubtfully attributed by Bh. to Caṣṭana's successor, the Kṣ. Jayadāman. No trace of the king's name is to be found in any of the coin-legends, Greek, Brāhmī, or Kharoṣṭhī; but the evidence derived from style, fabric, portraiture, epigraphy, and the nature of the Kh. coin-legend, is sufficient to justify its attribution to Caṣṭana, while, on the other hand, there is no reason why it should be assigned to Jayadāman.²

The silver coins struck by Caṣṭana as mahākṣatrapa are of the same type as those of Var. *b* struck by him as kṣatrapa. From the existing specimens it is possible to make a complete restoration of the Brāhmī and Kharoṣṭhī legends; and it is to be noticed that the latter alphabet, which was of foreign importation, was now gradually falling into disuse, and continued to be used only for the genitive of the king's name—*Caṣṭhanasa*—without titles or patronymic. After the reign of Caṣṭana it disappears altogether

¹ The use of the *caitya* by Caṣṭana supplies the ground for the supposition that he may have been a satrap of the Andhras, *v. sup.* p. cxii, note 1. The reasons against this view seem, however, to be conclusive.

² R. JRAS. 1899, p. 372.

from the coins of the Western Kṣatrapas. The legend in Greek characters also may be almost completely restored, but it is to be observed that no attempt is made in it to represent the title 'mahākṣatrapa': the old equivalent for 'kṣatrapa' is still retained. The intelligent use of Greek characters for the purpose of transliterating the Indian coin-legends was evidently dying out; any such refinement as the distinction between the two titles in this alphabet seems to have been beyond the powers of the die-engravers of the period and locality (*v. inf.* 'Coin-legends'). After the reign of Caṣṭana, imitations of these Greek or Graeco-Roman letters continue to appear as a sort of ornamental fringe around the *obv.* of the coins, but their meaning had been entirely forgotten.

A solitary specimen in copper of square form is attributed with some probability to Caṣṭana (p. 75; Pl. x. 264). The *obv.* type, 'Horse standing r.,' is without a parallel in the coinage of the Western Kṣatrapas. The type is used by the Andhras at this period, but only in provinces of their empire which were remote from this part of India.¹ It is not probable, therefore, that it could have been borrowed from this source. The *obv.* legend in Greek characters seems to be reversed: if read thus, the portion which remains may possibly have been intended to represent the Prakrit [Ra]ñho Kha[*tapasa*], but the arrangement of the coin-legend makes this doubtful. The *rev.* type is the usual one, and such traces as remain of the Brāhmī legend seem to indicate that it may have included the patronymic and name 'Ghsamotikaputra Caṣṭanaka,'² but the reading on which this suggestion is founded is in many respects extremely doubtful.

¹ In Andhra-deśa (*v.* Table, pp. lxxviii, lxxix) and the Anantapur and Cuddapah Districts (*v.* p. 25).

² The suffix *-ka* is often added to names.

93. Jayadāman, son of Caṣṭana, whose reign is also included in the period A.D. 124-150, bears the title of 'kṣatrapa' only. It has, therefore, usually been assumed that during his reign the power of the dynasty suffered some diminution, probably through an Andhra conquest.¹ The mere fact that Jayadāman uses only the inferior title would of itself afford no justification for this view, since he may well have been kṣatrapa while his father Caṣṭana was mahākṣatrapa; but it receives some support from the boast of his son Rudradāman (*v. inf.* § 94) that he had 'won for himself' (*i.e.* had not inherited from his grandfather Caṣṭana, or from his father Jayadāman) 'the name of mahākṣatrapa.' This seems to indicate that between the reigns of Caṣṭana and Rudradāman there was an interval during which there was no mahākṣatrapa, and this may have been the result of some defeat. On his coins Jayadāman uses the title '*svāmi*,' 'lord,' in addition to '*rāja*' and '*kṣatrapa*.' This title is regularly borne in inscriptions by the other early members of the dynasty, and on coins by the later princes from the time of Svāmi-Rudradāman II onwards (*p.* 178). With Jayadāman the proper-names of the Western Kṣatrapas begin to assume an Indian form, and, with the exception of the termination *-ghsada*, which soon becomes more Indian in appearance as *-jada* (*v. inf.* § 97), and the form *-dāman* (*v. sup.* § 84), there is nothing left in the names to denote their foreign origin.

The coins which can be attributed to Jayadāman are exclusively of copper and square in form.² Of these there may be two varieties, but with regard to the attribution of the second there is much doubt.

The first variety has for *obv.* type, 'Humped bull r.,' together

¹ Bh. JRAS. 1890, p. 646; BG, I, i, p. 34, note 5; Bhand. EHD, p. 29.

² For the supposed silver coin. *v. sup.* § 92.

with a legend in degraded Greek characters for which no intelligible interpretation seems possible. The *rev.* type is peculiar only in having a *caitya* of six arches (instead of three as usual), without the waved line which generally appears below; and the *rev.* coin-legend does not include the patronymic which is invariably found on the silver coins of this family (p. 76; Pl. x. 265-67).

A second variety of copper coinage, with types 'Elephant r.: Ujjain symbol' (p. 77; Pl. x. 269), was assigned to Jayadāman by General Sir A. Cunningham. The Brāhmī coin-legend on the *obv.* is incomplete—*ya[da(?)ma(?)]*—and the correctness or incorrectness of the attribution can only be decided by the discovery of a better preserved specimen. If it could be proved that this coin was struck by Jayadāman, the fact that it so greatly resembles the coins of Ujjain¹ would connect it with the city which was probably the capital, or one of the capitals, of his kingdom (*v. sup.* § 91).

94. For the history of the reign of the Mkṣ. Rudradāman we possess one of the most important monuments of Ancient India, the Girnar inscr. dated in the year Śaka 72 = A.D. 150 (*v. sup.* § 57, no. 38).

**Rudradāman's
reign and
dominions.**

At this date the province of Ānarta and Surāṣṭra, of which Junagadh was probably the capital,² was governed by a Pahlava viceroy, Suviśākha, son of Kulaipa. A provincial government was established in this region also in the times of the Mauryas and the Guptas;³ and the occurrence of the name of a Yavana

¹ C. CAI, p. 94, Pl. x.

² Junagadh, 'the Old Town,' is a later name for Girinagara, 'the Hill-town' (*v. sup.* § 57, no. 40).

³ The viceroy during the reign of the Maurya king Candragupta (c. B.C. 321-297) was a Hindu, a vaiśya by caste, named Puṣyagupta; during the reign of his grandson Aśoka (c. B.C. 269-232) the office was held by a Yavana king with, apparently, a Persian name, Tuṣāspah; and during the reign of Skandagupta (c. A.D. 455-482) appear two viceroys with Hindu names, Parnadatta and his son Cakrapālita (Fleet. CII. iii. p. 63).

king as governor during the reign of Aśoka may, perhaps, be significant of the prevalence of a foreign element in this part of India in the 3rd cent. B.C., as in the 2nd cent. A.D. The place-names in the Girnar inscr., in spite of some difficulties in their identification (*v. sup.* § 57, no. 38), seem to show that the rule of Rudradāman extended over (1 and 2) East and West Malwa, (3) a district on the Upper Narbada south of Malwa, and on the other side of the Vindhya Mts., (4 and 5) the country around the G. of Cambay and Kathiawar, (6) Northern Gujarat, (7) a portion of Marwar in Rajputana, (8) Cutch, (9 and 10) Sind and some adjacent portion of Western Rajputana (S.W. Marwar), (11) the Northern Konkan, and (12) *Niṣāda* (uncertain).¹ Though not only the limits, but also the identification of some of the provinces mentioned, may be at present somewhat uncertain, yet the list undoubtedly enables us to form a fairly clear and comprehensive idea of the territories of the Western Kṣatrapas during the reign of Rudradāman. From this period until the end of the dynasty there is no direct evidence to show to what extent this dominion may have been increased or diminished during subsequent reigns. The only other precise information which the inscr. supplies as to the career of Rudradāman, is that he conquered the Yaudheyas, who have been identified by Cunningham with the modern Johiyas of Bhawalpur (*cf.* R. IC, § 60), that he twice defeated Śātakarṇi, the Lord of the Deccan, but did not destroy him on account of their near relationship (*v. sup.* § 45), and that he won for himself the title of 'mahākṣatrapa' (*v. sup.* p. lxi). The

¹ Kielhorn, EI., viii, p. 44 (line 11 of the inscr.) (1 and 2) *Pūrvv-āpar-Ākarāvanty*-(3) *Anūpanīvr̥d*-(4 and 5) *Ānartta-Surāṣṭra*-(6) *Śva[bh]ra*-(7) *[Ma]ru*-(8) *[Kac]cha*-(9 and 10) *[S]i[n]dhu-S[au]v[i]ra-Kukur*-(11) *Āparāṃta*-(12) *Niṣādādīnām* Bh.'s description of *Kukura* as in 'Eastern' Rajputana is probably by mistake for 'Western' Rajputana; *v. sup.* p. xxxi.

reference to his "reinstatement of deposed kings"¹ is indefinite, but it is probable that the kings in question were former feudatories of Nahapāna who were dethroned by Gautamīputra.

95. A summary of the evidence afforded by inserr. and coins enables us to trace with some accuracy the history of two regions of Western India during the period covered by the present Catalogue:—

History of
N. Mahārāṣṭra
and Aparānta.

Northern Mahārāṣṭra, the Nasik and Poona Districts = the *Āhūras* of Govardhana and Māmāla—

(1) in possession of the Andhras at an early period in the history of the dynasty; *cf.* Nasik inser. of King Kṛṣṇa (§ 57, no. 2), and Nasik inser. possibly containing name of King Śakti-śrī (*ibid.* no. 3).

(2) in possession of the Kṣaharātas, under Nahapāna, Śaka 41–46 = A.D. 119–124; *cf.* Nasik and Karle inserr. of Rṣabhadatta, and Junnar inser. of Ayama (*ibid.* nos. 31–36).

(3) reconquered by the Andhra king Gautamīputra in the 18th year of his reign = 124 A.D. or 124 A.D. + x ; *cf.* § 33, and Nasik and Karle inserr. of Gautamīputra (§ 57, nos. 8, 9). Nahapāna's coins re-struck by Gautamīputra; *cf.* § 71.

(4) continued under the Andhras; *cf.* Nasik inserr. of Puṣumāvi (§ 57, nos. 11–14; years 2–22), Karle inserr. of Puṣumāvi (*ibid.* nos. 15, 16; years 7, 24), Nasik inser. of Śrī-Yajña (*ibid.* 21; yr. 7). Puṣumāvi's reign, A.D. 131 + x —155 + x ; Śrī-Yajña's reign doubtful: according to length of reigns given by Matsya Purāṇa, A.D. 169 + x —198 + x (*v. sup.* § 51, 58).

(5) passed into the possession of the Ābhīras, probably between the reign of Śrī-Yajña and c. A.D. 236; *cf.* p. 124 and § 57, no. 43.²

¹ Inscr. l. 12, *bhraṣṭa-rāja-pratiṣṭhāpakena*.

² The date c. A.D. 236, that of Īśvaradatta, is given as a limit on the theory that he belonged to the same dynasty as the Ābhīra Īśvarasena (Nasik inser. § 57, no. 43), and that he invaded the kingdom of the Western Kātrapas from the kingdom established by the Ābhīras in the Nasik Dist.

The Northern Konkan = Aparānta—

- (1) in possession of the Andhras; *cf.* Kanheri inscr. of Māṭharīputra Svāmi-Śakasena (§ 57, nos. 5, 6).
- (2) in possession of the Kṣaharātas, under Nahapāna (*ibid.* no. 31).
- (3) reconquered by Gautamīputra; *cf.* Nasik inscr. of Queen Bala-śrī, *sup.* § 42, and remained in possession of the Andhras during the early part of the reign of Puṣumāvi; *cf.* Kanheri inscr. of his queen (§§ 47 and 57, no. 17).
- (4) conquered by Rudradāman, c. 150 A.D.; *cf.* Girnar inscr. (*v. sup.* § 94).
- (5) again in possession of Andhras in reign of Śrī-Yajña; *cf.* his coins of Surāṣṭra fabric struck in Aparānta (*v. sup.* § 72).
- (6) in possession of the Cuṭu family of Śātakarnis; *cf.* Kanheri inscr. of Hāritīputra (§ 57, no. 24).

96. All the known coins of Rudradāman I, the son of Jayadāman, are of silver; and in all the coin-legends he bears the title 'mahākṣatrapa.' As he won the title for himself, he must presumably have been at one time a kṣatrapa; but neither coins nor inscr. remain to bear witness to the fact. In contrast to the strictly classical Sanskrit of the Girnar inscr., Rudradāman's coin-legends, like the Brāhmī legends of Nahapāna, and indeed most of the coin-legends of the Western Kṣatrapas, are in a sort of mixed language, which may be described either as Sanskrit with Prakrit features or as Prakrit with Sanskrit features.¹ The coins are of two slightly different varieties: In Var. *a*, Rudradāman's relationship as 'the son of Jayadāman' is expressed by the genitive case—*Jayadāmasa putrasa* (p. 78; Pl. x. 271–275); in Var. *b*, it is expressed by a compound—*Jayadāma-*

¹ Permanent Sanskrit features in all these coin-legends are the compound *akṣarāḥ jāno kṣa. tra-*

putrasa (p. 79; Pl. x. 276-280). It may usually be observed that the portrait on coins of Var. *b* is that of an older man than on coins of Var. *a* (p. 79, note 2).

97. In the transliteration of the foreign name Dāmaghsada which is borne by Rudradāman's son and successor (Dāmajadaśrī) I. and by two later members of this dynasty, it is possible in the case of the first of these to trace three stages. Originally the latter portion of the name appears as *-ghsada* which may possibly be an attempt to express the Persian *zāda* 'a son.'¹ The un-Indian combination of consonants *ghs* is next supplanted by the Indian *j*; but, as the result *-jada* is still not proper Sanskrit or Prakrit word, it is further Indianised by the addition of *-śrī*. This form is used exclusively by the second and third bearers of the name. But a still further variation is caused in the case of the first Dāmaghsada by the omission of *-śrī*. The three forms in which his name appears are, therefore: (1) *-ghsada*, (2) *-jadaśrī*, and (3) *-jada*. The transition from (1) to (2) takes place while he is still *kṣatrapa*² (cf. Var. *a*, p. 80; Pl. x. 281-2, with Var. *b*, p. 81; Pl. x. 283), and the transition from (2) to (3) when his son Jivadāman becomes *mahākṣatrapa* for the second time (p. 84; Pl. xi. 289-292). The last *akṣara* in the name is often read as *-ḍa*³; but, on the coins, it does not seem possible to distinguish the consonant from that which appears in the first syllable of the name, *Dā-*; and, as the name does not occur in stone inscr., where any confusion between the characters *ḍa*, *da* would be impossible,

¹ R. JRAS, 1899, p. 374.

² Bh. had observed that the second form is later than the first. BG, I, i, p. 40.

³ E.g. by Bh., cf. R. JRAS, 1899, p. 374, and by S., *Catalogue of Coins in the Indian Museum*, p. 123

we have no means except the coins of determining the true reading.

Like his sons, Jivadāman and Satyadāman, Dāmaghsada (Dāmajadaśrī) I, son of Rudradāman I, finds no place in the genealogies which appear in the inscr. of his brother, Rudrasimha I (*v. sup.* § 57, no. 39) and of his nephew, Rudrasena I (*ibid.* no. 42). Such an omission would scarcely be of much significance in itself, since it has been observed that genealogical lists of the kind often record only the direct descent from father to son (*v. sup.* p. xix. note 4); but it may well have a deeper meaning in this particular instance, as the dated coins clearly show that, after the reign of Dāmaghsada (Dāmajadaśrī) I, there were two claimants for the succession—his son, Jivadāman, and his brother, Rudrasimha I. The struggle was eventually decided in favour of the latter; and it is scarcely surprising that the successful family omitted from its genealogical lists the names of rulers whom it must have regarded as usurpers (*v. inf.* § 99).

Dāmaghsada (Dāmajadaśrī) I struck coins of silver only, and appears on them both as kṣatrapa and as mahākṣatrapa.¹ Of the former class there are three varieties, distinguished merely by peculiarities in their legends. Var. *a* has *Rudradāmasa putrasa* and *Dāmaghsadasa* (p. 80; Pl. x. 281–2), while Var. *b* has *Rudradāmna putrasa* and *Dāmajadaśriya* (p. 81; Pl. x. 283). Both are in the usual Sanskritised Prakrit which is characteristic of the coin-legends of this dynasty; but the latter shows a further approximation to Sanskrit in the genitive form

¹ Only coins bearing the title 'kṣatrapa' were known to Bh. BG, I, i, p. 39. Four of these were discovered by him "among a collection found at a village near Kundla in Kathiawad." It is impossible to identify these four specimens with certainty among the six from his collection which are published in the Catalogue—nos 281–5 and 287

-*dāmna*. The legend in Var. *c* is, so far as it can be read on the only specimen known, in correct Sanskrit — [—] *Rudradāmnaḥ putrasya* [- -] *kṣatrapasya Dāma[ghsa - -]* (p. 81 ; Pl. x. 285). The use of Sanskrit is continued by Dāmaghsada's son, Satyadāman, who may perhaps have succeeded him as *kṣatrapa* (*v. inf.* § 101).

The coins which bear the title 'mahākṣatrapa' have in the coin-legend *Rudradāmna putrasa* and *Dāmajadaśriya* (p. 82 ; Pl. x. 286), as in Var. *b* of the coins with title 'kṣatrapa.'

98. With the reign of Jivadāman, son of Dāmajadaśrī I, begins the series of dated coins.¹ From this time onwards the silver coins of the dynasty regularly have the year of their issue recorded in Brāhmī numerals on the *obv.* behind the king's head. Of Jivadāman there are also dated coins of potin.

The silver coins fall into two well-defined classes, both of which bear the title 'mahākṣatrapa.' These classes, distinguished alike by their style, their dates, and the nature of their coin-legends,² belong to two reigns, separated by a long interval during which—according to the arrangement adopted in the Catalogue—Jivadāman's uncle, Rudrasimha I, appears twice as *kṣatrapa* and twice as *mahākṣatrapa* (*v. inf.* § 99).

The earlier of these two classes is represented by a single specimen (p. 83 ; Pl. xi. 288), the date of which was read by Bh. as 100. The only possible doubt as to the correctness of this reading is whether or not a unit or a decimal figure or both may have vanished from the coin.³ This point cannot be certainly determined ; but the years in which Jivadāman's earlier

¹ For a possible date on a coin of Caṣṭana, *v. sup.* § 92.

² Bh. BG. I. i. pp. 40-1

R. JRAS. 1899. p. 378 (1).

reign can have fallen are greatly limited by the dates on the coins of Rudrasimha I, who appears as mahākṣatrapa for the first time between 103 and 110, and for the second time between 113 and 118 or 119. The date of the present coin therefore lies, presumably, either between 100 and 103, or between 110 and 113. The view that the former of these alternatives is probably the more correct has been adopted in the Catalogue; and this view seems to receive some slight support from the coin-legend, in which the forms *Dāmajadaśriya* and *-dāmna* recall those used on the coins struck by Jivadāman's father as mahākṣatrapa.

In Jivadāman's later reign these names appear respectively as *Dāmajadasa* and *-dāmasa*. Coins of this second class have the undoubted dates 119 and 120; and they are evidently influenced, so far as portraiture is concerned, by the coins of Rudrasimha I (Mkṣ. 2nd time), which they immediately follow¹ (p. 84; Pl. XI. 289-292).

Potin coins of two sizes are known (p. 85; Pl. XI. 293-4). These, like other coins of the same metal, have a shortened form of the coin-legend, without the name and titles of the prince's father which invariably appear on the silver coins. The only date which has been read with certainty on coins of this class is the year 119. The *provenance* of the two specimens published, which come from Pushkar near Ajmer and from Ujjain, is in accordance with the observation made by Bh. (*v. inf.* § 99), that these potin coins are found in Malwa and not in Kathiawar.

99. The numismatic record of Rudrasimha I, son of Rudradāman I, is unusually complete. He struck both
Rudrasimha I. silver and potin coins; and the dates on these admit of very satisfactory arrangement. Evidence afforded by

¹ On no. 289, p. 84, Bh. recognised 'a well-executed bust of Rudrasimha'; *v. JRAS*, 1890, p. 651.

these dates, by the coin-legends, and by the Gunda inserr. (*v. inf.*) show that he reigned (1) as Kṣatrapa, for the first time, in the years 102-3; (2) as Mahākṣatrapa, for the first time, from 103 to 110; (3) as Kṣatrapa, for the second time, from 110 to 112; and (4) as Mahākṣatrapa, for the second time, from 113 to 118 certainly, and possibly to 119. Jivadāman's dates 1[00], 119 and 120, show that he was mahākṣatrapa probably before (*v. sup.* § 98) and certainly after the time of Rudrasimha I; but there are no dated coins or inserr. to show what position he held during the interval of nineteen years which seems to separate his two reigns. There is at present no evidence to prove that at any time Jivadāman and Rudrasimha I were ruling contemporaneously as mahākṣatrapa and kṣatrapa respectively; and the reason why Rudrasimha I, after reigning as Mahākṣatrapa from 103 to 110, is made to assume the lower dignity of kṣatrapa from 110 to 112, can only be surmised. The most natural supposition is that, during the years 110-112, Jivadāman had again assumed the chief power in the kingdom; but the proof of this conjecture must depend on further discoveries of Jivadāman's coins. In the absence of such proof it must remain somewhat doubtful whether the struggle between these two princes was for the position of mahākṣatrapa, or whether the changes in rank to which the coins bear witness were the result of some foreign interference.

The degradation of Rudrasimha I to the subordinate position in the year 110 is accompanied by a slight change in the *rev.* type of his silver coins. With very few exceptions¹ the crescent and star in the *rev.* type of the Western Kṣatrapas stand respectively to the left and right of the *caitya*. These positions are reversed on the coins which Rudrasimha I struck as kṣatrapa in the year

¹ Mks. Dāmasena, Var. *b*, p. 108; Ks. Dāmajadaśri II, Var. *b*, p. 116

110 (pp. 90-91; Pl. XI. 313-14); but the change is not long maintained; for in the year 112, the earliest succeeding year for which coins are known, the wonted positions are restored (p. 91; Pl. XI. 315-16). It is impossible to say whether this change was merely accidental, or whether it may have possessed some significance.

The coin-legends of Rudrasimha I are all in Prakrit of the usual kind, and show the slight variations which are to be found generally in this series:—(1) Kṣ., 1st time—*Rudradāmaputrasa* (p. 86; Pl. XI. 295); (2) Mṣ., 1st time, Var. *a* (years 103-109)—*Rudradāmna putrasa* (pp. 87-8; Pl. XI. 296-304), Var. *b* (year 110)—*°dāmapu°* (pp. 89-90; Pl. XI. 306-11); (3) Kṣ., 2nd time—*°dāmna pu°* (pp. 90-91; Pl. XI. 313-16); (4) Mṣ., 2nd time, Var. *a*—*°dāmapu°*, Var. *b*—*°dāmna pu°* (pp. 91-3; Pl. XI. 317-23).

The legends of the potin coins, as usual, omit the name of the father. Bh. has recorded that these potin (copper) coins come from Malwa and not from Kathiawar;¹ and this testimony is supported, as in the case of the similar coins of Jivadāman (*v. sup.* § 98) by the *provenance* of the two specimens published in the Catalogue (pp. 93-4; Pl. XI. 324-5).

Bh. has also observed that the earliest coins of this prince bear a youthful head without moustache² (*cf.* Pl. XI. 295-6). The moustache, which is generally seen in portraits of the Western Kṣatrapas, appears first on the coins of Rudrasimha I in the year 103 (*cf.* Pl. XI. 300).

Two inserr. are attributed to this prince—(1) Gunda (undoubtedly; *v. sup.* § 57, no. 39): important as showing that he was kṣatrapa during the earlier part of the year 103; and (2) Junagadh (less certainly; *v. sup.*, *ibid.* no. 40).

¹ BG. I. i. p. 42.

² JRAS. 1890, p. 650.

100. Certain copper coins of square form, which seem from their types to belong to this dynasty, cannot be attributed to any particular reign, since they are neither inscribed nor dated (p. 94; Pl. XII. 326-7).

Square copper
coins without
name or date.

The period to which they are assigned in the Catalogue viz., c. years 70-125 = c. A.D. 148-203, seems to be indicated by such slight evidence as can be obtained from a consideration of their types, "Humped bull facing: *Caitya*, &c." (v. inf. "Types").

101. The Kṣ. Satyadāman, son of Dāmajadaśrī I, is known only from a unique coin in the collection of Colonel Biddulph (p. 95; Pl. XII. J.B.). The coin-legend which may be restored with certainty as—*Rājño Mahākṣatrapasya Dāmajadaśrīya putrasya Rājño Kṣatrapasya Satyadāmna*—is remarkable as being in almost perfect Sanskrit, the only departures from strict grammatical accuracy appearing in (1) the omission of the final *visarga* (*h*) in the genitives *-śrīya* and *-dāmna*, and (2) the *sandhi*, so common in the coin-legends of this series—*Rājño Kṣa°*. Of the date only the first figure = 10 can be read with certainty.

The date conjecturally assigned in the Catalogue to the reign of Satyadāman as kṣatrapa, viz. the years 119 and 120, during the reign of his brother Jivadāman as mahākṣatrapa, is that which was suggested when the coin was first published (R. JRAS, 1899 p. 379); but certain considerations, which were not then taken into account, seem to indicate an earlier date. In the first place it is no longer possible to maintain that Satyadāman's coin is unique in having a Sanskrit legend. This peculiarity it is now known to share with another coin issued by his father Dāmajadaśrī I as kṣatrapa (Var. c, p. 81; Pl. x. 285) which must almost certainly have been struck before the

year 100.¹ In the second place, the genitive of the father's name appears as *Dāmajadaśriya*, a form which had given place to *Dāmajadasa* at the date of Jivadāman's second reign as mahākṣatrapa (years 119, 120) (*v. sup.* § 97). The former observation leads to the suggestion that Satyadāman may possibly have succeeded his father Dāmaghsada (Dāmajadaśrī) I as kṣatrapa, and inherited from him the practice of using Sanskrit for his coin-legends: the latter observation would likewise seem to show that the reign of Satyadāman as kṣatrapa was concurrent either with that of his father as mahākṣatrapa, or with the first reign of his brother Jivadāman as mahākṣatrapa. On the whole it would seem probable that he was the elder rather than the younger brother of Jivadāman.

102. Rudrasena I, son of Rudrasimha I, like his father (*v. sup.* § 99) struck dated coins in both silver and potin; and there are also two inscrs. which are dated in years of his reign (Mulwasar, yr. 122, and Jasdhan, yr. 127 (or 126); *v. sup.* § 57, nos. 41, 42). He appears as kṣatrapa on coins in yr. 121, and probably also in yr. 122 (*v. p.* 97, note 1; Pl. XII. 330). The Mulwasar inscr. shows that he was mahākṣatrapa in yr. 122, and he bears this title on coins extending certainly from yr. 125, and possibly from yr. 122 (*l.c.*), to yr. 144.

The legends of the silver coins show the usual variation in the expression of the father's name either by a compound in the genitive or by two genitives:—Kṣ., *Rudrasīhasa putrasa* (pp. 96-7; Pl. XII. 328-30); Mkṣ., Var. *a*, *id.* (years 125-6, 132-44),

¹ It is followed by the coins struck by him as mahākṣatrapa, *i.e.* before the reign of his son and successor Jivadāman, whose date appears to be 1[00]: *v. sup.* § 98.

Var. *b* (years 128–31, 135¹), *Rudrasihaputrasa* (pp. 97–105 ; I. XII. 331–72).

The potin coins have no legend ; but their dates (years 133 ; p. 105 ; Pl. XII. 374–6) show that they were struck during the reign of Rudrasena I. Like other potin coins (*v. sup.* §§ 98–100) they are said to be found in Malwa (Ujjain ; *cf.* p. 105, note 1).

103. The coins of the Kṣ. Prthivīsenā, son of Rudrasena I.

Prthivīsenā. are very rare and occur in silver only ; and where

Bh. wrote his specimen was supposed to be unique (p. 106 ; Pl. XII. 377). There is no information to be obtained as to the history of this kṣātrapa beyond the bare fact that he reigned in the year 144, the year in which his father Rudrasena I ceased, and his uncle Saṅghadāman began, to reign as mahākṣātrapa. Until this date the coins bear witness to the reign of no kṣātrapa since the year 121 or 122 (Rudrasena I. *v. sup.* § 102) ; and after Prthivīsenā no Kṣātrapa appears until the year 154 (Dāmajadaśrī II ; p. 115 ; Pl. XIII. 421).

104. Coins of the Mṣ. Saṅghadāman, son of Rudrasimha I.

Saṅghadāman. are likewise extremely rare, and of silver only

(p. 107 ; Pl. XII. 378). This prince struck coins in the years 144 and 145 ; and, as his predecessor, Rudrasena I. was reigning in year 144 (p. 104, no. 370), and his successor Dāmasena, in year 145 (p. 108, no. 379), his own reign must have been limited to portions of these two years.

105. The known dates of the Mṣ. Dāmasena, son of Rudrasimha I,

Dāmasena. simha I, who struck coins both in silver and

potin, extend from yr. 145 to yr. 158. The former date must mark the actual beginning of his reign (*v. sup.* § 104) ; and he cannot be supposed to have ruled long after

¹ Both varieties of the legend occur on coins dated in the year 135.

the latter date, since between 158 and 161 a place must be found for the usurping mahākṣatrapa Īśvaradatta, who struck coins dated in the first and second years of his reign (*v. inf.* §§ 109–11).

There are two varieties of the silver coins (pp. 108–112; Pl. XIII. 379–399), distinguished by the different positions of the star and the crescent in the *rev.* type. In Var. *a* the crescent is on the left, and the star on the right, of the *caitya*—the usual arrangement of the type in this series. In Var. *b* these positions are reversed, the star appears on the left and the crescent on the right of the *caitya*. So far as has been observed, only coins with dates 151 or 15*x* (perhaps = 151) belong to Var. *b* (p. 109, nos. 381–2).

The potin coins (pp. 113–14; Pl. XIII. 402–416), the *provenance* of which abundantly supports the statement that coins of this class come from Malwa (*v. sup.* §§ 98–9, 102), bear no name; but their dates show that they belong to the reign. The decimal figure of the date 158 on some of these coins (*e.g.* p. 114; Pl. XIII. 416) has a peculiar form, which was read as 20 by General Sir A. Cunningham, who accordingly assigned the coins to the reign of Rudrasena I. The confusion is caused by the fact that in the representation of this numeral the opening on the left, which is the most characteristic feature of '50,' has become closed up, with the result that the figure is not readily recognisable, but appears at first sight more like '20' than any other numeral. There can be little doubt, however, that the true reading is '50.'

106. The silver coins¹ of the Kṣ. Dāmajadaśrī II, son of Dāmajadaśrī II. Rudrasena I, are dated in the years 154 and

¹ Potin coins seem to have been issued only by mahākṣatrapas. It is probable that the kṣatrapas exercised power over some district of Surāṣṭra (Kathiawar or Gujrat), but held no dominion in Malwa.

155, and show, therefore, that he was kṣatrapa during the reign of his uncle Dāmasena as mahākṣatrapa (*v. sup.* § 105). He was succeeded as kṣatrapa in the following year, 156, by his brother Viradāman (*v. inf.* § 107), who was, therefore, also contemporary with the Mkṣ. Dāmasena. It would seem impossible, then, that Dāmajadaśrī II could ever have reigned as mahākṣatrapa, as has been supposed. The mistake, doubtless, has arisen through confusion of his coins with those of his cousin, the Mkṣ. Dāmajadaśrī III, son of Dāmasena (p. 137).

The coins are of two varieties, distinguished by the positions which the crescent and star occupy in the *rev.* type:—Var. *a*, 'l. crescent, r. star,' as usual (p. 115; Pl. XIII. 421); Var. *b*, 'l. star, r. crescent' (p. 116; Pl. XIII. 425).

107. The name of the Kṣ. Viradāman, son of Dāmasena, appears on silver coins having dates ranging from 156 to 160 (pp. 117–121; Pl. XIII. 426–456).

Viradāman. The preceding kṣatrapa, Dāmajadaśrī II, reigned until 155 (*v. sup.* § 106); and the two succeeding kṣatrapas, Yaśodāman I and Vijayasena, both struck coins in 160 (*v. inf.* §§ 112–13). There seems therefore, at first sight, to be an unbroken continuity in the reigns of kṣatrapas from 154 to 160. Unfortunately this is not quite certain, since, although the limits of Viradāman's reign are determined, there is much doubt as to the intervening years. The coins, therefore, do not at present enable us to decide whether the office of kṣatrapa was maintained or not during the two years of the usurping mahākṣatrapa Īśvaradatta (*v. inf.* § 109).

108. The potin coinage of this dynasty seems to end with certain specimens of poor workmanship without name or date, which can only be assigned vaguely to a period later than the year 158, the end of Dāmasena's reign (pp. 122–3; Pl. XIII. 462–3). On some

Potin coins
without name
or date.

specimens a reminiscence of the numerals which once expressed the date may be noticed in the three dots which occupy its wonted place in the exergue.

The reason for the discontinuance of a potin coinage by this dynasty some time after the year 158 (=A.D. 236) is not known. This currency is attributed generally to Malwa (*v. sup.* § 98-9, 102, 105), and may, perhaps, have been peculiar to some district of Malwa. The question arises whether its discontinuance denotes that the district in question ceased about this time to form a portion of the dominions of the Western Kṣatrapas, or whether the coinage previously circulating in this district was superseded by the more widely used silver coinage. Although this question cannot be satisfactorily answered, the latter alternative is, perhaps, the more probable, since the establishment in Malwa of the silver coinage of the Western Kṣatrapas seems to be postulated by the similar coinages which were subsequently struck in this region by the Guptas and the Hūṇas.¹

109. The Mkṣ. Īśvaradatta struck silver coins of precisely the same style and types as those of the Western Kṣatrapas; but it is certain that he did not belong to the same dynasty. This is shown (1) by his name, which is alien to the somewhat peculiar and restricted nomenclature of the Western Kṣatrapas (§ 82); and (2) by his introduction of a foreign method of dating his coins, in regnal years instead of in years of the Śaka era. In both of these respects he follows, apparently, the example set by a dynasty of Ābhīra kings who succeeded the Andhras in the Nasik District, as is shown by the Nasik inscr. dated in the

¹ R. IC. Imperial Guptas, Central fabric, § 91, Pl. iv. 10; Guptas of E. Malwa, § 94; Hūṇas, § 105, Pl. iv. 16.

9th year of the Ābhīra king Īśvarasena, son of the Ābhīra Śivadatta (*v. sup.* § 57, no. 43). This dynasty is, no doubt, referred to by the Purāṇas, which mention ten Ābhīra kings as among the successors of the Andhras¹ (*v. sup.* § 58, p. lxix). The last landmark in the history of the Nasik District previous to this inscr. of the Ābhīra king Īśvarasena, is an inscr. dated in the 7th year of the Andhra king Śrī-Yajña (§ 57, no. 21), whose reign probably ended c. 200 A.D.² (§ 51). The history of the district during this interval is quite uncertain: it may have passed immediately into the power of these Ābhīras, either during the reign, or after the reign, of Śrī-Yajña, or it may have first been held by the Cuṭu family of Śātakarṇis, the 'other Andhras' or 'Andhra-bhṛtyas' ('servants of the Andhras') of the Purāṇas, who undoubtedly were in possession of the neighbouring maritime province of Apāranta (§§ 56, 58, 95).

Bhagvānlāl's identification of Īśvaradatta as an Ābhīra connected with the dynasty represented at Nasik by Īśvarasena is, therefore, extremely probable; and his appearance as a mahākṣatrapa on coins directly imitated from those of the Western

¹ The Bhāgavata-Purāṇa gives seven reigns to the Ābhīras; but it is probable that this number referred originally, as in the other Purāṇas, to the Andhra-bhṛtyas, whose name has been accidentally omitted from the received version of the Bh. The Ābhīras were, no doubt, originally foreign invaders of India. Mention of '*Abirān malka*,' 'a king of the Ābhīras,' occurs in a Pahlavi inser. (Pāi-kūli), probably of the Sassanian monarch Ardashir, A.D. 226-240; *v. Marquardt, Ērānšahr nach d. Geographic d. Ps. Moses Xorenac'i*, p. 81. Ābhīras appear in various parts of India; *v. Pargiter, Mārkaṇḍeya-Purāṇa*, p. 812, and D. R. Bhandarkar, JBBRAS, xxi, p. 430. There were commanders of this nationality in the armies of the Western Kṣatrapas during the reign of Rudrasimha I; *v. sup.* § 57, no. 39. Samudragupta seems to have asserted some sort of sovereignty over the Ābhīras; *v. Fleet, CII*, iii, p. 8.

² If the interval between the reigns of Puṣumāvi and Śrī-Yajña is correctly given by the Matsya-Purāṇa as 14 years, the accession of the latter may be expressed as A.D. 169 + x , and he is known to have reigned for at least 27 years.

Kṣatrapas would seem to bear testimony to a successful invasion of their dominions.¹

110. Bhagvānlāl's further suggestion, that this conquest was commemorated by the foundation by Īśvaradatta of the Traikūṭaka era in A.D. 249, cannot, however, be supported. This view rested on the belief that a break of continuity in the reigns of the mahākṣatrapas of the regular dynasty was shown by the absence of dated coins between the years 171 (= A.D. 249) and 176. It was supposed that the reign of the intruding Mks. Īśvaradatta occurred in this interval, and that therefore he might well have initiated an era beginning in the year A.D. 249. Further discoveries of coins have, however, proved that there was no such interregnum, but that the dates from 171 to 176 are quite continuous (pp. 136-9). Some other place in the series must, therefore, be sought for Īśvaradatta. An examination of the only sources of information available—his coins and coin-legends compared with others in the series—yields the following results²:—

(1) The treatment of the eye in his portrait is that which prevails during the period from about 127 to 170 (*v. inf.* 'Types').

(2) The portrait itself bears a strong resemblance to those of Viradāman (156-60), Yaśodāman I (160-1), and Vijayasena (160-172) (*v. Pl.* XIII. and XIV.).

(3) In his coin-legend the form of the *akṣara kṣa* is later than 130; and the rounded form of *pa* is not later than about the year 160, when it begins to give way to the pointed form (*v. inf.* 'Coin-legends').

¹ Bh. JRAS, 1890, p. 657.

² These arguments are elaborated somewhat more fully in JRAS, 1899, 385-7.

The dates show that there is only one interval in the list of mahākṣatrapas to which the coins of Īśvaradatta can be assigned so as to satisfy these tests—the interval between 158, the last recorded year of the Mkṣ. Dāmasena (p. 111), and 161, the year in which his son Yaśodāman I appears as mahākṣatrapa (pp. 127–8). There can be little doubt then that Īśvaradatta reigned some time between A.D. 236 and 239, that is to say, at least ten years before the foundation of the Traikūṭaka era in A.D. 249. As has been observed above (§ 107), the question whether a kṣatrapa of the regular dynasty still continued to reign while Īśvaradatta was mahākṣatrapa cannot be definitely settled from the coin-dates. The date of King Īśvarasena of the Nasik inscr., as also his relation to the Mkṣ. Īśvaradatta of the coins, must remain doubtful. It may be noticed, however, that his father, the Ābhīra Śivadatta, bears no royal title; and this would seem to indicate that he himself was the founder of the Ābhīra Dynasty, and presumably the predecessor of Īśvaradatta. The precise connection between these early Ābhīras and the later Traikūṭakas cannot be proved; but it is certain that they ruled in the same region, and there is no reason why they may not have belonged to the same dynasty (*v. inf.* § 130).

111. The Mkṣ. Īśvaradatta issued coins both ‘in the first year,’ ‘*varṣe prathame*’ (pp. 124–5; Pl. XIII. 472–5), and ‘in the second year,’ ‘*varṣe dvitīye*’ (p. 125; Pl. XIII. 479) of his reign. These dates are expressed both by words in the coin-legends of the *rev.*, and by numerals in the usual place behind the king’s head on the *obv.* The termination *-sa* of the Prakrit form of the genitive alone remains to distinguish the language of these coin-legends, and indeed of the coin-legends of this period generally, from perfectly correct Sanskrit, which is also the language of Īśvarasena’s inscr. at Nasik. Īśvaradatta’s coins are said to be found in Kathiawar

(BG, xvi, p. 624), as would naturally be expected from their character.

112. Yaśodāman I, son of Dāmasena, as kṣatrapa in year 160 (p. 126; Pl. xiv. 480), succeeded his brother
Yaśodāman I. Viradāman, who struck coins dated in the same year (*v. sup.* § 107); and as mahākṣatrapa in 161 (p. 127; Pl. xiv. 485), he reassumed the dignity of which his family had been temporarily deprived by the intrusion of Īśvaradatta (§ 109). Only these two dates, 160 and 161, are found on the coins of Yaśodāman; and in the following year, 162, his brother Vijayasena appears as mahākṣatrapa (§ 113).

113. The series of Vijayasena's coins is the most satisfactory
Vijayasena. in this dynasty, alike as regards dates, style, and distinctness in the coin-legends. But already in this reign appear the first symptoms of a decline, about the year 167 or 168; and from this time onwards until the end of the dynasty it is possible to observe in the coinage a process of continuous degradation, varied occasionally by short-lived attempts to restore a higher standard.

Every year of Vijayasena's reign, from 160 to 172, is represented by dated coins, with the doubtful exception of 161 (p. 130, nos. 492-4). He appears as kṣatrapa in 160, a year in which his brother Viradāman (§ 107) and Yaśodāman I (§ 112) had also held the same office. At present it remains somewhat doubtful whether he continued to reign as kṣatrapa during the year 161 (pp. 129-30; Pl. xiv. 488-494).

In 162 he appears as mahākṣatrapa and struck coins as such in each succeeding year until 172 (pp. 130-6; Pl. xiv. 495-554). As the coins of Vijayasena are found in very large numbers throughout Kathiawar and Gujarat,¹ it may be confidently

¹ *Bl. JRAS.* 1900 p. 655.

expected that the one doubtful point which remains in the chronology of his reign—the determination of the precise year in which he passed from the position of kṣatrapa to that of mahākṣatrapa (p. 129, note 1)—will eventually be settled by the discovery of specimens bearing unmistakable dates.

The coin-legends in which he appears as kṣatrapa have the form *Dāmasenasa putrasa*, and those in which he appears as mahākṣatrapa *Dāmasenaputrasa*, without exception.

114. Dāmajadaśrī III, son of Dāmasena, succeeded his brother Vijayasena as mahākṣatrapa either in 172, a year which appears also on the coins of Vijayasena (§ 113), or in 173. His latest certain date is 176; but it is possible that he may have been reigning in the following year, 177 (p. 139, note 1). There is no evidence that he ever held the office of kṣatrapa (pp. 137–40; Pl. xiv. 556–575).

The discovery of the earlier dates in this reign removes the interval which was formerly supposed to exist between the reigns of Vijayasena and Dāmajadaśrī III, and to which Bh. assigned the reign of Īśvaradatta (*v. sup.* § 110). It also proves that there was no sudden debasement in the style of the coins or in the quality of their metal.¹ The process of degradation is now seen to have begun in the reign of Vijayasena, and to have been gradual and continuous (§ 113). Like the coins of Vijayasena, those of Dāmajadaśrī III are also found in great abundance.²

115. The coins of Rudrasena II, son of Viradāman, who succeeded his uncle Dāmajadaśrī III as mahākṣatrapa are very numerous; but they are badly struck, and the dates are often so indistinct that some doubt

¹ As was supposed by Bh. JRAS. 1890, p. 656.

² Bh. BG. I. i. p. 47.

still remains as to the limits of his reign. The earliest known date lies between 176 and 179 (p. 141, note 1), and the latest is 196 (pp. 141-146; Pl. xv. 581-613). Rudrasena II is not known to have reigned as kṣatrapa.

116. The coins of Viśvasiṃha, son of Rudrasena II, are also very numerous; but they are so badly struck that only a very small proportion of the dates can be read.

Viśvasiṃha.

Viśvasiṃha appears as kṣatrapa in the years 199 (read by Bh. as 198; v. p. 147, note 5), 200, and probably 201 (p. 149, note 1). Whether he was kṣatrapa while his father Rudrasena II was mahākṣatrapa is uncertain, since the dates of the latter do not extend beyond the year 196 (*v. sup.* § 115; pp. 147-51; Pl. xv. 627-661).

None of the dates on the coins which Viśvasiṃha struck as mahākṣatrapa can be read; but he probably held this position in 201, when his brother Bhartṛdāman appears as kṣatrapa, and he must have ended his reign before the year 211, when Bhartṛdāman was mahākṣatrapa (p. 152; Pl. xv. 663-64).

Until the time of Viśvasiṃha the office of kṣatrapa seems to have been in abeyance for nearly forty years. The preceding kṣatrapa, Vijayasena, reigned in 160 and possibly in 161 (*v. sup.* § 113).

117. Bhartṛdāman,¹ son of Rudrasena II, succeeded his brother Viśvasiṃha as kṣatrapa in the year 201 (§ 116), and held this office at least until 204 (pp. 153-55; Pl. xv. 666-72). After this year there is a dearth of coins with legible dates until 211, when he appears as mahākṣatrapa. As

Bhartṛdāman.

¹ For the reading of the name as 'Bhartṛdāman,' and not 'Atridāman,' *v. R. JRAS*, 1899, p. 394

such he reigned at least until the year 217¹ (pp. 155-61; Pl. xvi. 678-713).

The coins of Bhartrdāman are of two styles, the distinction between which is evident at a glance.

The coins of Fabric *a* are closely connected, as regards workmanship and portraiture, with those of his predecessor Viśvasiṃha. This class includes all the specimens on which he appears as kṣatrapa, together with a number of coins with illegible dates on which he appears as mahākṣatrapa (Pl. xv. 666—Pl. xvi. 686). This fabric is characterised by a portrait in low relief, and generally by a flat margin on the *obv.* It ceased before year 211, when Fabric *b* appears.

Fabric *b* more nearly resembles that of the coins struck by Bhartrdāman's son, the Kṣ. Viśvasena (216-226). It includes all the specimens with legible dates on which Bhartrdāman appears as mahākṣatrapa; *i.e.* all those from the year 211 onwards (Pl. xvi. 690-713). The portrait is in higher relief than in Fabric *a*; and there is generally no flat margin on the *obv.*

118. The dates of the kṣatrapa Viśvasena, son of Bhartrdāman, range from 216 to 226 (pp. 162-8; Pl. xvi. 719-58). As the coin-dates at this period are generally so illegible, there is usually some doubt as to the limits of the different reigns. There is, however, only the possibility of a very small error in regarding Viśvasena's last known coin-date, 226, as the actual end of his reign, since his successor, the Kṣ. Rudrasimha II, issued coins in the following year 227 (§ 121).

119. With the Mkṣ. Bhartrdāman and his son, the Kṣ.

¹ For a possible date 220 read doubtfully by the Rev. H. R. Scott, *C. R. JRAS* 1899, p. 394.

Svāmi-Jīva-
dāman.

Viśvasena, comes to an end the ruling family of Caṣṭana. It is succeeded by a family which traces its descent back to a personage, Svāmi-Jivadāman, who, like Ghsamotika the father of Caṣṭana, bears none of the titles which may be regarded as distinctively royal in character—‘rāja,’ ‘mahākṣatrapa,’ or ‘kṣatrapa.’ His title ‘*svāmi*,’ ‘lord’ (§ 93), and the form of his name with the characteristic *-dāman*, seem, however, to indicate near relationship to the family of Caṣṭana, one of whom, indeed, had borne precisely the same name (§ 98). As Bh. has suggested, he may have belonged to a younger branch of the royal family.¹ He may perhaps have been a brother of Bhartṛdāman.

120. The early history of the ruling family founded by his son, Rudrasimha II, is marked by a change in the mode of government. Hitherto the chief power has regularly been exercised by a member of the dynasty bearing the title ‘mahākṣatrapa,’ with whom has often been associated the heir-apparent to the throne bearing the title ‘kṣatrapa.’ Except for the short interruption made by the intrusion of Īśvaradatta (§§ 109–11), there seems to be no reason to doubt that the post of mahākṣatrapa was filled continuously by members of the family of Caṣṭana from an early period in the history of the dynasty—probably from the reign of Rudradāman I² (§§ 94–6). In the family of Rudrasimha II, however, no mahākṣatrapa appears for a very considerable time. The title does not actually appear on a coin until the year 270 (Svāmi-Rudrasena III; *v. inf.* § 124); but the office was probably restored before this date, as the name

¹ JRAS. 1890, p. 660.

² The office of mahākṣatrapa may have been in abeyance during the time of Jayadāman, the father of Rudradāman I (*v. sup.* § 93).

of the father of the prince then ruling is also associated with the title (Svāmi-Rudradāman II; *v.* p. 178, note 1). In any case there must have been a long interval in which there was no mahākṣatrapa. The first part of this interval is taken up with the reigns of two kṣatrapas—Rudrasimha II, 227–23(5–9) (§ 121), and Yaśodāman II, 239–254 (§ 122): during the latter part, 254–270, the coins of this dynasty cease altogether.

All the evidence afforded by coins or the absence of coins during this period—the failure of the direct line and the substitution of another family, the cessation first of the mahākṣatrapas and afterwards of both mahākṣatrapas and kṣatrapas—seems to indicate troublous times. The probability is that the dominions of the Western Kṣatrapas were subject to some foreign invasion; but the nature of this disturbing cause is at present altogether doubtful, and must remain so until more can be known about the history of neighbouring peoples during this period.

121. The earliest known date of the Kṣ. Rudrasimha II, son of Svāmi-Jivadāman, is 227, the year immediately following the last known year of his predecessor, the Kṣ. Viśvasena (§ 118). He, therefore, began to rule either in 226 or 227; but the duration of his reign is somewhat uncertain.¹ The latest date on his coins is 23[5–9]; and, as the earliest date of his successor, the Kṣ. Yaśodāman II, is 239 (§ 122), he must have ceased to reign at some date between 235 and 239 (pp. 170–74; Pl. xvi. 767–79).

122. The numismatic record of the reign of the Kṣ. Yaśo-

¹ The date 240 mentioned by Bh. JRAS, 1890, p. 660, and BG, I, i, p. 49, has not been recognised among his coins in the British Museum, and is probably due to some mistake, *v.* R. JRAS, 1899, p. 397. This date would conflict with the date 239 which Bh. attributes to coins of the Kṣ. Yaśodāman II (*loc. cit.*).

Yaśodāman II. dāman II, son of Rudrasimha II, has been extended by the discovery of the Uparkot hoard,¹ which supplied specimens bearing the earliest and latest dates known, 239 and 254. This additional evidence reduces to a period of not more than sixteen years the long interval during which it was formerly supposed that no coins, whether of mahākṣatrapas or kṣatrapas, existed; and, as the name is known of a Mkṣ. Svāmi-Rudradāman II (p. 178), who must have reigned at some time during the latter portion of this period, it is probable that his coins, if they are ever discovered, will make this interval still less. Yaśodāman II is the last of the kṣatrapas (pp. 175-8; Pl. xvii. 795-811). When the currency is resumed, after an interruption of sixteen years, the rulers of this dynasty appear with the title 'mahākṣatrapa.'

123. The Mkṣ. Svāmi-Rudradāman II is known only from the coins of his son Svāmi-Rudrasena III (p. 178, **Svāmi-Rudradāman II.** note 1); and his date can only be expressed as 270-*x*. He appears as the first mahākṣatrapa to reign since the time of Bhartṛdāman (last certain date 217; *v. sup.* § 117). His relationship to other members of the dynasty is quite uncertain. As the numismatic record of this period is fragmentary, all conjecture as to the relationship of Svāmi-Rudradāman II to his predecessors is futile. The dotted line in the 'Genealogical Table' (§ 131) which connects him with Svāmi-Jivadāman is intended merely to denote the possibility of a connection which remains to be proved. From this period all the princes of this dynasty assume on their coinage the title 'svāmi' (§ 93) prefixed to the proper name, after the titles 'rāja mahākṣatrapa,' or in one

¹ Scott, JBBRAS, xx, p. 201.

instance also 'mahārāja kṣatrapa' (Svāmi-Siṃhasena, Var. 6 p. 190).

124. Both silver and lead coins appear during the reign of the Mks. Svāmi-Rudrasena III, son of Svāmi-Rudradāman II. The silver coins, the dates of which range from 270 to 300, fall into two well-marked divisions, separated by an interval of thirteen years. The dates of the earlier division represent each year from 270 to 273 inclusive (pp. 179-80; Pl. xvii. 812-817): those of the later division represent various years between 286 and 300 (pp. 180-186; Pl. xvii. 818-868).

The coin-legends have generally at this period become so much debased that the individuality of some of the characters is almost lost. It is, for example, often impossible to distinguish between the *akṣaras* *ha* and *na* as they are represented on the coins; and if it were not for the decisive evidence afforded by certain specimens on which this distinction is clearly seen (*e.g.* Pl. xvii. nos. 848-49, and 853), it might have been doubted whether the name of this mahākṣatrapa should be read as 'Rudrasena' or 'Rudrasimha.' On certain coins belonging to the later division, however (those with dates ranging from 286 to 300), inserr. in more distinct and more carefully formed characters appear (*e.g.* Pl. xvii, 868); and we may probably recognise in these a conscious attempt to reform a coin-legend which threatened to become absolutely unintelligible unless the process of degeneration were arrested. A similar attempt is observable also in a succeeding reign (Svāmi Rudrasimha III, Pl. xvii. 925-26); and it is quite possible that all these reformed coin-legends may belong to a different mint, since they continue to appear as exceptions to the general rule.

The period between the dates 273 and 286, which thus separates the earlier from the later coinage of Rudrasena III, was probably marked by some political disturbance during which the coinage ceased (*cf.* the similar interval between the reigns of the Ks. Yaśodāman II and the Mks. Svāmi-Rudradāman II; *v. sup.* § 122). The Uparkot hoard here supplies some very striking evidence. This hoard contained no specimens of the later coinage. All the ninety coins of Rudrasena III which it comprised are dated in the years 270, 271, 272 or 273; and, in regard to these, the Rev. H. R. Scott, who made a careful analysis of the hoard, says, "Many of these coins, especially those of the last years, are in mint condition, fresh and unworn. From these facts . . . we may fairly conclude that the hoard was secreted at the end of the first period of Rudrasena's reign, and most probably it was because of the revolution which then took place, rendering life and property insecure, that the money was hidden."¹

125. To the period of the reign of Rudrasena III belong also certain lead coins of square form. Their *obv.* type is 'Humped bull r.,' and on their *rev.* they have the usual type of the Western Kṣatrapas, '*Caitya*; l. crescent; r. star,' but with the addition of a date in the exergue (pp. 187-88; Pl. xvii. 889-90). Their dates range from 280 to 294; and they belong, therefore, chiefly but not entirely, to the period during which no silver coins are found (274-285). Their *rev.* type would seem to connect them with the Western Kṣatrapas, and their dates with the reign of Rudrasena III. But it is not absolutely certain that they belong to this dynasty. Other coins prove that the type

¹ JBBRAS, xx (1899), p. 209: *cf.* also *ibid.* p. 203. The hoard consisted of about 1200 specimens.

which is generally characteristic of the Western Kṣatrapas, the 'Caitya,' was used also by successful invaders of their dominions, *e.g.* by Īśvaradatta (Pl. XIII. 472-79), by the Traikūṭaka Dynasty (Pl. XVIII. 930-78), and by the 'Bodhi' Dynasty (Pl. XVIII. 983-1000). We must, therefore, remain in some doubt whether these lead coins were struck by Rudrasena III or by a foreign invader of his kingdom. In any case they probably belong to some district in which the use of lead for the currency was established;¹ but it is impossible to decide whether this district belonged to the Western Kṣatrapas or to their conquerors. The type 'Humped bull' is found on potin coins struck by earlier members of the dynasty in Malwa (§§ 98-99); and, as certain lead coins of the Andhras have also been attributed to this region (§ 73), it is possible that these coins may show that the power of Rudrasena III was temporarily confined to some portion of Malwa. Unfortunately no precise record of the *provenance* of these square lead coins seems to have been preserved.

126. The only certain date on the coins of the Mkṣ. Svāmi-Siṃhasena, sister's son of Svāmi-Rudrasena III, is 304; but it is quite possible that the date on one specimen should be restored as '306,' since the remaining traces of the unit figure suggest rather the numeral '6' than the '4' of this period (p. 189; Pl. XVII. 905; *v. inf.* 'Numerals').

As has been already observed (§ 124), owing to the degraded characters of the coin-legends of this period, it is not always

¹ The use of lead in itself supplies a very slender clue to the discovery of this locality. It was used by the Andhras in very widely separated districts of their empire, both in Eastern and Western India. It occurs also in other coinages, *e.g.* those of Strato, Azes, and Raiñjubula.

easy to distinguish between the *akṣaras ha* and *na*. There is, therefore, considerable danger of confusion between the forms *-siṃha* and *-sena* in the names of these princes. By both Bhagvānlāl and Cunningham, Svāmi-Siṃhasena was supposed to be the sister's son of Svāmi-Rudrasimha III, who reigned after him (*v. inf.* § 129). On this theory it was impossible to explain satisfactorily his position in the genealogical table of the dynasty. The correction of the reading of the uncle's name to 'Rudrasena,' which is supported by such traces as remain of the latter part of the name in the coin-legend of no. 906 (p. 190; Pl. xvii), may be regarded as certain; and it has the merit of giving to Svāmi-Siṃhasena a position in the genealogical table which is in every way probable.

There are two varieties of the coinage of this prince. In Var. *a* (p. 189; Pl. xvii. 904-5) his uncle, Svāmi-Rudrasena III, appears as 'Rāja Mahākṣatrapa': in Var. *b* (p. 190; Pl. xvii. 906) as 'Mahārāja Kṣatrapa'; but it must remain uncertain what distinction, if any, there may have been between these two titles. The title 'Mahārāja' may, perhaps, have been borrowed from some foreign source. It is used on the coins of the Traikūṭaka kings (pp. 197-203), the foundation of whose era in A.D. 249 seems to show that their power was fully established at that date, *i.e.* at the end of the reign of the Mks. Vijayasena (§ 113). It is possible that these southern neighbours of the Western Kṣatrapas, the successors perhaps of Īśvaradatta (§ 109), were also the foes whose invasion caused an interruption in the coinage during the reign of Rudrasena III (§ 124) and possibly at an earlier date (§ 122). If so, the use of the Traikūṭaka title 'Mahārāja' by Rudrasena III might easily be explained.

On the coins of Svāmi-Siṃhasena, the Sanskrit word '*varṣe*,' 'in the year,' seems first to occur before the date in this series

(p. 189, note 3); and it is quite probable that it was *intended* to occupy this place on all the remaining issues of this dynasty. Like the date itself, it is not always legible on specimens; but it is quite clear on some coins of Svāmi-Rudrasimha III, and there are traces of the word to be seen also in other instances (p. 192, note 1). This practice of using the word '*varṣe*' before the date on the silver coinage was continued by the conqueror of the Western Kṣatrapas, Candragupta II Vikramāditya, who naturally uses the Gupta era.¹ It has often been supposed that certain marks which appear in this position on coins of the Western Kṣatrapas were intended to represent the Prakrit or Sanskrit word for 'year'; but it has not been possible in the case of the earlier coins of this series to be certain as to this interpretation. Originally, no doubt, the signs which appear before the numerals merely formed part of the inscr. in 'Greek' characters. On the earlier dated coins several such combinations of letters are to be seen, *e.g.* **II** (Jivadāman; Pl. XI. 289), **IIVO** Rudrasimha I; *id.* 295), **IO** (*id.*; *id.* 314) &c.; and these seem to be used without any particular system. But from about the year 160 onwards (Yaśodāman I and Vijayasena; Pl. XIV) the sign **I**, which later appears sometimes as two dots : or strokes =, seems exclusively to occupy this position; and it seems not improbable that this sign, the origin and significance of which were alike forgotten, came to be regarded as the Brāhmī *va* (𑀕) or *vā* (𑀖), an abbreviation of the Sanskrit '*varṣe*,' or the Prakrit '*vāse*,' 'in the year.' At a later date the word appears in full.

The coin-legends of Var. *b* show the Sanskrit termination of

¹ The *akṣara vā*-, an abbreviation of the Prakrit form *vāse*, with the date 90 or 90+*x*, is to be recognised in the engraving of a silver coin of Candragupta II published by Thomas in ASWI, II, p. 62. Both *vā* and *va* are to be read on specimens in the British Museum.

the genitive in the proper name *Simhasenasya* side by side with the ordinary Prakrit form in the title *mahākṣatrapasa*. The Skt. form also occurs in the word *svasriyasya* or *svasrī-yasya*, 'sister's son,' on coins of Var. *a*; but defective coin-legends make it uncertain which form of this word occurs in Var. *b*.

127. The unique coin of the Mkṣ. Svāmi-[Rudra]sena IV,
Svāmi-
[Rudra]sena IV. son of Svāmi-Siṃhasena (p. 191; Pl. xvii. J.B.), is in the collection of Colonel Biddulph. The reading of the first part of the name as '*Rudra*-' is not absolutely certain, though it may be restored from the remaining traces with great probability. The date cannot be read on this specimen; and all that can be said about the reign of this prince is that it, together with the reign of the Mkṣ. Svāmi-Satyasiṃha (§ 128), must, presumably, be included in the period limited by the reigns of Svāmi-Siṃhasena (date 304, and possibly 306; *v.* § 126) and Svāmi-Rudrasimha III (date 310 or $310 + x$; *v.* § 129).

128. The Mkṣ. Svāmi-Satyasiṃha (p. 191) is known only from
Svāmi-
Satyasiṃha. the coins of his son, Svāmi-Rudrasimha III (§ 129), and, like Svāmi-[Rudra]sena IV (§ 127), his reign can only be included within the limits 304 (or 306) and 310 or $310 + x$. His relationship to preceding members of the dynasty is not certain. The most probable suggestion is that he may have been a brother of Svāmi-Siṃhasena (§ 126).

129. The Mkṣ. Svāmi-Rudrasimha III, son of Svāmi-Satya-
Svāmi-
Rudrasimha III. simha, is the last known member of the long line of Western Kṣatrapas, whose coins extend over a period of some two hundred and seventy years. The only date which can be read on his coins is either 310 or $31x = \text{A.D. } 388$ or $388 + x$ (pp. 192-94; Pl. xvii. 907-26), a date

which cannot have been separated by a very long interval—probably not more than about twelve years—from the Gupta conquest of the dominions of the Western Kṣatrapas. It is quite possible, therefore, that the reign of Svāmi-Rudrasimha II may have extended through this interval, and that he may have been actually the last of the Western Kṣatrapas; but, in the absence of any trustworthy evidence, whether inscriptional or numismatic, this point must remain somewhat doubtful.¹

130. Signs of the westward extension of the Gupta power are already to be observed during the reign of Samudragupta, if we may suppose, as seems probable, that the Western Kṣatrapas are to be identified with the Śakas, who in the Allahabad inscr. appear among the peoples represented as paying respectful homage to him² (*v. sup.* p. cv, note 1); but the actual annexation to the Gupta empire of Malwa and Surāṣṭra took place in the reign of his successor, Candragupta II Vikramāditya. Evidence of the Gupta occupation of East Malwa (Ākara) is afforded by two inscr. found in caves on the Udayagiri Hill, about two miles N.W. of Bhilsa (Vidiśa). One of these records a dedication made by a feudatory mahārāja during the reign of Candragupta II in yr. 82 of the Gupta era = A.D. 401 (Fleet, CII, iii, p. 25):³ the other com-

¹ The very short reigns of the last members of this dynasty—there are four mahākṣatrapas between the years 304 and 310 or 312 (pp. 189-92)—may, perhaps, indicate the unsettled state of affairs which preceded the Gupta conquest.

² The limits of the reign of Samudragupta are not certainly known; but it is probable that it ended about the year A.D. 375; *v. S. EHI*, p. 253.

³ This mahārāja was a Sanakānika, whose father and grandfather were also mahārājas. The Sanakānikas (Sanakānikas) are also mentioned in the Allahabad inscr. of Samudragupta among other tribes who obeyed the commands of the Gupta monarch. They were probably in possession of East Malwa at this period, and were allowed to rule as feudatories after the conquest of Candragupta II.

memorates the construction of the cave by a minister of Candragupta II, a native of Pāṭaliputra (Patna), who 'came here, accompanied by the king in person, who was seeking to conquer the whole world' ¹ (Fleet, *ibid.* p. 36). Of the Gupta conquest of West Malwa (Avanti) there seems to be no inscrip-tional record; and all the known specimens of the class of flat silver Gupta coins which may be attributed more especially to Malwa (R.IC, § 91, 'central fabric'; *v. sup.* § 108) belong to later reigns. Evidence of the conquest of Surāṣṭra during the reign of Chandragupta II is to be seen in his rare silver coins which are more directly imitated from those of the Western Kṣatrapas (R. *ibid.*, 'western fabric'). Like their prototypes, the coins of the latest mahākṣatrapas, which they closely resemble in style and fabric, they have on the *obv.* the date accompanied by some equivalent of the word *varṣe*, behind 'the king's head (*cf. sup.* § 126), and retain some traces of the old inscr. in Greek characters (*v. sup.* § 88), while on the *rev.* they substitute the Gupta type (a peacock) for the '*caitya*, with crescent and star.' The earliest date which has been read with certainty on the coins of this class is the year 90, or possibly $90+x$ of the Gupta era = A.D. 409 or $409+x$.² So far as the numismatic evidence is concerned, therefore, there appears to be a gap of some 20 years between the latest dated coin of the Western Kṣatrapas (=A.D. 388 or $388+x$; *v. sup.* § 129) and the earliest dated coin of the Guptas struck in Western India. The interval during which the Gupta conquest

¹ This seems to be a plain indication of the fact that Candragupta II had deliberately entered on a campaign of conquest which eventually, as the coins prove, extended to the dominions of the Western Kṣatrapas.

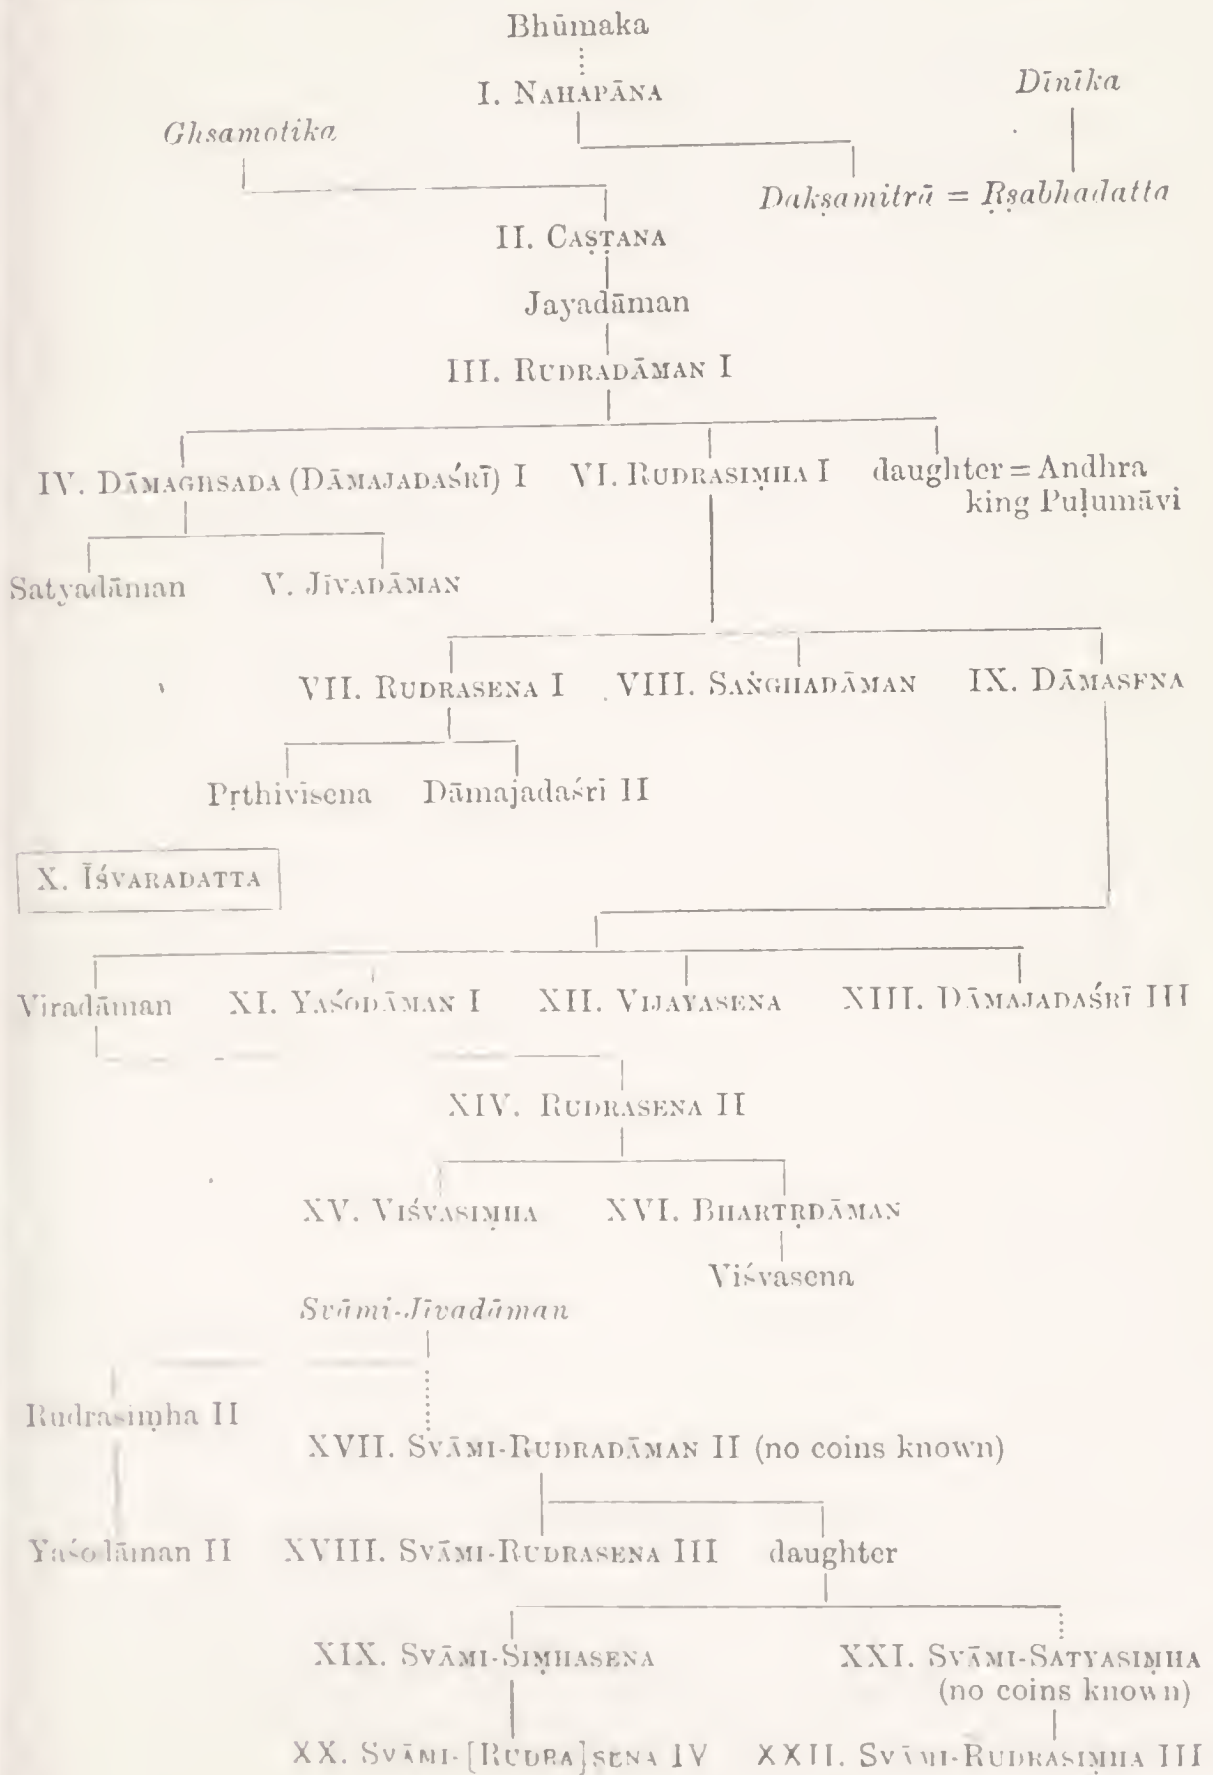

² A specimen in the British Museum, Cunningham, 94:5-6:969, bears traces of a unit figure, possibly 4 or 6; but the decimal figure is doubtful, and may have been either 80 or 90.

of the dominion of the Western Kṣatrapas must have taken place is, however, probably further limited by the evidence of the Udayagiri inscr., which shows that already in the year 82 = A.D. 401 East Malwa was included in the Gupta empire. While no certain conclusion as to the date of the subjugation of Surāṣṭra (Gujarat and Kathiawar) can be drawn from this fact, it is improbable that the kingdom of the Western Kṣatrapas should have been able for long to resist the victorious progress of Candragupta II.

131. The following genealogical table and dynastic lists of kṣatrapas and mahākṣatrapas are adapted from those first made by Colonel Biddulph, and published by him in JRAS, 1899, pp. 406-7. In the genealogical table the twenty-two mahākṣatrapas who are known to have reigned are numbered consecutively, and their names are printed in capital letters. The names of kṣatrapa are printed in ordinary roman type, and those of individuals who were neither mahākṣatrapas nor kṣatrapas *in italics*.

The dates 41 and 45 = A.D. 119 and 123 occur in the postscript to an inser. dated in the yr. 42; *v. sup.* § 57, no. 33.

The date conjecturally assigned to Satyadāman in the Catalogue is probably too late; *v.* Introduction, § 101.

THE TRAIKŪṬAKA DYNASTY.

132. The name 'Traikūṭaka' is borne in inscr. by a dynasty
Trikūṭa.
of kings who are known to have ruled in Western
India in the latter half of the fifth century A.D.¹

It is grammatically the adjectival form of '*Tri-kūṭa*,' the designation of a mountain having 'Three Peaks.'² Several mountains of this name are mentioned in early Sanskrit literature, the two most celebrated being in the Himalayas and in Ceylon.³ As to the precise identification of the mountain from which the dynasty in question derived its title, there would appear to be considerable doubt⁴: but the region within which it must have been situated is clearly indicated by the evidence supplied by inscr. and literature, and by the *provenance* of the coins.

The inscr. in which the name of the dynasty actually occurs are all on copper-plates. These were found either in the neighbourhood of Surat or at Kanheri,⁵ and it is worthy of notice that the

¹ V. § 57, nos. 44, 45. A short account of a third Traikūṭaka inscr. (Vyāghrasena, yr. 231) has recently been published by Mr. A. M. T. Jackson in a note to the Rev. H. R. Scott's article on 'Traikutaka Coins from Indapur Taluka, Poona District,' in JBBRAS, 1908 (p. 6 of reprint). The inscr. (copper-plate) is said to have been sent from Surat.

² The name of the mountain seems to have been transferred to the district, as in the parallel case of '*Citra-kūṭa*,' 'Wondrous Peak' = 'Chitor,' the name of the old capital of Mewar.

³ Respectively, a ridge projecting from the south of Mount Meru (Wilson, VP, ii, p. 117), a mythical abode of the gods, and the mountain on which Rāvaṇa's capital, Lankā, was situated.

⁴ Bh. at first accepted the view here held on the authority of the *Raghuramāyaṇa* that Tri-kūṭa was in Aparānta, but he afterwards preferred to identify it with Junnar in the Poona District; v. Bh. *Trans. Inter. Or. Cong.*, Vienna, 1886, Aryan Section, p. 221; Burgess and Bh., *Cave-Temples*, ASW1, Misc. Rep., no. 10, p. 57. Dr. Fleet (JRAS, 1905, p. 566) promises to publish a more satisfactory identification.

⁵ Ref. in note 1 *supra*.

Kanheri inscr. contains the name of the place where it was discovered (*v. sup.* § 57, no. 45). The evidence of these inserr. therefore seems to show that the dynasty ruled in S. Gujarat and in the Konkan.¹

The kingdom of Trikūṭa is mentioned in an inscr. of the Vākāṭaka king Hariṣeṇa (c. A.D. 500–520), but in a manner which affords no certain information as to its geographical position.² The reference is important only as testifying to the existence of a Traikūṭaka power at this period. On the other hand, the mention of the Trikūṭa mountain in Kālidāsa's *Raghuvamśa* is geographically important, and seems to show beyond possibility of question that it was situated in Aparānta (the Northern Konkan, *v. sup.* § 42).³ As Kālidāsa probably flourished during the reign of the Gupta king Candragupta II. Vikramāditya (c. 375–413 A.D.),⁴ it is possible that the Traikūṭaka kings of the family known to us from their inserr. and coins may have been reigning in this region during his lifetime.

If, therefore, as seems most probable, the Trikūṭa from which the dynasty received its name is the Trikūṭa of the *Raghuvamśa*,

¹ Dr. Fleet points out that all the earlier dates in the same era, the use of which was subsequently extended to other parts of India, 'come from Gujarāt and the Thana District in Bombay,' *v. JRAS.* 1905, p. 567.

² ASW. iv, p. 125, ll. LVII. The passage (line 14) consists of an enumeration of kingdoms conquered by Hariṣeṇa. As it is in verse (Vamśastha) the relative position of these kingdoms cannot be inferred from the order in which they are mentioned:

*Sa Kuntal-Āvanti-Kalīṅga-Kosala-
Trikūṭa-Lāt-Āndhra* [ॐ-ॐ-ॐ-ॐ].

³ *Raghuvamśa* iv, 58, 59.

Avakāśm kilodanvān Rāmāyābhyarthito dadau
Aparānta-mahipālavyūṣeṇa Raghava karam.
Mattebhīradanotkirṇavyaktavikramalaksanām
Trikūṭam eva tatpāraṁ parvataṁ bhūmī-cālāra-sabam.

⁴ S. III, 1 1981

it is certainly to be sought for in the Northern Konkan. At present no more precise identification seems possible.

133. The evidence of the coins would seem to show that the Traikūṭaka power, beginning in the district from which it takes its name,¹ was subsequently extended to the north, west, and south. The bare fact that the coin-types of the Traikūṭakas are minutely imitated from those of the Western Kṣatrapas almost certainly shows that they were intended for circulation in districts in which the currency of the Western Kṣatrapas had become familiar to the people. Local conservatism in regard to coin-types is a marked characteristic of Indian numismatics (*v. sup.* p. xi.); and there can be little doubt that, in this particular instance, the coin-types show that certain territories formerly belonging to the Western Kṣatrapas had passed into the hands of the Traikūṭakas. The *provenance* of the coins, considerable numbers of which exist in various collections, has unfortunately not been very fully recorded; but it may be said generally that the coins are found over a much wider area than is indicated by the inserr. They are discovered not only in S. Gujarat and the Konkan, but also in the Mahratta country on the other side of the Ghats.²

134. The era used by the Traikūṭaka kings in their inserr. is identical with that which has been more commonly known as the 'Kalacuri' or 'Cedi' era, since it was first recognised in the inserr. of the Kalacuri

¹ It seems not improbable that the Traikūṭakas may be the Mauryas of the Northern Konkan, for whom *cf.* Dh. *Trans. Ind. Arch. Soc.*, Vienna, 1886, Aryan Section, p. 224.

² In 1887 a hoard of about 500 of these coins was found at Daman in S. Gujarat. *v.* Bh. BG, I. i. p. 58. Another hoard of 359 coins found in the Indapur Taluka of the Poona Dist. has recently been described in JBBRAS, 1908, by the Rev. H. R. Scott. The first known coin of this series, which was published by Newton, in JBBRAS, 1862, p. 11, PL. 13, was found 'near Kavli in the Satara District.'

kings of Cedi, a region which may be said generally to have been co-extensive with the present Central Provinces.¹ For practical purposes this era may be regarded as beginning in the year A.D. 249²; and we may obtain the approximately equivalent Christian date by adding 249 to the number of the year. The three earliest occurrences of this era are found in inscrr. of the Traikūṭaka dynasty,³ but in none of these is any definite name assigned to the era.⁴ In each case the date is described as in the year x (of some unspecified era) during the sovereignty of the Traikūṭaka kings.⁵ After the latest of these dates—245 = A.D. 494—no mention of these kings under the same name⁶ has yet been found in any Indian record; but the same era continued to be used by other rulers in Western and Central India,⁷ and at a later period it is definitely styled ‘Kalacuri’ or ‘Cedi.’⁸ It must therefore remain for the present doubtful whether the Traikūṭaka kings founded an era of their own, or whether they continued to use a chronological system established by their predecessors.

¹ S. EHI, p. 313.

² More strictly speaking, perhaps, A.D. 248-9; *v. Fleet*, JRAS, 1905, p. 566.

³ (1) Dahrasena, yr. 207 = A.D. 456, *v. sup.* § 57, no. 44; (2) Vyāghrasena, yr. 231 = A.D. 480, *v. sup.* p. clviii, note 1; (3) Without name of king, yr. 245 = A.D. 494, *v. sup.* § 57, no. 45. Some supposed earlier dates in inscrr. of the Mahārājas of Uccakalpa are now referred to the Gupta Era; *v. Kielhorn*, EI, viii, Appendix I, p. 1.

⁴ This is presumably true in the case of the second inscr. mentioned in the last note as in the case of the other two inscrr., but it is not explicitly stated in the short description which alone has appeared of this inscr.

⁵ Fleet, JRAS, 1905, p. 567.

⁶ As suggested above, p. clx, note 1, the Traikūṭakas may perhaps be the Mauryas of the Northern Konkan who are known at a somewhat later date.

⁷ Gurjaras (N. Gujarat and Rajputana), Calukyas of Gujarat, Sendrakas, Kalacuris of Cedi; *v. Kielhorn*, EI, v, Appendix, pp. 55 ff.

⁸ Kielhorn, *op. cit.*, p. 59, no. 411, and p. 60, no. 423. In the same way, the ‘Śaka’ era may have gained its name from the fact that it was used by a Śaka dynasty of kings who had originally used it as the era of their suzerain; *v. sup.* p. cvi.

135. The theory propounded by Pandit Bhagvānlāl Indrāji, that the era used by the Traikūṭaka kings was founded by Ābhīras and Traikūṭakas, by Īśvaradatta, has been shown to rest on a mistaken observation, and to conflict with the evidence afforded by the coins themselves, evidence which seems to indicate a date at least ten years previous to A.D. 249 (*v. sup.* § 110). His further proposal to regard Īśvaradatta as an Ābhīra, and as belonging to the dynasty of Ābhīra kings represented by the inscr. King Īśvarasena at Nasik, is more probable. But, whatever may have been the relationship between these two kings, it must remain doubtful whether either of them could have been the founder of the era in question. They both apparently use regnal years, the one in his inscr. and the other on his coins (§ 109), and such slight evidence as there is may perhaps indicate that Īśvarasena reigned before Īśvaradatta (p. cxxxvi.). Both therefore seem to have reigned before A.D. 249; but it is, of course, quite possible that the establishment of this era may mark the consolidation of the Ābhīra kingdom during the reign of one of their successors. There can be no doubt that the political conditions which admitted of the growth of a strong power in this part of India were due to the decline and fall of the Andhra empire¹; but the foundation of an era must be held to denote the successful establishment of the new power rather than its first beginnings or the downfall of the Andhras.²

But although it is thus not improbable that the era used by Traikūṭaka kings in the latter half of the fifth century A.D. may have been originally fixed by an Ābhīra king in the middle of the third century A.D., it is impossible to determine whether or not these Ābhīras and Traikūṭakas belonged to the same dynasty.

¹ Fleet, JRAS, 1905, p. 568.

² For the last vestiges of Andhra rule in Western India, *v. sup.* §§ 56, 95.

to the same race. At present there is a total lack of historical monuments during the period which separates them, and all evidence of any links which may have connected them has been lost. All that can be said at present is that the two groups of kings may well have ruled over substantially the same territory, and that the similar formation of their names, which alike end in *-datta* or *-sena*, suggests that some sort of relationship may have existed between them.

136. Coins of two Traikūṭaka kings have been recognised, and both of these are mentioned also in inscr.—**Traikūṭaka Coins.** Dahrasena, son of Indradatta (inscr. § 57, no. 44, dated in yr. 207 = A.D. 456), and Vyāghrasena, son of Dahrasena (inscr. p. clviii., note 1, dated in yr. 231 = A.D. 480). A third king Indradatta is known only from the coins of his son Dahrasena.

The coin-legends are usually distinct in this series, but some of the constituent letters have assumed conventional forms to such a degree that the attempts of numismatists to decipher the coin-legends were for a long time unsuccessful ; and even at the present time it may be doubted whether the latter part of the names of the two kings of whom coins are known should be read always as *-sena*, or sometimes as *-sena* and sometimes as *-gaṇa*.¹ The reading *-sena* is certainly found on some specimens of Dahrasena's coinage and in his inscr., and it is said to appear also in the inscr. of Vyāghrasena, of which a short notice has been recently published.² On the other hand, it must be admitted that *-gaṇa* (perhaps intended for *-gaṇa*) would be the more natural reading on most of the known coins of Dahrasena and on all those of Vyāghrasena ; but it may be remarked that the representation of

¹ For the former view, v. Rapson, JRAS, 1905, p. 802 ; for the latter view, v. Scott, JBBRAS, 1908 (p. 4 of reprint of article on 'Traikūṭaka Coins').

² *V. sup.* p. clviii, note 1.

the first *akṣara* -ga- is rarely, if ever, satisfactory, and it might quite possibly be a conventionalised form of -sa (for -se). It is therefore doubtful whether this question can be settled from the evidence of the coins alone. The Rev. H. R. Scott has come to the conclusion that Dahrasena "appears to have altered the termination of his name from -sena to -gaṇa at an early period of his reign."¹ Such a change of name, for which abundant analogies could be quoted from Indian inscrs., would be quite feasible in the present instance, since the substitution of -gaṇa, 'host,' for -senā, 'army,' would not materially affect the meaning.

Of the coins of Dahrasena, three slight varieties, distinguished by the position of the star on the *rev.* and the characters of the inscr., are published in the Catalogue (pp. 198-201; Pl. xviii. 930-959). The few coins of Vyāghrasena which are published show no important variations (pp. 202-3; Pl. xviii. 975-978.)

COINS OF THE 'BODHI' DYNASTY.

137. Of the history of the dynasty to which these coins belong nothing is known. Its dominions presumably lay in Western India, since all the coins now published come from the Bhagvānlāl collection, and in some region of Western India closely associated with the Western Kṣatrapas, as appears from the *rev.* type, a 'Caitya,' which the two dynasties possess in common. This region was one in which the use of lead as currency was established; but this fact affords no certain clue to its identification (v. p. cxlvi, note 1). The Brāhmī characters of the very minute and indistinct coin-legends appear to resemble those of the inscr. of Ṛṣabhadatta and Rudra-

¹ *Op. cit.*, p. 4.

dāman,¹ and of the coins of Nahapāna and Gautamīputra (v. pp. 65, 68), and may perhaps show that this dynasty was ruling in the first half of the second century A.D. But it must be confessed that any arguments derived from epigraphical considerations are more than usually unsubstantial in this case; and, for the present, therefore, the period of this dynasty must remain almost as uncertain as its locality.

138. Coins of three kings of this family have been recognised—
 Vira-bodhi, Śiva-
 bodhi, and
 Candra-bodhi. Vira-bodhi, or Vira-bodhidatta (pp. 207–8; Pl. XVIII. 983–987); Śiva-bodhi (p. 209; Pl. XVIII. 988–992); and Candra-bodhi (p. 210; Pl. XVIII. 993–997). The last two are characterised by a plain obverse. The pieces on which the name appears simply as ‘Bodhi’ (p. 211; Pl. XVIII. 998) share this peculiarity, and may therefore have been struck either by Śiva-bodhi or by Candra-bodhi. In addition to these inscribed coins, there are certain specimens without a coin-legend, but having a similar *rev.* type and plain *obv.*, which may perhaps be assigned to this dynasty (p. 211; Pl. XVIII. 999–1000).

TYPES AND SYMBOLS.

139. The origin and significance of Indian coin-types are often obscure; but it seems possible to determine sometimes whether their use was local, dynastic, or personal—that is to say, whether they were intended to denote some particular locality, some particular family of rulers, or some particular ruler. Probably all these three uses are to be traced in different coinages of the Andhra dynasty. As has been observed above (§§ 7, 59), there is reason to believe that

Types of the
Andhra Dynasty.

¹ Cf. Buhler, *Ind. Pal.*, Table III, Columns vi-ix. with the tracings given in the Catalogue.

each province of the great Andhra Empire possessed its own distinctive coinage—a fact which seems to be clearly indicated by the great variety observable in the numismatic record of the dynasty, partial and fragmentary as this record undoubtedly appears to be at the present time. These local varieties have already been described in detail (*v. sup.* §§ 60 ff.). They are distinguished from each other partly by their types and partly by peculiarities of metal, fabric, or form. But underlying all this variety there are to be recognised certain constantly recurring types, such as the ‘*Caitya*,’ and the ‘Ujjain symbol,’ which may almost be regarded as permanent features in the coinages of the Andhra Empire. As these occur on the coins of a number of provinces during the reigns of a number of kings, they cannot have a merely local or personal significance. They must, therefore, presumably be characteristic of the dynasty. As contrasted with these, other coin-types may be called personal, in the sense that their selection seems to have depended on the will of the sovereign or of the mint authorities. Such a personal character seems to be shown in cases where a change of type takes place in any particular district during a reign, as, for example, the change from the ‘Horse’ type to the ‘Elephant’ type in Andhradeśa (the district of Fabric B) during the reign of Śrī-Yajña (*v. sup.* p. lxxix.). Of personal types, in the ordinary sense of the term as meaning portrait-types, there is only a single instance known in the numismatics of the Andhra Dynasty, and this instance is due entirely to the influence of the coinage of the Western Kṣatrapas (Śrī-Yajña, Surāṣṭra Fabric; *v. p.* 45; Pl. vii. El.-J.B.).

140. The ‘*Caitya*’ and ‘Ujjain symbol’ are found in association as respectively the *obr.* and *rev.* types used by Gautamīputra in the Nasik Dist. (Pl. ix. 253–258), and also on the coins of Andhradeśa (Dist. of Fabric A) during the reigns from Puṣumāvi to

‘*Caitya*,’ ‘Ujjain
symbol,’ and
‘Tree within
railing.’

Śrī-Yajña certainly, and possibly to Śrī-Rudra (Pl. v. 88—G.P. 1 ; 115, 116 ; Pl. vi. 117—G.P. 1 ; 132-146 ; Pl. vii. G.P. 5). They occur together side by side in the *rev.* type of the coins of Surāṣṭra fabric struck by Śrī-Yajña in Aparānta (Pl. vii. El.—J.B.).

The *Caitya* or 'shrine' must originally have denoted some temple. With or without the 'Tree within railing,' which no doubt represents the sacred tree so frequently associated with Indian shrines, it appears either as a main type or as a symbol on coins from all the provinces of the empire which are represented numismatically except Chanda (§ 65), the Coromandel Coast (§ 67), and the uncertain districts in Western India to which belong the coins of Groups A and B (§ 74). It is used by both families of Śātakarṇis—both by the Śātavāhanas and by the Cuṭus. It was introduced into the *rev.* type of the Western Kṣatrapas during the reign of Caṣṭana. Its use in this connection may perhaps be traced to an Andhra source. It may quite possibly have been added by Caṣṭana to his earlier type after some district previously in the possession of the Andhras had passed into his hands (*v. sup.* p. cxv.). From the Western Kṣatrapas, the '*Caitya*' type was certainly borrowed by the Traikūṭakas (*v. inf.* § 145), and possibly also by the 'Bodhi' Dynasty (§ 146).

The 'Ujjain symbol' was so named by General Sir A. Cunningham because of its frequent occurrence on coins found at Ujjain (CAI, p. 95). The designation is, however, not sufficiently distinctive, since this symbol appears in many other districts of India. The object to which the term is applied consists of a cross having each of its arms terminated by a ball or circle, the whole being usually surmounted by a crescent or *nandipada* symbol. The meaning of this device is, like its correct name, at present doubtful. It is widely used in the Andhra coinages both of Eastern and Western India, but has only been found on coins of the Śātavāhana family of Śātakarṇis. It is not seen on any of

the coins of the Cuṭu family, whether on those found at Karve (§ 69) or on those more doubtfully attributed to the same family in the Anantapur and Cuddapah Districts (§ 66). Nor does it appear on the coins of the Mahārāṭhi which come from the Chitdrug District (§ 68). There seems some reason then for supposing the 'Ujjain symbol' to be the distinctive emblem of the Śātavāhanas—the Andhras proper as opposed to the Andhrabhṛtyas—and it is possible that the uninscribed coins of Ujjain which bear this symbol may belong to the period of Andhra rule in Malwa (§ 73). The 'Ujjain symbol' seems to occur as a type or symbol in every district in which the Śātavāhanas may be supposed to have struck coins except Kolhapur (§ 70).

On the coins of the Cuṭu family and of the Mahārāṭhi (Pl. 111; Pl. VIII. 233—G.P. 4) the type 'Tree within railing,' in association with the '*Caitya*,' seems to take the place of the 'Ujjain symbol' of the Śātavāhanas. Whether, however, it can be regarded, in a similar manner, as the distinctive emblem of the Cuṭus may be doubted, since it is frequently found associated with the 'Ujjain symbol.' If the two types in question could be proved to be the characteristic devices of these two families, their union on the same coins would at first sight seem strange. It could probably only be explained on the supposition that the coins belonged to a period at which the Cuṭus were still ruling as viceroys—Mahārāṭhis or Mahābhōjas—under the Śātavāhanas. It is perhaps worthy of notice that the type 'Tree within railing' is found only on the Andhra coinages of Western or Southern India, that is to say, only in the regions where the Cuṭus ruled first as feudatories and subsequently as independent sovereigns (§§ 27, 28). It does not occur on coins from Eastern India.

¹ For these coins of Ujjain, v. C. CAI, p. 94, Pl. x.

141. The two known members of the Kṣaharāta family have in common the type 'Arrow, Discus, and Thunderbolt,' which may, therefore, be supposed to be the device of the dynasty. But, in addition to this common type, each bears a device of his own. Bhūmaka's distinctive type, which may have been either local or personal in its nature, was the 'Lion-capital and *Dharmacakra*.' Nahapāna places his portrait on his silver coins; but on the unique specimen of his copper coinage its place is taken by the 'Tree within railing,' which may perhaps have been derived from an Andhra source. These types have been discussed above in §§ 87-8.

142. The uniformity observable in the coinages of the Western Kṣatrapas from the time of Caṣṭana onwards presents a striking contrast to the multiplicity of the Andhra types. The reason for this greater uniformity is no doubt to be found in the fact that their dominions were restricted to a much smaller area. If we leave out of consideration a few isolated copper specimens for which no satisfactory attribution is at present possible (*e.g.* Pl. x. 264, 269; Pl. xii. 326-7), and the rare lead coins which appear during a single reign only (p. 187; Pl. xvii. 889-90), we may say that the numismatic record of the family of Caṣṭana is comprised almost entirely in two well-defined classes of coins—(1) a silver series which may be regarded as in form and character a continuation of the silver coinage of the Kṣaharātas, and which was probably struck originally for circulation in Kathiawar and Gujarat (*Surāṣṭra* in the more extended use of the term, *v. sup.* p. xxxi), and (2) a potin series which seems to have been peculiar to Malwa, the other great division of the kingdom of the Western Kṣatrapas (§§ 98-9, 102, 105). As we have seen (§ 108) it is possible that when the second of these issues ceased it was superseded by the first. The coin-types of the Western Kṣatrapas after the time of Caṣṭana have

been described above in §§ 92 ff. ; but this account may be supplemented here by a few general observations on certain changes which may be traced with some regularity and dated with some chronological accuracy both in the style of portraiture and in the representation of the 'star and crescent' in the *rev.* type.

143. Although the types of the silver coinage remain the same from the beginning to the end of the dynasty—
 Representation of the Eye in Portraits. from the reign of Caṣṭana to that of Svāmi-Rudrasimha III, son of Satyasimha—a period of about two centuries and a half—slight variations are naturally to be observed in the art and workmanship of different periods.¹ Some of these—e.g. the different methods of representing the eye and lips in the portraits on the obverse, and the various forms assumed by the *caitya*, star and crescent, on the reverse—were noticed by Newton in 1862,² and it is interesting to observe (*op. cit.*, table facing p. 26) how the results which he obtained from a minute examination of these details generally confirm the order of succession of these princes as determined by their inscriptions and dates.

These observations are often useful as *criteria* of date. The different methods adopted in the representation of the eye seem, in particular, to be determinable with great accuracy. The chief methods are shown in the accompanying sketches, which are due

to the kindness of Mr. G. F. Hill ; and, as will be seen from the

¹ The following account is chiefly taken from R. JRAS, 1899, pp. 565 ff.

² "On the Sali, Gupta, and other Ancient Dynasties of Kattiawar and Guzerat," JRAS, 1862, p. 1.

Following notes, the period during which each one of these prevailed can be dated in most instances almost to the exact year.

(1) Drawn from a coin of Mkṣ. Rudrasimha I, yr. 110 (*v.* p. 89 ; Pl. xi. 306).

From the beginning of the dynasty until about the year 115, in the reign of Rudrasimha I, son of Rudradāman I, the eye-ball is regularly represented by a dot in relief.

(2) Mkṣ. Rudrasimha I, yr. 116 (*v.* p. 93 ; Pl. xi. 322).

For a short period after this the eye-ball is generally indicated by a line between the eye-lids in the form of a curve bending inwards. This style seems to prevail between the years 116 and 125. Of the five coins of Jivadāman, son of Dāmajadaśrī (Dāmajada) I, the four which belong to his second reign (*v.* pp. 84-5 ; Pl. xi. 289-292) are in accordance with this rule, while the other, dated 1[00], and belonging to his first reign (*v.* p. 83 ; Pl. xi. 288) shows, as might naturally be expected, the earlier form of eye given in Fig. 1. The earlier coins of Rudrasena I, son of Rudrasimha I, follow the rule (*v.* Pl. xii. 328-331).

(3) Mkṣ. Rudrasena I, yr. 136 (*v.* p. 101 ; Pl. xii. 353).

After the year 125 the curve which indicates the eye-ball is attached to the middle of the line representing the upper eye-lid ; and, in the reign of Dāmasena, apparently about the year 153 (*v.* Pl. xiii. 388), the curvature of the line representing the eye-brow is greatly increased (see Fig. 4).

(4) Mkṣ. Vijayasena, yr. 170 (*v.* p. 135 ; Pl. xiv. 541).

A tendency to make the upper line of the eye straighter and the curve of the eye ball more circular is observable from about the year 170, in the reign of Vijayasena, and this style seems to last until after the year 211, in the reign of Bhartṛdāman.

(5) Mkṣ. Bhartṛdāman, yr. 214 (*v.* p. 158 ; Pl. xvi. 698) (the eye-brow copied from no. 695).

A coin of Bhartṛdāman, dated 211 (*v.* p. 156 ; Pl. xvi. 678), follows the style shown in Fig. 4, but on all his coins of a subsequent date the curve representing the eye-ball has become a complete circle. The dates on the coins of Viśvasimha and Bhartṛlāman are in such an unsatisfactory condition that it was formerly doubtful which of the two reigned

first.¹ The evidence from style is in this case important. Of numerous specimens of Viśvasiṃha published in the Catalogue, not one has a portrait with the eye formed according to the fashion prevalent during the latter part of Bhartṛdāman's reign—a fact which, of itself, seems to show that Viśvasiṃha ruled before Bhartṛdāman.

(6) Mks. Rudrasimha II, yr. 230 (*v. p.* 171 ; Pl. xvi. 770).

During the reign of Rudrasimha II, son of Svāmi-Jivadāman, before the year 230, we find what seems almost to be a reversion to the style shown in Fig. 4. The only differences appear to be that the curve indicating the eye-ball is attached nearly to the end of the upper line of the eye, and that the lower line is shorter. The dates on most of the coins of Rudrasimha II are indistinct, and it is impossible to date the introduction of this style very accurately. It certainly prevails after 230, but of the coins reading 22x, some follow this style and some the style shown in Fig. 5.

(7) Ks. Yaśodāman II, yr. 240 (*v. p.* 175 ; Pl. xvii. 795).

On the coins of Yaśodāman II (239–251), the lower line of the eye is much reduced—often it becomes a mere dot—and the curve indicating the eye-ball is much smaller, and is attached to the extremity of the upper line. This style seems to prevail until about the year 290, in the reign of Svāmi-Rudrasena III.

(8) Mks. Svāmi-Rudrasena III, son of Svāmi-Rudradāman II, yr. 290 (*v. p.* 182 ; Pl. xvii. 839).

In this reign, after about the year 290, we seem to find a new style, in which the eye-brow is made much thicker, and the eye-ball represented by a circle at the end of the upper line, existing side by side with the style shown in Fig. 7. Both of these styles seem to occur together until the end of the dynasty, but the one described last and shown in Fig. 8 seems to predominate.

144. On the silver coins of the Western Kṣatrapas the following

‘Crescent and
Star.’

variations may be traced in the representation of the ‘crescent and star,’ the origin and history of

¹ *Ih. JRAS*, 1890, p. 658, evidently supposed that Viśvasiṃha was a Kṣatrapa during the reign of Bhartṛdāman as Mahākṣatrapa.

which as elements in the *rev.* type have been discussed above in § 92:—

(1) The 'crescent and star' together constitute the *rev.* type in Var. *a* of the coins struck by Caṣṭana as Kṣatrapa. Originally the 'star' appears to be what it was no doubt originally intended to denote, *viz.* a 'rayed sun.' It is represented as an orb surrounded by rays (*v.* Pl. x. El.).

(2) In Var. *b* of the coins struck by Caṣṭana as Kṣatrapa, and on some of the coins on which he appears as Mahākṣatrapa, the 'crescent and star' take their place on either side of the '*caitya*,' and on the same level with it (*v.* Pl. x. 259, 260).

(3) On other specimens struck by Caṣṭana as Mahākṣatrapa, the 'crescent and star,' though apparently still regarded as of equal importance with the '*caitya*' as constituent parts of the type, no longer appear on the same level with it, but are placed higher in the field (*v.* Pl. x. 262, and J.B.).

(4) After the reign of Caṣṭana two tendencies are observable in the presentation of the 'star' or 'rayed sun.' The orb tends to become smaller, and the rays tend to become thicker. Rays denoted by fine lines sometimes appear in the reign of Rudradāman I, but not afterwards; *v.* Pl. x. 272 with the other coins of Rudradāman I and those of Śaṃkhaśāhī (Dāmaśāhī) I.

(5) During the reign of Rudrasena I, from about the year 126 onwards, the 'star' is represented as a cluster of dots of the same size, the 'orb' in the centre appearing as a dot no larger than the dots which surround it (*v.* Pl. xii. 334, &c.). At the same time the 'crescent' on the left of the '*caitya*' is reduced to the size of the crescent which surmounts the '*caitya*.' By this time the 'crescent and star' have lost their importance as elements in the composition of the type, and have become mere symbols or adjuncts to the '*caitya*.' The date of the two *Æ* coins, p. 94; Pl. xii. 326–7, is therefore probably before yr. 126.

(6) During the reign of Rudrasimha II and afterwards both the 'star' to the left and the crescent surmounting the '*caitya*' have generally degenerated, except on the more carefully executed specimens (*v.* Pl. xvi. 779), to the two small curved lines which are to be seen in the left field (*v.* Pl. xvi. 779, &c.).

145. The Traikūṭakas borrowed their types directly from the Western Kṣatrapas (§ 136). On the *obv.* no date is in the usual position, behind the king's head, has yet been discovered, and traces of the inscr. 'Greek' characters are very rarely to be seen.¹ On the *rev.* the 'crescent' which usually appears in the left field of the prototype seems to have disappeared entirely in the copies, but a trace of the crescent above the *caitya* is probably to be recognised in the small curve which is sometimes found beneath one of the characters of the coin-legend (*v.* p. 198, note 3).

146. Although the *rev.* type of the coins of the 'Bodhi' Dynasty recalls that of the Western Kṣatrapas, the *obv.* types of the two dynasties have nothing in common. At present the only *obv.* types which have been found in this series are those on the coins of Vira-bodhi or Virabodhidatta, *viz.* 'Tree within railing' with or without the addition of the 'Figure of a man standing' (*v.* Pl. xviii. 983-87). The obverses of all the other known coins of the 'Bodhi' Dynasty appear to be plain. The *caitya* on the *rev.* of the coins of Virabodhi or Vira-bodhidatta is surmounted by a crescent as on the coins of the Western Kṣatrapas, but it differs in having a wavy line represented vertically on either side of it, instead of one represented horizontally beneath. On the *rev.* of all the other coins of the dynasty the *caitya* appears without the surmounting crescent or the wavy lines or any other adjuncts (*v.* Pl. xviii. 988-93).

147. At present very little is known as to the meaning of the symbols which often occur as adjuncts to the main type on Indian coins. Many of them were probably religious in origin, and may have been used as sectarian

¹ The statement made in note 1 on p. 198 should be corrected. Undoubted traces of the inscr. in 'Greek' characters are to be recognised on Pl. xviii. W. 983-87.

marks ; but too little is yet known about the sects and the religious symbolism of Early India to enable us to give in most cases any satisfactory explanation of these devices. There seems to be no permanent distinction in Indian numismatics between 'types' and 'symbols.' In regard both to their origin and their use they probably had much in common, and the terms are often applied to the same designs according to the relative position of predominance or insignificance which they seem to occupy on a coin. On this principle the three figures, which have been discussed above (§ 140) under the heading 'Types,' viz. the '*Caitya*,' the 'Ujjain symbol,' and the 'Tree within railing,' are in the Catalogue treated as symbols whenever they seem to hold a position in subordination to the main type. Other symbols which occur on the classes of coins described in the Catalogue are the following:—

1. . '*Svastika*,' the symbol of 'good fortune' (*svasti* = *su* + *asti* = *εὖ* + *ἔστι*) (Pl. I. 9). It appears in various forms, in one of which the 'Taurine symbol,' no. 2, takes the place of the horizontal or vertical line which is attached to each limb of the cross (Pl. I. 3). For the *svastika*, v. refl. in Bh. *Trans. Inter. Or. Congress* (Leiden, 1883, III, p. 137).

2. 8. The '*Taurine symbol*,' so called as being identical in form with the zodiacal sign of Taurus (Pl. I. 3). It may perhaps be a simpler form of no. 3 ; v. Thomas, JRAS, 1865, p. 483 ; Fleet, *id.* 1907, p. 531.

3. . '*Nandipada*,' 'The foot-print of Nandi' (Pl. II. 18). The name in its Prakrit form *namḍipaaṃ* = Skt. *nandipadam* accompanies a representation of this symbol engraved on a rock in the Padana Hill (Bh. JBBRAS, xv, p. 320, Pl. III. II). The symbol is associated with the figures of Śiva and his Bull on the coins of Kadphises II (Gardner, B.M. Cat., *Gk. and Scyth. Kings*, Pl. xxv. 7, etc.) ; but it is certainly not exclusively Brahmanical, as it is frequently seen, often in a more elaborate form, in Buddhist and Jain sculptures (e.g. C. *Mañabodhi*, p. 12, Pl. VIII. 2 ; S. *The Jain Stūpa and other Antiquities of Mathurā*, Arch. Sur. Ind. xx, Pl. XL.).

4. . Uncertain (Pl. II. 18). Several modifications of this symbol seem to occur, v. R. JRAS, 1900, p. 101.

5. . Uncertain (Pl. viii. 236). Perhaps a variety of no. 4.
6. . Uncertain (p. 28). Perhaps identical with the object which is called an altar (p. 32, nos. 125-8).
7. . Uncertain (Pl. v. 105); v. no. 9.
8. . Uncertain (Pl. viii. 236); v. no. 9.
9. 'Nāga-symbol' (Pl. viii. G.P. 1, and 207). That this symbol represents two snakes (*nāgas*) erect with expanded hoods seems evident from the two coins referred to. The symbol seems to have assumed a more conventional form in Pl. viii. 208. The question arises whether either or both of the symbols nos. 7 and 8 may not have been intended to represent this 'nāga-symbol.'
10. 'Conch-shell' (Pl. vi. 132).
11. 'Lotus flower' (*ibid.*).
12. 'Spherical object' (Pl. v. 105); 'Pellet within circle' (Pl. v. 112); 'Pellet within circle of dots' (p. 28). These are probably intended to represent the same symbol, perhaps a 'dharma-cakra' (*cf.* Pl. ix. 238).
13. 'River with fish' (Pl. i. 1). This design usually takes the form of a double waved line placed beneath the type, but it is sometimes made into a border for the coin, and sometimes *trastika*-symbols are mingled with the fishes represented (Pl. i. 5). There can be no doubt that this design is symbolical of the river of the district in which the coins were struck.
14. 'Waved line' (Pl. ix. 255; Pl. x. 259 *et passim*). On the coins with which the present Catalogue deals, the 'waved line' symbol is associated chiefly with the 'cailya' of the *rev.* type; but it occurs with other types also in other classes of Indian coins. It probably, like no 13, denotes the river of the country to which the coins belong; and it seems to be used in cases where considerations of space make the fuller representation impossible. On some of the coins of the 'Bodhi' Dynasty, two of these 'waved lines' appear, one on either side of the 'cailya' (p. 207; Pl. xviii. 983-4). Presumably, therefore, the locality of this dynasty must be sought for in some district where there were two rivers of importance.

All of these symbols are to be found on the most primitive coinage of Ancient India—the punch-marked coinage—and on coins of the other ancient series, such as those of Taxila, the Audumbaras, the Kuṇindas, the Yaudheyas, Ayodhya, Ujjain, Eran, &c. (v. C. CAI); and most of them are of frequent occurrence in inserr.¹ and sculptures. In the present state of our knowledge it seems impossible to discriminate between their use so far as to say that while some are Brahmanical, others are Buddhist or Jain. They seem to be the common property of diverse sects in different parts of India.

DENOMINATIONS, WEIGHTS, AND METALS.

148. The names and values of ancient Indian coins, and ~~the~~ weight-standards, according to which they were struck, are at present very imperfectly known. From the inserr. which record endowments we may sometimes learn the names of coins and the rates of interest which were produced by sums of money invested in commercial undertakings; and both in the early Sanskrit law-books of Manu, Yājñavalkya, and others, and in later treatises devoted especially to the subject of weights and measures, we may find certain tables of weights for gold, silver, and copper. A certain amount of information may thus be obtained from these sources as to the currencies of Ancient India; but considerable difficulties will

Ancient Indian
Weight-systems.

¹ They frequently occur at the beginning and end of inserr.; v. the inserr. at Bhaja, Kuda, Bedsa, Karle, Junnar, and Nasik. ASWI, iv, Pl. XLIV-LV. They appear to be thus used merely as auspicious marks, and may be compared with the Christian emblems, one of which—IHS—was actually borrowed for use on coins of Kashmir in the 19th cent.; v. Pearse in Codrington, *Muselman Numis.*, p. 19. note.

almost always appear whenever the attempt is made to apply this knowledge to elucidate the actual problems of Indian numismatics. These difficulties are due, no doubt, partly to the fact that the available sources of information have been insufficiently explored ; but they are probably partly due also to the fact that, in many instances, adequate sources of information no longer exist. In any case, it is evident that the simple tables given in Manu and the older law-books, on which numismatists have sometimes solely relied, can afford no satisfactory solution to many of the puzzles of Indian metrology. No full discussion of this subject can be attempted here ; but it may be worth while to indicate the existence or the possibility of certain disturbing factors which may have made these weight-systems far more intricate in practice than they appear in the literature.

So far as the currencies described in this volume are concerned, it will be sufficient to quote two equations from each of the two tables of weights for silver and copper given in the law-books¹ :—

Silver.

2 *raktikās*, *kṛṣṇālas* or *guñjās* = 1 *māṣa*.

16 *māṣas* = 1 *purāṇa* or *dharāṇa* (the silver *kārṣāpaṇa*).

Copper.

5 *raktikās*, *kṛṣṇālas* or *guñjās* = 1 *māṣa*.

16 *māṣas* = 1 *karṣa* or *paṇa* (the copper *kārṣāpaṇa*).

The *raktikā*, which is common to both systems, and may, indeed, be regarded as the basis of all Indian weight-systems, was originally, as its various names denote, the '*rati*,' the seed of the

¹ Cf. Colebrooke, *Essays* (ed. Cowell), i, p. 529 ; Thomas, *Ancient Indian Weights*, p. 18 ; C. CAI, p. 42. Other reff. in R. IC, § 4. The passages from the Sanskrit authorities are given *in extenso* in the *Vācaspatya Dict.*, s.v. '*karṣa*.'

guñjā-creeper (*abrus precatorius*), still popularly used as a weight in various parts of India. The *rati* is brought into relation with the next higher denomination, the *māṣa*, originally some variety of 'bean,' in different ways in different systems. In the two tables quoted above it will be seen that, while the silver *māṣa* is only equal to 2 *ratis*, the copper *māṣa* weighs 5 *ratis*. These two varieties of *māṣa* may, then, be regarded as the units, 16 of which respectively constitute the weight of the standard silver coin, the *purāṇa* or *dharāṇa* = 32 *ratis*, and the weight of the standard copper coin, the *karṣa* or *paṇa* = 80 *ratis*.

To both of the standard coins in question, the silver *purāṇa* of 32 *ratis* and the copper *paṇa* of 80 *ratis*, the same name '*kārṣā-paṇa*' (Prakrit '*kāhāpana*') was sometimes applied.¹ This double use of the term was probably in ancient times only confusing whenever the currency of one district had to be compared with that of another. We may gather both directly from the statements of the law-books, and more generally from the study of the coins, that in Ancient India silver and copper coinages were often independent of each other and circulated in different districts. A copper currency was not necessarily regarded as merely auxiliary to the silver currency; but a copper standard prevailed in some districts just as a silver standard prevailed in others.² The word

¹ Manu seems to imply that the term was properly applied to the copper *paṇa* weighing a *karṣa*—'*kārṣāpanas tu vijñeyas tāmrikah kārṣikah paṇah*,' viii, 136. Ānandagiri on Śaṅkara's commentary to the *Māṇḍūkya Upaniṣad* I (Bibl. Ind., p. 339) says that in certain countries it denoted a sum of 16 *panas* = the silver *purāṇa*—'*deśaviśeṣe kārṣāpanasābdaḥ ṣoḍaśapaṇānām samjñā*' (Böhtlingk and Roth, s.v. '*kārṣāpana*').

² Nārada, quoted in the *Vācaspatya*, states that the silver *kārṣāpana* was current in the South and the *paṇa* in the East, and that 16 *panas* = 1 *pala* :—

'*Kārṣāpano dakṣiṇasyām diśi raupyah pravarttate ;
Pano nīhaddhaḥ pūrvasyām ; ṣoḍaśairā paṇāḥ palam.*'

'*kārṣāpaṇa*,' therefore, may in any particular district be supposed to mean the standard coin whether of silver or copper.¹

It has sometimes been assumed that the two tables quoted above from the law-books were intended to apply to all the different countries of India. Any such uniformity is in the highest degree improbable and is contrary to all analogy; but, if such an hypothesis could be allowed, it is manifest that the standard weights of all the ancient silver and copper coins of purely Indian origin might readily be ascertained if the mean weight of the *guṇjā*-berry could be determined. This has been done experimentally by various investigators, whose results usually differ merely by a few hundredths of a grain. According to General Sir A. Cunningham the average weight of this berry is 1.83 grains. He therefore fixed the full weight of the standard silver coin, the *purāṇa*, or silver *kārṣāpaṇa* of 32 *ratis*, at 58.56 grains, and that of the standard copper coin, the *paṇa*, or copper *kārṣāpaṇa* of 80 *ratis*, at 146.4 grains.

When, however, the attempt is made to explain the weights of actual specimens by reference to these standards, their conformity is, in most cases, by no means evident. The truth of this observation will be realised by anyone who tries, for instance, to classify the coins published in General Sir A. Cunningham's *Coins of Ancient India* in accordance with the tables given by him on pp. 46, 47. To take as an example four copper coins which he himself identifies on p. 59 (Pl. I. 20-23), it will be seen that a very liberal allowance for overweight has to be made in two cases, and that it is necessary to suppose that two of the coins in question represent denominations of respectively $1\frac{1}{2}$ and $1\frac{1}{4}$ *paṇas*. It is difficult to imagine that irregular denominations of this character

¹ In Ceylon the term was applied also to gold coins; v. Buddhaghosa (5th cent. A.D.), quoted by Rhys Davids, *Ancient Coins and Measures of Ceylon*, p. 8.

existed in any currency intended for practical purposes to the extent which the application of these tables to the actual specimens presupposes; and we are forced to the conclusion that the simple weight-systems given in the law-books do not afford a satisfactory explanation of the weights of ancient Indian coins in general.

The fact would appear to be that in Ancient India, as in Modern India, very great diversity prevailed in the weight-systems of different districts, but that underlying this diversity there were certain general principles of very wide if not of universal application. A remark made in the 'Introductory Notes' prefixed to each volume of the new edition of *The Imperial Gazetteer of India* might probably be applied with equal truth to the state of affairs existing in Ancient India:—"The various systems of weight used in India combine uniformity of scale with immense variations in the weight of units."¹ The Sanskrit commentators on the law-books, and the writers on weights and measures, show that while the *māṣa* is regularly regarded as the unit, and 16 of these units regularly make up the standard weight—an application of the ancient method of reckoning by sixteens (*i.e.* four fours²) of which an example still survives in the rupee and its subdivisions—the weight of the *māṣa* varied very greatly in different districts. The *māṣas* of two and of five *ratīs* no doubt prevailed in the district and at the period represented by the early law-books, and may have thus been regarded subsequently as the authoritative orthodox weights for silver and copper; but there can be no question that *māṣas* of other values also—6, 10, 12, or 16 *ratīs*—were used as

¹ P. v or vii in different volumes.

² That the method of reckoning by fours is extremely ancient is shown by the fact that in Sanskrit, Greek, and Latin, the numeral 'eight' is dual in form—*aṣṭā* or *aṣṭau*, *ὀκτώ*, *octo*. This method is also preserved in the Kharoṣṭhī notation: v. Bühler, *Ind. Pal.*, § 93.

units in different parts of India.¹ For instance, we find a definite statement that in Magadha *māṣa* denoted a unit of 6 *ratis*. This gave a *karṣa* of 96 *ratis*, with its quarter a *ṭanka* of 24 *ratis*—both of which coins we might reasonably expect to find represented in our collections."²

The subject cannot be fully examined here; but it is important to insist on the fact that any supposed uniformity in the weight-standards of the ancient coins of India appears on examination to be quite illusory. It is impossible to read the various passages quoted from Sanskrit authors in the *Vācaspatya* Dictionary, s.v. 'karṣa,' without realising that the diversity of weights may have been very considerable. This diversity seems certainly also to be proved by the actual specimens, many of which cannot, in the present state of our knowledge, be satisfactorily assigned to any particular denomination.

149. The metals used for currency in the Andhra dominions were lead, potin, copper, and silver. Throughout the empire the coinages of lead predominate. They have been found exclusively in Andhradeśa, the home of the race (§§ 60–63), in the Anantapur and Cuddapah Districts (§ 66), in the region of the Coromandel Coast (§ 67), in the Chitaldrug District (§ 68), and in the Karwar District (§ 69). A lead and a potin coinage are found apparently in association in the Kolhapur District (§ 70); and it seems probable that at an early

Coins of
the Andhras.

¹ Colebrooke, *op. cit.* p. 531, says, 'Hence we have no less than four *māṣas*: one containing five *raktikās*; another, four (according to Nārada); a third, sixteen (according to Bṛhaspati); and a fourth (the *māṣaka* of silver) containing two *raktikās*; not to notice the *māṣaka* used by the medical tribe, and consisting of ten or, according to some authorities, of twelve *raktikās*, which may be the same with the jewellers' *māṣa* of six double *rattis*,' &c.

² Caraka quoted in the *Vācaspatya*—'Magadhapaṇibhāṣyīṇi śadrattiko māṣaḥ caturrimāṇirattikāḥ ṭāṅkaḥ saṁvavātirattikāḥ karṣaḥ.'

period a lead currency prevailed in Malwa in districts where, at a later date, coins of potin or copper appear to have been used (§§ 73, 75). Potin coins are found together with others in the districts just mentioned, and exclusively in the Chanda District of the Central Provinces (§ 65). Silver coinages are only found in the Nasik District (§ 71) and in the N. Konkan (§ 72); the former is merely a re-issue of coins struck by Nahapāna, and the latter is directly copied from the contemporary coins of the Western Kṣatrapas.

The denominations and the weight-standards of all these classes, except the two last, must for the present remain doubtful. The various coinages show considerable variations in size and weight, such as might reasonably be expected in the different provinces of so extensive an empire.

The Nanaghat inscr. of Queen Nāganikā (§ 57, no. 1) and the Kanheri inscr. dated in the 16th year of Śrī-Yajña (*id.* no. 22) show that in these western provinces of the Andhra dominions, N. Mahārāṣṭra and the Northern Konkan, sums of money were estimated in *kārṣāpaṇas*¹; and there can be no doubt that the coin referred to is the silver *kārṣāpaṇa*, which is known to have circulated in both of these regions; *cf.* the silver coins of Naha-

¹ The Nanaghat inscr. records the fees paid to the officiating Brahmans on the occasion of the celebration of certain Vedic sacrifices. Large as some of these appear to be, *e.g.* one of 24,000 *kārṣāpaṇas*, they are only in proportion to the other offerings made, *e.g.* one of 11,000 cows, and are in accordance with the sumptuous scale on which these sacrifices, the Agnyādheya, the Rājasūya, the Aśvamedha, etc., have been performed by monarchs in both Ancient and Modern India. The purport of the Kanheri inscr. is not altogether clear; but it includes the record of two endowments, one of a sum of 200 *kārṣāpaṇas* put out to interest at the rate of 1 *per cent. per mensem*, and the other, apparently, half the produce of a certain field. The chief object of these endowments was to provide each of the monks passing the rainy season in the monastery at Kanheri with a sum of 16 *kārṣāpaṇas* (*solasaka*) for clothing. In all these cases the *kārṣāpaṇa* must evidently be the silver coin of that name.

pāna restruck by Gaupamīputra for circulation in the Nasik District, and the silver coins of Surāṣṭra fabric issued by Śrī-Yajña in Aparānta, both of which classes were undoubtedly *kārṣāpaṇas* (*v. inf.* § 150).

150. The dominions of the Western Kṣatrapas were far more restricted than those of the Andhras, and there is consequently much less variety to be found in their coinages. The localities in which the silver and potin currencies prevailed have already been explained (*v. sup.* § 142) : those of the copper and lead currencies are doubtful. The denominations and the weight-standards of the potin, copper, and lead coins are uncertain ; but the silver coins are unquestionably called *kārṣāpaṇas* in the inscr.,¹ and their weight-standard has been usually supposed to be that of the 'hemi-drachms' of the Graeco-Indian princes Apollodotus and Menander which previously circulated in the same region.² The fact that these silver coins, though called '*kārṣāpaṇas*,' only weigh from 34 to 36 grains, instead of about 58 grains as would be theoretically required, is instructive (§ 148). It shows that this term, when applied to a silver coin, does not necessarily denote a piece of the actual weight of 32 *ratīs*, and suggests the conclusion that, in Ancient India as elsewhere, coin-denominations derived from weights may have acquired in the course of time very various

¹ A few references will be sufficient to show that the silver coin is intended :— A field bought for 4000 *kārṣāpaṇas* (Nasik inscr. ; *v. sup.* § 57, no. 31). An investment of 2000 *kārṣāpaṇas* at the rate of 1 *per cent. per mensem* to provide 20 monks with a sum of 12 *kārṣāpaṇas* (*būrasaka*) each for clothing (Nasik inscr., *id.* no. 33). A deposit of 100 *kārṣāpaṇas* at the same rate provides a single monk with a similar amount (Nasik inscr., Senart, EI, viii, p. 90; Pl. viii. 17).

² *Periplus*, § 47 (McCrindle, IA, viii, p. 143), " Old drachmas bearing the Greek inscriptions of Apollodotus and Menander are current in Barugaza." McCrindle supposes the date of the *Periplus* to be between c. 80 and 89 *top. cit.* p. 104.

meanings; *cf.* the history of our 'pound,' 'the pound sterling,' 'the Scottish pound,' &c.

One of the inscr. contains the important information that the rate of exchange between the *kārṣāpaṇa* and the gold coin of the period, the *suvarṇa*, was as 1 to 35.¹ The reference here must surely be to the contemporary gold currency of the Kuṣanas, the standard of which was apparently that of the Roman *aureus*. If we take the weights of the *kārṣāpaṇa* and the *suvarṇa* as 36 and 124 grains respectively, we shall find that the ratio of silver to gold at this time was approximately as 1 to 10, a result which appears to be reasonable.²

151. The only known currency of the Traikūṭakas is of silver, and is simply, as regards weight-standards as well as types, a continuation of that of the Western Kṣatrapas. As the dominions of the Traikūṭakas included Aparānta and N. Mahārāṣṭra, it is not surprising to find that they continued to issue the silver *kārṣāpaṇa*,³ the use of which was already well established in these regions (§ 150). This currency may therefore be traced in this part of India from the time of the Kṣaharāta Nahapāna, c. 120 A.D., to that of the Traikūṭaka Vyāghrasena, c. 480 A.D.; and it is to be observed that, throughout this long period of some three hundred and sixty years, the weight of the standard coin, from about 34 to 36 grains, is preserved without any noticeable depreciation.⁴

Traikūṭaka Coins.

¹ Nasik inscr.; *v. sup.* § 57, no. 33.

² $124 \text{ A} = 36 \text{ R} \times 35$, $\therefore 1 \text{ A} = 10.16 \text{ R}$.

³ The *kārṣāpaṇa* was also used by the Abhiras in the Nasik Dist.; *v. sup.* § 57, no. 43.

⁴ The Graeco-Indian 'hemidrachms' of Apollodotus and Menander, which are commonly supposed to have been the prototypes of this silver '*kārṣāpaṇa*,' usually weigh about 37 or 38 grains. Bh. supposed that local issues of the debased coins of Apollodotus constituted the currency of Gujarat and Kathiawar.

152. At present only lead coins of the 'Bodhi' Dynasty are known; and both the denominations and the weight-standard of these remain as uncertain as their locality and their date (§ 137). So few specimens are as yet available for study, that it would be hazardous to attempt to draw any general conclusions as to the nature of this coinage; but, in regard to the specimens now published, it may be noticed that the coins of Vīra-bodhi or Vīra-bodhidatta when compared with those of Śiva-bodhi and Candra-bodhi are distinguished both by higher denominations and by more complete types (Pl. xviii. 983-998).

COIN-LEGENDS.

153. The coin-legends of the Andhras in every district and at all periods are, without any exception, in some Prakrit dialect. As a rule their language shows no very striking peculiarities: the verbal forms are merely those which we are accustomed to find in Indian inserr. of the centuries immediately preceding and following the Christian era; *e.g.* *Raño* (*i.e.* *Raṇṇo*) or *Rāṇo* = Skt. *Rājñah*, *Siri* = *Śrī*, *Yaṇa* = *Yajña*, *Kaṇha* = *Kṛṣṇa*, &c. But in one instance—on the silver coins of Surāṣṭra fabric struck by Śrī-Yajña (p. 45)—there appears, in association with this ordinary Prakrit, a dialect which, like the variety of the Brāhmī alphabet used in this coin-legend, has very definite peculiarities of its own. As

from the Graeco-Indian period until the time of Nahapāna. It is doubtful whether he refers to the ordinary silver coins of Apollodotus II Philopator, who must be the Apollodotus intended in this connection, or to copies of these; *v.* B.G. I. i. p. 17.

has been observed above (pp. xc, xci), the evidence of the Bhaṭṭiprolu inserr. seems to show that this dialect and this alphabet, to which Bühler applied the term 'Drāviḍi,' prevailed in the Kistna Dist., the original home of the Andhras. On the assumption that the two associated coin-legends in question are identical in meaning, we obtain the following results by comparison :—

- (1) Drāviḍi [- - -] *ṛaṣa* = Pkt. *Raño* = Skt. *Rājño*.
- (2) „ *Gotam(a)putaṣa* = *Gotamiputasa* = *Gautamīputrasya*.
- (3) „ *Hiru-Yaṇa-Hātakaṇṣa* = *Siri-Yaṇa-Sātakaṇṣa*
= *Śrī-Yajña-Śātakarṇḥ*.

For the genitive termination *-ṣa*, cf. the Bhaṭṭiprolu inserr. (Bühler, *Ind. Pal.*, § 17, Table II, xiii-xv, 38; R. JRAS, 1905, p. 800); and for *ha* = Skt. *śa*, cf. the Andhra names quoted *sup.* p. xci.

As contrasted with the coin-legends of the Andhras, the Brāhmī coin-legends of the Western Kṣatrapas are distinguished by a predominance of Sanskrit forms and by an admixture of Sanskrit inflexions. The compound *akṣaras* are regularly preserved : *e.g.* in *kṣatrapa*, *rājño* not *raño*, *svāmi* not *sāmi*, *śriyaḥ* not *siri-[e]*, *putrasa* not *putasa*; cf. also *Īśvara*, *varṣa*, *prathama*, *dvitīya*, *Bharṭṛ*-, *Viśva*-, *Satya*-, *vasriya*, &c. In fact, with the exception of *-siha*, which always takes the place of the Skt. *-siṃha*, there are no distinctively Prakrit forms to be found. The Prakrit genitive of *-dāman*, viz. *-dāmasa*, appears on the coins of Jayadāman. His successor Rudradāman I uses either this or the Sanskrit form *-dāmna(h)*, which alone is to be found after his date. On the other hand, the Prakrit genitive in *-sa* (i.e. *-ssa*) prevails over the Skt. *-sya* throughout the history of the dynasty, except for a brief period during which the coin-legends appear to be in almost perfectly correct Sanskrit. The

period in question seems to be about the year 100 = A.D. 178, during the reigns as Kṣatrapa of Dāmaghsada (Dāmajadaśrī) I and his son Satyadāman (*c. sup.* p. cxxiv). Altogether it may be said that the Prakrit features in these coin-legends consist chiefly in (1) this predominant use of the genitive in *-sa*, (2) the frequent omission of the *visarga* from the genitive *-dāmnah*, and (3) the incorrect *sandhi* often seen in '*Rājño Kṣa.*'¹

The evidence afforded by the coin-legends and inserr. of the Andhras and Western Kṣatrapas most clearly shows that in the first half of the second century A.D. Sanskrit and Prakrit were used side by side in Western India. Usage not only varied in different localities, but might also vary in the same locality. The leading facts may be summarised as follows:—

(1) The main portion of one of Nahapāna's (*i.e.* Usavadāta's) inserr. at Nasik (*c. A.D.* 120) is in Sanskrit (*c. sup.* § 57, no. 31). The two postscripts to this inserr., Nahapāna's other inserr. at Nasik (*id.* nos. 32-4), and his Brāhmī coin-legends are in a language which combines Sanskrit and Prakrit features. The Nasik inserr. of his conqueror Gautamīputra Śātakarṇi and his coin-legends, as, indeed, all Andhra inserr. with one exception (*c. inf.* (2)) and all Andhra coin-legends, are in Prakrit. Nahapāna's inserr. at Junnar and Karle (§ 57, nos. 35-6) are in Prakrit.

(2) The Junagadh inserr. of Rudradāman I, dated in yr. 72 = A.D. 150, is in Sanskrit. His Brāhmī coin-legends are in the mixed language. The contemporary inserr. of the Andhras (§ 57, nos. 10-16) are all in Prakrit, except the Kanheri inserr. of Puṣyamāvi's Queen, the daughter of Rudradāman, which is in Sanskrit (*id.* no. 17).

The Kharoṣṭhī legends of Bhūmaka, Nahapāna and Caṣṭana are in a Prakrit dialect. Thus Kh. *Raño* = Br. *Rājño*; Kh.

¹ There seems to be a period from about the yr. 154 (Dāmajadaśrī II; p. 115) to the time of Bhartrdāman (Kṣatrapa, 201-4; p. 153) when the correct *sandhi*, *Rājñah Kṣa*, is regularly found. With the next reign (Viśvasena; p. 162) the incorrect *sandhi* begins to appear again.

Chaharata = Br. *Kṣaharāta*; Kh. *Caṭhana* = Br. *Caṣṭana*. For the significance of the occurrence of Kharoṣṭhī on these coins, and the usual local limits of this alphabet on Indian monuments, *v. sup.* p. civ.

The language of the coin-legends of the Traikūṭakas (last half of 5th cent. A.D.) is correct Sanskrit, if the necessary vowel-signs and *visargas* be supplied. The Nasik inscr. of the Ābhīra king Īśvarasena (§ 57, no. 43), who may possibly have belonged to the same dynasty, is also in Sanskrit (*v. sup.* p. cxxxvi).

The coin-legends of the 'Bodhi' Dynasty are in ordinary Prakrit.

154. The most characteristic titles of the Andhra kings are the metronymics which they bear on certain classes of
 Titles. their coins. The use of metronymics probably finds its original explanation in the custom, widely prevalent in India at all periods, by which descent is reckoned through the mother. The Andhra-metronymics are, however, peculiar in so far as they are all derived from the names of Vedic *gotras*, this is to say, priestly families named after some great teacher to whom they traced their origin. Thus Gautamīputra, for example, means 'son of the Queen of the *gotra* of Gotama.' Bühler was the first to explain these distinctively priestly titles, thus occurring in a kingly family not of the Brāhman caste, as given in honour of the royal *purohita* or family-priest.¹ Thus Vāsiṣṭhī and Māṭharī are religious surnames derived from *purohitas* belonging respectively to the *gotras* of Vasiṣṭha and Māṭhara. Such religious surnames were borne by Andhra queens in addition to their personal names. Thus, for example, the proper name of Gautamī, the mother of Gautamīputra Śātakarṇi, is known to have been Bala-śrī (§ 57, no. 13).

¹ IA. xii. p. 272.

Metronymics are borne by Andhra kings together with their personal names in the legends of coinages issued in Andhradeśa, the Nasik Dist., and Aparānta (Surāṣṭra fabric); v. pp. 20, 68, 45, &c.; and in the Kolhapur Dist. they occur in association with the names or titles 'Viḷivāyakura' and 'Sivalakura,' the true explanation of which remains uncertain (p. lxxxvii). The personal name is found alone with the honorific prefix 'Śrī' ('Siri') on coins of the Chanda Dist.; v. p. 21, &c. These are the only coins of the Śātavāhana family on which the title 'Rāja' does not occur. 'Rāja' and 'Śrī' are used together without further titles on the early coins of Malwa fabric (Rāja Śrī-Śāta; v. p. 1). On the coinages of the "feudatories of the Andhras" 'Rāja' appears alone with the titles 'Cuṭukaḍānanda' and 'Muḍānanda' (§ 69), but is not found on the coins of the Mahārāṭhi (Sadakana Kāḷa-lāya-Mahārāṭhi; v. § 68).

The coin-legends of the Western Kṣatrapas are distinguished in the first place by the complete absence of the honorific prefix Śrī-. In this series this word is only used as an affix for the purpose of giving to the foreign name Dāmaghśada a more Indian appearance (§ 97). The Kṣabarātas bear their family title. This is associated with 'Kṣatrapa' on the coins of Bhūmaka (p. 63), and with 'Rāja' on those of Nahaṭāna (p. 65), who, although he is known from inserr. to have been both kṣatriapa and mahākṣatrapa (§ 57, nos. 31-6), uses neither of these titles in his coin-legends. With the silver coins of Caṣṭana begins the use of patronymics which is the chief characteristic of this dynasty, and which, together with the regular practice of dating the coins, has made it possible to restore the outlines of its genealogy and chronology with remarkable completeness.¹ The title 'Rāja' is regularly

¹ In one instance (Svāmi-Simhasena; p. 189) another relationship, that of 'sister's son,' is recorded.

given to both kṣatrapas and mahākṣatrapas; and in one reign (Svāmi-Simhasena; p. 189) '*Mahārāja Kṣatrapa*' is found as an alternative to the usual '*Rāja Mahākṣatrapa*.' Patronymics do not appear in the legends of the potin currency. The title '*Svāmi*,' which is constantly applied to these princes in their inscrr., occurs only on the coin-legends of Jayadāman in the earlier period (p. 76). At a later date it is given to Jivadāman, father of Rudrasimha II, who apparently did not reign himself (§ 119), and it is regularly used in the coin-legends of all the later princes of the dynasty from the time of Svāmi-Rudradāman II (p. 178). The coin-legends of Iśvaradatta differ from those of the Western Kṣatrapas in recording the regnal year and omitting the patronymic.

The Traikūṭakas, like the Western Kṣatrapas, record the name of the king's father on their coins. They take the title '*Mahārāja*,' which in the case of the reigning prince is preceded by the honorific '*Śrī-*,' and associated with the religious epithet '*Parama-Vaiṣṇava*,' 'most devout worshipper of Viṣṇu.' Unlike the coin-legends of the Andhras, the Western Kṣatrapas, and the 'Bodhi' Dynasty, which are in the genitive, those of the Traikūṭakas are in the nominative case.

The coin-legends of the 'Bodhi' Dynasty consist merely of the king's name sometimes prefixed by '*Śrī-*' ('*Siri-*'); v. pp. 210-11.

155. The inscrr. in Greek, or more correctly Graeco-Roman, characters on the coins of Nahapāna and Caṣṭana have only in recent years been correctly explained as transliterations of the Indian coin-legends.¹ These characters were evidently at this period and in this region

Legends in
'Greek' Letters.

¹ The language as well as the alphabet of these coin-legends was formerly supposed to be Greek; v. R. IC, § 81, reff. A suggestion made by Mr. G. F. Hill gave the first clue to the truth which has now been fully demonstrated; v. R. IRAS. 1899, p. 358.

of Western India very imperfectly understood, and after the reign of Caṣṭana their meaning seems to have been entirely lost. The discovery of the great hoard of coins at Jogalthembi has enabled the Rev. H. R. Scott (JBBRAS, 1907) to give a full account of the legends of Nahapāna. From endless variations in the representation of the Greek and Roman characters, due no doubt to imperfect knowledge on the part of the die-cutters, the normal form of the coin-legend may be restored as follows:—

PANNIΩΙΑΗΑΡΑΤΑCΝΑΗΑΠΑΝΑC

This is an attempt to render the Prakrit '*Raño Kṣaharātasa Nahapāna*.'

Similarly Caṣṭana's coin-legend may be restored, though as yet with less completeness:—

PANNIΩΙΑΤΡ[———]CΙΑCΤΑΝCΑ
= *Raño Kṣatr[apasa] Caṣṭana*.

Generally it may be said that no attempt to explain as significant the inscriptions in these characters on coins subsequent to the time of Caṣṭana has hitherto been successful;¹ and that the probability is that they then ceased to have any meaning and continued to be imitated or repeated simply as a sort of ornamental border.

The following are some of the most characteristic forms assumed by this once significant coin-legend:—

(1) ΙΙΥΟΥ=ΞΙΟΙΙΥΥΟΙΙΞΟΙΙΥΑΙΟCΙΙ

on a coin of Kṣ. Rudrasimha I, year 102 (Pl. xi. 295). With the exception of the first two characters, this is repeated on a coin struck in the following year, 103, by the same prince ruling as Mahākṣatrapa (*ibid.* 296).

¹ This account is taken chiefly from R. JRAS, 1899, p. 361.

traces as are to be seen on later coins seem, however, to indicate a subsequent reversion to the old form.

It has been generally supposed that the coinage of the Western Kṣatrapas was derived, alike as regards its form and its standard of weight, from the later Graeco-Indian coinage, and that the origin of this obverse inscription in Greek characters is thus fully explained. This view must be, in the main, perfectly correct. There can be little doubt as to the general similarity between the *kūrṣāpaṇas* of the Western Kṣatrapas and the hemidrachms of Apollodotus Philopator, for instance; but there are also, apparently, traces of other influence; and in some respects, notably in the arrangement of the inscription—which is interrupted by the bust not continuous all around the coin—Roman denarii rather than Graeco-Indian hemidrachms seem to have served as the models from which this Indian coinage was copied.¹ The letters of the obverse inscriptions of Nahapāna and Caṣṭana are undoubtedly Greek with an admixture of Roman characters. Further Roman influence is perhaps to be seen on the later coins, where there seem often to be reminiscences of such commonly recurring Roman formulae as **AVG**, **COS III**, &c. It is most probable, then, that the coins of the Western Kṣatrapas owe something to both Graeco-Indian and Roman sources.

156. The characters of the Kharoṣṭhī alphabet which occur

Kharoṣṭhī
Alphabet.

in the coin-legends of Bhūmaka, Nahapāna and Caṣṭana (Pl. xix. 18, 20; Pl. xx. 2, 4), are as

follows :—

¹ Roman coins belonging to the period from Augustus to Antoninus Pius were, as we know, plentiful in India (to the references given in R. IC, § 14, add Hill, NChr., 1898, p. 304, and Sewell, JRAS, 1904, p. 591), and there are undoubted instances of Roman influence on Indian coinage—e.g. in the bust on the small bronze coins of Kozola Kadaphes, and in the style of the figures of divinities represented on the gold coinage of the Kuṣāna monarchs Kaniska and Huviṣka.

𑀓 = ka ;	𑀔 = ta ;	𑀕 = bhu ;
𑀖 = ca ;	[𑀗 = tra] ;	𑀘 = ma ;
𑀙 = cha ;	𑀚 = da ;	𑀛 = ra ;
𑀜 , 𑀝 = ño ;	𑀞 = na ;	𑀟 = sa ;
𑀠 = tha ;	𑀡 = pa ;	𑀢 = ha .

157. Of the Drāviḍi form of Brāhmī only one coin-legend is known (Pl. XIX. 11). The *akṣaras* represented are :—

Drāviḍi
Alphabet.

𑀓 = ka ;	𑀔 = ta ;	𑀕 = ru ;
𑀖 = go ;	𑀗 = pu ;	𑀘 = ṣa ;
𑀙 = ña ;	𑀚 = m(a) ;	𑀛 = hā ; 𑀜 = hi .
𑀝 = ṇa ; 𑀞 = ṇi ; 𑀟 = ya .		

Only four of these characters differ in any way from the ordinary Brāhmī script; and the values of these must remain somewhat uncertain until further specimens of this alphabet are discovered. The reading 𑀚 = *m(a)*: i.e., *m* with vowel uncertain, depends on the form 𑀘 = *ma* found in Ceylon in about the 1st cent. B.C.¹ 𑀘 is supposed to = *ṣa* and to be the Bhaṭṭiprolu form 𑀟 reversed.² 𑀛 and 𑀜 are provisionally read *hā* and *hi* respectively because of a general resemblance to one form of the Brāhmī *h*, and because there is some evidence to show that the Skt. *ś* in this Drāviḍi dialect was represented by *h*.³

158. The following Table shows the chief forms of the Brāhmī alphabet occurring in the legends of the four classes of coins described in this volume :—

Brāhmī Alphabet.

PALAEOGRAPHICAL NOTES.

Ī. Column II. For this somewhat rare form, cf. ASSI, i, p. 87 ; Pl. LX. no. 45. For the ordinary form of Ī at this period, v. Bühler, *Ind. Pal.*, Table III.

Kṣa. Col. II. : 1 Bhūmaka ; 2 Nahapāna ; Caṣṭana seems to have been the regular form (p. 72), while Jayadāman has the square form (p. 76) ; 3 appears during the reign of Caṣṭana. The cross-stroke which is characteristic of the latter part of the compound *ṣa* gradually disappears (cf. no. 4), until it comes to be represented merely by a sharp curve at the bottom of the *ka*. This form, no. 5, is to be observed first during the reign of Rudrasena I (Śaka 121-144 = A.D. 199-222), but probably not until after the year 130.¹ It does not occur on the coins struck by him as Kṣatrapa (p. 96 ; Pl. XII. 328), and apparently not on the earlier coins struck by him as Mahākṣatrapa between the years 125 and 130 (pp. 97-8 ; Pl. XI. 331-35). It is to be seen very distinctly on the coins of Prthivīsena, Dāmasena, Viradāman, Īśvaradatta and Vijayasena (Pl. XII.-XIV.). After this period the curve tends to become more rounded ; but the sharp curve does not disappear entirely until after the reign of Bhartṛdāman (Śaka 201-217 = A.D. 279-295). From this time until the end of the dynasty no. 6 generally prevails ; but nos. 7 and 8 occur together with it during the reign of Rudrasimha II (Śaka 227-23x = A.D. 305-313 or 313 + x) and no. 8 is the regular form during the reign of Yaśodāman II (Śaka 239-254 = A.D. 317-332). The palaeographic record of the last few reigns of the dynasty is complicated by attempts to improve the coin legends, some of the characters of which had become in course of time almost illegible (§ 124).

Ja. Col. II. 2 seems to appear first in the reign of Dāmajadaśrī II (Śaka 154-5 = A.D. 232-3 ; cf. p. 115 ; Pl. XIII. 421) ; but v. '*Jo*' inf.

Jño. Col. II. The transition from 2 to 3 appears to take place in the reign of Rudrasena I (Śaka 121-144 = A.D. 199-222). The new form is characterised by the continuation of the lowest stroke of the *ja* to the left beyond the vertical stroke, and by the fact that this lowest stroke forms part of a continuous curve with the *ño*.

Ta, Col. I. 3, and *Ti*, Col. I. 1, seem to be peculiar to Candrarāṣṭri in the district of Fabric A in Andhra-deśa (p. 30).

Da, Col. I. 1, and *Dā*, Col. II. 1. The older form of the *d* (cf. Bühler, *Ind. Pal.*, Table II, xxiii, 25) is preserved on an Andhra coin of uncertain attribution (p. 28 ; Pl. v. G P. 5), and is seen also on the copper coin of Jayadāman (p. 76).

¹ R. JRAS. 1899, I, 386.

Pa. Col. II, 1, Bhūmaka. It becomes more or less rounded at the base, as nos. 2 and 3, in the reigns of Nahapāna (*cf.* *Pā*, Col. II) and Jayadāman. The pointed form, no. 4, begins to prevail after about the year 159, and seems not to occur before that date. On the coins of Vīradāman (Śaka 156-160=A.D. 234-238) the rounded form is by far the more common; wherever the pointed form appears the date seems to be either 159 or 160. Coins of Yaśodāman I (Śaka 160-1=A.D. 238-9) show both forms and so do the earlier issues of Vijayasena; but at this period there is little difference to be observed between the two forms.¹ At a later date when there was some risk of confusion between the two pointed forms *pa* and *ma*, the square form of *pa* was revived on certain coins which were more carefully executed than the rest (p. 172, note 3; Pl. xvi, 779)

Ma. Col. II, 1, Bhūmaka; 2, Caṣṭana. The loop at the base afterwards becomes closed up.

Va. Col. II, 1, Jivadaman; 2, Pṛthivīśena and afterwards.

Ha. Col. II, 1, Bhūmaka and Caṣṭana; 2, Rudradāman. When the degenerate form, no. 4, became liable to confusion with *Na*, Col. II, 4, the first of these forms was revived on certain issues (*cf.* '*Pa*,' *sup.*).

160. There is no certain instance of a Kharoṣṭhi numeral on the coins described in this Catalogue, but there are indications that the earliest type of silver coins struck by Castana may possibly have been dated in this

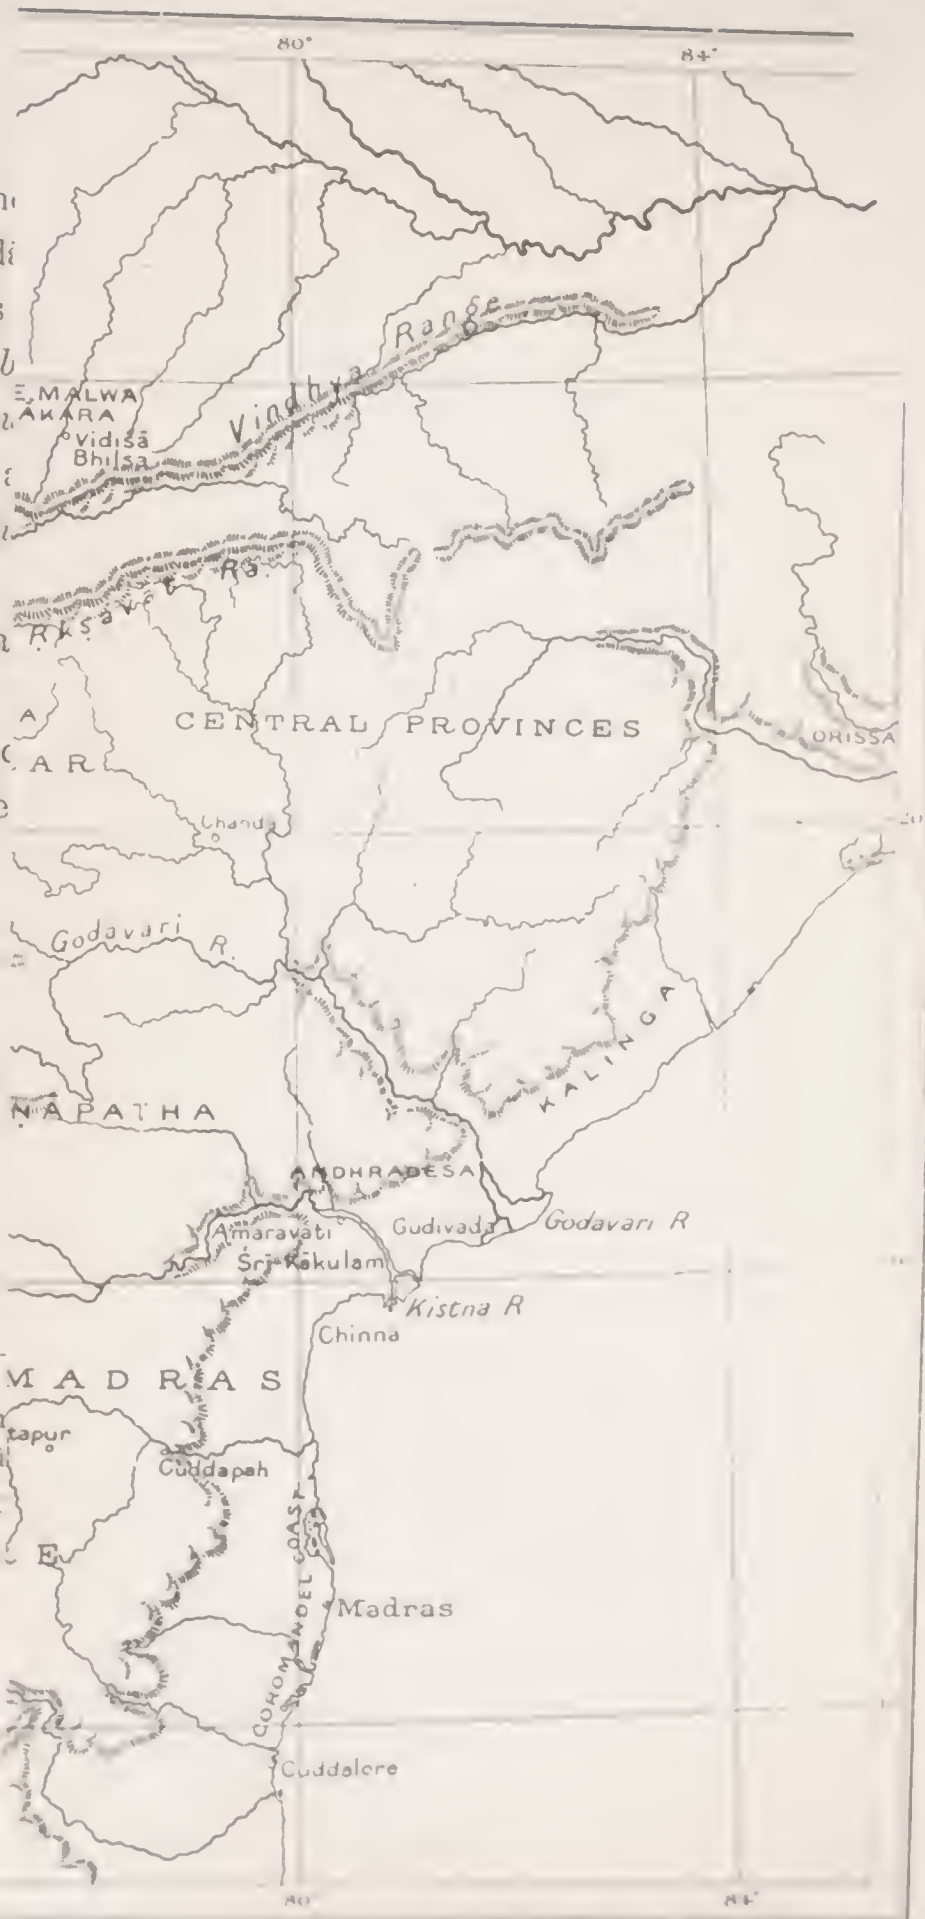

manner (p. 72; and § 92). From the beginning of the reign of Jivadāman (Śaka 1[00]=A.D. 1[78]; p. 83) the year of the Śaka era is regularly expressed in Brāhmī numerals behind the head on the *obv.* of the silver coins of the Western Kṣatrapas, and in the *exergue* of the *rev.* type of the lead coins.¹ On the potin coins the date appears first above the type on the *obv.*, but later in the *exergue* of the *rev.*, and afterwards ceases altogether. On the coins of Īśvaradatta the regnal year takes the place of the Śaka era, and is expressed twice—in Brāhmī numerals in the usual place on the *obv.*, and in words in the *rev.* inscr. The following table contains the chief forms of the Brāhmī numerals which occur in the Catalogue :—

- = 1	𑀓 = 10	𑀭 = 100
= = 2	𑀔 = 20	𑀮 = 200
≡, 𑀚 = 3	𑀕 = 30	𑀯 = 300
𑀖 = 4	𑀗 = 40	
𑀘 = 5	𑀙 = 50	
𑀛 = 6	𑀜 = 60	
𑀞 = 7	𑀝 = 70	
𑀟 = 8	𑀠 = 80	
𑀡 = 9 ²	𑀢 = 90	

¹ For a full account of Brāhmī numerals and their origin, v. Bh. IA, vi, p. 42, and Bühler, *Ind. Pal.*, § 33.

² Some of the forms read as '9' in the Catalogue were read as '8' by Bh. in JRAS, 1890, and BG, I, i. The two characters are sometimes liable to be confused. For the general distinction between them, v. R. JRAS, 1899, p. 363.

COINS OF THE ANDHRA DYNASTY.

SRI-SĀTA.

(Identified with the Siri-Sātakani of the Nanaghat Inscr., c. 150 B.C.)

Elliot : "found in a deserted site at the village of Chittala, in the Yernagudem Talook of the Godāvari Dist."² (CSI, pp. 23, 152B, Pl. II. 47 ; cf. R. JRAS, 1903, p. 301 ; S. ZDMG, 1903, p. 625, attributes these coins provisionally to Gau-
tamiputra Śrī-Yajña Sātakarṇi.)

1·55 ; Wt. 559·5.

Pl. I.

— [Elliot ; from the same place. (*Ibid.*)

Wt. 602·3.

¹ Possibly नि.

² On p. 152B, the coin is said to have come from the Kistna Dist

ŚĀTAKARNĪ.

(Precise identification uncertain.)

WESTERN INDIA.

POTIN : Square.

Obv. l., Tree, with large leaves, within railing; r., Ujjain symbol surmounted by crescent; in lower corner l., *nandipada*; in upper corner r., rayed-sun symbol; double square line-border.

Rev. Elephant, with trunk upraised, walking l.; in front, *svastika* and ; double square line-border including fishes and *svastika*-symbols arranged alternately. Inscr. not completely read.¹

No.	<i>Rev.</i> [ॠ —————]णिम.		
5	Bhagvānlāl.	Pl. I.	1.; Wt. 181.
	<i>Rev.</i> [ॠ —————]ण]म.		
6	Bh.	Pl. I.	·95; Wt. 140·8.

COPPER : Square. I.

Obv. Elephant, with trunk upraised, walking r. Inscr. not read.²

Rev. l., Ujjain symbol; r., tree within railing (?); square border of dots.

No.	<i>Obv.</i> Traces of inscr.		
7	Bhagvānlāl.	Pl. I.	·65; Wt. 63.

¹ Only the last two akṣaras can be read with certainty. On the analogy of other coins (v. nos. 9 ff. inf.) it may be inferred that the inscr. ended in [Śātakaṃ]ṇisa. Traces of an initial Ra- are also visible. The whole legend was probably Raño Sivi-Śātakaṇisa.

² Probably = Raño Śātakaṇisa or Raño Sivi-Śātakaṇisa.

COPPER : Square. II.

Obv. Lion springing l.; above, *nandipada*; double square line-border including fishes. Inscr. not completely read.

Rev. l., Tree within railing; r., Ujjain symbol surmounted by *nandipada*; double square line-border.

No. | *Obv.* [— — —] णिस.

8 | Bhagvānlāl.

Pl. I.

·8; Wt. 98·5.

¹ Possibly = the letter i.

VĀSIṢṬHĪPUTRA : VILIVĀYAKURA.¹

MAHĀRĀṢṬRA : KOLHAPUR.

LEAD.

Obr. *Caitya* of four tiers, with a dot within each arch, surmounted by a crescent, standing, together with a tree on l., within a railing ornamented with scroll and dots ; above, *svastika*.

Rev. Bow, with string downwards, fitted with arrow pointing upwards.
Inscr. (1) :—

(= *Raño Vāsiṣṭhīputasa Viḷivāyakurasa.*)

No.	<i>Rev.</i> [-] <i>प्रोवासिठोपुतसवृ</i> [वृ - - - -].	
13	Burgess ; <i>f.</i> Kolhapur.	1·2 ; Wt. 242·2.
	<i>Rev.</i> <i>रप्रोवासृपुतसविळिवाय</i> [कुरस].	
14	Cunningham. (CAI, p. 109, Pl. xii. 1.) Pl. I.	1·1 ; Wt. 182.
	<i>Rev.</i> [- - - - - त] <i>सविळिवायकुर</i> [स].	
15	Bh. ² Pl. I.	1·2 (broken).
	<i>Rev.</i> [रप्रो] <i>वासिठोपुत</i> [- - - - -].	
16	Burgess ; <i>f.</i> Kolhapur.	1·1 ; Wt. 172·2.

¹ Date 84 A.D., according to S. ZDMG, 1902, p. 662.

² It is almost certain that all these coins came from Kolhapur, but the *provenance* is only stated when there is definite information as to the fact.

POTIN.

Obv. *Caitya*,¹ surmounted by a tree, standing within a railing. ornamented with scroll and dots ; l., *nandipada* ; r., ☩

Rev. Type as on the lead coins, but with the addition, in l. field, of a dot or small circle.² Inscr. similar.

No.	<i>Rev.</i> रभोवासिठीपुतसविळिवायकुरस.	
17	Bhagvānlāl.	·8 ; Wt. 59·2.
	Pl. II.	
	<i>Obv.</i> Both symbols distinct.	
	<i>Rev.</i> Small circle to l. of bow and arrow distinct ; रभोवासिठ्ठपुतसविळिष्ठ[-]कुरस.	
18	Cunningham. (CAI, p. 109, Pl. xii. 2.)	·7 (broken).
	Pl. II.	
	<i>Obv.</i> Almost obliterated.	
	<i>Rev.</i> [रभो]वसठ्ठपुतसविळिवाय[कुर]स.	
19	Burgess ; f. Kolhapur.	·7 (broken).
	<i>Obv.</i> Almost obliterated.	
	<i>Rev.</i> [-]भोवासिठीपुतस[- - -]कुरस.	
20	Bhagvānlāl.	·75 ; Wt. 54·4.
	<i>Obv.</i> Almost obliterated.	
	<i>Rev.</i> [- - -]सिठीपुतसविळिष्ठ[- - -].	
21	Bh.	·75 ; Wt. 63·6.

¹ Bh., JBBRAS, xiii. p. 305, suggests that the *obv.* types of the lead and potin coins represent the same objects seen from different points of view.

² Probably intended to represent a discus, v. R. JRAS, 1904, p. 372, note 1.

MĀTHARĪPUTRA : SIVALAKURA.¹

MAHĀRĀṢṬRA : KOLHAPUR.

LEAD.

Var. a : Tree l.

*Obv.*² *Caitya* of four tiers surmounted by a crescent, standing, together with a tree on l., within a railing ornamented with scroll and dots.

Rev. Bow, with string downwards, fitted with arrow pointing upwards.
Inscr. (I) :—

(= *Raño Māḍhariputasa Sivalakurasa.*)

No. *Rev.* रणोमादरिपुतस[स्रव - -]रस.

Wt. 112.5.

¹ He observes that the म is distinct, and that the inscr. cannot possibly be the *sakasakasa* read by Thomas on certain coins from Amarāvati (IA, 1880 (ix), p. 64; cf. nos. 33 ff. *supra*); also that the vowel-mark (of स) is uncertain, and that there are traces of two uncertain letters following.

² The restoration कु seems possible, but by no means certain. If this reading could be established, the attribution of these coins to Puṣumāvi, which seems possible on other grounds, might be regarded as certain.

¹ From this period onwards the inscr. in Greek characters probably ceases to have any meaning. It becomes a mere ornament, and traces of it thus continue to appear on the coins until the end of the dynasty. It will not be necessary to give a detailed description of these traces from this period onwards. V. Introduction, and Hapson, J.R.A.S. 1899, p. 360.

¹ The decimal figure is probably to be restored as 40; if so, the unit figure must certainly be 4.

² The date of this coin, which is important because of its portrait and its obv. inscr. in Gk. characters, cannot be restored with any probability from the remaining traces. The portrait, which is peculiar, perhaps most nearly resembles that of the year 13[2 or 3], v. *sup.* no. 340, Pl. xii.

¹ This class is probably referred to, incorrectly, in BG, I. i, p. 42, in the following passage:—"Two copper coins, square, and smaller than the copper coins of Rudrasimha, have been found in Ujjain (Note 1. One is in the collection of B.B.R.A. Society, the other belonged to the Pandit), though none are recorded from Kāthiāvāḍa. On their obverse these copper coins have a facing bull, and on the back the usual symbols, and below them the year 140, but no legend." There is, however, apparently some confusion with the square coins having as type the facing bull, for which *v. sup.* p. 94, nos. 326-7.

² The crescent is not distinct on any of the three specimens in the B.M.; but it is no doubt to be inferred from the similar coins struck in the reign of Dāmasena, son of Rudrasimha I; *v. inf.* p. 113, nos. 402 ff.

SAṄGHADĀMAN, SON OF RUDRASIMHA I.

(Śaka 144, 145 = A.D. 222, 223.)

—	?		[Watson Mus., Rajkot. (Rev. H. R. Scott, JBBRAS, xx (1899), p. 204.) Date not given.
—	?		[da Cunha Collection. (Bh. BG, I. i. p. 44, note 1.) Five specimens. Dates not given.

¹ For the supposed coins of Saṅghadāman as Kṣatrapa, v. Rapson, JRAS, 1899, 382, where it is pointed out that there is great possibility of confusion with the coins of the Kṣatrapa Yaśodāman. Bhagvānlāl mentions a specimen in JRAS, 1890, 652; but he had evidently ceased to believe in its existence before the publication of his later work in BG, I. i, p. 43.

² The restoration seems to be certain; v. Rapson, JRAS, 1899, p. 382.

³ The two dates given, viz. 145 and 144, would seem to refer respectively to the earlier coin (no. 378) and that of Mr. Vajeshankar Gaurishankar; but this is probably due to an unintentional inversion in the mode of statement. The date on no. 378 could only be read as 144 or 146; v. R. JRAS, 1899, p. 382. The date of the other is, therefore, presumably 145.

¹ Bh. JRAS, 1890, p. 655, assigns the dated coins 160-162 to Vijayasena as Kṣatrapa; but v. R. JRAS, 1899, p. 388. It is, unfortunately, impossible to control the statement made in Bh. BG. I. i, p. 47, that "in two good specimens of Vijayasena's coins with traces of the date 166 he is styled Kṣatrapa." It is not true of any specimens in the Bh. collection now in the B.M., and is most probably due to some mistake.

¹ On nos. 639-43 there seem to be traces of a unit figure which, presumably, could only have been 1; v. *inf.* p. 153 for a coin of Bhartīdāman as Kṣatrapa, with date 201.

² Due to a confusion between -jñāḥ and -jño.

—	—	Colonel Biddulph.	(R. JRAS, 1899, p. 392, Pl. 9.) ⁴		55 ; Wt. 51.

¹ The dates presumably lie between 201, when Bhartṛdāman was Ksatrapa, v. *inf.* p. 153, and 211, when he was Mahākṣatrapa, v. *inf.* p. 156, no. 678.

² Or वि.

³ This might possibly be a coin of Bhartṛdāman as Mahākṣatrapa, v. *inf.* p. 155, nos. 676 ff.

⁴ There are three other specimens in Colonel Biddulph's collection.

BHARTRDĀMAN, SON OF RUDRASENA II.

Śaka 201—217 = A.D. 279—295.)

KṢATRAPA.

(Coins dated 201—204.)

SILVER.

Obv. Bust of king r., &c. ; behind head, date.

¹ The unit figure is probably 2 or 3.

² This coin seems to be connected by the small head of the obverse both with the coins which precede it and with certain coins struck by Bhartṛdāman as Mahākṣatrapa, v. inf. p. 155, nos. 676 ff.

³ The possibility of this date was questioned (R. JRAS, loc. cit.) but wrongly. No. 671, with date 203, was at that time wrongly attributed to Bhartṛdāman as Mahākṣatrapa.

THE FAMILY OF RUDRASIMHA II.

[After the Kṣatrapa Viśvasena, whose latest date is year 226, there is a break in the direct line. He is succeeded in the following year, 227, by the Kṣatrapa Rudrasimha II, son of Svāmi-Jivadāman. Like Ghsamotika, the father of Caṣṭana (*v. sup.* p. 71), Svāmi-Jivadāman bears no kingly title, but the form of his name seems to show that he belonged to the royal family. He may possibly have been a brother of Bhartṛdāman, *v. Introduction.*]

RUDRASIMHA II, SON OF SVĀMI-JĪVADĀMAN.

(Śaka 227—23x = A.D. 305—313 or 313 + x.)

KṢATRAPA.

SVĀMI-RUDRADĀMAN II.¹

MAHĀKṢĀTRAPA.

(No coins or inscriptions known.)

¹ This ruler is known only from the coins of his son the Mahākṣatrapa Svāmi-Rudrasena III. His reign must fall somewhere in the period between the years 242 and 270 (A.D. 327 and 358). He is the first Mahākṣatrapa since the time of Bhertya-dāman. His connection with the last Kṣatrapa, Yasodāman II, is quite uncertain.

SVĀMI-RUDRASENA III, SON OF SVĀMI-
RUDRADĀMAN II.

(Śaka 270—300 = A.D. 348—378.)

MAHĀKŚĀTRĀPA.

(Coins dated 270—300.)

Bhagvānlāl.

Pl. XVIII.

·5 ; Wt. 38·4.

Var. *b.*

Obs. Uncertain ?

Rev. Type as on Var. *a*. *Inscr.* (xii):—

ᐃᐅᐅᐅᐅᐅᐅ

(= *Vīrabodhidatasa.*)

No.

Rec. बुरबोधिदत्तस.

981

Bhagvānlāl.

Pl. XVIII.

·45; Wt. 17·2.

¹ See Introduction.

¹ Perhaps as on Var. c.

Var. c.

Obv. Tree within railing.

Rev. *Caitya* surmounted by crescent. Inscr. (xii) as on Var. a.

No. | *Rev.* व[र]बोधस.
985 | Bhagvānlāl.

Pl. XVIII.

·4; Wt. 10.

Var. d.

Obv. Tree within railing.

Rev. As on Var. a. Inscr. (xii) uncertain.¹

No. | *Rev.* [- - -](v)[𑀘]स[- - -].
986 | Bhagvānlāl.

Pl. XVIII.

·4; Wt. 7·4.

No. | *Rev.* व[र] - - -]स.
987 | Bh.

Pl. XVIII.

·35; Wt. 6.

¹ The attribution of this variety to Vira-Bodhi must remain uncertain until the inscr. can be read.

SIVA-BODHI.

LEAD.

Obv. Plain.*Rev.* *Caitya.* Inscr. (XII or I) :—

ॐ ॐ ॐ ॐ ॐ

(:= *Sivabodhisa.*)

No.	<i>Rev.</i> म॒वबो॑धिस.	Pl. XVIII.	·3; Wt 4·5.
988	Bhagvānlāl.		
989	<i>Rev.</i> म॒वबो॑धिस.	Pl. XVIII.	·3; Wt. 7·7.
	Bh.		
990	<i>Rev.</i> म॒व[बो]॑ध॒[-].	Pl. XVIII.	·35; Wt. 12·7.
	Bh.		
991	<i>Rev.</i> म॒वबो॑धि॒म.	Pl. XVIII.	·3; Wt. 6·7.
	Bh.		
992	<i>Rev.</i> [- - बो]॑धि[-]. ²	Pl. XVIII.	·3; Wt. 6·2.
	Bh.		

¹ This akṣara sometimes looks like -bu.² This coin may possibly belong to Candra-bodhi (v. *inf.* p. 210).

CANDRA-BODHI.

LEAD.

Var. *a*.*Obr.* Plain.*Rev.* *Caitya*. Inscr. (XII) :—

𑀲 𑀓 𑀭 𑀭 𑀭 𑀭

(= *Siri-Cāṇḍabodhisā*.)

No.

Rev. [सिरिच]दबोधि[म].

993

Bhagvānlāl.

Pl. XVIII.

·3; Wt. 10·6

Rev. स्रच[द]बो[- म].

994

Bh.

Pl. XVIII.

·3; Wt. 7·8.

Var. *b*.*Obr.* Plain.*Rev.* *Caitya*. Inscr.¹ :—

𑀭 𑀭 𑀭 𑀭 𑀭 𑀭

(= *Cāṇḍabodhisā*.)

No.

Rev. च[-]बोधिस.

995

Bhagvānlāl.

Pl. XVIII.

·3; Wt. 11.

Rev. चदबो[धि]म.

996

Bh.

Pl. XVIII.

·3; Wt. 7.

Rev. [-]दबोधि[-].

997

Bh.

Pl. XVIII.

·3; Wt. 10.

¹ Since the *caitya* is so inadequately represented, it is impossible to say at what point in the circle the inscr. begins.

ŚRĪ-BODHI.¹

LEAD.

Obc. Plain.

Per. Cuitya. Inscr.² :—

ਪ੍ਰਿਥੁਮ

(= *Siri-Bodhisa.*)

No.

Rev. सर्वो[धि -].

998

Bhagvānlāl.

Pl. XVIII.

·25; (broken).

UNINSCRIBED.³

LEAD.

Obs. Plain.

Rev. Cavity; beneath, waved line.

No.

999

Bhagvānlāl.

Pl. XVIII.

·4 ; Wt. 11·6.

1000

13h.

Pl. XVIII.

·4; Wt. 12·6.

¹ Probably to be identified with either Śiva-bodhi or Candra-bodhi.

* It is impossible to say at what point this inscr. begins.

The attribution of these coins is quite uncertain.

ERRATA.

- p. x, l. 8. • For another dated inscr. of the Traikūṭakas, v. p. clviii, note p. xv, note 1. The term 'Andhrabhṛtya' is properly applied only to the Cuṭu family of Śūtakarṇis, v. p. lxix, and p. lxxxiii, note 2.
- p. xxii, note 1. *V. errata* in pp. 59, 60 *infra*.
- p. xxxi, l. 23. In this reference 'Eastern' is no doubt a mistake for 'Western'; v. p. cxix, note 1.
- p. lxiii. *V. erratum* in p. x, l. 8 *supra*.
- p. cii, line 14. For 'He' read 'His father, Liaka Kusūlaka.'
- pp. 59, 60. For 'Dhūtukaḷānanda' read 'Cuṭukaḷānanda,' and for 'Muḷānanda' read 'Muḍānanda'; v. pp. liii and lxxxiii.
- p. 95. The date assigned to Satyadāman should be corrected in accordance with § 101, p. cxxviii.
- p. 202. *V. erratum* in p. x, l. 8 *supra*.

INDEX I.

KINGS AND RULERS.

In the Indexes the Arabic numerals refer to the page in the Catalogue, and the Roman numerals to the page in the Introduction.

An. = Andhra; Feu. An. = Feudatory of the Andhras; Kṣaha. = Kṣaharāta; W. Kṣ. = Western Kṣatrapa; Tr. = Traikūṭaka; B. = 'Bodhi' Dynasty.

A.

Aja[—] or Aji[—] (An.)—coins of
Malwa Fabric, xciv, 2.

B.

Bhartrdāman (W. Kṣ.), cxxxix, 153.

Bhūmaka (Kṣaha.), cvii, 63.

Bodhi. Śrī- (B.), probably = either
Śiva bodhi or Candra bodhi,
clxv, 211.

C

Candra bodhi (B.), clxv, 210.

Candra Śāti, Śrī = Śrī-Candra I
(An.), v. Vasīṣṭhīputra Śrī-
Candra Śāti.

Candra, Śrī- (Cada, Siri-) = Śrī-Can-
dra II (An.)—uncertain coins
from Andhra-deśa, Fabric B,
lxxvi, 49.

Caṣṭana (W. Kṣ.), exi, 72.

Cuṭukaḍānanda (Feu. An.)—coins
from Karwar, xxii, lxxxiii, 59;
cf. Hārītīputra Viṣṇukaḍa-Cu-
ṭukulānanda.

D.

Dahrasena (or -gaṇa) (Tr.), clxiii, 198.

Dāmaghsada (Dāmajadaśrī) I (W.
Kṣ.), cxxii, 80.

Dāmajadaśrī II (W. Kṣ.), cxxxi, 115.

Dāmaḍaśrī III (W. Kṣ.), cxxxviii,
137.

Dāmasena (W. Kṣ.), cxxx, 108.

Dhūtukaḷānanda, *recte* Cuṭukaḷānanda, *q.v.* (*v. Errata*, p. 212).

G.

Gautamīputra Śrī-Śātakarṇi (Gotamīputa Siri-Sātakarṇi) (An.)—uncertain coins of Western India, xcv, 17; re-struck silver coins of Nahapāna in Nasik Dist., lxxxviii, 68.

Gautamīputra (Gotamīputa) : Viḷivāyakura (An.)—perhaps = Gautamīputra Śrī-Śātakarṇi—coins from Kolhapur, lxxxviii, 13; re-struck coins of Vāsiṣṭhīputra : Viḷivāyakura, lxxxvii, 14, and of Māṭharīputra : Sivakura, *ibid.*

Gautamīputra Śrī-Yajña-Śātakarṇi (Gotamīputa Siri-Yajña-Sātakarṇi) (An.)—coins from Andhra-deśa, Fabric A, lxxii, 34; *id.* Fabric B, lxxiv, 38; Chanda Dist., lxxx, 42; Sopara in Aparānta, Surāṣṭra Fabric, lxxxix, 45.

Ghsamotika (W. Kṣ.), cxi, 71.

H.

Hārītiputra Viṣṇukaḷa- (Viḷhukaḷa-) Cuṭukulānanda (An.)—uncertain coins from Anantapur and Cuddapah Dists., lxxxi, 25, *cf.* also Cuṭukaḷānanda.

I.

Indradatta (Tr.), clxiii, 197.

Īśvaradatta (probably an Ābhīra king), cxxxiii, 124.

J.

Jayadāman (W. Kṣ.), cxvii, 76.

Jivadāman (W. Kṣ.), cxxiv, 83.

Jivadāman, Svāmi- (W. Kṣ.), cxli, 169.

K.

Kaḷalāya-Mahārāṭhi, Sadakana (Feu. An.)—coins from Chitaldrug, lxxxii, 57.

Kṛṣṇa- (Kaṇha-) Śātakarṇi, Śrī = Śrī-Kṛṣṇa II (An.)—coins from Chanda Dist., lxxx, 48. For King Kṛṣṇa (Kaṇha) I, *v. Index V.*

M.

Mahārāṭhi, *v.* Kaḷalāya-Mahārāṭhi. Māṭharīputra (Māḍharīputa) : Sivakura (An.), perhaps = the Māḍharīputa Svāmi-Sakasena of the Kauheri inscr. and the Sakasena or Sakasada of the coins—coins from Kolhapur, lxxxvii, 7; re-struck coins of Vāsiṣṭhīputra : Viḷivāyakura, lxxxvii, 8; his coins re-struck by Gautamīputra : Viḷivāyakura, lxxxvii, 14.

Muḍānanda (Feu. An.)—coins from Karwar, xxii, lxxxvi, 60.

(Andhra-deśa), E, 53.

Lion springing l.—An. :—Śātakarṇi
(West. Ind.), Æ, 4.

Lion springing r.—An. :—Śātakarṇi
(West. Ind.), Pt., 4 ; Uncer-
tain (*id.*), E, 54.

Lion standing l.—An. :—Uncertain,
[—]vīra (Andhra-deśa), E, 2.

Lion standing r.—An. :—Uncertain,
Sakasada or Sakasena, E, 10, 11 ;
Śrī[—]svāmi (Andhra-deśa, E),
E, 24 ; Uncertain (*id.*), E, 26 ;
Uncertain (Andhra-deśa), E,
53.

M.

Man standing facing.—An. :—Śrī-
Śata (West. Ind. : Malwa Fab-
ric), Pt., 1 ; Uncertain, Aja[—]
or Aji[—] (*id.*), E, 2.

N.

Nāga-symbol. — An. :—Uncertain
(Andhra-deśa), E, 53.

Nahapāna (Kṣaha.), bust r.—R, 65.

Nandipada, v. also Symbols, Index

III.—An. :—Uncertain (An-
dhra-deśa), E, 53.

P.

Prthivīsenā (W. Kṣ.), bust r.—R,
106.

R.

Rudradāman I (W. Kṣ.), bust r.—
R, 78.

Rudrasena I (W. Kṣ.), bust r.—
R, 96.

Rudrasena II (W. Kṣ.), bust r.—
R, 141.

Rudrasena III, Svāmi- (W. Kṣ.),
bust r.—R, 179.

[Rudra]senā IV, Svāmi- (W. Kṣ.),
bust r.—R, 191.

Rudrasimha I (W. Kṣ.), bust r.—
R, 86.

Rudrasimha II (W. Kṣ.), bust r.—
R, 170.

Rudrasimha III, Svāmi- (W. Kṣ.),
bust r.—R, 192.

S.

Saṅghadāman (W. Kṣ.), bust r.—
R, 107.

Satyadāman (W. Kṣ.), bust r.—
R, 95.

Ship.—An.:—Puḷumāvi (Coromandel Coast), B, 22.

Simhasena, Svāmi- (W. Kṣ.), bust r.—R, 189.

Svastika with 8 (Taurine symbol) attached to each arm.—An.:—Uncertain, Aja[—] or Aji[—] (West. Ind.: Malwa Fabric), B, 2.

T.

1. Thunderbolt; r. Arrow.—Kṣātra.:—Nahapāna, Æ, 67.

Tree within railing, clxvi.—An.:—Śātakarṇi (West. Ind.), Pt., 3; Gautamīputra(?) (*id.*), Pt., 17; Æ, 19. Feu. An.:—Cuṭukaḍḍinanda (Karwar), B, 59; Muḍānanda (*id.*), B, 60.

1. Tree within railing; r. *Caitya*.—Feu. An.:—Kaḷalāya-Mahārāṭhi (Chitaldrug), B, 57.

1. Tree within railing; r. Man standing. Tr.:—Virabodhi, B, 207.

1. Tree within railing; r. Ujjain symbol. — An.:—Śātakarṇi (West. Ind.), Æ, 4.

U.

Ujjain symbol, clxvi, r. also Symbols, Index III.—An.:—Gautamīputra Śrī Śātakarṇi (Nasik), R, 68; Puḷumāvi (Andhra-deśa, A), B, 20, (Chanda), B, 21, (Coromandel Coast), B, 22; Uncertain (Andhra-deśa, B), B, 27, 28; Śiva Śrī (Andhra-deśa, A), B, 29; Candra-

Śāti (*id.*), B, 30, (*id.* B), B, 32; Śrī-Yajña (*id.* A), B, 34, (*id.* B), B, 38, 39, 41, (Chanda). Pt., 42, 43, 44—the two last with abbreviated titles; Śrī-Rudra (Chanda?), Pt., 46, (Andhra-deśa, A), B, 47(?), (*id.* B), B, 46; Śrī-Kṛṣṇa II (Chanda), Pt., 48; Uncertain, uninscribed (*id.*), Pt., 48; Uncertain, Śrī-Candra II (?) (Andhra-deśa), B, 49; Uncertain (*id.*), B, 51, 52, (West. Ind.), B, 54, 55. W. Kṣ.:—Jayadāman (?), Æ, 77.

1. Ujjain symbol; r. *Caitya*.—An.:—Śrī-Yajña (Sopara: Surāṣṭra Fabric), R, 45.

1. Ujjain symbol; r. Tree within railing. — An.:—Śātakarṇi (West. Ind.), Æ, 3(?), Pt., 4.

V.

Vijayasena (W. Kṣ.), bust r.—R, 129.

Vīradāman (W. Kṣ.), bust r.—R, 117.

Viśvasena (W. Kṣ.), bust r.—R, 162.

Viśvasiṃha (W. Kṣ.), bust r.—R, 147.

Vyāghrasena (Tr.), bust r.—R, 202.

Y.

Yaśodāman I (W. Kṣ.), bust r.—R, 126.

Yaśodāman II (W. Kṣ.), bust r.—R, 175.

INDEX III.

SYMBOLS AND ADJUNCTS.

A.

Altar. *cf.* also , p. 240 *inf.*—

An. :—Candra-Śāti (Andhra-deśa, B), P, 32.

C.

Caitya, *v.* also Types, Index II.—

An. :—Śrī-Śāta (West. Ind. : Malwa Fabric), Pt., 1.

Conch-shell.—An. :—Gautamīputra (?) (West. Ind.), Pt., 17 : Śrī-Yajña (Andhra-deśa), P, 34.

Crescent—An. :—Śrī-Yajña (Andhra-deśa), P, 38.

Crescent, or part of a circle with dots.—An. :—Uncertain, Sakasada or Sakasena (Andhra-deśa), P, 10.

Crescent surmounting *caitya*.—An. :—Vāsiṣṭhiputra : Viṣivāyākura (Kolhapur), P, 5 ; Mātharīputra : Sivalakura (*id.*), P, 7 ; Uncertain, Hāritiputra

(Anantapur and Cuddapah), P, 25 ; Gautamīputra Śrī-Śātakarṇi (Nasik), R, 70 ; Śrī-Yajña (Andhra-deśa, A), P, 34, 36, 37, (Sopara : Surāṣṭra Fabric), R, 45 ; Śrī-Rudra (?) (Andhra-deśa, A), P, 47.

Feu. An. :—Kaṭalāya-Mahārathi (Chitaldrug), P, 57.

W. Kṣ. :—the crescent regularly appears above the *caitya* on the R, Æ, and Pt. coins, *e.g.* Caṣṭana, R, 72 ; Caṣṭana(?), Æ, 75 ; Jayadāman, Æ, 76 ; Jivadāman, Pt., 85, *et passim*. For its representation on the latest coins, *v.* clxxiii (6).

Tr. :—the crescent above the *caitya* has almost disappeared, clxxiv, 198, note 3. B. :—Vīra bodhi, clxxiv, 207.

Crescent surmounting Ujjain symbol.—An. :—Śātakarṇi (West. Ind.), Pt., 3 (or *nandīpada*?, *cf.* p. 4) ; Puḷumāvi (Chanda), Pt.,

21 ; Śrī-Yajña (Andhra-deśa, A), E, 34, (Chanda), Pt., 42-44.

1. Crescent ; r. star, v. also Types, Index II.—W. Ks. :—the usual arrangement of these adjuncts to the *cailya* of the rev. type, e.g. Caṣṭana, R, 72 *et passim*. For the exceptions, v. *inf.* 'r. Star ; 1. Crescent.' For the history of these adjuncts, v. cxiii ; and for variations in their representation, v. clxxii.

D.

Discus (described as 'dot or small circle' or as 'pellet').—An. :—Vāsiṣṭhīputra : Viṣivāyakura (Kolhapur), Pt., 6 ; Māṭharīputra : Sivalakura (*id.*), Pt., 9. Kṣaha. :—Bhūmaka, Æ, 63 ; Nahapāna, R, 65.

Dot or small circle.—v. Discus.

L.

Lotus - flower.—An. :—Śrī - Yajña (Andhra-deśa), E, 34.

N.

Nandipada, clxxv (3).—An. :—Śātakarṇi (West. Ind.), Pt., 3, Æ, 4 ; Vāsiṣṭhīputra : Viṣivāyakura (Kolhapur), Pt., 6 ; Māṭharīputra : Sivalakura (*id.*), Pt., 9 ; Gautamīputra : Viṣivāyakura (*id.*), Pt., 15 ; Uncertain (West. Ind.), E, 55.

Feu. An. :—Kaṣṭalāya-Mahārāṭhi (Chitaldrug), E, 57 (?) 58 ; Cuṭukaḍānanda (v. Errata 212 : Karwar), E, 59.

Nandipada surmounting Ujjain symbol. — An. :—Śātakarṇi (West. Ind.), Pt., 3 (or crescent as described ?, *cf.* p. 4), Æ, Pt., 4 ; Uninscribed, E, 54, 55.

P.

Pellet, v. Discus.

Pellet within circle (perhaps intended to represent a *Dharmacakra* ; *cf.* also 'Spherical object' *inf.*).—An. :—Uncertain (Andhra-deśa, B), E, 26, 27, 28.

R.

Rayed sun (in origin probably the same as the 'star' symbol in 'crescent and star,' etc., v. clxxiii). — An. :—Śātakarṇi (West. Ind.), Pt., 3 ; Śrī-Yajña (Sopara : Surāṣṭra Fabric), R, 45.

River with fish (*cf.* also 'Square line-border including fishes and *svastika*-symbols' and 'Waved line') clxxvi.—An. :—Śrī-Śāta (West. Ind. : Malwa Fabric), E, Pt., 1.

S.

Spherical object (perhaps intended to represent a *Dharmacakra* ;

cf. also 'Pellet within circle' *sup.*).—An.:—Uncertain, Hā-
[ritiputra] (Anantapur and
Cuddapah), E, 25.

Square line-border including fishes
and *stastika*-symbols (*cf.* also
'River with fish' and 'Waved
line'), clxxvi.—An.:—Śāta-
karṇi (West. Ind.), Pt., 3; Æ, 4.

Star (without crescent).—Tr.:—
the crescent associated with the
star in the rev. type of the W.
Kṛ. is lost. The star appears
r. of *caitya*—Dahrasena, AR,
198; Vyāghrasena, AR, 202;
and l. of *caitya*—Dahrasena,
AR, 199.

1. Star; r. Crescent.—W. Kṛ.:—
(1) the exceptional arrange-
ment on the rev., *e.g.* Rudra-
siṃha I, AR, 90; Dāmasena,
AR, 108; Dāmajada II, AR,
116. For the regular arrange-
ment, *v.* '1. Crescent; r. Star.'
(2) on the *obv.* of certain Pt.
coins above the type 'Elephant
standing r.', *e.g.* dated in reign
of Rudrasena I, Pt., 105; dated
in reign of Dāmasena, Pt., 113;
without name or date, Pt., 122.

Stastika, clxxv.—An.:—Śātakarṇi
(West. Ind.), Pt., 3, 4; Vā-
siṣṭhiputra : Viṣivāyakura
(Kolhapur), E, 5; Gautami-
putra : Viṣivāyakura (*id.*) Pt.,
16, Śrī-Yajña (Andhra-dēśa),
E, 37; Uncertain (West. Ind.),
E, 54, 55. Feu. An.:—Cu-

tukadānanda (Karwar), E, 59.

Stastika surmounting *caitya*.—

An.:—Gautamiputra : Viṣivā-
yakura (Kolhapur), E, 13.

T

Tree within railing, *v.* also Types,
Index II.—An.:—Śrī-Śāta
(West. Ind.: Malwa Fabric),
Pt., 1; Uncertain, Sakasala
or Sakasena (Andhra-dēśa), E,
10; Uncertain (*id.*), E, 53.

Trident and battle-axe combined.—
W. Kṛ.:—Jayadāman, Æ, 76.

U

Ujjain symbol, *v.* also Types, Index
II.—An.:—Śrī-Śāta (West.
Ind.: Malwa Fabric), Pt., 1;
Uncertain, Aja[—] or Aji[—]
(*id.*), E, 2; Gautamiputra (?)
(West. Ind.), Pt., 17.

W

Waved line (*cf.* also 'River with
fish' and 'square line-border
including fishes and *stastika*-
symbols'), clxxvi.—the usual
adjunct to the *caitya* when it
appears as a type; *e.g.* An.:—
20 *et passim*. It appears be-
neath the figure of a man, 2;
Feu. An.:—57 *et passim* (r. II.
viii), W. Kṛ.:—72 *et passim*
(exceptions being Caṣṭana (?),
Æ, 75, and Jayadāman, Æ, 76).

In the coinage of the 'Bodhi' Dynasty it is represented vertically on either side of the *cailya* on var. *a* and *b* of Vīra-bodhi, P, 207, but does not appear on the other inscribed coins. On the uncertain uninscribed coins it appears in its usual position beneath the *cailya*, P, 211.

⌘ (Taurine symbol), clxxv (2), *v.* Types, Index II, 'Śaṣṭika with ⌘ (Taurine symbol) attached to each arm.'

𑀧, clxxv (4).—An.:—Śātakarṇi (West. Ind.), Pt., 3; Vāsiṣṭhīputra : Viḷivāyakura (Kolhapur), Pt., 6; Māṭharīputra : Sivalakura (*id.*), Pt., 9; Gautamīputra : Viḷivāyakura (*id.*),

Pt., 15. Feu. An.:—Kaṣā-lāya Mahīraṭhi (Chitaldrug), P, 57.

𑀧, clxxvi (5).—Feu. An.:—Kaṣā-lāya Mahīraṭhi (Chitaldrug), P, 58; Cnṭukaḍānanda (Karwar), P, 59; Muḍānanda (*id.*), P, 60.

𑀧, clxxvi (6), *v.* also Altar.—An.:—Uncertain (Andhra-deśa), P, 28.

𑀧, clxxvi (7).—An.:—Uncertain, Hā[ritīputra] (Anantapur and Cuddapah), P, 25; Uncertain (Andhra-deśa), P, 26. Feu. An.:—Muḍānanda (Karwar), P, 60.

𑀧, clxxvi (8).—Feu. An.:—Cnṭukaḍānanda (Karwar); Muḍānanda (*id.*), P, 60.

INDEX IV.

DATES ON COINS OF THE WESTERN KṢĀTRAPAS.

Śaka era. ¹	Metal	Name of Prince.	Mkṣ. or Kṣ.	Page.	Remarks.
1[00]	AR	Jivadāman, son of Dāma- jadaśrī (Dāmajada) I.	Mkṣ. 1st time.	83	p. cxxiv.

INDEX V.

HISTORICAL, GEOGRAPHICAL, AND MISCELLANEOUS.

A.

Ābhīras, cxxxiv, note 1; successors of Andhras acc. to Purāṇas, lxix; succeed Andhras in Nasik Dist. (r. Īśvarasena), c. A.D. 249, xlv, clxii; their connection with the later Traikūṭakas doubtful, *ibid.*; similarity of names, clxiii; Īśvaradatta (*q.v.*) probably an Ābhīra, cxxxiv.

abhiṣeka, lvii, cxi.

Achavata = *Rkṣarat*, a mountain-chain, xxxiii.

Agathocles, Graeco-Indian king, coinage of, xi.

Agiya taṇaka, xxi, xlvi.

Agnyādheya sacrifice, clxxxiii.

āhāra, xlvii.

Aitareya Brāhmaṇa, Andhras first mentioned in, xv.

Aja[—] or *Ajā*[—] (An.), fragmentary name on coin which perhaps appears as *Aptaka* or *Aplavā* in Purāṇic lists, xciv.

ajakulayana, xlvii.

Ākara = E. Malwa, capital Vidiśī (Bhilsa), in possession of An. (Gautamīputra Śrī-Śātakarṇi), xxxiii; of W. Kṣ. (Rudradāman), cxix; of Guptas (Candragupta II, yr. 82), and governed by their feudatories, the Sana-kāṇkas, cl.

Alexander the Great, his Indian conquests ceded by Seleucus to Candragupta, xcvii; the Yonas (Yavanas) of Aśoka's inscr. may date from his time, xcvi.

Allahabad inscr. of Samudragupta, cv, cl.

Alphabets: Kharoṣṭhī, exciv; Drāviḍī, excv; Brāhmī, *id.*

Amaravati, inscr., l, lii.

Aṃgiya-kula-radhana, xxi, xlvi.

Āmrakā, lxiii.

Ānanda, xxiv, xlvii.

ānanda, a princely designation, lxxxiii.

Anantapur and Cuddapah, An. coins from, lxxxi.

Ānarta, xxxii, cxix; together with Surāṣṭra forms a province under a governor in Rudra-dāman's reign, cxviii.

Andhra, name of a tribe of Southern India inhabiting the Telugu country between the rivers Kistna and Godavari (Andhra-deśa), xvi; first mentioned in Aitareya Brāhmaṇa, xv; acknowledged the suzerainty of Aśoka, xvi; became powerful on decline of Maurya Empire, *id.*; associated with the Kalingas in literature, xxi.

Dynasty: (1) the Śātavāhana family of Śātakarnis. History and chronology, xvi; relations with the Kalingas, xvii; feudatories, xxi; relations with W. Kṣ., xxvi; division of the empire, xlii; succeeded by a Rajput dynasty in Andhra-deśa, xlv. Inscriptions, xlv. Purāṇic lists of kings, lxvi; and of succeeding dynasties, lxix. Coins of the various provinces, lxx; types, clxv; denominations, weights and metals, clxxxii; language of coin-legends, clxxxvi; titles, clxxxix; coin-legends, Pl. xix, and transliteration, cci. (2) The Cuṭu family of Śātakarnis (Andhrabhṛtyas). History and chronology, xliii; originally feudatory Mahārathis or Mahābhōjas, *id.* (cf. xxi); take possession of the W. and S. provinces

after the reign of Śrī-Yajña, *id.*; succeeded by Kadambas in the province of Banavasi (Vaijayanti), xlv. Inscriptions, liii. Coins, doubtful, lxxxi; types, clxviii.

Feudatories, xxi; coins (Chitaldrug), lxxxii, (Karwar) lxxxiii; types, clxviii; coin-legends, Pl. xix, and transliteration, ccii.

Andhra-bhṛtyas = 'servants of the Andhras,' the term is applied properly only to the Cuṭu family of Śātakarnis, who as Mahārathis or Mahābhōjas were originally feudatory to the royal Śātavāhana family, v. *Erratum* (p. 212) to p. xv, note 1; they are mentioned in the Viṣṇu-Purāṇa (Cambridge MS.) among the successors of the Andhras, lxix.

Andhra-deśa = 'the country of the Andhras,' a term used to denote the home of the race in the Kistna and Godavari Dists., lxxi; coins found in this region, *id.* and lxxviii.

Aṅga = Behar, xxi.

Antarmanḍali, *riṣaya*, lxiii.

Antiochus II, Theos, Seleucid king, Aśoka's neighbour on the north, xcvii; called *Yona-rāja* in Aśoka's edicts, *id.* and xcvi.

Anūpa or Anūpa-nṛpt, xxxii, cxix.

Aparānta = N. Konkan, capital Śūr-pāraka = Sopara, xxxii, cxix;

summary of history, cxxi ; An.
 coins of (Sopara : Surāṣṭra
 Fabric), lxxxix.
 Apollodotus (I, Soter), Graeco-
 Indian king, ruled at Kapiśa,
 cii.
 Apollodotus (II, Philopator), Graeco-
 Indian king, his hemidrachms
 current in Broach at the time
 of the *Periplus*, clxxxiv.
 Arahalaya, xlvi.
Asaka, xxxi.
Asika, xxxi.
 Aśoka, Maurya emperor, Andhras
 acknowledge his suzerainty,
 xvi ; his conquest of Kalinga,
id. ; his viceroy over Surāṣṭra,
 a Yavana king, Tuṣāspa, lx,
 cxviii ; Greeks (Yonas and
 Yavanas) mentioned in his
 edicts together with other
 semi-independent peoples of
 Northern India, xcvii ; extent
 of his empire, *id.*
 Aśvamedha sacrifice, lxiii ; clxxxiii.
 Avanti = W. Malwa, capital Ujjain,
 in possession of An. (Gautamī-
 putra Śrī-Śātakarṇi), xxxiii ; of
 W. Kṣ. (Rudradāman), cxix.
āvesani, xlvii.
 Ayama, lix.
 Azes, Indo-Scythic (Śaka) king,
 coinages of, xii ; with Spali-
 rises, cvii.

B.

Bactria, Greek kingdom of, rise of
 during reign of Aśoka, xcviii.

Bāhaka, lxi.

Baíθava = Paithan, xxxix.

Bala-śrī (Gautamī), mother of Gau-
 tamīputra Śrī-Śātakarṇi, inscr.
 at Nasik dated in yr. 19 of the
 reign of her grandson, Puḷu-
 māvi, xxx, l ; associated in the
 government with her son,
 xlviii.

Βαλεοκοῦρος = Viḷivāyakura, xl.

Banavasi = Vaijayantī, the capital
 of a province of the Andhra
 empire, xxii, xxix ; passes from
 the Cuṭu family of Śātakarṇis
 to the Kadambas, xliii, liv,
 lxxxv ; inscr. of Hāritīputra
 Viṣṇukaḍa-Cuṭukulānanda, liii.

bārasaka, clxxxiv.

Βασιλεὺς Βασιλέων, a Parthian title
 used by Scythic (Śaka) and
 Parthian (Pahlava) invaders of
 India, xcix ; borrowed from
 them by the Kuṣanas, cvi.

Benākatakā in Govardhana, xxix,
 xlvii.

Bhaḍākarika, xxi.

Bhaḍāvanīya school of Buddhist
 monks, l.

bhadramukha, title, lxii.

Bhāgavata-Purāṇa, v. Purāṇas.

Bharṭṛdāman (W. Kṣ.), coins of two
 styles of fabric and portraiture,
 cxl.

Bharukaccha = Broach, lvi.

Bhaṭapālikā, xlvi.

bhaṭṭāraka, cxi.

Bhaṭṭiprolu inserr., clxxxvii, cxcv.

Bhavagopa, lii.

Bhikṣurāja = Khāravela, xvii.

Bhilsa = Vidiśā, capital of E. Malwa = Ākara, xxxiii; inser. of Vāsiṣṭhīputra Śrī-Śātakarṇi, xlvi.

Bhoja, a people, xxii, xxxii.

bhojaka, an official title, xxi.

Bhūmaka (Kṣaha.), *prorenance* of coins, cvii; type 'Discus, bow and arrow,' resembles one of Spalirises and Azes, *id.*; 'Lion capital' and 'Dharmacakra' on his coins, cviii; called on coins 'kṣatrapa' but not 'rāja,' *id.*

'Bodhi' dynasty, clxiv; Brāhmī coin-legends perhaps of 2nd cent. A.D., *id.*; types, clxxiv; coin-legends, Pl. xxi, and transliteration, ccvii.

Brāhmī alphabet, civ; table of, excvi; numerals, ccviii.

Buddhagupta, lxiii.

C.

Cadasa, Siri-, proposed restoration of coin-legend (Śrī-Candra II, An.), lxxvi.

Caitya, type:—An., clxvi; W. Kṣ., Tr., and B., clxvii.

Cakora, mountain, xxxv.

Cakora-Śātakarṇi, xxxv.

Cakrapālita, cxviii.

Candra, Śrī- (An. = Śrī-Candra II), xlii, lxxvi.

Candragupta, Maurya emperor,—the Maurya era probably dates from his coronation, c. 321, u.c., xvii; expedition of Seleucus against him, xcvii; extent of

his empire, *id.*; his viceroy over Surāstra, a vaiśya, Puṣyagupta, lx, cxviii.

Candragupta II, Vikramāditya, Gupta emperor—the kingdom of the W. Kṣatrapas annexed during his reign, cl; the word *rarse* or some abbreviation of it on his AR coins, cxlviii, cli; Kālidāsa probably flourished in his reign, clx; *inserr.*, cl.

Candra-Śāti, Śrī- (An.), perhaps = Skandha-svāti of the Matsya-Purāṇa (Mr. Vincent Smith's list, ZDMG), xl; *cf.* Dynastic List, p. lxvii, where the name is given in the various forms in which it appears in the Purāṇas as Śivaskanda Śātakarṇi, Śivaskandha, or Śivaskanda.

Caṣṭana (W. Kṣ.) perhaps a Śaka by race, civ; derivation of the name uncertain, cxi; his capital Ujjain according to Ptolemy, cxiii; probably contemporary with Pulumāvi, *id.*; his direct line ceases with Mkṣ. Bhartrdāman and Kṣ. Viśvasena, cxli.

Caṣṭanaka, doubtful restoration of name = Caṣṭana on Æ coin, cxvi.

Catarapana (-phana), xli; r. Vāsiṣṭhīputra Catarapana (-phana).

Caturapana, the supposed father of Śrī-Yajña, name due to wrong reading of coin-legend, xci.

Cedi or Kalacuri era, clxi; r. Traikūṭaka era.

Chaharāda, Chaharāta, Khaharāta,

Khahharāta, Prakrit forms.

Skt. *Kṣaharāta*, cvii.

Chanda, An. coins from, lxxx.

Chinna (China), inscr., li.

Chitaldrug, An. coins from, lxxxii.

Coin-legends, language of, clxxxvi; titles in, clxxxix; alphabets of:—Greek, cxci; Kharoṭhi, cxci, Draṣṭi, cxci, Brāhmi, id.; facsimiles of, Pl. xix-xxi; transliteration of, cci.

Coromandel Coast, inhabited by Colas in 3rd cent. B.C., had passed into possession of Palavas before 2nd cent. A.D.—coins of Pulumavi (An.) found there, lxxxii.

'Crescent and Star,' the usual adjunct to the *caitya* in the rev. type of the W. Kṣatrapas—variations in the representation of, clxxii.

Cuddapah, An. coins from, lxxxii.

Cuṭu family (*Cuṭu kula*) of Śātakarṇi, i. sub. 'Andhra Dynasty' (2)

Cuṭu kada, lxxxiv.

Cuṭukāṇanda (Fou. An.)—probably not to be identified with Hārītiputra Viṣṇukāḍa-Cuṭu kulānanda, xxii, xlii; his coins from Karwar, lxxxii; connected by type with those of Sadakana Kaṣāṭāya Mahārathi, and with those of Maṇānanda, lxxxvi.

Cuṭukulānanda, xlii, liii, lxxxiv; i. Hārītiputra Viṣṇukāḍa-Cu-

D.

Dahanuka, lvi.

Dahrasena (Tr.), name perhaps to be read as 'Dahragana' on some of the coins, clxii, inscr., lxii.

Dakṣamitrā, lvii.

Dakṣiṇopāthapati (*Dakṣiṇopāṭhapatī*), 'Lord of the Deccan,' title of the Śātavahana family, xxxvi, xlii, l, lx, cxix.

Damaghrada (*Damajadārtī*) I (W. K.), various forms of the name, cxvii; he is not mentioned in the genealogies, cxviii; one of his coin-legends in Skt., id.; coins found near Kundla in Kathiawar, id.

-dāman, in names of W. Kṣatrapas, cv.

Damapa—the Damānaganga river, lvi.

Damāsena (W. K.), potin coins without name struck in his reign, cxvii.

Dakṣaratha, xiz.

Dates on coins, remains of a possible date in Kharoṭhi numerals on a coin of Castana, cxiv; dates in Brāhmi numerals on coins of the Western Kṣatrapas, v. Index IV, on Gupta coins, ci.

Deccan, Lord of the, v. *Dakṣiṇopāthapati*.

Denominations, weights and tectals, clxxvii—An., clxxxi; W. K., clxxxi, Tr., clxxxv; B., clxxxvi.

dharana, clxxviii.

Dinika, lvii.

Dipaldinni, An. coins found at, lxxx.

Drāviḍi, Prakrit, xx, clxxxvi; alphabet, xc, cxcv.

E.

Eight, this numeral expressed by a dual form in Sanskrit, Greek and Latin, clxxxi.

Eras—Maurya, c. 321 B.C., xvii; Śaka, 78 A.D., xxvi; Traikūṭaka, Cedi or Kalacuri, 249 A.D., clx; Gupta, 319 A.D., cl.

Eucratides, Graeco-Indian king, succeeded Apollodotus at Kapisa, cii.

Eye, representation of, in portraits of W. Kṣatrapas, clxx.

F.

Feudatories of the Andhra Dynasty, v. *sub.* Andhra Dynasty.

G.

Gaṇapaka, lxiii.

Gāndhāras, in Aśoka's edicts and ancient Skt. literature, xevii.

Gautami = Bala-Śrī, q.v.

Gautamiṣputra, significance of this and similar metronymics, clxxxix.

Gautamiṣputra Śrī-Śātakarṇi (An.)—date of accession, A.D. 106 + x, xxx; date of conquest of Nahapāna, A.D. 124 or A.D. 124 + x, xxvii, xlviii, xlix; coins of Nahapāna re-struck by him

found in the Nasik Dist. (Joga thembi hoard), xxxvi, lxxxix; his western dominions, xxx; his titles in the inscr. of Bala-śrī, xxx, xxxiii; extent of his conquests and dominions, xxxv; his exploits, xxxvi; last recorded year, 24 = A.D. 130 + x, xxxvii; succeeded by his son Vāsiṣṭhiṣputra Śrī-Puṣumāvi *id.*; inserr. xlviii, xlix.

Gautamiṣputra Śrī-Yajña-Śātakarṇi (An.)—accession, according to Matsya Purāṇa, 14 years after close of Puṣumāvi's reign, i.e. A.D. 169 + x, xli; reigned at least 27 years, *id.*; locality of his inserr., *id.*; provenance of coins, xlii; his Nasik inscr. dated yr. 7, the last trace of Andhra rule in the district before the Ābhīras, cxxxiv.

Gautamiṣputra: Viṣivāyakura, xxvii; perhaps = Gautamiṣputra Śrī-Śātakarṇi, xlviii; coins from Kolhapur, lxxxviii.

[—*gha*]śada, fragmentary name of coin, perhaps representing the Saṅgha or Megha-svāti of the Purāṇas, lxxvii.

Ghsamotika, a Scythic name, civ.

Girinagara = Girnar, name of the ancient city near the present Jun gadh, lxi.

Girnar (Girinagara) near Junagadh, Rudradāman's inscr., lix.

Govardhana = Nasik Dist., xxix, xlvii, lvi.

Graeco-Indian princes, coinages of, xii; hemi-drachms of Apollo-dotus and Menander current at Broach at the time of the *Periplus*, cviii, clxxxiv; Graeco-Indian hemi-drachms supplied the models for the *kārṣāpaṇas* of the W. Kṣatrapas, both the Kṣaharātas, cviii, and the family of Caṣṭana, exciv.

Greek, or Graeco-Roman, coin-legends — on coins of W. Kṣatrapas, exci; on Æ of Caṣṭana(?), cxvi; traces remain on R coins of the Guptas, cix, and of the Traikūtakas, clxxiv.

Gudivada, coins of Andhra-deśa, Fabrics A and B found together, lxxi.

Gunda, inscr., lxi.

guñjā, clxxviii.

Gupta Dynasty, various coinages of, xii; signs of westward extension of power in reign of Samudragupta, cl; conquest of Malwa shown by inscr. yr. 82 = A.D. 401, 'in reign of Candragupta II, clii; conquest of kingdom of W. Kṣatrapas probably not long after in same reign, *id.*; cannot be long after reign of Svāmi-Rudrasimha III, cl; Gupta R coins issued both in Malwa (central fabric) and Surāṣṭra (western fabric), cli; coins of Surāṣṭra imitated from those of W. Kṣatrapas, dated

in years of the Gupta era with the word *varṣe* or some equivalent, *id.*; they retain traces of the inscr. in 'Greek' characters, cix; Gupta inscr., lx, cl, cli.

H.

H in Drāviḍī Prakrit = Skt. *ś*; cf. *Haku*, *Hāla*, *Hātakani*, *Hiru*, xx, xci.

Haku-siri = Śakti-śrī, xx, xlvi; Mahā-, *ibid.*

Hāla = Śata, xx, xci.

Hariṣena, Vākāṭaka king, inscr. of, clix.

Hā[rītīputra], uncertain restoration in legend of An. coins from Anantapur and Cuddapah, xliii, lxxxix.

Hāritīputra Viṣṇukaḍa-Cuṭukulā-nanda Śātakarṇi (An.), xliii, lxxxiv; inscr., liii, liv.

Hāritīputra Śiva-[skanda]-varman (An.), xliii, lxxxv; inscr., liv.

Harṣa-carita, reference to, cv.

Hathigumpha inscr. of Khāravela, xvii, liv.

Hiouen Thsang (Yuan Chwang), xxxi.

Hūṇas, coinages, xi, xii; silver coins struck in Malwa, cxxxiii; Hūṇas in Matsya-Purāṇa appear among successors of Andhras (called Maunas in other Purāṇas), but reading probably corrupt, lxix.

Huviṣka, Kuṣaṇa emperor, xii.

I.

IHS, Christian symbol on coins of Kashmir, clxxvii.

Ikṣvākus, Rajput dynasty of, succeed Andhras in Andhra-deśa, xliv, lv.

Indo-Scythian princes, coinages of, xii.

Inscriptions, notes on:—An., xlv; Kalinga, Hathigumpha, liv (v. xvii); Kadamba, Malavalli, liv; *id.* Talagunda, lv; Ikṣvāku, Jaggayyapetta, lv; Kṣaha., lvi; W. Kṣ., lix; Ābhīra, Nasik, lxii; Traikūṭaka, lxiii, v. also clviii, note 1.

Interest, rate of—1 *per cent. per mensem* (*vadhi paḍika-śata*); $\frac{3}{4}$ *per cent. per mensem* (*vadhi pāyūna-paḍika-śata*), lviii, clxxxiii.

Īśvaradatta, probably an Ābhīra, clxii; not the founder of the Traikūṭaka era, *id.*; his coins dated in regnal years, cxxxiii; his reign between A.D. 236 and 239, cxxxv; coin-legends, Pl. xx, and transliteration, ccv.

Īśvarasena, Ābhīra king, son of Śivadatta—perhaps the first of the Ābhīra dynasty succeeding the Andhras at Nasik, cxxxvi; his relationship to Īśvaradatta doubtful, *id.*; his Nasik inser. in Skt., *id.*; inser., xlv, lxii, cxxxiv.

J.

Jaggayyapetta *stupa*, inser., lv.

Jasṭhan, inser. of Rudrasena I, lxii.

Jayadāman (W. Kṣ.), supposed Andhra conquest during his reign, cxvii; he uses the title 'svāmi' on his coins, *id.*; his doubtful Æ coins resemble those of Ujjain, cxviii.

Jivadāman (W. Kṣ.), not mentioned in the genealogical lists, cxiii; his dated coins, the first in the series, testify to a struggle for the throne with his uncle, Rudrasimha I, exxiv; he reigned twice as Mks., *id.*; his portrait on coins of the second reign resembles that of Rudrasimha I, cxxv.

Jivadāman, Svāmi-, father of Rudrasimha II (W. Kṣ.)—has no royal titles, cxli; perhaps a brother of Bhartrdāman, *id.*

Junagadh, inser., lix (Girnar of Rudradāman), lxi.

Junnar, inser., lix.

K.

Kaccha = Cutch, lx, cxix.

kaḍa, perhaps = kaṭaka, lxxxiv.

Kadambas, reign over Banavasi as successors of the Andhras soon after the reign of Hārīti-putra Śiva-[skanda]-varman, liv, lv, lxxxv.

kāhāpana = kāṣṭhāpana, clxxix.

Kakhaḍi, xxix, xlvii, xlviii.

Kākustha-varman, Kadamba king,
lv.

Kalaeuri or Cedi era, clxi; v. Trai-
kūṭaka era.

[*Kaḷa*]lāya-, proposed restoration in
Nanaghat inser., xx, xlv.

Kaḷalāya - Mahārāṭhi, Sadakana
(Feu. An.), lxxxiii.

Kālidāsa, the Śuṅga king Agni-
mitra in the *Mālarikāgnimitra*,
xeiii; Trikūṭa mentioned in
the *Raghuraṃsa*, elix.

Kalingas, conquered by Aśoka, xvi;
became powerful, like the An-
dhras, on the decline of the
Maurya empire, xvii; asso-
ciated in literature with An-
dhras, Angas and Vangas,
xxi.

Kāmbōjas, in Aśoka's edicts and
ancient Skt. literature, xevii.

Kaṇha = Kṛṣṇa, q.v.

Kaṇhagiri = Kṛṣṇagiri, xxxiii, lxiii.

Kaṇhasela = Kṛṣṇasaila, xxxiii, lii.

Kanheri = Kaṇhagiri, xxxiv; inserr.,
xlvi, Notes, nos. 5, 6, 17, 22-
24, 45.

Kaniṣka, Kuṣāna emperor,—divini-
ties represented on his coins,
xii; Sarnath inser. in 3rd yr.
of reign, cii; extent of empire,
cvii; era established by him
lasted for at least 98 years
and may perhaps be identical
with the Śaka era, *id.*

Kāṇva dynasty, xciii.

Kapāta, capital of the kingdom of
Kapāta Gandhāra,—Eueratides

succeeded Apollodotus in the
government of, cii; satraps of
ci.

Kāpura, lxiii.

Karajaka, or Karajika, xxix, xlix,
lix.

Kārdamaka, li, eihi.

Karle, in the *āhāra* of Māmāla,
xlix; inserr., xlix, Notes, nos.
9, 15, 16, 36, 37.

karṣa (the copper *kārṣāpaṇa*),
elxxviii.

kārṣāpaṇa (*kāhāpaṇa*), an Indian
weight, clxxviii; the term
used to denote a coin of
copper, silver or gold in diffe-
rent districts, elxxix, elxxx;
the silver *kā.* used to express
sums of money in the western
provinces of the Andhra em-
pire, clxxxiii; the silver *kā.*
used by the Kṣaha., W. Kṣ.,
and Tr., clxxxiv and clxxxv;
35 = 1 *savarṇa*, lviii, clxxxv.

Karwar, Feu. An. coins from, lxxxiii.

Kashmir, types of coins, xi; the
Christian symbol, IHS, on
coins, clxxvii.

kāthina, lviii.

Kauśikīputra, li.

Karīṣiye, restored reading on Manik-
yala cylinder giving the name,
Kapiśa, ci.

Karīṣiye nagara-devatā, legend on
Æ coins of Eueratides struck
at Kapiśa, cii.

Khakarāta. *Khakharāta* = *Kṣaharāta*,
cvii.

Khaṇḍa-nāga-Sātaka = *Skanda-nāga-Sātaka*, liii.

Kharapallāna, c, ciii.

Khāravēla, xvii; *Hathigumpha* inser., liv.

Kharoṣṭhī alphabet, civ; table of, cxv;—significance of its occurrence on coins of W. Kṣ., civ.

khatapa, *chatrapa*, *chatraṇa* = *kṣatrapa*, c.

Kiu-che-lo, perhaps = *Kakura*, xxxi.

KOZOΛA KOZOYΛO, cvi.

Kolhapur, An. coins from, xxviii, lxxxvi.

Kṛṣṇa (*Kaṇha*) I, King (An.), brother of *Simuka*, xix, xlvi; called younger brother in some Mss. of the *Matsya-Purāṇa*, lxviii; *Nasik* inser. of, xlvi.

Kṛṣṇa-Śātakarṇi, Śrī- (*Kaṇha-Sātakarṇi*, *Siri*-) = Śrī-*Kṛṣṇa* II (An.), xlii, lxxx.

kṛṣṇala, clxxviii.

Kṣaharāta family of W. *Kṣatrapas*, perhaps *Pahlavas*, civ; name probably the Sanskritised form of a Persian word, cvii; conquered by *Gautamīputra*, xxxvii, cxii; inser., lvi; types, clxix; coin-legends, Pl. XIX, and transliteration, ccii.

kṣatrapa, Sanskritised form of Old Persian *khshathra pāvan*, denotes Parthian or Scythic rule in India, c; the *kṣatrapa* subordinate to the *mahākṣatrapa*, *id.*; various families of satraps in India, ci, in the case of the

W. *Kṣatrapas*, the *kṣatrapa* probably governed some district in *Surāṣṭra*, cxxxi; no potin coins with name of *kṣatrapa*, *id.*; the office in abeyance in the period between *Vijayasena* and *Viśvasimha*, cxxxix; *kṣatrapas* rule without *mahākṣatrapas* in the early period of the family of *Rudrasimha* II, cxli; v. also 'mahākṣatrapa' and 'satrap.'

Kṣatriyas, xxxvii.

Kṣemarāja, xvii.

Kujula, *Kugula* = *Kusulua*, cvi.

Kukura, xxxi (v. *Errata*, p. 212); cxix.

Kulaipa, cxviii.

Kuṣāna emperors, divinities represented on their coins, xii; adopted from Śakas the titles and system of government by satraps, cvi; extent of their empire in the time of *Kaniṣka*, cvii; their gold coin (*surarṇa*) = 35 *kārṣāṇas*, lviii, clxxxv.

kusāna-mula, lviii.

L.

Lead coins:—An., clxxxii; W. Kṣ., only in reign of *Rudrasena* III, cxlv; chiefly of the period during which there are no silver coins, *id.*; may perhaps belong to a period when the rule of the W. Kṣ. was ten-

porarily confined to Malwa, exlvi.

ΛΙΑΚΟ ΚΟΖΟΥΛΟ on Ar coins struck by Liaka Kou-laka, father of Pātika, cii (*c.* Errata, p. 212).

Local character of coin-types, xi, clx.

M.

Maca, xxxiv.

Māḍhariputa Svāmi-Sakasena (Māḍhariputra Svāmi-Śakasena), inserr. at Kanheri, xlvii; *c.* 'Māḍhariputra: Sivalakura'

Magadha, kingdom of, under the Maurya dynasty, xvi.

Mahābhoja, a title, xxi, xxxii; the Cuṭu family associated with Mahābhoja, xliii.
